LAHORE, THURSDAY, JANUARY 3, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 1st JANUARY 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Gram, 19 seers. Bejhar, 17 seers. Bájra, 22 seers.	Crops in fairly good condition. Rain wanted for unirrigated crops.	...
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 13¼ seers Gram, 15½ seers. Jowár, 24 seers. Maize, 20 seers.	Standing crops good. Rain badly wanted for unirrigated crops. Locusts appeared in tahsíl Gohána, but caused no damage.	...
3	Gurgaon ...	...	1. Sufficient ... 3. Good.	Wheat, Barley, Bájra, } below normal. Gram, Maize, } below warning.	Condition of standing crops good	Cotton pickings going on.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient ... 2. Do. 3. Good.	Unchanged ...	Standing crops in good condition. Yield expected to be good.	Cotton pickings nearly completed.
5	Ambála ...	0·94 at Kasauli ...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 15¾ to 16¼ seers. Gram, 16 to 16½ seers. Barley, 20 seers. Maize, 17½ seers. Jowár, 20 seers. Bájra, 14 seers.	Condition of crops good. Locusts passed over in some places in tahsíls Ambála, Kharar and Rúpar, but did no damage.	Cotton pickings continue.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Wheat being weeded. Standing crops good.	Sugarcane pressing going on.
7	Ferozepore ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Growth of crops good.	...
8	Lahore ...	Not received.				
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Toria (Brassica Compestris) being reaped. Condition of standing crops good. Locusts appeared in a few villages of tahsíl Ajnála, but did no damage.	Cotton pickings and sugarcane pressing continue.
10	Siálkot ...	...	1. Sufficient ... 3. Good.	Wheat, 18½ seers Barley, 24 seers. Gram, 19 seers. Rice, 10 seers.	Sowings continue. Condition of standing crops generally good. Locusts appeared in Siálkot, Pasrúr and Raya tahsíls, but did no damage.	Pressing of sugarcane in progress. Outturn good.
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Sowings completed. Condition of standing crops good. Toria (Brassica Compestris) is being harvested. Produce average.	Cotton is being picked; outturn average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·11 at Kahuta ... 0·27 at Murree.	1. Sufficient ... 3. Good.	Wheat, 17¼ seers Bájra, 22 seers. Maize, 22½ seers. Gram, 19 seers. Barley, 26½ seers.	Sowings continue	...
13	Miánwáli ...	...	1. Procurable ... 3. Average.	Unchanged ...	Condition of crops good.	Outturn of crops good.
14	Lyallpur ...	...	1. Sufficient ... 3. Good.	Falling ...	Wheat sowings nearly finished. Toria (Brassica Compestris) in good condition.	Cotton prospects better. Condition of sugarcane crop good.
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 15 seers ... Gram, 19¾ seers. Maize, 23½ seers.	Prospects of standing crops average. Locusts passed over some villages in tahsíl Mailsi.	Cotton pickings in progress. Yield average, except of cotton.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Ambála and Ráwalpindi.

Prices.—There is very little fluctuations in the prices of food-grains. Wheat is rising in Rohtak; falling in Ambála and Siálkot.

Agricultural operations.—Cotton pickings and sugarcane pressing continue in some districts. Sowings of spring crops still in progress in Siálkot and Ráwalpindi. Harvesting of Toria (Brassica Compestris) in progress.

Crops and outturn.—Condition and prospects of standing crops generally good. Rain needed for unirrigated crops in Hissar and Rohtak. Yield of cotton poor in Multán and average in other districts and that of Toria (Brassica Compestris) average in Shahpur.

Damage done to crops.—Locusts appeared in Rohtak, Ambála, Amritsar, Siálkot, Mianwáli and Multán, but did no damage.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 2nd January 1907.

WILLIAM H. MILLS, HEAD ASSTT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 22nd December 1906, there were 1,075 births registered in the 41 large municipal towns (562 males and 513 females), giving a birth-rate of 40 *per mille* of population, and 1,322 deaths were registered (699 males and 623 females), giving a death-rate of 49 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 53 against 43 in the corresponding week of the previous year; Lahore 41 against 39; Amritsar 44 against 38; and Multán 81 against 31. There were 47 deaths reported from plague in Lahore, 6 in Kartárpur, 4 each in Sonepat and Ludhiána, 3 in Jagraon, and 2 each in Pánipat, Tánda Urmar and Ráwalpindi. Of the 87 deaths from small-pox, 46 were registered in Multán, 21 in Amritsar, 8 in Chiniot, 6 in Bhera, 2 each in Hissar and Pind Dádan Khán and 1 each in Kaithal and Batála.

Deaths reported from plague during the week ending 29th December 1906 *in the districts, including all municipal towns*:—Rohtak 74, Delhi 36, Karnál 34, Ambála 47, Hoshiárpur 206, Jullundur 135, Ludhiána 553, Ferozepore 81, Montgomery 11, Amritsar 136, Gurdáspur 384, Siálkot 176, Gujránwála 118, Gujrát 70, Shahpur 5 and Ráwalpindi 70; Patiála State 156, Kapurthala State 79, Máler Kotla State 61, Jínd State 24 and Kalsia State 27. Total for the province 2,483. Total for the previous week 2,336. Total for the corresponding week of the previous year 446.

WILLIAM H. MILLS, HEAD ASSTT.,
for *Sanitary Commissioner, Punjab.*

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	...	1. Sufficient ... 3. Good.	Wheat, 17¾ seers. Bájra, 22 seers. Maize, 22 seers. Gram, 21 seers. Barley, 26½ seers.	Prospects average. Sowings finished.	...
13	Miánwáli ...	...	1. Sufficient ... 3. Average.	Unchanged ...	Condition of crops good in Miánwáli and Isa Khel, average in Bhakkar and Leiah. Expected yield average.	...
14	Lyallpur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Sowings finished ...	Condition of sugarcane normal.
15	Multán ...	...	1. Sufficient ...	Wheat, 15½ seers. Gram, 20 seers. Maize, 23 seers.	Prospects of standing crops average. Locusts did damage to crops in tahsíl Kabírwála.	Cotton picking and sugarcane pressing continue. Yield average, except cotton.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Jullundur, Ferozepore, Lahore, Amritsar and Siálkot.

Prices.—Wheat is rising in Rohtak, Ambála and Siálkot; falling in Ráwalpindi and Multán. There is very little fluctuation in the prices of other food-grains.

Agricultural operations.—Harvesting of Toria (Brassica Campestris), cotton picking and sugarcane pressing in progress in some districts.

Crops and outturn.—Condition and prospects of standing crops generally good. Rain needed for unirrigated crops in Rohtak, Ambála and Shahpur.

Damage done to crops.—Locusts appeared in Ambála, Jullundur, Siálkot, Shahpur and Multán, causing slight damage in the two last named districts.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th January 1907.

WILLIAM H. MILLS, HEAD ASSTT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 29th December 1906, there were 1,153 births registered in the 42 large municipal towns (563 males and 590 females), giving a birth-rate of 42 *per mille* of population, and 1,315 deaths were registered (662 males and 653 females), giving a death-rate of 48 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 50 against 45 in the corresponding week of the previous year; Lahore 49 against 38; Amritsar 45 against 35; and Multán 75 against 42. There were 51 deaths reported from plague in Lahore, 9 in Ferozepore, 7 in Ludhiána, 4 each in Kartárpur and Ráwalpindi, 2 each in Pánipat and Jagraon, and 1 each in Rohtak, Tánda Urmar, Amritsar and Gujránwála. Of the 84 deaths from small-pox, 34 were registered in Multán, 30 in Amritsar, 5 in Bhera, 3 in Chiniot, 2 each in Kasúr and Batála, and 1 each in Hissar, Sonepat, Pánipat, Hoshiárpur, Jagraon, Lahore, Wazirabad and Pind Dádan Khan.

Deaths reported from plague during the week ending 5th January 1907 in the districts, including all municipal towns:—Hissar 5, Rohtak 76, Delhi 35, Karnál 28, Ambála 74, Hoshiárpur 254, Jullundur 151, Ludhiána 528, Ferozepore 112, Montgomery 12, Lahore 193, Amritsar 122, Gurdáspur 463, Siálkot 224, Gujránwála 127, Gujrát 51, Shahpur 6, Ráwalpindi 47 and Attock 23; Patiála State 156, Kapurthala State 111, Máler Kotla State 49, Jínd State 16 and Kalsia State 23. Total for the province 2,886. Total for the previous week 2,624. Total for the corresponding week of the previous year 574.

WILLIAM H. MILLS, HEAD ASSTT.,
for *Sanitary Commissioner, Punjab.*

Snowfall Report.

The depth of snow at Dalhousie (Gurdáspur district) during the month of December 1906 was 1 foot 7 inches.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc, in each district of the Punjab during the month of December 1906.

1.—HISSAR DISTRICT.

Rabi sowings have been completed. Irrigated crops are flourishing and those on unirrigated land are in a fair condition, but rain is wanted to invigorate the standing crops. Prospects of sailáb cultivation reported to be good. Fodder sufficient and cattle in good condition. Water supply in canals good. General health of the people good.

2.—ROHTAK DISTRICT.

Sowings already completed. Standing cháhi and nahri crops are good. Rain badly wanted in baráni tracts. Locusts passed through certain villages and did slight damage. Cattle generally in good condition.

3.—GURGAON DISTRICT.

During the month under report rain fell from 10 cent. to one inch throughout the district except Sohna, and proved beneficial to standing crops. Rabi sowings completed. Rabi crops being watered from wells and canals. Standing crops promising. Yield expected to be good. Cattle in good condition Fodder sufficient. Health of the people good. Canal was used during the month under report.

4.—DELHI DISTRICT.

No sowings. Condition of standing spring crops good. Cotton picking continued during the month and nearly finished. Outturn of cotton good. Yield of the standing rabi crops expected to be good. Cattle in good condition. Public health good. No complaint about canal irrigation. Fodder sufficient. Prices of food-grains are low.

5.—KARNAL DISTRICT.

Some nahri wheat, barley and masri were sown in Kaithal, and onions and garlic in Pánipat tahsíl. Condition of standing crops generally good throughout the district, but the baráni gram and sarson in Kaithal tahsíl on high lands are withering for want of rain. The yield of dhán, zíri, bájra, jowár, maize and sugarcane generally good throughout the district Condition of cattle good. The Western Jumna and Sirhind Canals flowed during the month. Locusts appeared in nearly all parts of the district, except Thánesar tahsíl, but little damage was done to the wheat and toria in Karnál and to baráni sarson and nahri wheat in Kaithal. Fodder and water for cattle sufficient. Prices are stationary. Rains badly wanted throughout the district.

6.—AMBALA DISTRICT.

Rabi sowing finished. Sugarcane being pressed. Condition of crops generally good. Expected yield good if rain falls before 15th January. Condition of cattle generally good. Locusts passed over in some places in the Ambála, Kharar and Rúpar tahsíls, but did no damage.

7.—SIMLA DISTRICT.

Rain insufficient in both tahsíls. In Simla $\frac{1}{20}$th of the expected sowings have been made and no sowings in Kot Khái. In the Simla tahsíl the crops are in a bad state owing to want of rain, and in Kot Khái in average condition. The yield of ginger in the Simla tahsíl was 170 seers per acre Condition of cattle good. Fodder and grazing sufficient. Public health good in both tahsíls. Water sufficient in hill streams, but no area was watered from these.

8.—KANGRA DISTRICT.

Some area was sown with wheat, barley and poppy. Condition of crops good. Some of the main kuhls in tahsíl Pálampur are being repaired. Water was sufficient in the remaining kuhls for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

General rainfall during the month sufficient and beneficial to standing crops. Barley and wheat sown to some extent in every tahsíl. Condition of rabi and sugarcane crops fairly good and that of cotton average. Rabi crops promise well. Sugarcane yield fairly good. No damage done by boll-worm. Cattle in good condition. Fodder sufficient. Health of people good. Normal area irrigated from canals and wells before the rainfall which dispensed with the necessity of further irrigation.

10.—JULLUNDUR DISTRICT.

Rabi sowings completed before the close of the month. Rainfall during the month was sufficient for sowings and was beneficial to the standing crops. Condition of crops good. Expected yield good. Condition of cattle good. Public health good.

11.—LUDHIANA DISTRICT.

No sowings in progress. Condition of standing crops good. Recent rains were very favourable to crops. Sugarcane being pressed. Condition of cattle satisfactory. Irrigation from canals fairly satisfactory. Young locusts were destroyed during the month.

12.—FEROZEPORE DISTRICT.

Sowings of rabi crops finished. Growth of rabi crops good. Condition of cattle good. Sirhind Canal flowed and a normal area was irrigated. Agriculturists generally well off. Stocks of food-grains and fodder sufficient. Green fodder available. Prices of food-grains stationary.

13.—MONTGOMERY DISTRICT.

Wheat sown to a small extent during the month. Cotton being collected as also másh and til. Condition of rabi crops average. Rain wanted. Outturn of kharíf good as compared with that of last kharíf. Outturn of cotton better than was expected. Condition of cattle good. Green fodder (turnips) and bhúsa sufficient. There is little water in the rivers, canals therefore not working. Locusts visited certain villages of tahsil Pákpattan, but did very little harm.

14.—LAHORE DISTRICT.

Wheat, barley and sanji fodder were being sown to some extent Condition of standing crops good. Some rain wanted for baráni crops as the rain in December was not universal. Yield of toria and cotton average. Condition of cattle good. Bári Doáb Canal worked well, but the Chenab Canal was closed for repairs. The inundation canals, the Anahi and the Deg dried up during the month. Prices of food-grains stationary. Some wheat and gram being exported to other places by rail.

15.—AMRITSAR DISTRICT.

Wheat and barley being sown. Condition of standing crops good. Yield expected to be good. Condition of cattle good. No complaint of insufficiency of canal water. Locusts appeared, but no damage has been brought to notice except in one village.

16.—GURDASPUR DISTRICT.

Sowings completed. Condition of crops good. Expected yield average. Condition of cattle good.

17.—SIALKOT DISTRICT.

Sowing of wheat and barley continued. Condition of crops generally good. Locusts appeared towards the end of the month, but did no damage. Picking of cotton, threshing of rice and pressing of sugarcane in progress. Outturn of cotton average and that of rice and sugarcane good. Condition of cattle generally good. Fodder sufficient. Water sufficient according to the season in Bajwat Canals. No inundation during the month.

18.—GUJRANWALA DISTRICT.

Sowings for rabi completed. Condition of rabi crops good, except that of toria and turnips in tahsíl Khángah Dográn only, which were damaged by sundi insect. Pressing of sugarcane in progress; yield is average (*i. e.* 16-20 maunds per acre). Cattle in fairly good condition. A slight deficiency of fodder in Wazirabad and Gujránwala. No complaint of water-supply from canal. Prices of food-grains stationary. A flight of locusts passed over the Gujránwála tahsíl without doing any damage.

19.—GUJRAT DISTRICT.

In consequence of the fairly good rainfall during the month a larger area has been brought under barley, masar and tárámíra. Standing crops generally in good condition. Expected yield good. Cattle in good condition. Fodder sufficient. Prices practically stationary.

20.—SHAHPUR DISTRICT.

Wheat, barley, poppy and sanji sown during the month. Sowings have been completed in the Jhelum Canal Colony area. Standing crops in good condition; outturn of sugcane, cotton and toria good. Cattle in good condition and fodder sufficient. The Lower Jhelum Canal was running. Water-supply was normal. Locusts damaged young rabi crops in some places, but it is hoped that if rain falls the damaged crops will recover. Locusts are migrating from the Kusháb tahsíl towards the Attock district. Prices stationary.

21.—JHELUM DISTRICT.

There was timely rainfall about the middle of the month which enabled further sowings of barley in certain villages of the Jhelum and Chakwál tahsíls. In the early part of the month the crops had begun to wither, but the well distributed showers of the third week revived them all, and the condition of standing crops of all kinds is satisfactory throughout the district. Condition of cattle generally good, and there is sufficient fodder everywhere. No appreciable rise in the Jhelum river. Prices generally stationary.

22.—RAWALPINDI DISTRICT.

On account of recent rains some further sowings of wheat and barley were effected and standing rabi crops were much benefited. Condition of rabi crops good.

23.—ATTOCK DISTRICT.

The rains received during the month proved beneficial to rabi crops. Condition of the standing rabi crops good. Fodder ample.

24.—MIANWALI DISTRICT.

Sowings of wheat and barley in progress. Condition of rabi crops good in the Miánwáli and Isa Khel tahsíls, but average in Bhakkar and Leiah tahsíls. Outturn of kharíf crops good and that of cotton and sesamum average. Expected yield of rabi crops good. Condition of cattle good. Fodder sufficient. No floods in the river. Nala Kurram in the Isa Khel tahsíl and Wahi in the Miánwáli tahsíl irrigated the adjoining lands. Locusts appeared in the Thal tract of tahsíl Bhakkar and did damage to turnips. Prices falling.

25.—LYALLPUR DISTRICT.

Wheat sowings completed. Toria cuttings in progress. Sugarcane pressing begun. Gram, barley and wheat coming up well. Sugarcane outturn will be good. Toria outturn poor. Cattle in good condition. Fodder plentiful. Locusts have done damage to young crops. Supply of water in canal fair.

26.—JHANG DISTRICT.

Rabi sowings completed. Standing crops above average. Turnips injured by an insect called "Tela."

Toria and jowár yielded during the month (*a*) toria per acre 5 maunds and (*b*) jowár nearly 8 maunds. Cotton is yet to be picked up. Canals flowing; occasional interruptions complained of. Water insufficient in the rivers. Locusts appeared in the district but did little or no harm.

27.—MULTAN DISTRICT.

Sowings of wheat and barley continue. Condition of standing crops average except cotton which is below average. Expected yield of til, jowár and bájra average and cotton below average. Condition of cattle good. Inundation canals dry. Sidhnai flowing by turns. Locusts passed over Mailsi and Shujabad without causing any damage.

28.—MUZAFFARGARH DISTRICT.

Wheat and *methra* were sown in Muzaffargarh tahsíl. Condition of crops good. The yield of rabi crops expected to be good. Condition of cattle on the whole good. State of public health fair. No inundations; the canals are dry. Food and fodder sufficient.

29.—DERA GHAZI KHAN DISTRICT.

Rabi sowings over. Condition of crops very fair. Condition of cattle good.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 15th January 1907.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 5th January 1907, there were 1,172 births registered in the 42 large municipal towns (586 males and 586 females), giving a birth-rate of 42 *per mille* of population, and 1,242 deaths were registered (601 males and 641 females), giving a death-rate of 45 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 48 against 37 in the corresponding week of the previous year; Lahore 46 against 34; Amritsar 43 against 35; and Multán 60 against 28. There were 34 deaths reported from plague in Lahore, 7 in Tánda Urmar, 4 in Ferozepore, 3 in Delhi, 2 each in Kartárpur and Ludhiána and 1 each in Pánipat, Kasúr, Amritsar, Gujránwála and Ráwalpindi. Of the 72 deaths from small-pox, 26 were registered in Multán, 18 in Amritsar, 7 in Sirsa, 6 in Wazírabad, 3 each in Bhiwáni and Jhang-Maghiána, 2 each in Jagraon and Lahore and 1 each in Hissar, Rewári, Kasúr, Bhera and Pind Dádan Khan.

Deaths reported from plague during the week ending 12th January 1907 in the districts, including all municipal towns:—Hissar 12, Rohtak 82, Delhi 30, Karnál 58, Ambála 216, Hoshiárpur 245, Jullundur 167, Ludhiána 504, Ferozepore 118, Montgomery 9, Lahore 221, Amritsar 145, Gurdáspur 509, Siálkot 266, Gujránwála 171, Shahpur 12, Jhelum 6, Ráwalpindi 35, Attock 14 and Lyallpur 2; Patiála State 91, Kapurthala State 92, Máler Kotla State 41, Jínd State 19, Kalsia State 19, and Farídkot State 1. Total for the province 3,085. Total for the previous week 2,886. Total for the corresponding week of the previous year 621.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

G. B. GOYDER,

for *Examiner of Accounts.*

Punjab Government Press, Lahore—17-1-07—908.

No. 4 of 1907.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JANUARY 24, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 22nd JANUARY 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Bájra, 18 seers. Gram, 20 seers. Bijhar, 22 seers.	Irrigated crops good and unirrigated fair. Rain urgently wanted.	...
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 13½ seers Gram, 16½ seers. Jowár, 22 seers. Maize, 19 seers.	Condition of standing crops on irrigated land good and on unirrigated fairly good. Rain badly wanted. Locusts appeared in tahsil Jhajjar, but no damage done.	Pressings of sugarcane continue.
3	Gur[illegible] ...	...	1. Sufficient ... 3. Good.	Below normal ...	Melons, vegetable, onion and tobacco being sown. Standing crops promising. Prospects good.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of: Spring.	Prospects of: Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint about canal irrigation. 3. Good.	Unchanged ...	Condition of standing crops good. Yield expected good.	...
5	Ambála ...	2·79 at Kasauli ...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 15¾ to 16 seers. Gram, 16½ to 17 seers. Barley, 20 seers. Maize, 18¾ seers. Jowár, 10 seers. Bájra, 18 seers.	Rain wanted. Condition of crops good.	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Standing crops good.	Pressing of sugarcane in progress.
7	Ferozepore ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Growth of crops good. Yield expected good.	...
8	Lahore ...	2·50 at Chunián ... 0·44 at Sharakpur.	1. Sufficient ...	Unchanged ...	Lands for extra spring crops being prepared. Prospects average. Opium crop average.	...
9	Amritsar ...	...	1. Sufficient ... 3. Good.	High except wheat, maize and barley.	Standing crops good. Yield expected to be good.	Sugarcane pressings continue.
10	Siálkot ...	...	1. Sufficient ... 3. Good.	Wheat, 18 seers ... Barley, 26 seers. Gram, 19 seers. Rice, 10 seers.	Ploughings for extra spring crops commenced. Condition of standing crops good.	Pressings of sugarcane continue: outturn good.
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat, Barley, } normal. Gram, below normal. Maize, Jowár, Bájra, } about normal.	Standing crops in good condition so far. Rain badly wanted. Locusts slightly damaged crops in Bhera, Sargodha and Khusháb tahsíls.	...

No.	Reporting station.	Rain	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	...	1. Sufficient ... 3. Good.	Wheat, 18¾ seers Bájra, 22 seers Maize, 22 seers. Gram, 19 seers. Barley, 26 seers.	Prospects of crops fair.	...
13	Miánwáli ...	...	1 Sufficient ... 3. Fair.	Unchanged ...	Condition of crops good except on the unirrigated area of Leiah and Bhakkar, which are average. Expected yield good to average.	...
14	Lyallpur ...	...	1. Sufficient ... 3. Good.	Falling ...	Standing crops in good condition. Locusts damaged wheat in two villages of Toba Tek Singh.	...
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 15½ seers Gram, 20 seers. Maize, 23 seers.	Standing crops average. Turnips damaged by disease known as Hadda in tahsíl Kabírwála, where locusts also damaged crops in few villages.	Cotton and til average.

GENERAL REMARKS.

Rainfall.—Good rainfall was received in tahsíl Kasauli in Ambála and in parts of Lahore district.

Prices.—Wheat is rising in Siálkot and falling in Shahpur, Ráwalpindi and Lyallpur. Prices of other food-grains slightly fluctuating.

Agricultural operations.—Sugarcane pressings continue in Rohtak, Jullundur, Amritsar and Siálkot. Ploughings and sowings of extra spring crops commenced in Lahore, Siálkot and Gurgaon.

Crops and outturn.—Condition and prospects of standing crops generally good. Rain badly wanted in Rohtak, Ambála and Shahpur.

Damage done to crops.—Locusts appeared in parts of Rohtak, Shahpur, Lyallpur and Multán, and damaged crops slightly except Rohtak. Turnip crop also damaged by disease known as Hadda in parts of Multán.

Agricultural stock.—Cattle in good condition.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 22nd January 1907.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 12th January 1907, there were 1,023 births registered in the 42 larg[e] municipal towns (505 males and 518 females), giving a birth-rate of 37 *per mille* of population, and 1,14[8] deaths were registered (598 males and 550 females), giving a death-rate of 42 *per mille* of populatio[n]. The death-rates registered in the four largest towns were as follows :—Delhi 46 against 43 in the corre[-]sponding week of the previous year; Lahore 49 against 37; Amritsar 39 against 38; and Multá[n] 54 against 41. There were 38 deaths reported from plague in Lahore, 8 in Ferozepore, 6 each in Tánd[a] Urmar and Siálkot, 4 in Jagráon, 3 each in Delhi and Ludhiána, 2 each in Hoshiárpur and Amritsar, an[d] 1 each in Kartárpur and Jhang-Maghiána. Of the 50 deaths from small-pox, 14 were registered i[n] Multán, 12 in Amritsar, 4 each in Sirsa and Jhang-Maghiána, 3 in Bhera, 2 each in Siálkot, Wazírabad, Pind Dádan Khan and Chiniot, and 1 each in Hissar, Jullundur, Kasúr, Gujránwála, and Dera Gházi Khan.

Deaths reported from plague during the week ending 19th January 1907 in the districts, including all municipal towns :—Hissar 15, Rohtak 119, Delhi 51, Karnál 30, Ambála 307, Hoshiárpur 277, Jul[-]lundur 218, Ferozepore 84, Montgomery 9, Lahore 228, Amritsar 128, Gurdáspur 647, Siálkot 31[0], Gujránwála 106, Gujrát 48, Shahpur 4, Jhelum 11, Ráwalpindi 40, and Lyallpur 18; Patiála State 380, Kapurthala State 178, Máler Kotla State 101, Jínd State 16, Kalsia State 20, and Farídkot State 3. Total for the province 3,348. Total for the previous week 3,142. Total for the corresponding week of the previous year 573.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JANUARY 31, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 29th JANUARY 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Gram, 20 seers. Bájra, 17½ seers. Bijhar' 22 seers.	Prospects of irrigated crops good. Rain urgently wanted for unirrigated crops.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in parts of Ambála, Jullundur, Amritsar, Siálkot, Shahpur, Ráwalpindi and Miánwáli districts.

Prices.—There are slight fluctuations in the prices of food-grains. Wheat is rising in Jullundur, falling in Rohtak, Amritsar, Ráwalpindi and Lyallpur.

Agricultural operations.—Sugarcane pressings continue in Rohtak, Jullundur and Amritsar. Ploughings and sowings of extra spring crops in progress in Gurgaon, Lahore and Siálkot.

Crops and outturn.—Condition and prospects of standing crops generally good. Rain badly wanted for unirrigated crops in Hissar and Rohtak.

Damage done to crops.—Hail fell in parts of Siálkot and Shahpur and slightly damaged the crops in the former. Locusts have also damaged crops to some extent in parts of Shahpur, Lyallpur and Multán. In parts of Multán turnips damaged by disease called Hadda.

Agricultural stock.—Cattle in good condition.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

Weather was dry throughout the month of November, no rain having been reported from any station. A disturbance gave rain in Persia on the 3rd, and a second was shown in the same region on the 26th, but neither depression affected the weather in north-west India beyond causing cloudy skies on the frontier and in Kashmir. Both day and night temperatures were higher than usual throughout the month in consequence, probably, of the absence of snowfall in the mountain ranges of the north-west, and on the 29th temperature rose still higher on the approach of the Persian depression which was shown to be entering India on the 30th.

Pressure and winds.—Pressure was normal or in slight excess in the Frontier Province and the Punjab, and in slight to moderate excess in Kashmir. Winds were below their normal strength at Sirsa, Murree and Cherát, and were very light at all the remaining stations. Their directions were more southerly than usual at Delhi, Lahore and Multán, and north-easterly instead of south-westerly at Leh.

Temperature.—Maximum and minimum temperatures were higher than usual at most stations: the largest excess in the former occurred at Ráwalpindi, Multán, Dera Ismail Khan and Srinagar, where it ranged from 4° to 5½°, and in the latter at Sirsa, Multán and Dera Ismail Khan. The highest temperature recorded during the month was 94·3 at Multán on the 1st. The mean temperature of the Punjab, Kashmir and the Frontier Province was above normal on every day of the month, especially on the 29th and 30th, when the approach of the depression from Persia had caused a rapid rise of temperature in north-west India.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmir and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 16th ...	+ 3·4	89·1	Multán.				

Cloud and humidity.—The mean humidity values for the month show that the air was dampest at Srínagar and Drás, where the moisture present was more than 80 per cent. of that required for saturation. At Murree and Simla it was only 36 per cent. There was very little cloud and skies were almost clear except in Kashmir.

Rainfall.—The following table gives the rainfall data for the Punjab, Kashmir and the North-West Frontier Province stations for November 1906:—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 30th January 1907.

KASHI RAM, *Supdt.*,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 19th January 1907 there were 979 births registered in the 42 large municipal towns (501 males and 478 females), giving a birth-rate of 35 *per mille* of population, and 1,137 deaths were registered (585 males and 552 females), giving a death-rate of 41 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 48 against 51 in the corresponding week of the previous year; Lahore 52 against 35; Amritsar 38 against 35; and Multán 27 against 33. There were 68 deaths reported from plague in Lahore, 14 in Tánda-Urmar, 7 in Ludhiána 4 in Ferozepore, 3 in Batála, 2 each in Hoshiárpur, Kartárpur, Jagráon, Kasúr and Amritsar, and 1 in Ráwalpindi. Of the 72 deaths from small-pox, 23 were registered in Amritsar, 10 in Multán, 7 each in Bhera and Chiniot, 6 in Sirsa, 5 in Kasúr, 4 in Batála, 3 in Wazirabad, 2 in Hoshiárpur and 1 each in Hissar, Rewári, Tánda-Urmar, Jagráon and Jhang-Maghiána.

Deaths reported from plague during the week ending 26th January 1907 in the districts, including all municipal towns:—Hissar 19, Rohtak 92, Delhi 68, Karnál 21, Ambála 61, Hoshiárpur 308, Jullundur 342, Ludhiána 888, Ferozepore 143, Montgomery 13, Lahore 223, Amritsar 208, Gurdáspur 796, Siálkot 454, Gujránwála 300, Gujrát 96, Shahpur 2, Jhelum 13, Ráwalpindi 88, Attock 25, and Lyallpur 16; Patiála State 58, Kapurthala State 152, Máler Kotla State 69, Jínd State 19, Kalsia State 3, and Farídkot State 8. Total for the province 4,485. Total for the previous week 4,166. Total for the corresponding week of the previous year 542.

KASHI RAM, *Supdt.,*
for *Sanitary Commissioner, Punjab.*

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SEVENTY-SEVEN THOUSAND TWO HUNDRED AND TWENTY-TWO births were registered in the province during the month of December 1906, giving a birth-rate of 45 *per mille* of population. Of the total number of births, 40,384 were boys and 36,838 were girls.

The total number of deaths registered from all causes in the province during the month of December 1906 was 84,527 against 93,501 in the previous month, and 60,818 in the corresponding month of the past year, giving an annual death-rate of 49, 57 and 36 *per mille* of population per annum, respectively.

There were 5 deaths registered under the head of cholera against 17 in the previous month and 2 in the corresponding month of the past year.

The total mortality from plague amounted to 9,463 against 4,915 in the previous month and 1,780 in the corresponding month of the past year.

From small-pox 1,048 deaths were registered against 624 in the previous month and 1,115 in the corresponding month of the past year; fevers 52.976 against 64,315 and 36,392; dysentery and diarrhœa 1,674 against 2,243 and 1,198; respiratory diseases 6,077 against 6,149 and 5,869. During the month there were 24 deaths registered from suicide against 20 in the past month; wounding 33 against 35; accidents 232 against 233; snake-bite and killed by wild beasts 34 against 38; and from all other causes 12,961 against 14,912 in the previous month and 14,091 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 29th January 1907.

14	Lyallpur ...	0·04 at Sadr ...	1. Sufficient ... 3. Good.	Falling ...	Locusts damaged wheat on Rakh Branch.	...
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 15½ seers. Gram, 20 seers. Maize, 23 seers.	Standing crops average. Extra spring sowings commenced. Locusts did slight damage to wheat and turnips in some villages of tahsíl Multán.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in all districts except Rohtak, Delhi, Ferozepore and Multán.

Prices.—There are slight fluctuations in the prices of food-grains. Wheat is rising in Ráwalpindi and falling in Ambála, Jullundur and Lyallpur.

Agricultural operations.—Ploughings and sowings of extra spring crops in progress in Gurgaon, Ambála, Lahore, Siálkot, Shahpur, Miánwáli and Multán. Sugarcane sowing commenced in Ambála.

Crops and outturn.—Condition and prospects of standing crops generally good. Rain urgently wanted for unirrigated crops in Hissar, Rohtak and Ambála.

Damage done to crops.—Locusts have damaged the standing spring crops to some extent in parts of Shahpur, Lyallpur and Multán.

Agricultural stock.—Cattle in good condition.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

3	Gurgaon ...	0·51 at Sadr ... More in other stations.	1. Sufficient ... 3. Good.	Below normal ...	Sowings of extra spring crops continue. Standing crops flourishing. Prospects of outturn good. Some damage done to crops by hailstones in the Nuh and Palwal tahsíls.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	PROSPECTS OF Spring.	Autumn.
4	Delhi ...	1·24 at Delhi ... 1·52 at Ballabgarh. 0·71 at Sonepat.	1. Sufficient ... 2. No complaint. 3. Good.	Unchanged ...	Condition of standing crops improved. Yield expected to be good.	...
5	Ambála ...	1·13 at Sadr ... 0·72 at Kharar. 1·40 at Rúpar. 2·90 at Kasauli. 0·82 at Naráingarh. 1·17 at Jagádhri.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 16 to 17 seers. Gram, 17½ to 18 seers. Barley, 20 seers. Maize, 20½ seers. Jowár, 25 seers. Bájra, 18 seers.	Condition of crops generally good. Rain has much benefited the standing crops. Extra spring sowings in progress.	Sowings of sugarcane going on.
6	Jullundur ...	5·53 at Sadr ... 5·53 at Nakodar. Less in Phillaur and Nawashahr.	1. Sufficient ... 3. Good.	Falling ...	Standing crops good.	...
7	Ferozepore ...	0·80 at Sadr ... General throughout the district.	1. Sufficient ... 3. Good.	Unchanged ...	Standing crops good. Yield expected to be good	...
8	Lahore ...	1·72 at Sadr ... 0·20 at Chunián. 0·33 at Kasúr.	1. Sufficient ... 3. Good.	Unchanged ...	Land being prepared for extra spring crops. Prospects of standing crops good. Opium crop average.	...
9	Amritsar ...	1·68 at Sadr ... Less in Tarn Táran and Ajnála.	1. Sufficient ... 3. Good.	Prices of gram and jowár high.	Rainfall sufficient. Condition of standing crops good. Good yield expected.	...
10	Siálkot ...	1·85 at Sadr ... 1·60 at Raya. 2·79 at Pasrúr. 1·79 at Zafarwál. 0·92 at Daska.	1. Sufficient ... 3. Good.	Wheat, 18 seers ... Gram, 19 seers. Barley, 25 seers. Rice, 10 seers.	Rainfall sufficient. Sowings of extra spring crops in progress. Condition of standing crops good.	...
11	Shahpur ...	0·96 at Sadr ... 0·32 at Sakesar. 1·24 at Naushahra. 0·18 at Khusháb. 0·31 at Bhera. 0·96 at Sargodha.	1. Sufficient ... 3. Good.	Barley, normal ... Gram, below normal. Other food-grains, above normal.	Standing crops in good condition. Locusts visited some villages in the Bhera and Sargodha tahsíls	

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	2·29 at Sadr ... 0·68 at Gujar Khan. 0·62 at Kahúta. 3·63 at Murree.	1. Sufficient ... 3. Good.	Wheat, 18 seers ... Bájra, 23 seers. Maize, 23 seers. Gram, 19½ seers. Barley, 30 seers.	Prospects of standing crops good.	...
13	Miánwáli ...	1·13 at Sadr ... 0·03 at Leiah.	1. Sufficient ... 3. Fair.	Unchanged ...	Sowings of extra spring crops continue. Condition and expected yield of standing crops good, except of unirrigated crops in Bhakkar and Leiah tahsíls, which are below average. Locusts appeared in Bhakkar, but did no damage.	...
14	Lyallpur ...	0·98 at Sadr ... 0·67 at Samundri. 0·43 at Toba Tek Singh.	1. Sufficient ...	Unchanged ...	Locusts damaged wheat and sarshaf (rapeseed) in tahsíl Lyallpur. State of standing crops good.	...
15	Multán ...	0·04 at Sadr ... 0·65 at Mailsi. 0·07 at Shujabad. 0·19 at Kabírwála.	1. Sufficient ... 3. Good.	Wheat, 16 seers ... Gram, 20 seers. Maize, 23 seers.	Standing crops average. Extra spring sowings in progress.	...

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen throughout the province.

Prices.—Prices of food-grains show a general downward tendency.

Agricultural operations.—Ploughings for and sowings of extra spring crops continue. Sugarcane sowings begun in Ambála.

Crops and outturn.—Condition and prospects of standing crops generally good. Recent rain is sufficient and has greatly benefited the standing spring crops.

Damage done to crops.—Crops slightly damaged by hail in parts of Gurgaon. Locusts appeared in parts of Shahpur, Miánwáli and Lyallpur, and did some damage to crops in the last named district.

Agricultural stock.—Cattle in good condition.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

slight rain.
snowfall.
canal raingauge station.

Snowfall Report.

The depth of snow at Dalhousie (Gurdáspur district) on 8th January 1907 was 5 inches.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of January 1907.

1.—HISSAR DISTRICT.

There was a slight rainfall during the month. Irrigated crops are in good condition. Rain urgently wanted to invigorate the standing unirrigated crops. Unirrigated crops are likely to fail excepting certain tracts if sufficient rain is not received within a fortnight or so. Sailaba cultivation in the Fatahabad tahsil also requires more rain within a fortnight, without which a poor outturn is expected. In the Sirsa tahsil crops watered by Ghaggar channel are reported to be in good condition, and a good outturn is expected if standing crops are not damaged by excessive floods. Cattle in good condition. Fodder is sufficient. Water-supply in canal is sufficient.

2.—ROHTAK DISTRICT.

Rabi sowings completed. The condition of standing irrigated crops is good, but rain is badly wanted in baráni tracts. Yield of irrigated crops expected to be average, but baráni yield will be very little unless rain falls in the near future. Cattle generally in good condition. Fodder sufficient. Canal supply sufficien t.

3.—GURGAON DISTRICT.

Good rainfall was received throughout the district on 9th to 11th January 1907, except at Sohna. It benefited the standing rabi crops immensely. The crops were also irrigated by wells and canal. Standing crops promising. The prospects of the rabi crop appear to be good. Cattle in good condition. Fodder sufficient. Canal water was used for crops during the month under report. Health of people good.

4.—DELHI DISTRICT.

The condition of the standing rabi crops is good. The outturn is expected to be good. Cattle in good condition. No complaint about canal irrigation. Fodder sufficient. Rates of food-grains low.

5.—KARNAL DISTRICT.

Crops both on irrigated and unirrigated lands generally good throughout the district. But some small damage was done to the crops of sarshaf and gram in Kaithal and toria in the Karnál tahsils by locusts. Hailstones fell in Kaithal and Karnál tahsils, but did no damage to the crops. The crops of sugarcane and toria are being harvested, and the yield is good. The condition of cattle is generally good throughout the district. The Western Jumna canal and the Sirsa branch were running during the month. Fodder and water for cattle sufficient. Prices are nearly stationary. Rain is badly wanted.

6.—AMBALA DISTRICT.

Sugarcane being pressed. Condition of crops generally good. Expected yield good. Rain required within next fortnight in Ambála tahsíl. Condition of cattle good.

7.—SIMLA DISTRICT.

The rainfall in both tahsíls was sufficient. In the Kot Khái tahsíl the area which remained unsown has been sown with wheat and poppy, and in the Simla tahsíl the entire expected sowings have been made. In the Simla tahsíl the condition of the crops is good, and in the Kot Khái tahsíl average. The condition of cattle is good. Fodder and grazing are sufficient in both tahsíls. Water is sufficient in hill streams, but no land was watered therewith during the month. Public health good.

8.—KANGRA DISTRICT.

Sowings completed. Condition of crops is good. Yield expected to be above the average. Water was sufficient in the kuhls for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

Rainfall during the month was sufficient and calculated to invigorate the standing crops. No sowings in progress. Standing crops promising. Prospects of rabi crops reported to be good. Condition of cattle on the whole sutisfactory. Green fodder and bhúsa sufficient. State of public health reported to be fairly good. No area was watered from canals and wells, as the rainfall was good during the month. Prices of food-grain falling.

10.—JULLUNDUR DISTRICT.

No sowings in progress. Condition of crops good. Yield expected to be good. Condition of cattle good.

11.—LUDHIANA DISTRICT.

Sowings of onion was in progress during the month. Condition of crops good. Yield of vegetables was fairly good, and that of sugarcane and cotton on the irrigated area good, on unirrigated area average. The condition of cattle good throughout the district. Irrigation from canals fairly satisfactory. Prices were nearly stationary.

12.—FEROZEPORE DISTRICT.

There were no sowings during the month. Condition of standing rabi crop good. Yield expected to be good. Condition of cattle good. Sirhind canal had been flowing, and a normal area was irrigated. Agriculturists were generally well off. Stocks of food-grain and fodder sufficient. Green fodder was available. Prices of food-grains stationary.

13.—MONTGOMERY DISTRICT.

No sowings carried on during the month. Condition of crops good. Turnips have, however, been attacked by insect. In tahsíl Gugera locusts have injured crops to a certain extent; while in tahsíl Pákpattan there were a few hailstorms, but so far not much harm has been done to the crops. Good yield expected, provided timely rainfall is received. Condition of cattle good. Fodder sufficient. No canals worked during the month. Little water in the rivers.

14.—LAHORE DISTRICT.

Condition of crops good. As at present the crops and the expected yield are good, but much depends on rains in February and March. Condition of cattle good. The Bari Doáb canal worked well as usual, and the Chenab canal was closed for repairs up to the 20th of the month under report. The Annhi nala and the Degs were dried up. The prices of food-grains, etc, remained stationary during the month.

15.—AMRITSAR DISTRICT.

Condition of standing crops good. Yield expected to be good. No complaint of insufficiency of canal water.

16.—GURDASPUR DISTRICT.

Good rain. A little barley sown in Shakargarh. Condition of crops good. Rabi crop coming on well. Yield of cane good. Condition of cattle good. Fodder sufficient. No floods. Canals working regularly.

17.—SIALKOT DISTRICT.

Sowing of barley finished in first week. Condition of crops generally good. A slight shower of hailstones damaged the green fodder and tobacco plants in Pasrúr, Daska, Raya and Siálkot tahsíls. Pressing of sugarcane in progress. Outturn good. Condition of cattle generally good. Water sufficient according to season in Bajwat canals. No inundation during the month.

18.—GUJRANWALA DISTRICT.

Condition of crops good owing to the recent rainfall. Yield of toria estimated at 3½ to 6 maunds per acre. Toria largely damaged by locusts. Yield of sugarcane 20 maunds per acre. A favourable yield of rabi crop expected. Condition of cattle generally good. No complaint about canal water, except in Khángah Dográn tahsíl where the crops are reported to have been damaged to some extent by the insufficiency of canal water caused by rotational turns. Prices of food-grains stationary.

19.—GUJRAT DISTRICT.

Fairly good rain fell during the month, and benefited the standing crops, which are in good condition. Locusts appeared in certain tracts of the district, but no considerable damage is reported. Pressing of sugarcane was in progress in parts of the district. Expected yield of other crops good. Fodder sufficient. Cattle in good condition. Prices stationary.

20.—SHAHPUR DISTRICT.

Sowings of sugarcane and onions commenced. Standing crops in good condition. Locusts did some damage in a few villages, but if rain falls in time, the crops will recover. Toria and sugarcane are being reaped. Outturn average. Cattle in good condition. Lower Jhelum canal running. Water-supply normal. Prices stationary.

21.—JHELUM DISTRICT.

There were no further sowings during the month. The showers of rain did considerable good to standing crops in Jhelum and Chakwál tahsíls. More rain, however, badly wanted in Pind Dádan Khan tahsíl. Standing crops in very good condition, excepting in Pind Dádan Khan tahsíl where anxiety is felt for the standing crops on account of absence of rain. Condition of cattle good. There was an appreciable rise in Jhelum river on 20th January on account of good winter rains. Prices are generally falling on account of brisk import of food-grains and also owing to prospect of good harvest. There was slight fall of hailstone in some villages of Chakwál tahsíl, but no damage was done. Locusts also passed over a certain area without causing any damage to the standing crops.

22.—RAWALPINDI DISTRICT.

Good rain received during the month, and some sowings of barley, wheat and sarshaf were carried on. Condition of rabi crops good. Condition of cattle good. In tahsíl Gujar Khan on 29th January 1907 hail fell and injured the sarshaf crop to a slight extent. In tahsíls Ráwalpindi and Gujar Khan locusts appeared, but did no damage.

23.—ATTOCK DISTRICT.

Rains received were only fair; more is wanted for the gram crop. Condition of crops good. Condition of cattle generally good. Locusts appeared in tahsíls Talagang and Pindigheb and Fatehjang. Injury done thereby was quite insignificant.

24.—MIANWALI DISTRICT.

Ploughings for extra rabi crops in progress. General condition and expected yield of irrigated crops good, but those of unirrigated crops of Bhakkar and Lieah tahsíls average. Condition of cattle good. Fodder procurable. Nala Kurram flowed in Isa Khel tahsíl and irrigated the adjoining lands. Locusts appeared in tahsíl Isa Khel, did no damage to crops, and flew towards the west. Prices stationary.

25.—LYALLPUR DISTRICT.

Land being prepared for sugarcane sowings. Cotton pickings finished. Sugarcane being pressed. Wheat generally in fair condition, though there are some complaints of withering from short canal supply in parts of Samundri and Toba Tek Singh. Toria outturn early sown poor, late sown good. Sugarcane outturn excellent. Fodder plentiful. Canal irrigation is by rotational turns. Locusts appearing in parts of Samundri.

26.—JHANG DISTRICT.

No rain at all in Jhang and Shorkot tahsíls. In Chiniot tahsíl the fall was good. No rain in Jhang and Shorkot; hence the condition of crops not good, but in Chiniot average. Toria gathered in yield 5 maunds per acre. Canals flowing, but water shallow in rivers. Locusts appeared in the district, but did no damage.

27.—MULTAN DISTRICT.

Sugarcane and extra rabi sowings commenced. Standing crops average, except cotton which is below average. Inundation canals dry. Sidhnái flowing by turns.

28.—MUZAFFARGARH DISTRICT.

Only vegetables were sown. The condition of crops good. Yield of rabi crops expected to be good. Public health good. No inundations. Canals are dry. Food and fodder sufficient. Rain wanted. Locusts appeared in some parts of the district.

29.—DERA GHAZI KHAN DISTRICT.

Sowing over. Condition of crops good except for some damage done by locusts. Expected yield good, judging from present conditions. Condition of cattle good. Public health good.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

SUMMARY OF REMARKS ON THE KHARIF CROP OF THE PUNJAB FOR THE YEAR 1906.

1. In compliance with the orders of the Government of India, sown areas are shown for each crop instead of "matured" areas. The character of the harvest is apparent by reading the figures of sown areas with the percentages of outturn per acre on the normal for the principal crops exhibited in statement V.

2. *The season.*—Spring showers in February and March were general and sufficient. The monsoon current reached the Eastern Punjab in the last week of June and gave a fair amount of rain in the Delhi division until about the 10th of July when a somewhat lengthy break set in. A second period of rainy weather at the end of July and in the first half of August was again confined to the Delhi division and the adjoining districts of Hoshiárpur and Ludhiána. Another lengthy break ensued in the Delhi division up to the end of August. As regards the rest of the Punjab, fairly satisfactory showers fell in July in Ráwalpindi, Gujrát and parts of Miánwáli, but the remaining districts were in considerable defect in that month. In August, well distributed rain, good to average in quantity, was registered in the districts of Jullundur, Ludhiána, Amritsar, Gurdáspur and Siálkot, but the remaining districts had to wait until the 3rd and generally the 4th week of the month when good rain was received. September made amends for all previous deficiencies the rainfall in the first fortnight being largely in excess everywhere, except in the Multán division, where however high river floods and a late and abundant flow of water in the inundation canals afforded compensation. Summing up of the first phase of the monsoon was satisfactory on the whole in the Delhi division, and in the districts of Kángra, Hoshiarpur, Ludhiána, Gujrát, Ráwalpindi and Miánwáli, while the rest of the Punjab being largely protected by irrigation was nct seriously affected by the shortness of the rainfall. The second phase of the monsoon was excellent everywhere, ripening the autumn crop and providing good moisture for sowings for the spring harvest. The breaks experienced in the Delhi division were terminated before any irremediable injury was done.

3. *Area sown.*—The area placed under crops amounted to 10,915,861 acres, representing 3 per cent. more than the area returned last year, but 8 per cent. less than the quinquennial average. The principal variations from the averages of the last five years are as below :—

District.	*Percentage above or below the quinquennial average.*
Delhi	+ 9
Gurgaon	+ 9
Rohtak	+ 7
Shahpur	+ 6
Gujrát	— 12
Amritsar	— 15
Miánwáli	— 16
Siálkot	— 21
Gujránwála	— 25
Montgomery	— 25
Lahore	— 29
Ferozepore	— 37

Contractions have occurred mainly in the Central Punjab and may be ascribed to the lateness of the monsoon in that tract, to the large area under rabi crops in 1905-06, and to the apprehension of a recurrence of boll-worm.

The wet and dry areas compare as below with those in the preceding year :—

	Irrigated.	*Unirrigated.*
	Acres.	Acres.
1905	4,020,371	6,582,674
1906	3,541,841	7,374,020

The increase in the unirrigated area is mainly in the Delhi division where there was an excellent monsoon.

4. *Outturn.*—Statement V exhibits the percentage of the outturn per acre on the normal for the principal crops in each district on irrigated and unirrigated lands. In general, outturns were distinctly good in consequence of the beneficial rain of late August and early September. The outturn of each of the principal crops is summarised as follows :—

Rice.—Outturns ranged from average to good. The only serious deficiency was in Kángrà and was due to excessive rain.

Jowár.—Yields were very low in Rohtak and Gurgaon on account of boisterous winds and excessive rain in September. A good crop was harvested in Ferozepore. Taken all round, the crop was below the average.

Bájra.—The yield of bájra was average for the province. The wet crop was much below the normal in Ferozepore and the dry crop was poor in Hissar and Shahpur.

Maize.—Taking the province as a whole, the maize crop was a little above the average on irrigated land, and below the average on unirrigated land.

Sugarcane.—Sugarcane has done well everywhere. There was a serious contraction in area in 1905, owing to shortage of seed, but this year the area sown was almost normal.

Cotton.—The cotton crop was much better than in 1905. Average to good yields are reported from the East Punjab. In the Central and West Punjab there is a partial recovery after the practically complete failure in 1905, and outturn percentages for irrigated crops are as follows:—Jhang and Lyallpur 25; Multán, 33; Gujranwála, 42; Ferozepore, 47; Muzaffargarh, 60; and Gurdáspur, 63.

5. Reverting to the old method of estimating the crop, the failed area is small and represents only 15 per cent of the sown area compared with 41 per cent. in 1905, while the harvested area exhibits an increase of 48 per cent. The most extensive failures were in the following districts:—

District.					*Failed area in acres.*	*Percentage on the area sown.*
Hissar	...	...	...	...	425,704	32
Multán	...	...	...	...	107,482	32
Simla	...	...	...	...	1,801	24
Hoshiárpur	...	...	...	...	91,500	23
Miánwáli	...	...	...	...	38,705	22
Dera Ghází Khan		...	...	...	72,·97	22

6. *Calamities of season.*—Abnormally high winds and heavy rain in September were the cause of the loss of 36 per cent. of the unirrigated crop in Hissar, and of less serious injury to jowár and other crops in Rohtak, Gurgaon, Delhi, Karnál, Ambála and Hoshiárpur. Three-quarters of the dry crop in the Rewári tahsíl of the Gurgaon district withered in the prolonged break in August. Heavy floods are reported from Ambála, Lahore, Jhang, Multán and Muzaffargarh. The general rainfall was excessive in Simla, Ambála, Kángra, Gujrát and Gurdáspur.

7. *Notes by divisions and districts* (Remarks have regard to both area and yield unless the contrary is apparent from the context.)

Delhi division.—The sown area for the Delhi division has increased from 3,298,945 to 4,231,004 acres, and the matured area from 1,109,039 to 3,512,713 acres. In Hissar, the irrigated crop was good and the unirrigated average. The yield has been good on a large area in Rohtak. In Gurgaon, the crop was good or average, except in Rewári where it was below the average. The harvest was good in Delhi and Karnál, and fair in Ambála and Simla on account of excessive rain. The present plentiful harvest has completely relieved the scarcity which prevailed in this division.

Jullundur division.—Variations in the Jullundur division call for little remark except as regards the Ferozepore district where sowings were very short on unirrigated land. The mango trees in Hoshiárpur have recovered from the effects of the severe frost in the winter of 1904-05 and bore a normal crop.

Lahore division.—Sowings were much below the normal except in Gurdáspur, but yields were good. Rough estimates of the harvest are as follows:—Amritsar, about average; Lahore, Gurdáspur, Gujránwála and Siálkot fair; and Montgomery 10 annas.

Ráwalpindi division.—Every district exhibits an advance on 1905. The kharíf was generally above the average. The harvests are placed at 20 and 18 annas in Ráwalpindi and Attock, respectively.

Multán division.—The kharíf was poor in Dera Ghází Khán, and fair in Muzaffargarh. Multán shows an improvement on last year. Inundation canals ran well in Multán, but indifferently in Muzaffargarh and Dera Ghází Khan. The kharíf was good in Lyallpur and Jhang, except for cotton. There was an average harvest in Miánwáli. Cotton was better in this division than in 1905, but was still much below the average.

8. Taking the province as a whole the kharíf of 1906 was an average crop.

W. RENOUF,

Director of Agriculture, Punjab.

The 8th February 1907.

STATEMENT NO. III A.—*Crop Return in acres for the Kharif* 1906.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 12th February 1907.

KASHI RAM, *Supdt.,*
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 2nd February 1907, there were 1,007 births registered in the 42 large municipal towns (543 males and 464 females), giving a birth-rate of 36 *per mille* of population, and 1,127 deaths were registered (599 males and 528 females), giving a death-rate of 41 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 44 against 36 in the corresponding week of the previous year; Lahore 48 against 28; Amritsar 35 against 32; and Multán 38 against 35. There were 56 deaths reported from plague in Lahore, 25 in Sonepat, 17 in Hoshiárpur, 12 each in Tánda Urmar and Kartárpur, 10 in Amritsar, 9 in Ludhiána, 7 in Jagráon, 6 in Ferozepore, 5 in Siálkot, 3 in Pánipat, 2 each in Hissar, Delhi, Ambála and Kasúr, and 1 each in Rohtak, Jullundur, Batála, Gujránwála and Ráwalpindi. Of the 46 deaths from small-pox, 13 were registered in Amritsar, 5 each in Sirsa and Multán, 4 in Bhera, 3 each in Kasúr and Wazirabad, 2 each in Jagráon, Lahore, Jhang-Maghiána and Chiniot, and 1 each in Sonepat. Hoshiárpur, Batála, Gujránwála and Khusháb. There was 1 death recorded from cholera in Batála.

Deaths reported from plague during the week ending 9th February 1907 in the districts, including all municipal towns:—Hissar 21, Rohtak 158, Delhi 159, Karnál 65, Ambála 700, Hoshiárpur 405, Jullundur 543, Ludhiána 1,246, Ferozepore 168, Lahore 391, Amritsar 256, Gurdáspur 1,033, Siálkot 729, Gujránwála 559, Gujrát 353, Shahpur 26, Jhelum 2, Attock 48, and Lyallpur 4; Patiála State 488, Kapurthala State 269, Maler Kotla State 251, Jínd State 33, Kalsia State 24, and Farídkot State 33. Total for the province 7,964. Total for the previous week 5,475. Total for the corresponding week of the previous year 634.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 19th FEBRUARY 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	2·08 at Sadr ... 0·80 at Tohána.	1. Sufficient ... 3. Good.	Wheat, 15 seers ... Bájra, 20 seers. Bijhar, 22 seers. Gram, 20 seers.	Unirrigated crops in fair condition. Irrigated crops flourishing.	
2	Rohtak ...	0·14 at Sadr ... 0·14 at Gohána.	1. Sufficient ... 3. Good.	Wheat, 15 seers... Gram, 19 seers. Jowár, 24 seers. Maize, 20 seers.	Recent rain has benefited the standing crops. Prospects of irrigated crops good.	
3	Gurgaon ...	0·41 at Sadr ... More in certain other stations.	1. Sufficient ... 3. Good.	Below normal ...	Tobacco, onion and vegetables being sown. Standing crops flourishing. Prospects good.	

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Antumn.
4	Delhi ...	0·28 at Sadr ... 0·64 at Ballabgarh. 0·04 at Mahrauli. 0·07 at Sonepat.	1. Sufficient ... 2. No complaint. 3. Good.	Low ...	Condition of standing crops good. Yield expected good.	
5	Ambála ...	0·03 at Sadr ... 0·88 at Kharar. 1·45 at Rúpar. 1·69 at Kasauli. 0·15 at Naráingarh.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 16 to 17 seers. Gram, 17½ to 18 seers. Bárley, 20 seers. Maize, 20½ seers. Jowár, 25 seers. Bájra, 18 seers.	Recent rain beneficial to crops which are in good condition. Hail fell in Rupar tahsíl and damaged the crops slightly. Melons being sown.	Sowings of sugarcane in progress.
6	Jullundur ...	1·10 at Sadr ... Slightly more in Nawashahr; less in Nakodar and Phillaur.	1. Sufficient ... 3. Good.	Falling ...	Standing crops good, but more rain and clouds will damage crops in low lying lands.	...
7	Ferozepore ...	0·17 at Sadr ...	1. Sufficient ... 3. Good.	Unchanged ...	Standing crops good. Yield expected good. Sarshaf (rapeseed) and tara míra (Raphanus raphanistrum) damaged by hail in tahsíls Moga and Zira.	...
8	Lahore ...	1·06 at Sadr ... 1·76 at Chunián. 0·40 at Sharakpur. 0·76 at Kasúr.	1. Sufficient ... 3. Good.	Ditto ...	Land is being prepared for extra spring crops. Prospects good. Opium crop average.	...
9	Amritsar ...	1·39 at Sadr ... More in Ajnála and less in Tarn Táran.	1. Sufficient ... 3. Good.	High of gram and jowár only.	Rainfall sufficient. Condition of tanding crops good. Yield expected good.	...
10	Siálkot ...	1·32 at Sadr ... 1·06 at Zafarwál. 0·64 at Raya. 0·70 at Pasrúr. 0·78 at Daska.	1. Sufficient ... 3. Good.	Wheat, 18 seers ... Gram, 19 seers. Barley, 25 seers. Rice, 10 seers.	Rainfall sufficient. Tobacco being planted. Condition of standing crops good.	...
11	Shahpur ...	0·61 throughout the district.	1. Sufficient ... 3. Good.	Bájra, Maize } about normal. Wheat, Bárley, Jowár. } normal. Gram, { below normal.	Standing crops in good condition.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	1·89 at Sadr ... 2·39 at Gujar Khan. 2·74 at Kahúta. 4·83 at Murree.	1. Sufficient ... 3. Good.	Wheat, 18 seers ... Bájra, 26 seers. Maize, 30 seers. Gram, 19½ seers. Barley, 30 seers.	Prospects good.	...
13	Miánwáli ...	0·60 at Sadr ... 1·10 at Isa Khel. 0·49 at Bhakkar. 0·24 at Leiah.	1. Procurable ... 3. Good.	Unchanged ...	Sowings of extra spring crops in progress. Condition and expected yield of spring crops good, except in the unirrigated area of Bhakkar and Leiah, where it is average.	...
14	Lyallpur ...	0·62 at Sadr ... 0·10 at Samundri. 0·06 at Toba Tek Singh.	1. Sufficient ... 2. Good.	Rising ...	Locusts damaged wheat and rapeseed in tahsíl Lyallpur. Standing crops in good condition.	...
15	Multán ...	0·22 at Sadr ... 0·44 at Lodhrán. 0·08 at Shujabad. 0·01 at Kabírwála.	1. Sufficient ... 3. Good.	Wheat, 16 seers ... Gram, 20 seers. Maize, 24¾ seers.	Standing crops average. Extra spring sowings in progress.	...

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen all over the province.

Prices.—There are slight fluctuations in the prices of food-grains. Wheat is rising in Lyallpur and falling in Hissar and Jullundur.

Agricultural operations.—Ploughings for and sowings of extra spring crops continue. Sugarcane sowings in progress in Ambála.

Crops and outturn.—Condition and prospects of standing crops generally good. Rain beneficial to standing crops, but more rain and clouds will damage the crops on low-lying lands in Jullundur.

Damage done to crops.—Crops slightly damaged by hail in parts of Ambála and Ferozepore and by locusts in parts of Lyallpur.

Agricultural stock.—Cattle in good condition.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING DECEMBER 1906.

Station.	Pressure.		Wind.		Temperature in shade.								
	Barometer at 8 h. reduced to 32°, to constant gravity at 45° Lat. and to sea-level.	Departure from normal.	Mean direction and velocity in miles per hour, December 1906. * Mean of 30 days.
† Mean of 25 days.
‡ Mean of 28 days.

The depression which was entering India at the end of November had travelled to the south-west Punjab and adjacent districts of Rájpútána by the morning of the 1st, but it did not affect the weather, beyond giving a few light falls of rain in the Frontier Province on the 1st and 2nd and thick cloud in this area and Kashmir. Another disturbance entered the Punjab on the 5th and caused light precipitation in Kashmír on the following day; skies were cloudy, and in consequence the night temperatures were much higher than usual. With the disappearance of this depression fine weather prevailed up to the 17th. On this date a depression formed over Baluchistán and Sind, and skies clouded over in Kashmír, the Frontier Province and the north-west Punjab, but there was no precipitation until the 18th, when rain fell in the Frontier Province and a large part of the Punjab; by the 19th it had extended over the whole of the Punjab, and snow occurred in Kashmír. The depression had travelled to the east of the Punjab by the 20th, and the weather began to clear to the west of it, but light showers still occurred in the submontane districts and snow in Kashmír until the 24th. A cold wave of slight intensity followed the depression, and weather was considerably cooler than usual, especially in the day time, for the next few days. During the remainder of the month the weather was dry except for an occasional fall of snow in Kashmír.

Pressure and winds.—Pressure was normal in the eastern districts, but in the western and in the Frontier Province it was in slight defect, the greatest deficiency being 0"·033 at Multán. Winds were stronger than usual at Simla and Khusháb, and at the remaining stations in the Punjab they were very light. At Sirsa the average direction of the wind was south-south-east instead of west-north-west, and at Simla it was south-south-west instead of north-east, but elsewhere the directions were nearly normal.

Temperature.—Both day and night temperatures were considerably above the normal up to the 19th, the warmest days occurring on the 1st, 12th and 18th when mean temperature was on the average nearly 7° above normal. With the advent of rain on the 18th, due to the depression, day temperature fell rapidly, but the nights were still hotter than usual owing to the prevalence of cloud. When skies cleared, however, the minimum also fell, and from the 20th to the 24th both temperatures were lower than usual, the maximum at Murree and Sirsa being 15° below normal on the afternoon of the 20th. During the last week of the month the temperatures were slightly higher than usual.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmir and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

" 16th ...	+ 4·4	78·3	Multán.				

Cloud and humidity.—There was less cloud than usual at most stations in the Punjab, and on the average of the whole month only a small fraction of the sky was overcast; cloud, as is to be expected at this time of year, was fairly heavy in Kashmír, and at Skárdu they were heavily overcast throughout the month. The air was damper than usual on the Punjab plains and in the Frontier Province. The amount of moisture in the air at 8 hours (local time) amounted to approximately 80 per cent. of that required for saturation.

Rainfall.—The rainfall for the month was in defect at Delhi, Ambála, Simla, Montgomery, Lahore and Khusháb, and was in excess at all other stations; the greatest excess occurred at Siálkot and the greatest defect at Ambála, where only 10 cents. of rain were received instead of 82 cents.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for December 1906:—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 19th February 1907.

KASHI RAM, *Supdt.,*
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 9th February 1907 there were 949 births registered in the 41 large municipal towns (486 males and 463 females), giving a birth-rate of 35 *per mille* of population, and 1,320 deaths were registered (721 males and 599 females), giving a death-rate of 48 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 51 against 36 in the corresponding week of the previous year; Lahore 59 against 28; Amritsar 39 against 32; and Multán 53 against 35. There were 86 deaths reported from plague in Lahore, 24 each in Hoshiárpur and Kartárpur, 19 in Sonepat, 17 in Tánda-Urmar, 14 in Rohtak, 11 in Ludhiána, 10 in Jagráon, 9 in Gujránwála 8 each in Ferozepore and Amritsar, 6 in Jullundur, 4 each in Pánipat and Ráwalpindi, 3 each in Delhi and Ambála, 2 each in Sirsa, Rewári, Shahábád and Batála, and 1 each in Ráekot, Kasúr and Siálkot. Of the 56 deaths from small-pox, 23 were registered in Amritsar, 8 in Multán, 5 in Kasúr, 3 in Hoshiárpur, 2 each in Tánda-Urmar, Lahore, Batála and Jhang-Maghiána, and 1 each in Hissar, Sirsa, Rohtak, Jullundur, Kartárpur, Siálkot, Wazírabad, Bhera, and Ráwalpindi.

Deaths reported from plague during the week ending 16th February 1907 in the districts, including all municipal towns:—Hissar 38, Rohtak 279, Delhi 213, Karnál 36, Ambála 750, Hoshiárpur 450, Jullundur 655, Ludhiána 1,180, Ferozepore 230, Lahore 561, Amritsar 366, Gurdáspur 1,163, Siálkot 976, Gujránwála 744, Gujrát 309, Shahpur 29, Jhelum 3, Ráwalpindi 93, Attock 49 and Lyallpur 8; Patiála State 687, Kapurthala State 127, Maler Kotla State 206, Jínd State 34, Kalsia State 54 and Farídkot State 28. Total for the province 9,273. Total for the previous week 8,110. Total for the corresponding week of the previous year 873.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, FEBRUARY 28, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 26th FEBRUARY 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	2·05 at Hánsi ... 0·07 Sirsa. 0·57 at Tohána.	1. Sufficient ... 3. Good.	Wheat, 14¾ seers Gram, 20 seers. Bájra, 19 seers. Bijhar, 22 seers.	Irrigated crops flourishing.	...
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 15½ seers Gram, 18½ seers. Jowár, 24 seers. Maize, 20 seers.	Condition of irrigated crops good and of unirrigated average.	...
3	Gurgaon ...	0·09 at Sadr ... More at other stations.	1. Sufficient ... 3. Good.	Wheat, Bájra, } normal Barley, Maize, Gram, } below normal.	Tobacco, onions and vegetables being sown. Standing crops flourishing. Some damage done by hail in certain villages. Prospects good.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	0·43 at Mahrauli... 0·10 at Ballabgarh.	1. Sufficient ... 2. No complaint. 3. Good.	Low ...	Condition of standing crops good. Yield expected good.	...
5	Ambála ...	2·78 at Sadr ... 1·24 at Kharar. 0·72 at Rúpar. 3·75 at Kasauli. 2·30 at Naráingarh. 1·89 at Jagádhri.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 16 to 17 seers. Gram, 17½ to 18 seers. Barley, 20 seers. Maize, 20½ seers. Jowár, 25 seers. Bájra, 18 seers.	Condition of crops good. Gram crop on low lands in Tahsíl Ambála slightly damaged by excessive rain and by hail in Jagádhri and Naráingarh.	Sowings of sugar-cane continue.
6	Jullundur ...	1·15 at Sadr ... 0·15 at Nakodar. 0·15 at Nawashahr. More in Phillaur.	1. Sufficient ... 3. Good.	Falling ...	Standing crops good! Crops in 16 villages of tahsíl Jallundur damaged by hail.	...
7	Ferozepore ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Standing crops good. Yield expected good.	...
8	Lahore ...	0·08 at Sadr ...	1. Sufficient ...	Ditto ...	Land being prepared for extra spring crops. Outturn expected good. Crops damaged by hail in the Chuniân tahsíl and submerged by inundation in the Anhi Nala. Opium crop average.	...
9	Amritsar ...	0·07 at Ajnála ... 0·41 at Tarn Táran.	1. Sufficient ... 3. Good.	High of jowár, maize and gram only.	Onion and vegetables being sown. Condition of standing crops good. Yield expected good. Floods in the Sakki Nala have done some damage to crops.	...
10	Siálkot ...	0·09 at Sadr ... 3·28 at Zafarwál. 2·18 at Pasrúr. 1·81 at Raya. 1·17 at Daska.	1. Sufficient ... 3. Good.	Wheat, 19 seers ... Barley, 26 seers. Gram, 20 seers. Rice, 10 seers.	Condition of crops generally good. Massar (lentil) crop slightly damaged by hail in three villages of Zafarwál tahsíl. Wheat slightly effected with Kungi (rust) in tahsíl Pasrúr.	...
11	Shahpur ...	0·70 ...	1. Sufficient ... 2. Good.	Maize, above normal. Wheat, Barley, Bájra, normal. Jowár, Gram, below normal.	Standing crops in good condition.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
12	Ráwalpindi ...	1·36 at Gujar Khan 2·11 at Kahúta. 4·80 at Murree.	1. Sufficient ... 3. Good.	Wheat, 18 seers ... Bájra, 23 seers. Maize, 26 seers. Gram, 19½ seers. Barley, 30 seers.	Prospects good ...	...
13	Miánwáli ...	0·05 at Miánwáli... 0·47 at Isa Khel. 0·22 at Bhakkar. 0·12 at Leiah.	1. Available ... 3. Fair.	Unchanged ...	Hail fell in 3 villages of Bhakkar, but no damage to crops reported. Condition and expected yield of crops good, except on unirrigated lands in Bhakkar and Leiah tahsíls which are average. Sowings of extra spring crops in progress. Locusts appeared in one village of tahsíl Isa Khel. Arrangement for destruction being made.	...
14	Lyallpur ...	0·05 at Sadr ... 0·22 at Samundri.	1. Sufficient ...	Unchanged ...	Locusts damaged crops in 13 villages of tahsíl Lyallpur. Condition of standing crops good.	...
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 16 seers ... Gram, 20 seers. Maize, 24¾ seers.	Standing crops average. Extra spring sowings in progress.	...

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen in Hissar, Delhi, Ambála, Amritsar, Siálkot, Shahpur, Ráwalpindi and Miánwáli, and light rain in Gurgaon, Jullundur, Lahore and Lyallpur.

Prices.—Prices of food-grains rising in Hissar and Gurgaon; falling in Rohtak, Jullundur and Siálkot; unchanged elsewhere.

Agricultural operations.—Ploughings for and sowings of extra spring crops in progress. Sowings of sugarcane continue in Ambála.

Crops and outturn.—Condition and prospects of standing crops generally good.

Damage done to crops.—Crops slightly damaged by hail in parts of Gurgaon, Ambála, Jullundur, Lahore and Siálkot; by excessive rain in Ambála, by inundations in parts of Lahore and Amritsar, and by locusts in parts of Miánwáli and Lyallpur. Wheat slightly suffering from rust in parts of Siálkot.

Agricultural stock.—Cattle in good condition.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 27th February 1907.

KASHI RAM, *Supdt.,*
for Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 16th February 1907 there were 922 births registered in the 42 large municipal towns (480 males and 442 females), giving a birth-rate of 33 *per mille* of population, and 1,213 deaths were registered (632 males and 581 females), giving a death-rate of 44 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 48 against 34 in the corresponding week of the previous year; Lahore 59 against 31; Amritsar 35 against 42; and Multán 36 against 30. There were 83 deaths reported from plague in Lahore, 30 in Sonepat, 21 in Kartárpur, 18 in Hoshiárpur, 12 in Ludhiána, 11 in Rohtak, 9 each in Tánda-Urmar, Jullundur and Batála, 7 in Pánipat, 5 each in Jagráon, Kasúr and Amritsar, 4 in Siálkot, 3 each in Delhi, Ferozepore and Gujránwála, 2 in Hissar, and 1 each in Ambála and Ráekot. Of the 31 deaths from small-pox, 7 were registered in Amritsar, 4 in Multán, 3 each in Hoshiárpur and Batála, 2 each in Sirsa, Wazirabad, Bhera and Chiniot, and 1 each in Hissar, Bhiwáni, Sonepat, Jullundur, Kasúr and Gujránwála.

Deaths reported from plague during the week ending 23rd February 1907 in the districts, including all municipal towns:—Hissar 5, Rohtak 311, Delhi 170, Karnál 48, Ambála 576, Hoshiárpur 400, Jullundur 696, Ludhiána 1,128, Ferozepore 259, Montgomery 13, Lahore 635, Amritsar 336, Gurdáspur 1,209, Siálkot 1,086, Gujránwála 1,037, Gujrát 314, Shahpur 37, Jhelum 20, Ráwalpindi 181, Attock 22 and Lyallpur 23; Patiála State 433, Kapurthala State 171, Máler Kotla State 248, Jínd State 48, Kalsia State 22, Farídkot State 34, and Nábha State 409. Total for the province 9,871. Total for the previous week 9,691. Total for the corresponding week of the previous year 1,042.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, MARCH 7, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 5th MARCH 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·30 at Budhláda...	1. Sufficient ... 3. Good.	Wheat, 15¾ seers Bájra, 18¾ seers. Gram, 20 seers. Bijhar, 24 seers.	Unirrigated crops in good condition where recent rainfall was sufficient. Prospects of irrigated crops good. Rapes-ed (sarshaf) being harvested.	...
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 15½ seers Gram, 18½ seers. Jowár, 23 seers. Maize, 20 seers.	Condition of standing crops good. Average outturn expected.	...
3	Gurgaon ...	...	1. Sufficient ... 3. Good.	Below normal ...	Standing crops flourishing. Prospects good.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint. 3. Good.	Low ...	Sowings of extra spring crops commenced. Condition of standing crops good. Slight damage done by hail in some villages. Yield expected good.	...
5	Ambála ...	0·12 at Sadr ... 0·05 at Jagádhri. 0·13 at Naráingarh.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 16 to 17 seers. Gram, 17½ to 18 seers. Barley, 20 seers. Maize, 21½ seers. Jowár, 25 seers. Bájra, 22 seers.	Condition of crops good. Hail fell in Kharar tahsíl causing considerable damage to poppy crop.	Sowings of sugarcane in progress.
6	Jullundur ...	0·10 at Sadr ... 0·10 at Nakodar. 0·10 at Phillaur.	1. Sufficient ... 3. Good.	Falling ...	Standing crops good, but hailstorm damaged crops slightly in some villages in tahsíl Phillaur.	...
7	Ferozepore ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Standing crops good. Good yield expected. Sowings of extra spring crops commenced.	...
8	Lahore ...	...	1. Sufficient ... 3. Good.	Ditto ...	Extra spring crops being sown. Prospects of standing crops good. Crops slightly damaged by hail in two villages of the Chunián tahsíl. Poppy crop average.	Ploughings for cotton and sowings of sugarcane commenced.
9	Amritsar ...	0·05 at Ajnála ...	1. Sufficient ... 3. Good.	High of gram, jowár, maize and bájra only.	Vegetables being sown. Condition of standing crops good. Good yield expected.	Ploughing for sugarcane and cotton commenced.
10	Siálkot ...	0·23 at Sadr ... 0·07 at Zafarwál. 0·15 at Daska.	1. Sufficient ... 3. Good.	Wheat, 19 seers ... Barley, 27 seers. Gram, 20 seers. Rice, 10 seers.	Tobacco planting commenced. Condition of crops generally good. Outturn expected to be good. Wheat injured by rats and rust in the riverain and dry tracts of the Zafarwál tahsíl.	...
11	Shahpur ...	0·08 all over the district.	1. Sufficient ... 2. Good.	Gram below normal; others above normal.	Extra spring crops being sown. Standing crops in good condition. Rats damaging wheat in tahsíl Bhera.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
12	Rāwalpindi ...	0·38 at Sadr ... 0·28 at Gujar Khan. 0·28 at Kahuta. 0·38 at Murree.	1. Sufficient ... 3. Good.	Wheat, 18 seers ... Bājra, 23½ seers. Maize, 25½ seers. Gram, 18½ seers. Barley, 28 seers.	Prospects good ...	...
13	Miānwāli ...	0·30 at Sadr ... 0·70 at Isa Khel. 0·10 at Bhakkar. 0·05 at Leiah.	1. Sufficient ... 3. Fair.	Unchanged ...	Extra spring sowings in progress. Condition and expected yield of standing crops good, except on unirrigated lands in the Bhakkar and Leiah tahsīls, where an average yield is anticipated.	...
14	Lyallpur ...	0·02 at Sadr ...	1. Plentiful ...	Normal, except of cotton, which is falling.	Locusts damaged crops in 18 villages of tahsīl Lyallpur and 3 of Toba Tek Singh. Condition of standing crops good.	...
15	Multán ...	0·01 at Sadr ...	1. Sufficient ... 3. Good.	Wheat, 16 seers ... Gram, 20 seers. Maize, 24¾ seers.	Crops average. Sowings of extra spring crops in progress.	...

GENERAL REMARKS

Rainfall.—Light rain has fallen in all districts except Rohtak, Gurgaon, Delhi, Ferozepore and Lahore.

Prices.—Prices are falling in Hissar, Gurgaon, Jullundur and Shahpur ; elsewhere unchanged.

Agricultural operations.—Sowings of extra spring crops in progress. Harvesting of rapeseed crop (Sarshaf) commenced in Hissar. Ploughings for and sowings of sugarcane and cotton in progress in Lahore, Amritsar and Ambála.

Crops and outturn.—Condition and prospects of standing crops generally good.

Damage done to crops.—Hail has caused considerable injury to the poppy crop in Ambála. Rats have damaged the wheat in Shahpur and Siálkot, and locusts have done some injury in Lyallpur. Rust has appeared in one tahsíl in Siálkot.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, Supdt.,
for *Director of Agriculture, Punjab.*

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SEVENTY THOUSAND THREE HUNDRED AND EIGHTY-FIVE births were registered in the province during the month of January 1907, giving a birth-rate of 41 *per mille* of population. Of the total number of births, 36,869 were boys and 33,516 were girls.

The total number of deaths registered from all causes in the province during the month of January 1907 was 77,599 against 84,527 in the previous month and 53,767 in the corresponding month of the past year, giving an annual death-rate of 45, 49 and 31 *per mille* of population per annum, respectively.

There was not a single death registered under the head of cholera.

The total mortality from plague amounted to 17,633 against 9,463 in the previous month and 2,093 in the corresponding month of the past year.

From small-pox 1,041 deaths were registered against 1,050 in the previous month and 1,266 in the corresponding month of the past year; fevers 40,608 against 52,976 and 30,809; dysentery and diarrhœa 1,222 against 1,674 and 1,001; respiratory diseases 5,667 against 6,077 and 5,660. During the month there were 17 deaths registered from suicide against 24 in the past month; wounding 35 against 33; accidents 218 against 232; snake-bite and killed by wild beasts 15 against 34; and from all other causes 11,143 against 12,961 in the previous month and 12,625 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 4th March 1907.

KASHI RAM, SUPERINTENDENT,
for *Sanitary Commissioner, Punjab.*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 6th March 1907.

KASHI RAM, *Supdt.,*
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 23rd February 1907 there were 936 births registered in the 40 large municipal towns (499 males and 437 females), giving a birth-rate of 35 *per mille* of population, and 1,167 deaths were registered (633 males and 534 females), giving a death-rate of 43 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 47 against 42 in the corresponding week of the previous year; Lahore 49 against 30; Amritsar 34 against 41; and Multán 25 against 34. There were 63 deaths reported from plague in Lahore, 41 in Sonepat, 26 in Rohtak, 23 in Kartárpur, 22 in Hoshiárpur, 12 each in Tánda-Urmar and Batála, 10 in Kasúr, 9 in Jagráon, 6 each in Delhi and Amritsar, 5 in Pánipat, 3 each in Jullundur, Ludhiána, Ráekot, Siálkot and Gujránwála, 2 in Ferozepore, and 1 each in Bhiwáni, Ambála and Jagadhri. Of the 28 deaths from small-pox, 12 were registered in Amritsar, 5 in Kasúr, 2 each in Hoshiárpur, Lahore and Multán, and 1 each in Sirsa, Batála, Wazirabad, Pind Dádan Khan and Chiniot.

Deaths reported from plague during the week ending 2nd March 1907 in the districts, including all municipal towns:—Hissar 42, Rohtak 496, Delhi 176, Karnál 53, Ambála 1,063, Hoshiárpur 487, Jullundur 856, Ludhiána 1,615, Ferozepore 318, Montgomery 71, Lahore 594, Amritsar 429, Gurdáspur 1,144, Siálkot 1,070, Gujránwála 1,419, Gujrát 521, Shahpur 65, Jhelum 53, Ráwalpindi 207, Attock 66, and Lyallpur 13; Patiála State 403, Kapurthala State 302, Máler Kotla State 182, Jínd State 93, Kalsia State 38, and Farídkot State 57. Total for the province 11,833. Total for the previous week 9,871. Total for the corresponding week of the previous year 1,323.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

BOMBAY, BARODA AND CENTRAL INDIA RAILWAY.

(INCLUDES THE RAJPUTANA STATE RAILWAY, THE HOLKAR STATE RAILWAY, THE SINDIA-NEEMUCH STATE RAILWAY, THE REWARI-BHATINDA-FAZILKA STATE RAILWAY, THE CAWNPORE-ACHNERA STATE RAILWAY, AND THE GODHRA-RUTLAM-NAGDA STATE RAILWAY.)

Abstract of the principal commodities carried on the Rájpútána-Málwa Railway during the month of October 1906, as compared with the same month of the previous year.

LAHORE, THURSDAY, MARCH 14, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 12th MARCH 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·22 at Sadr ... 0·25 at Hánsi. 0·09 at Budhláda. 0·09 at Sirsa. 0·20 at Tohána.	1. Sufficient ... 3. Good.	Wheat, 14½ seers Bájra, 19 seers. Gram, 20½ seers. Bijhar, 24 seers.	Unirrigated crops in fair condition where rainfall was sufficient. Prospects of irrigated crops good. Sarshaf being reaped.	...
2	Rohtak ...	0·31 at Sadr ... 0·28 at Gohána. 0·07 at Sámpla.	1. Sufficient ... 3. Good.	Wheat, 15½ seers Gram, 18½ seers. Maize, 20 seers. Jowár, 24 seers.	Standing crops flourishing. Average outturn expected.	...
3	Gurgaon ...	0·08 whole district	1. Sufficient ... 3. Good.	Below normal ...	Rapeseed (sarshaf) being reaped. Standing crops in good condition. Prospects of outturn good.	Ploughings commenced.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
4	Delhi ...	0·20 at Sadr ...	1. Sufficient ... 2. No complaint. 3. Good.	Low ...	Sowings of extra spring crops continue. Condition of standing crops good. Expected yield good.	Nil.
5	Ambála ...	1·11 at Sadr. 0·07 at Jagádhri ... 0·14 at Kasauli.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 16 to 17 seers. Gram, 17½ to 18 seers. Barley, 20 seers. Maize, 21½ seers. Jowár, 25 seers. Bájra, 21 seers.	Condition of crops good. Hail storm caused damage to gram crop.	Sowings of sugar-cane in progress.
6	Jullundur ...	0·90 at Sadr ... Less in Nakodar and Philaur and more in Nawáshahr.	1. Sufficient ... 3. Good.	Falling ...	Standing crops good ...	Ploughings commenced.
7	Ferozepore ...	0·07 at Sadr ...	1. Sufficient ... 3. Good.	Unchanged ...	Standing crops good Yield expected good. Sowings of extra spring crops continue.	...
8	Lahore ...	0·30 at Sadr ...	1. Sufficient ... 3. Good.	Ditto ...	Extra spring crops being sown. Prospects of standing crops good. Poppy crop average.	Ploughings for and sowings of cotton and sugarcane commenced.
9	Amritsar ...	1·01 at Sadr ... Less in Ajnála and Tarn Táran.	1. Sufficient ... 3. Good.	High of gram, jowár and bájra only.	Onion and vegetables being sown. Condition of standing crops good. Yield expected good Rapeseed (sarshaf) crop damaged to some extent by rain.	Ploughings for sugarcane and cotton continue.
10	Siálkot ...	1·55 at Sadr ...	1. Sufficient ...	Wheat, 20 seers ... Barley, 27 seers. Gram, 20 seers. Rice, 10 seers.	Sowings of vegetable commenced. Condition of standing crops generally good. Crops on low-lying land in tahsíl Siálkot slightly injured by water-logging. Hail fell in parts of tahsíls Siálkot and Daska, but no damage was done.	Ploughings for cotton and sugar-cane commenced.
11	Shahpur ...	0·72 at Sadr ... A little less in other parts.	1. Sufficient ...	Gram { below normal. Others above normal.	Extra spring crops being sown. Standing crops in good condition.	Ploughings in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	3·06 at Sadr ... 0·10 at Gujar Khan. 0·67 at Murree.	1. Sufficient ... 3. Good.	Wheat, 18 seers ... Bájra, 24 seers. Maize, 26 seers. Gram, 19 seers. Barley, 21 seers.	Prospects good ...	...
13	Miánwáli ...	0·53 at Sadr ...	1. Available ... 3. Fair.	Unchanged ...	Extra spring crops being sown Condition and expected yield of standing crops good, except on unirrigated lands in Bhakkar and Leiah, where they are below average. Locusts laid eggs in parts of Isa Khel tahsíl. Measures are being taken for their destruction.	...
14	Lyallpur ...	0·40 at Sadr ... 0·56 at Samundri. 0·28 at Toba Tek Singh.	1. Sufficient ...	Unchanged ...	Locusts damaged wheat and gram in some villages of Samundri tahsíl. Condition of standing crops good.	Sowings of sugarcane in progress.
15	Multán ...	0·02 at Sadr ...	1. Sufficient ... 3. Good.	Wheat, 16 seers ... Gram, 20 seers. Maize, 24¾ seers.	Standing crops average. Tobacco and extra spring sowings in progress.	...

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen in parts of Ambála, Amritsar, Siálkot and Ráwalpindi, and light in other districts.

Prices.—Prices of food-grains generally unchanged. Wheat is rising in Hissar; falling in Jullundur and Siálkot.

Agricultural operations.—Rapeseed crop (*sinapis dichotama*) being harvested in Hissar and Gurgaon. Sowings of extra spring crops continue in several districts Ploughings for and sowings of sugarcane and cotton in progress in Gurgaon, Ambála, Jullundur, Lahore, Amritsar, Siálkot, Shahpur and Lyallpur.

Crops and outturn.—Condition and prospects of standing crops generally good. Poppy crop average in Lahore.

Damage done to crops.—Damage by hail reported from Ambála. Crops also damaged by excessive rain and water-logging in parts of Amritsar and Siálkot, and by locusts in parts of Lyallpur. Eggs laid by locusts in Miánwáli: destructive measures taken.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

Snowfall Report.

The depth of snow at Dalhousie (Gurdaspur district) during the month of February 1907 was 12 feet 10 inches.
Ditto Murree (Rawalpindi district) during the month of February 1907 was 7 feet 6½ inches.
Ditto Kahuta ditto ditto ditto ditto 3 feet 6 inches.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of February 1907.

1.—HISSAR DISTRICT.

Rainfall of the month has greatly benefited the standing crops, but unhappily it was not of a general character. The irrigated crops are in a tolerably good condition where rainfall was sufficient. Prospects of irrigated crops and sailába are good. Fodder is sufficient, and cattle in good condition.

2.—ROHTAK DISTRICT.

No sowings this month. The standing cháhi and nahri crops are good. Crops in báráni tracts, where rain has fallen, are also in good condition. Yield of irrigated crops expected to be good, but the báráni yield will be very little except in parts which received good winter rain. Cattle generally in good condition. Canal water-supply sufficient.

3.—GURGAON DISTRICT.

Good rain was received throughout the district during the month under report, which did much benefit to the standing crops. Zaid rabi crops were sown in this month, as also sugarcane on canal lands. Standing crops were in a flourishing condition. Prospects of the rabi crop appeared good, though some damage was done by hailstone in certain villages of the district. Cattle in good condition. Fooder sufficient. Canal water was used only in the beginning of the month. Hill torrents came down, and certain areas were flooded to a small extent in a few villages of the Núh and Fírozpur tahsíls. Health of the people was good.

4.—DELHI DISTRICT.

No sowings in the district except in the suburbs of Delhi, where melons, &c. (an extra rabi crop) are being sown. Condition of the standing rabi crops is good. Outturn expected to be good. Cattle in good condition. Fodder sufficient. No complaints about canal irrigation. Rates of food-grains low. Hail fell in some villages, and did slight damage to the crop.

5.—KARNAL DISTRICT.

Statement returned for corrections.

6.—AMBALA DISTRICT.

Sowings of melon and sugarcane in progress. Condition of crops generally good. Expected yield good. Condition of cattle good. Gram crop suffered slightly in some places in low lands on account of heavy rain. Hail fell in some places, causing slight damage.

7.—SIMLA DISTRICT.

The rainfall in both tahsíls was sufficient. No sowings were made in either of the tahsíls. In the Simla tahsíl the condition of the crops is fair, and in the Kot Khái tahsíl average. The condition of cattle good. Fodder and grazing sufficient. Public health good. Water is sufficient in hill streams, but no land was watered during the month.

8.—KANGRA DISTRICT.

Nothing was sown during the month under report. Condition of crops fair, the heavy rains of the reason have affected growth of the rabi crops. Yield expected to be fair. Water sufficient in the kuhls for irrigation. Showers of hail fell in some villages in Pálampur tahsíl.

9.—HOSHIARPUR DISTRICT.

Rainfall during the month more than sufficient. Crops generally good. Good rabi crops expected. Condition of cattle on the whole satisfactory. Green fodder and bhúsa sufficient. Prices of food-grains falling.

10.—JULLUNDUR DISTRICT.

No sowings in progress. Condition of crops good. Expected yield good. Cattle in good condition. Hailstorms have caused damage to some crops in the Jullundur and Phillaur tahsíls.

11.—LUDHIANA DISTRICT.

Sowing of onion and vegetables completed during the month. Condition of standing crops good, except in a few villages, where the crops suffered from hailstorms. Rapeseed suffered the most. Condition of cattle good throughout the district. Irrigation from canals was fairly satisfactory. Prices were nearly stationary.

12.—FEROZEPORE DISTRICT.

There were no sowings during the month. Condition of standing rabi crops good, except wheat, sarshaf and tárámíra which were slightly damaged by hail in tahsíls Zíra, Moga, Muktsar and Fázilka. Yield expected good. Cattle in good condition. Sirhind canal flowed, and a normal area was irrigated. Agriculturists were generally well off. Stock of food-grains and fodder sufficient Green fodder available. Prices of food-grains stationary.

13.—MONTGOMERY DISTRICT.

No sowings during the month Condition of crops in the Sutlej tahsíls good, while in the Ravi tahsíls it is average. River inundations damaged the charal, massar and gram crops in the Ravi tahsíls to some extent. Small hail showers have fallen, but no damage to crops resulted. In tahsíl Dipálpur, however, the crops have been affected by kungi (rust). Expected yield average in the Ravi tahsíls, and good in the Sutlej tahsíls. Cattle in good condition. Fodder sufficient. The canals in the Sutlej tahsils have not worked during the month. Some of the Ravi canals flowed slightly, but not sufficiently to give irrigation.

14.—LAHORE DISTRICT.

Sugarcane, cotton, tobacco, onions and vegetables sown during the month. Condition of crops good, except that wheat crop affected by mildew in damp places, and some damage was done by floods in the Annhi nala. The expected yield of rabi crops good, except that wheat on riverain lands will not yield enough produce. Condition of cattle generally good. The perennial canals worked well; the Deg and its branches and the Annhi canal got some water owing to floods, and the Annhi spoilt some crops. Some jhalars on Deg were working; the inundation canals remained dry. There were also floods in the Ravi, but not in the Sutlej. Prices of food-grains remained stationary.

15.—AMRITSAR DISTRICT.

Onions and vegetables being sown. Condition of standing crops good In certain places crops damaged by hailstorms. Yield expected to be good. Condition of cattle good. Health of people good. No complaint of insufficiency of canal water. Floods in Sakki nala damaged low-lying areas. Much water in rivers Beas and Ravi.

16.—GURDASPUR DISTRICT.

No sowings during the month owing to heavy rain. Condition of crops generally good. Heavy rain has caused injury in low-lying lands, and hail has done some slight damage. Yield of sugarcane good. A good rabi expected. Condition of cattle good and fodder abundant. Mountain torrents flowing. No floods. Exceptionally heavy rainfall, particularly in Gurdáspur tahsíl.

17.—SIALKOT DISTRICT.

Planting of tobacco in progress. Condition of crops generally good. A slight shower of hailstone damaged the massar crop in three villages of the Zafarwál tahsíl, and wheat crop slightly injured by kungi (rust) in Pasrúr and Zafarwál tahsíls. Pressing of sugarcane in progress. Outturn good. Condition of cattle generally good. Fodder sufficient. Water sufficient according to season in Bajwat canals. No flood during the month.

18.—GUJRANWALA DISTRICT.

Sowings of extra rabi crops in progress. Preparations for cotton and sugarcane being made. Rain was opportune and benefited the crops generally. A fair yield is expected. Condition of cattle good. Plague prevalent throughout the district, and there is fear of the kharíf sowings being affected thereby. No complaint of supply of canal water. Prices of food-grains slightly falling.

19.—GUJRAT DISTRICT.

No sowings. Tho excessive rain and the prolonged cloudy weather during the month is said to have marred the growth and general condition of the crops, especially those of early sowings Sunshine is now needed. Lightening is said to have damaged the gram crops in certain tracts of the district, while locusts are reported to have done some damage in a few villages of the Khárián tahsíl; otherwise the condition of crops is generally good. Fodder sufficient. Cattle in good condition. Prices stationary.

20.—SHAHPUR DISTRICT.

Sowings for zaid rabi in progress. Ploughing for kharíf commenced. Standing crops in good condition Locusts appeared in various parts of the colony and in hill circle of Khusháb, but passed on without doing much damage. No crops harvested. Cattle generally in good condition. Fodder sufficient. No inundation canal ran during the month The Jhelum canal closed on 6th February. Two floods in the river irrigated the standing crops to some extent.

21.—JHELUM DISTRICT.

There was splendid rainfall all over the district, which was of considerable benefit to standing crops and will greatly facilitate the ploughing for the kharíf crops and the sowing of extra rabi crop. The condition of standing crops, except gram, continued to be very satisfactory. There was a slight fall of hailstone in a few villages of the Chakwál tahsil, but no appreciable damage was done to the standing crops. No definite estimate of yield can be formed as yet, but, barring any unforeseen calamity, there is every probability of a very good outturn. The condition of live stock is generally good. Fodder is sufficient everywhere. There was a considerable rise in the Jhelum river on the 11th, but no appreciable damage was reported anywhere. Prices stationary. Locusts have appeared in certain villages of the Jhelum and Chakwál tahsíls, and have laid and are laying eggs. Instructions for their destruction have been issued and are being carried out. No appreciable damage has been reported up to this time.

22.—RAWALPINDI DISTRICT.

Rains received during the month were ample and well distributed. No sowings were effected. Condition of rabi crops excellent. Condition of cattle good. Fodder sufficient.

23.—ATTOCK DISTRICT.

Rains received during the month were ample and well distributed. Did much good to the rabi crops. Condition of rabi crops excellent. Condition of cattle good. With the exception of the Attock tahsíl, all tahsíls were visited by locust, which did no injury worth mention.

24.—MIANWALI DISTRICT.

Sufficient rain fell during the month under report. General condition of rabi crops of Miánwáli and Isa Khel tahsíls and irrigated crops of Bhakkar and Leiah tahsíls good, but that of unirrigated crops of Bhakkar and Leiah average. Expected yield of rabi crops of Miánwáli and Isa Khel tahsíls and irrigated crops of Bhakkar and Leiah tahsíls good, and that of unirrigated crops of Bhakkar and Leiah tahsíls average. General condition of cattle fair. Public health generally good No inundation Water flowed in hill torrents of tahsíl Isa Khel and flooded the adjoining lands. Locusts appeared in two villages of tahsíl Isa Khel, but did no damage to crops. Early steps were taken for their destruction. Prices stationary.

25.—LYALLPUR DISTRICT.

Ploughing for cotton and sugarcane have commenced. The standing crops have improved since the rain and show excellent promise. Sugarcane pressing completed. Outturn is good. Fodder is plentiful. Irrigation from the canal is steady. Some complaints of locusts which were especially destructive in 15 villages in Lyallpur.

26.—JHANG DISTRICT.

Extra rabi crops sowings in progress ; nearly quarter completed. It rained well during the month and proved beneficial to the standing rabi crops. Condition of crops average. Condition of cattle generally good. Fodder sufficient. Canals flowing. Water not sufficient in rivers. It hailed in some places of the district. Locusts also appeared, but did not settle and did no damage.

27.—MULTAN DISTRICT.

Sugarcane and extra rabi sowings continue. Condition of standing crops average. Condition of cattle good. Health of people good. Inundation canals dry, and Sidhnai flowing.

28.—MUZAFFARGARH DISTRICT.

Sugarcane, tobacco and chillies were sown. Condition of crops on the whole good. Yield expected to be good if the rains are timely. Public health good. Canals are dry. No inundation. Food and fodder sufficient.

29.—DERA GHAZI KHAN DISTRICT.

Vegetables and tobacco being sown to small extent. Condition of crops and expected yield fair. Condition of cattle good.

P. A. GABRIEL, SUPDT.,

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 13th March 1907.

KASHI RAM, *Supdt.,*
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 2nd March 1907 there were 942 births registered in the 42 large municipal towns (483 males and 459 females), giving a birth-rate of 34 *per mille* of population, and 1,299 deaths were registered (668 males and 631 females), giving a death-rate of 47 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 54 against 39 in the corresponding week of the previous year; Lahore 58 against 30; Amritsar 40 against 38; and Multán 22 against 23. There were 94 deaths reported from plague in Lahore, 39 in Kartárpur, 36 in Rohtak, 23 in Hoshiárpur, 18 in Gujránwála, 16 in Ludhiána, 15 in Jagráon, 14 in Delhi, 13 each in Sonepat and Kasúr, 8 in Tánda-Urmar, 7 each in Amritsar and Siálkot, 5 each in Pánipat and Batála, 4 each in Jullundur and Ráekot, and 1 each in Hánsi and Ambála. Of the 33 deaths from small-pox, 13 were registered in Amritsar, 3 each in Wazírabad, Pind Dádan Khan and Multán, 2 each in Lahore and Bhera, and 1 each in Hissar, Bhiwáni, Tánda-Urmar, Jullundur, Kasúr, Batála and Jhang-Maghiána.

Deaths reported from plague during the week ending 9th March 1907 in the districts, including all municipal towns:—Hissar 18, Rohtak 451, Gurgaon 1, Delhi 167, Karnál 117, Ambála 1,095, Hoshiárpur 583, Jullundur 957, Ludhiána 1,489, Ferozepore 628, Montgomery 69, Lahore 797, Amritsar 441, Gurdáspur 1,362, Siálkot 1,235, Gujránwála 1,349, Gujrát 750, Shahpur 202, Jhelum 42, Ráwalpindi 300, Attock 51 and Lyallpur 58; Patiála State 1,105, Kapurthala State 384, Máler Kotla State 205, Jínd State 91, Kalsia State 42, Farídkot State 116, and Nabha State 534. Total for the province 14,639. Total for the previous week 12,048. Total for the corresponding week of the previous year 1,391.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

GENERAL REMARKS

Rainfall.—Good to light rain has fallen in all districts except Ferozepore and Amritsar.

Prices.—Prices of food-grains slightly rising in Siálkot; falling in Jullundur, Ferozepore, Shahpur, Ráwalpindi and Lyallpur; unchanged elsewhere.

Agricultural operations.—Harvesting of rapeseed crop (Sinapis dichotoma) in progress in Rohtak, Gurgaon and Amritsar. Barley crop also being reaped in Gurgaon. Sowings of extra spring crops continue. Ploughings for and sowings of autumn crops going on in some districts.

Crops and outturn.—Condition and prospects of standing crops generally good. Outturn of rapeseed (Sinapis dichotoma) in parts of Amritsar decreased owing to rain. Poppy crop average in Lahore.

Damage done to crops.—Crops slightly damaged by hail in parts of Gurgaon and Miánwáli. Locusts also damaging crops in Lyallpur and parts of Shahpur and have laid eggs in Miánwáli: destructive measures being taken.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture Punjab.

Notes on the Condition and Prospects of Crops, &c., in Karnal District of the Punjab during the month of February 1907, received too late for insertion in the Supplement to the "Punjab Gazette," dated 14th March 1907.

5.—KARNAL DISTRICT.

Onion and tobacco sown during the month. Condition of the standing crops good. Crops damaged by locusts and hailstones have revived. Yield of sugarcane good. Condition of cattle generally good throughout the district. There were floods in the Sarusti and Ghaggar streams. The Western Jumna canal and the Sirsa branch did not flow for a short period in this month. Hail fell in the Pánipat and Kaithal tahsíls, but no damage was done.

Prices nearly stationary. Fodder and water sufficient.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE;
The 19th March 1907.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 9th March 1907 there were 991 births registered in the 43 large municipal towns (530 males and 461 females), giving a birth-rate of 35 *per mille* of population, and 1,616 deaths were registered (804 males and 812 females), giving a death-rate of 58 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 70 against 38 in the corresponding week of the previous year; Lahore 79 against 22; Amritsar 51 against 47; and Multán 22 against 26. There were 148 deaths reported from plague in Lahore, 84 in Kartárpur, 56 in Rohtak, 35 in Jullundur, 32 in Hoshiárpur, 29 in Kasúr, 28 in Gujránwála, 22 in Delhi, 20 in Ludhiána, 19 in Batála, 17 in Amritsar, 14 in Ambála, 12 in Jagráon, 7 in Ráekot, 4 each in Fánipat and Siálkot, 3 in Jagadhri, 2 in Tánda-Urmar, and 1 each in Bhiwáni, Jhajjar, Sonepat, Ferozepore, Ráwalpindi and Jhang-Maghiána. Of the 32 deaths from small-pox, 5 were registered in Multán, 3 in Amritsar, 2 each in Bhiwáni, Rewári, Palwal, Tánda-Urmar, Lahore, Batála, Wazírabad, and Bhera, and 1 each in Hissar, Panipat, Hoshiárpur, Jullundur, Kasúr, Pind Dádan Khan, Jhang Maghána and Chiniot.

Deaths reported from plague during the week ending 16th March 1907 in the districts, including all municipal towns:—Hissar 29, Rohtak 804, Gurgaon 7, Delhi 197, Karnál 172, Ambála 1,647, Hoshiárpur 980, Jullundur 1,399, Ludhiána 1,658, Ferozepore 515, Montgomery 85, Lahore 989, Amritsar 547, Gurdáspur 1,758, Siálkot 1,902, Gujránwála 2,606, Gujrát 1,512, Shahpur 330, Jhelum 109, Ráwalpindi 267, Attock 55, Mianwali 1, Lyallpur 132 and Multán 1; Patiála State 619, Kapurthala State 476, Máler Kotla State 204, Jínd State 98, Kalsia State 85, Farídkot State 112, and Nabha State 257. Total for the province 19,553. Total for the previous week 14,651. Total for the corresponding week of the previous year 1,910.

3	Gu[illegible]n ...	0·70 at Sadr ... More in other parts of district.	1. Sufficient ... 3. Good.	Below normal ...	Harvesting of rapeseed and barley continue. Standing crops in good condition. Prospects of outturn good.	Ploughings in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn
4	Delhi ...	0·15 at Sadr ... 0·14 at Mahrauli. 1·11 at Ballabgarh. 0·44 at Sonepat.	1. Sufficient ... 2. No complaint. 3. Good.	Low ...	Sowings of extra spring crops completed. Condition of standing crops good. Yield expected good.	Sowings of sugarcane commenced.
5	Ambála ...	1·50 at Sadr ... 0·90 at Jagádhri. 1·32 at Naráingarh. 1·13 at Kharar. 1·38 at Rúpar. 2·17 at Kasauli.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 16 to 17 seers. Gram, 17½ to 18 seers. Barley, 20 seers. Maize, 21½ seers. Jowár, 25 seers. Bájra, 22 seers.	Condition of crops generally good. Slight hail fell in Naráingarh, but no damage done. Rain damaged gram, rape seed and poppy crops slightly.	...
6	Jullundur ...	1·18 throughout the district.	1. Sufficient ... 3. Good.	...	Vegetables sowings commenced. Standing crops good.	Ploughings in progress.
7	Ferozepore ...	0·58 throughout the district.	1. Available ... 3. Good.	Falling ...	Crops good. Yield expected good. Sowings of extra spring crops continue.	...
8	Lahore ...	0·52 at Sadr ... 0·41 at Chunián. 0·58 at Kasúr. 0·42 at Sharakpur.	1. Sufficient ...	Unchanged ...	Sowings of extra spring crops continue. Prospects of standing crops good. Poppy crop average.	Cotton and sugarcane being sown.
9	Amritsar ...	0·54 at Sadr ... More in tahsíls Ajnála and Tarn Táran.	1. Sufficient ... 3. Good.	High of gram, jowár and bájra only.	Sowings of extra spring crops continue. Condition of standing crops good. Yield expected good.	Cotton and sugarcane sowings in progress.
10	Siálkot ...	1·57 at Sadr ... 1·92 at Daska. 1·52 at Raya. 1·82 at Pasrúr. 1·43 at Zafarwál.	1. Sufficient ...	Wheat, 19 seers ... Barley, 26 seers. Gram, 19 seers. Rice, 9 seers.	Sowings of extra spring crops continue. Condition of standing crops good, except that of gram, which has been damaged by rain.	Sowings commenced. Except in the riverain villages of the Raya and Siálkot tahsíls.
11	Shahpur ...	Slight rainfall at Sadr.	1. Sufficient ... 3. Good.	Gram below normal. Others above normal.	Sowings of extra spring crops continue. Standing crops in good condition. Gram slightly affected by lightning. Locusts caused some damage in tahsíls Shahpur and Sargodha.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·67 at Sadr ... 0·28 at Gujar Khan. 0·46 at Kahúta. 1·49 at Murree.	1. Sufficient ... 3. Good.	Wheat, 18½ seers Bájra, 23 seers. Maize, 24 seers. Gram, 19 seers. Barley, 32 seers.	Prospects good. Locusts appeared in some villages of Gujar Khan and are laying eggs.	...
13	Miánwáli ...	0·21 at Sadr ... 0·05 at Leiah.	1. Available ... 3. Fair.	Unchanged ...	Sowings of extra spring crops continue. Condition and expected yield of standing crops good, except on unirrigated crops of Bhakkar and Leiah tahsíls, which is below average. Locusts appeared in Miánwáli and Isa Khel tahsíls and damaged the crops slightly and laid eggs in tahsíl Isa Khel, which are being destroyed.	...
14	Lyallpur ...	0·20 at Sadr ... 0·24 at Samundri. 0·18 at Toba Tek Singh.	1. Plentiful ... 3. Good.	Falling ...	Locusts damaged late sown wheat throughout the district. Sowings of extra spring crops continue. Standing crops fair.	Sowings of sugar-cane in progress.
15	Multán ...	0·09 at Sadr ... 0·25 at Mailsi. 0·19 at Lodhrán. 0·13 at Shujabad. 0·12 at Kabírwála.	1. Sufficient ... 3. Good.	Wheat, 16 seers ... Gram, 20 seers. Maize, 26½ seers.	Standing crops average. Sowings of extra spring crops continue.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen all over the Province.

Prices.—Prices of food-grains practically unchanged.

Agricultural operations.—Harvesting of rapeseed crop (Sinapis dichotoma) in progress in Rohtak and Gurgaon. Barley crop also being reaped in the latter. Sowings of extra spring crops continue. Sugarcane and cotton being sown in Delhi, Lahore, Amritsar, Siálkot and Lyallpur. Ploughings for the autumn crops in progress in Gurgaon and Jullundur.

Crops and outturn.—Condition and prospects of standing crops generally good. Outturn of rapeseed crop (Sinapis dichotoma) average in Rohtak. Poppy crop average in Lahore.

Damage done to crops.—Hail fell in Ambála, but did no damage. Rain has damaged gram in Siálkot, and gram, rapeseed and poppy in Ambála. The gram crop has also been slightly affected by lightening in Shahpur. Locusts have caused some damage in Shahpur, Miánwáli and Lyallpur, and laid eggs in Ráwalpindi and Miánwáli; measures being taken for destruction.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

* Observations of 28 days.

The first seven days of January were rainless with skies generally free from cloud, and as a result temperature both by day and by night was considerably higher than usual. On the 7th a depression formed over Baluchistán, and had advanced into the south-west Punjab by the morning of the 8th, giving snow in Kashmír, rain at Lahore and cloud over nearly the whole of upper India; it remained stationary for the next two days and gave precipitation over the Punjab, excluding the south-western districts, and in the Frontier Province and Kashmír. The depression then filled up rapidly, having almost entirely disappeared by the morning of the 11th, and was followed by clear skies and cooler weather. A second depression crossed from Persia on the 13th, but it did not affect the weather in upper India beyond giving light cloud in the Punjab and heavy cloud accompanied by precipitation on one day in Kashmír. A third depression which travelled slowly from north Persia began to influence the weather in Kashmír on the 19th, and it established low pressure conditions in north west India which lasted throughout the remainder of the month, being intensified from the 20th to the 26th and again from the 29th to the 30th by the eastward advance of Persian depressions. During this period precipitation was of almost daily occurrence in Kashmír, but it did not extend over the plains of the Punjab except the submontane districts on the 24th, 25th and 30th. The skies, however, were generally cloudy and the weather was very much warmer than usual.

Pressure and winds.—Pressure was below normal at all stations on the plains, owing to the persistence of low pressure conditions from the 19th to the end of the month, but at the hill stations it was practically normal; the vertical pressure gradients were in consequence not so steep as usual. Winds were of approximately normal strength except at Cherát, where their velocity averaged only 8 miles an hour instead of 13 miles. The wind directions were fairly normal at the majority of stations, the most marked departure from the normal occurring at Lahore, where the wind was south-south east instead of west-north-west.

Temperature.—Temperature conditions were generally determined by the rainfall distribution, and in consequence temperature was higher than usual both by day and night for the first ten days; on the 4th the excess in day temperature averaged 8° in the Punjab and over 15° at Srínagar and Leh on the 7th, while the night temperature was 11° in excess in the Punjab on the 9th: the wet weather at this time however caused a rapid fall in temperature, especially during the day, and it then remained about normal until the 17th. With the establishment of low pressure conditions in north-west India weather became much warmer than usual, and the maximum phase of temperature was reached on the 26th, when it averaged 8¼° above normal, and the minimum was 17° in excess at Lahore and 14° at Ludhiána and Ambála. From this date the weather gradually cooled until the 30th, when owing to the advance of a cold wave from Persia it fell very rapidly on the 31st and was in slight defect.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmir and the North-West Frontier Province on each day of the month, and the lowest temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.

Cloud and humidity.—As is usual in January, skies were very lightly clouded in the Punjab and heavily overcast in Kashmír, but there was more moisture in the air than usual, although the relative humidity of the air was approximately normal.

Rainfall.—The month was much drier than usual at all the plains stations except Ráwalpindi and wetter at the hill stations; the south-western districts were the most noticeable in the former respect, for Multán and Montgomery did not get a drop of rain and at Sirsa only 10 cents were recorded.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for January 1907:—

KASHI RAM, SUPERINTENDENT,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SIXTY-TWO THOUSAND AND FIFTY-ONE births were registered in the province during the month of February 1907, giving a birth-rate of 40 *per mille* of population. Of the total number of births, 32,596 were boys and 29,455 were girls.

The total number of deaths registered from all causes in the province during the month of February 1907 was 87,423 against 77,599 in the previous month and 41,825 in the corresponding month of the past year, giving an annual death-rate of 57, 45 and 27 *per mille* of population per annum, respectively.

There were 6 deaths registered under the head of cholera in the Kángra district.

The total mortality from plague amounted to 36,973 against 17,633 in the previous month and 3,779 in the corresponding month of the past year. The largest number of deaths from plague during the month were registered in the following districts:—Gurdáspur 4,969, Ludhiána 4,825, Gujránwála 4,342, Siálkot 4,273, Ambála 3,230, Jullundur 2,965, and Lahore 2,885.

From small-pox 919 deaths were registered against 1,041 in the previous month and 1,134 in the corresponding month of the past year; fevers 32,647 against 40,608 and 22,327; dysentery and diarrhœa 987 against 1,222 and 676; respiratory diseases 5,634 against 5,667 and 4,218. During the month there were 16 deaths registered from suicide against 17 in the past month; wounding 29 against 35; accidents 255 against 218; snake-bite and killed by wild beasts 10 against 15; and from all other causes 9,947 against 11,143 in the previous month and 9,360 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 26th March 1907.

14	Lyallpur ...	...	1. Plentiful ... 3. Good.	Falling ...	Locusts damaging crops in Samundri and Toba Tek Singh tahsíls. Sowings of extra spring crops continue. Condition of standing crops fair	Sowings of sugarcane and cotton in progress.
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 16¼ seers Gram, 20¼ seers. Maize, 26½ seers.	Standing crops average Extra spring crops being sown.	...

GENERAL REMARKS.

Rainfall.—Light rain has fallen in all districts except Rohtak, Ferozepore, Shahpur, Lyallpur and Multán.

Prices.—There are slight fluctuations in the prices of food-grains. Wheat is rising in Ambála and Siálkot; falling in Hissar, Jullundur, Ferozepore, Lyallpur and Multán.

Agricultural operations.—Harvesting of spring crops in progress in Hissar, Gurgaon, Delhi and Lahore. Sowings of extra spring crops continue. Ploughings for and sowings of autumn crops going on in some districts.

Crops and outturn.—Condition and prospects of standing crops generally good, except of gram in Siálkot. Prospects of outturn of spring crops good, except of rapeseed (Sinapis dichotoma) and tára míra (Raphanus raphanistrum) in Ferozepore, of rapeseed (Sinapis dichotoma) in Lahore, and of wheat, gram and rapeseed (Sinapis dichotoma) in Amritsar due generally to heavy rains. Poppy crop average in Lahore.

Damage done to crops.—Slight damage to crops by locusts in Shahpur and Lyallpur. Locusts laid eggs in parts of Miánwáli; destructive measures taken. Severe damage to crops by hailstorm in eight villages of Miánwáli tahsíl.

Agricultural stock.—Cattle in good condition.

Pasturage.—Fodder scarce in parts of Miánwáli; elsewhere sufficient.

Water-supply.—No complaint.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 3rd April 1907.

KASHI RAM, *Supdt.,*
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 23rd March 1907 there were 1,019 births registered in the 43 large municipal towns (496 males and 523 females), giving a birth-rate of 37 *per mille* of population, and 2,196 deaths were registered (1,151 males and 1,045 females), giving a death-rate of 79 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 97 against 47 in the corresponding week of the previous year; Lahore 108 against 31; Amritsar 59 against 80; and Multán 25 against 34. There were 272 deaths reported from plague in Lahore, 86 in Rohtak, 72 in Kasúr, 67 in Kartárpur, 61 each in Jullundur and Gujránwála, 54 in Batála, 50 in Delhi, 49 in Ambála, 38 in Siálkot, 32 in Hoshiárpur, 30 in Amritsar, 21 in Jagráon, 19 in Ludhiána, 16 each in Bhiwáni and Ráekot, 14 in Jagádhri, 8 in Tánda Urmar, 6 each in Wazirabad and Jalálpur, 4 each in Rewári, Pánipat and Khusháb, 3 in Chiniot, 2 each in Gujrát and Jhelum, and 1 each in Hissar, Shahabad, Ferozepore and Ráwalpindi. Of the 34 deaths from small-pox, 7 were registered in Tánda Urmar, 6 in Hissar, 5 each in Bhiwáni and Amritsar, 2 each in Hoshiárpur, Pind Dádan Khan and Multán, and 1 each in Palwal, Batála, Siálkot, Wazirabad and Chiniot. There was 1 death recorded from cholera in Amritsar.

Deaths reported from plague during the week ending 30*th March* 1907 *in the districts, including all municipal towns:*—Hissar 41, Rohtak 1,765, Gurgaon 53, Delhi 375, Karnál 593, Ambála 1,559, Hoshiárpur 768, Jullundur 2,160, Ludhiána 1,279, Ferozepore 1,278, Montgomery 187, Lahore 2,023, Amritsar 949, Gurdáspur 2,215, Siálkot 2,673, Gujránwála 5,219, Gujrát 1,826, Shahpur 815, Jhelum 269, Ráwalpindi 438, and Attock 84; Patiála State 1,219, Kapurthala State 669, Máler Kotla State 83, Jínd State 107, Kalsia State 71, Farídkot State 104, and Nábha State 135. Total for the province 28,960. Total for the previous week 24,391. Total for the corresponding week of the previous year 3,170.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 9TH APRIL 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 15 seers ... Gram, 20¾ seers. Bájra, 18¾ seers.	Harvesting going on. Outturn of irrigated crops good; that of unirrigated average.	Cotton sowings in progress on irrigated land.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 15 seers ... Gram, 18 seers. Jowár, 23 seers. Maize, 20 seers.	Harvesting commenced. Outturn average.	Sowings in progress on irrigated land.
3	Gurgaon ...	...	1. Sufficient ... 3. Good.	Below normal ...	Harvesting going on. Outturn average. Standing crops in good condition.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint. 3. Good.	Low ...	Harvesting in progress. Outturn good.	Sowing of sugarcane continue.
5	Ambála ...	...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 16¼ to 17 seers. Gram, 20 to 21 seers. Barley, 20 seers. Maize, 21 seers. Jowár, 30 seers. Bájra, 20 seers.	Condition of crops good	Sowings of sugarcane in progress.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Extra spring crops being sown. Condition of standing crops good.	Sugarcane and cotton being sown. Ploughings for other autumn crops continue.
7	Ferozepore ...	...	1. Green fodder not abundant. 3. Good.	Falling ...	Crops slightly damaged by hail. Yield expected to be good, except of rapeseed (sarshaf) and tára míra (Raphanus raphanistrum). Sowings of extra spring crops continue.	...
8	Lahore ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Extra spring crops being sown. Rapeseed (sarshaf) and tára míra (Raphanus raphanistrum) being harvested. Outturn of rapeseed much below the average. Poppy crop average.	Sowings of cotton and sugarcane continue.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	High of gram and maize only.	Extra spring crops are being sown. Harvesting of spring crops commenced. Yield generally good, except of rapeseed, in tahsíl Tarn Táran. Yield of gram likely to be short. Condition of standing crops good.	Sowings of cotton and sugarcane continue.
10	Siálkot ...	0·25 at Sadr ...	1. Sufficient ... 3. Good.	Wheat, 19 seers ... Barley, 26 seers. Gram, 19 seers. Rice, 9 seers.	Sowings of extra spring crops continue. Condition of standing crops, except gram, good. Reaping of barley commenced.	Sowings continue.
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat, Bárley, } normal. Bájra, Jowár, Maize, } above normal. Gram, below normal.	Sowings of extra spring crops in progress. Standing crops in good condition.	Ploughings and sowings continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·10 at Sadr ... 0·10 at Gujar Khan. 0·25 at Murree.	1. Sufficient ... 3. Good.	Wheat, 18½ seers Bájra, 24 seers. Maize, 25½ seers. Gram, 19 seers. Barley, 26½ seers.	Prospects good ...	...
13	Miánwáli ...	0·12 at Sadr ...	1. Procurable ... 3. Fair.	Falling ...	Reaping of gram and Ussun (Raphanus raphanistrum) commenced. Sowings of extra spring crops going on. Condition of crops good in Miánwáli and Isa Khel tahsíls: average in Bhakkar and Leiah. Locusts laid eggs in tahsíl Isa Khel.	...
14	Lyallpur ...	...	1. Sufficint ... 3. Good.	Unchanged ...	Locus's damaged crops throughout the district. Eggs and hoppers being distroyed. Standing crops in good conditon.	Sowings of sugarcane and cotton continue.
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 16¾ seers Gram, 20¾ seers. Maize, 25½ seers.	Standing crops average. Sowings of extra spring crops continue.	...

GENERAL REMARKS.

Rainfall.—Slight rain fell in parts of Siálkot, Ráwalpindi and Miánwáli districts.

Prices.—There are slight fluctuations in the prices of food-grains. Wheat is rising in Rohtak and falling in Ambála, Ferozepore, Siálkot, Miánwáli and Multán.

Agricultural operations.—Harvesting of spring crops in progress in Hissar, Gurgaon, Rohtak, Delhi, Lahore, Amritsar, and Siálkot. Ploughings for and sowings of autumn crops continue. Extra spring crops still being sown in some districts.

Crops and outturn.—Condition and prospects of standing crops generally good, except of gram in Siálkot. Outturn of spring crops where harvested, good to average, except of rapeseed (Sinapis dichotoma) and tára míra (Raphanus raphanistrum) in Ferozepore, and of rapeseed in Lahore. Yield of gram likely to be short in Amritsar. Poppy crop average in Lahore.

Damage done to crops.—Crops damaged slightly by hail in Ferozepore and by locusts in Lyallpur. Eggs and hoppers being destroyed in Lyallpur. Locusts have also laid eggs in parts of Miánwáli.

Agricultural stock.—Cattle in good condition.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 9th April 1907.

KASHI RAM, *Supdt.,*
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 30th March 1907 there were 938 births registered in the 43 large municipal towns (489 males and 449 females), giving a birth-rate of 34 *per mille* of population, and 2,351 deaths were registered (1,223 males and 1,129 females), giving a death-rate of 84 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 109 against 47 in the corresponding week of the previous year; Lahore 127 against 31; Amritsar 54 against 80; and Multán 35 against 34. There were 365 deaths reported from plague in Lahore, 137 in Rohtak, 90 in Kasúr, 70 in Gujránwála, 67 in Jullundur, 63 in Ambála, 58 in Kartárpur, 55 in Batála, 41 each in Delhi and Siálkot, 39 in Amritsar, 35 in Bhiwáni, 31 in Hoshiárpur, 24 in Jagraon, 23 in Ludhiána, 20 in Jagádhri, 16 in Ráekot, 14 each in Tánda Urmar and Wazirabad, 7 in Pánipat, 5 in Kaithal, 4 each in Gujrát, Khusháb, and Ráwalpindi, 3 each in Sirsa and Karnál, 2 each in Ferozepore and Bhera, and 1 each in Rewári, Jalálpur, Jhelum, Pind Dádan Khan and Jhang-Maghiána. Of the 26 deaths from small-pox, 5 were registered in Hissar, 3 each in Bhiwáni and Multán, 2 each in Rewári, Amritsar and Pind Dádan Khan, and 1 each in Sirsa, Rohtak, Jhajjar, Kaithal, Tánda Urmar, Kasúr, Batála, Gujránwála and Chiniot.

***Deaths reported from plague during the week ending 6th April* 1907 *in the districts, including all municipal towns*:**—Hissar 100, Rohtak 1,979, Gurgaon 137, Delhi 577, Karnál 733, Ambála 1,678, Hoshiárpur 818, Jullundur 2,475, Ludhiána 1,411, Ferozepore 1,790, Montgomery 269, Lahore 2,170, Amritsar 1,132, Gurdáspur 2,275, Siálkot 3,781, Gujránwála 5,254, Gujrát 2,659, Shahpur 1,184, Jhelum 327, Ráwalpindi 436, Attock 231, and Multán 1; Patiála State 1,236, Kapurthala State 764, Máler Kotla State 106, Jínd State 200, Kalsia State 119, Farídkot State 117, and Nábha State 277. Total for the province 34,436. Total for the previous week 29,154. Total for the corresponding week of the previous year 4,275.

KASHI RAM, *Supdt.*,
for *Sanitary Commissioner, Punjab.*

No. 16 of 1907.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES

Published by Authority.

LAHORE, THURSDAY, APRIL 18, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 16TH APRIL 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	1.64 at Sadr ... 0.20 at Bhiwáni. 0.26 at Fatahabad. 0.28 at Hánsi. 0.07 at Sirsa.	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Bájra, 18 seers. Gram, 20 seers. Bijhar, 21 seers.	Crops in fields adjoining Hissar town seriously damaged by hail and strong wind and to some extent in eastern parts of Fatahabad. Harvesting of spring crops in progress.	...
2	Rohtak ...	0.77 at Sadr ... 0.55 at Gohána. 0.36 at Sámpla.	1. Sufficient ... 3. Good.	Wheat, 15 seers ... Gram, 19 seers. Jowár, 24 seers. Maize, 21 seers.	Crops being harvested: outturn good.	Sowing of sugar-cane and cotton in progress.
3	Gurgaon ...	0.11 at Sadr ... More rain was received at a few stations in the district.	1. Sufficient ... 3. Good.	Below normal ...	Rabi crops being reaped. Standing crops in good condition. Prospects of outturn good.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
4	Delhi ...	0·23 at Sadr ... 0·10 at Ballabgarh 0·54 at Panipat ...	1. Sufficient ... 2. No complaint. 3. Good.	Low ...	Harvesting of spring crops in progress: yield expected go.d.	Sowings of sugar-cane continue.
5	Ambála ...	0·31 at Sadr ... 0·41 at Rúpar. 0·70 at Kasauli. Weather cloudy.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 16¼ to 17 seers. Gram, 20 to 21 seers. Barley, 20 seers. Maize, 20 seers. Jowár, 30 seers. Bájra, 20 seers.	Condition of crops fair ...	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Falling ...	Vegetable sowings continue. Standing crops good.	Sowings of sugar-cane and cotton continue.
7	Ferozepore ...	1·50 throughout the district.	1. Not abundant. 3. Gool.	Falling ...	Spring crop being harvested: yield expected good except of sarshaf (rapeseed) and tá-amíra (Raphanus raphanistrum). Sowing of extra spring crops nearly finished.	...
8	Lahore ...	1·35 at Sadr ... 0·36 at Chunián. 0·35 at Kasúr. 1·14 at Sharakpur.	1. Sufficient ... 3. Good.	Unchanged ...	Sowings of extra spring crops continue. Rape seed (sarshaf) and táramíra (Raphanus raphanistrum) being harvested. Outturn of rapeseed much below average Opium crop average.	Cotton and sugar-cane being sown.
9	Amritsar ...	0·39 at Sadr ... More in Tarn Táran; less in Ajnála.	...	High of gram and maize only.	Vegetables, tobacco and melons being sown. Harvesting of spring crops continues. Condition of standing crops fair, except of sarshaf (rapeseed) and gram, which is short owing to heavy rains. Serious damage done to gram crop by lightning.	Cotton and sugar-cane sowings in progress.
10	Siálkot ...	...	1. Sufficient ... 3. Good.	Wheat, 19 seers ... Barley, 26 seers. Gram, 19 seers. Rice, 9 seers.	Sowings of extra rabi crops continued. Harvesting of spring crops in progress Condition of crops good Vegetables injured by insect.	...
11	Shahpur ...	0·18 at Sadr ... Slight showers all over the district.	1. Sufficient ... 3. Good.	Barley, normal ... Gram, below normal. Others, above normal.	Sowings of extra spring crops continue. Standing crops in good condition. Spring crops being harvested in Shahpur tahsíl: outturn good.	Sowings of cotton and great millet, ploughing for other autumn crops, in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	1·33 at Sadr ... 0·12 at Kahúta. 1·23 at Murree.	1. Sufficient ... 3. Good.	Wheat, 19 seers ... Bájra, 25 seers. Maize, 24¼ seers. Gram, 18½ seers. Barley, 30 seers.	Prospects good ...	...
13	Miánwáli ...	1·08 at Sadr ... 0·58 at Isa Khel ... 0·43 at Bhakkar. 0·69 at Leiah.	1. Sufficient in Miánwáli and Isa Khel tahsíls, but scarce in Bhakkar and Leiah tahsíls. 3. Fair.	Falling ...	Condition of crops good in Miánwáli and Isa Khel tahsíls; average in Bhakkar and Leiah tahsíls. Harvesting of crops in progress. Locusts laid eggs in tahsíl Isa Khel: no damage to crops reported.	...
14	Lyallpur ...	1·70 at Sadr ... 0·15 at Samundri. 0·35 at Toba Tek Singh.	1. Sufficient ... 3. Good.	Falling ...	Locusts have damaged crops in Toba Tek Singh tahsíl: eggs and hoppers being destroyed. Standing crops good.	Sowings of sugarcane and cotton still in progress.
15	Multán ...	0·86 at Sadr ... 0·16 at Mailsi. 0·27 at Shujabad. 0·23 at Kabírwála.	1. Sufficient ... 3. Good.	Wheat, 16¾ seers Gram, 20¾ seers. Maize, 24¾ seers.	Standing crops average. Extra rabi sowings continue.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen throughout the province.

Prices.—Wheat is rising in Hissar and Shahpur; falling in Jullundur, Ferozepore, Ráwalpindi, Miánwáli and Lyallpur. There are slight fluctuations in the prices of other food-grains.

Agricultural operations.—Harvesting of spring crops in progress. Sowings of extra spring crops and of sugarcane and cotton continue. Ploughings for other autumn crops going on in Shahpur.

Crops and outturn.—Condition and prospects of standing crops good to average. Outturn of gram and rapeseed (Sinapis dichotoma) short in Amritsar and of rapeseed in Lahore.

Damage done to crops.—Crops damaged by hail and strong winds in Hissar. Serious damage done to gram crop by lightning in Amritsar. Vegetables injured by insect in Siálkot. Locusts laid eggs in parts of Miánwáli and have damaged crops in parts of Lyallpur, where eggs and hoppers are being destroyed.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient except in parts of Miánwáli.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

Snowfall Report.

The depth of snow at Dalhousie (Gurdaspur district) during the month of March 1907 was measured 2 feet 4 inches.
Ditto Murree (Rawalpindi district) during the month of March 1907 was measured 1 foot 8 1/8 inches.
Ditto Kahuta ditto ditto ditto ditto 0 feet 6 inches.

P. A. GABRIEL, Supdt.

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of March 1907.

1.—HISSAR DISTRICT.

Rainfall of the month benefited the later sown unirrigated gram crops. Crop being reaped. Outturn of irrigated crops good; that of unirrigated average. Fodder sufficient. Cattle in good condition. Water-supply in canal sufficient.

2.—ROHTAK DISTRICT.

Sowing of cane and cotton in irrigated tracts in progress. Standing nahri crops generally good. Crops in baráni tracts have suffered from want of rain, and to some extent from excessive cold and wind. Rust damaged the wheat crop in Dahri villages of the Jhajjar tahsíl. Yield of nahri crops expected good; that of baráni average or below average; and that of chahi average. Cattle generally in good condition. Canal supply sufficient.

3.—GURGAON DISTRICT.

Rainfall did a little damage to the wheat crop in the Rewárí tahsíl only. In the khádir tract of the Palwal tahsíl hailstone did some damage to the standing crops. The extra spring crops were watered by wells and canal, and ploughings were in progress for the ensuing kharíf. Condition of the standing crops good. Cattle in good condition, and fodder sufficient. Canal water used during the month.

4.—DELHI DISTRICT.

Extra rabi crops were sown in this month. Sowing of sugarcane in progress. Harvesting of spring crops commenced. Outturn expected good. Cattle in good condition. No complaint about canal irrigation. Fodder sufficient. Rates of food-grain low.

5.—KARNAL DISTRICT.

Sowings of sugarcane, tobacco, onions, chari (as fodder) and of the other extra rabi crops made. Condition of all the crops good throughout the district, except of sarshaf and gram which have been damaged by successive rainfall and hail. Average yield expected. The condition of cattle generally good throughout the district. Ordinary irrigation was done from canals. There were floods in the hill torrents which did some damage to crops in villages adjoining Sausah jail. Prices stationary. Fodder and water for cattle sufficient.

6.—AMBALA DISTRICT.

Sowings of sugarcane and melon finished. Condition of crops generally good. Expected yield good. Condition of cattle good. Hail fell in some places, causing slight damage.

7.—SIMLA DISTRICT.

Rainfall during the month above the average, and slightly damaged the crops. In the Kot Khai tahsíl $\frac{1}{16}$th of the normal area was sown with rice. There were no sowings in the Simla tahsíl. Condition of crops in both tahsíls average. Condition of cattle in both tahsíls good, and fodder and grazing sufficient. Public health good. Water in hill streams sufficient; no area watered therefrom in either of the tahsíls.

8.—KANGRA DISTRICT.

Some area sown with cotton and sugarcane in the Hamírpur tahsíl. Condition of crops generally fair. Yield expected to be about the average. Public health generally good. There was sufficient water in the kuhls for irrigation proposes.

9.—HOSHIARPUR DISTRICT.

Rainfall sufficient during the month. Sowings of tobacco, melon and cotton, &c., were in progress. Condition of standing crops generally good. Gram crop suffered in certain low-lying lands on account of rain. Outturn of rabi crop expected good. Cattle generally in good condition. Fodder sufficient. On account of sufficient rainfall no irrigation was done. Prices of food-grains remained stationary.

10.—JULLUNDUR DISTRICT.

Ploughings for and sowings of extra rabi crops and pressing of sugarcane in progress. Condition of crops good. Yield of rabi crops expected good in both irrigated and unirrigated areas. Condition of cattle good. Fodder sufficient.

11.—LUDHIANA DISTRICT.

Sowing of sugarcane, tobacco, melon and vegetables in progress. Condition of standing crops good, except in a few villages, where the crops suffered from hailstorms. Yield expected good, excepting rapeseed, which suffered the most from recent hail storms. Condition of cattle good throughout the district. Irrigation from canals satisfactory. Prices fell during the month owing to good rain.

12.—FEROZEPORE DISTRICT.

Sowings of extra rabi crops in progress during the month. Condition of standing rabi crop good, except sarshaf and táràmíra, which are being harvested. Yield expected good. Cattle in good condition. Sirhind canal had been flowing, and a normal area irrigated. Agriculturists generally well off. Stocks of food-grains and fodder sufficient. Green fodder available. Prices of food-grains falling.

13.—MONTGOMERY DISTRICT.

Extra spring sowings carried on to a small extent during the month. Condition of crops good in Sutlej tahsíls, but in Dipálpur tahsíl kungi (rust) has done some damage. In tahsíl Montgomery sarson crop has been damaged to a certain extent by locusts. Average yield expected. Condition of cattle good. Fodder sufficient. There has not been sufficient water in the rivers, and this accounts for the canals not flowing.

14.—LAHORE DISTRICT.

Sugarcane and cotton being sown. Condition of standing rabi crops good. Hailstones fell in several places, but no damage done. Expected yield of all crops good, except sarson, which was injured by excessive rainfall. The perennial canals worked well. There was water also in the Annhi nullah and the Deg. Prices of food-grains remained stationary.

15.—AMRITSAR DISTRICT.

Tobacco, onions, melons, vegetables, cotton and sugarcane being sown. Condition of standing crops good except sarshaf. Yield expected good, except of sarshaf. Condition of cattle good. No complaint of insufficiency of canal water.

16.—GURDASPUR DISTRICT.

Cotton and cane sowings commenced in Batála and Shakargarh. Condition of crops good. Wheat in low-lying lands injured by heavy rain. Expected yield good. Fodder sufficient. No canal irrigation in rabi. Excellent rains, and some damage done by hailstones in Gurdáspur.

17.—SIALKOT DISTRICT.

Sowings of extra rabi crops, cotton and sugarcane continued. Condition of crops good. Pressing of sugarcane continued; outturn good. Gram crop damaged by rain and lightning. Condition of cattle generally good. Fodder sufficient. Water sufficient in Bajwat canals. River Chenab flooded twice.

18.—GUJRANWALA DISTRICT.

Sowings of vegetables finished, and of cotton and sugarcane commenced. Gram has suffered considerably owing to excess of moisture. Condition of other crops good. Some damages caused by hail in the Khángah Dográn tahsíl. Yield expected to be average, except in the case of gram. Condition of cattle good, and supply of fodder sufficient. Water in the canals sufficient. Prices are stationary.

19.—GUJRAT DISTRICT.

Sowings of cotton, sugarcane and extra rabi crops commenced. Except in the case of gram and oilseed crops, which have been seriously damaged in consequence of excessive rain, the condition of other crops is generally good. Expected yield good, except in the case of gram and oilseeds. Cattle generally in good condition. Prices practically stationary.

20.—SHAHPUR DISTRICT.

Extra rabi sowings of chína and toria in progress. Standing crops in good condition. Cattle generally in good condition. No inundation canal. Jhelum canal was running. Prices stationary.

21.—JHELUM DISTRICT.

There was well distributed and copious rainfall throughout the district, which allowed timely sowings of extra rabi. Condition of standing crops very good, excepting gram, which was badly damaged in many villages on account of excessive rainfall. The gram crop is, however, of very minor importance here. Yield cannot be definitely estimated, but there is every prospect of a bumper rabi crop. Cattle in good condition. No rise in Jhelum river. Prices falling generally. Locusts appeared in many villages of Chakwál tahsíl and in some villages of Jhelum tahsíl, and laid eggs in many places. Efforts were made to destroy eggs as far as possible, and the Personal Assistant to the Imperial Entomologist helped the local agency for some days in supervising the operations. No appreciable damage has been hitherto reported.

22.—RAWALPINDI DISTRICT.

Rain received during the month under report was plentiful, well distributed and much above the average. Condition of the rabi crops is excellent. In certain villages of the Gujar Khan tahsíl locusts appeared, but did no appreciable damage. Condition of cattle good. Fodder sufficient.

23.—ATTOCK DISTRICT.

Good rain was received during the month under report which benefited the rabi crops. Condition of rabi crops good. Fodder sufficient. Condition of cattle good. Locusts appeared in tahsíls Talagang and Pindigheb, but did no damage.

24.—MIANWALI DISTRICT.

Extra rabi sowings in progress. Condition of standing irrigated crops good; unirrigated crops poor in the Bhakkar and Leiah tahsíls. Expected yield of irrigated crops good, but that of unirrigated crops poor in the greater part of the district. Cattle in fair condition. Fodder procurable. Public health good. No inundation in the Indus. Locusts appeared in the Miánwáli tahsíl, but passed away without doing any damage. In the Isa Khel tahsíl locusts laid eggs, but prompt measures were adopted for their destruction. Hailstorm damaged the standing crops in 8 villages of the Miánwáli tahsíl and two villages of the Isa Khel tahsíl.

25.—LYALLPUR DISTRICT.

Early cotton and melon sowings in progress. Standing crops are good. Locusts have done some damage. High outturn of rabi crops estimated. Fodder is plentiful. Canals running well. Locusts have laid eggs in Samundri, Lyallpur and Toba Tek Singh; measures for their destruction in progress.

26.—JHANG DISTRICT.

Extra rabi crop sowings completed; rain proved beneficial to the sown crops. Condition of crops average. Condition of cattle generally good. Fodder sufficient. Canals flowing; water insufficient in rivers. Locusts appeared nearly throughout the district, and the Tahsildárs have been called upon to report if any appreciable damage was done.

27.—MULTAN DISTRICT.

Sugarcane and extra rabi sowings in progress. Condition of standing crops average. Condition of cattle good. Health of people good. Inundation canals dry; Sidhnai flowing.

28.—MUZAFFARGARH DISTRICT.

Chillies, sugarcane and tobacco were sown in the month. Condition of crops average. Expected yield average. Canals are dry, and no inundations of river taken place. Food and fodder sufficient.

29.—DERA GHAZI KHAN DISTRICT.

Some extra rabi sowings done. Condition of crops and expected yield rather below average. Condition of cattle fair.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

*The Civil Surgeon states that some deaths caused by plague are reported under the head of "Fever".

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 16th April 1907.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 6th April 1907, there were 865 births registered in the 43 large municipal towns (465 males and 400 females), giving a birth-rate of 31 *per mille* of population, and 3,026 deaths were registered (1,596 males and 1,430 females), giving a death-rate of 108 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 151 against 50 in the corresponding week of the previous year; Lahore 152 against 42; Amritsar 63 against 77; and Multán 25 against 22. There were 472 deaths reported from plague in Lahore, 229 in Rohtak, 128 in Jullundur, 117 in Ambála, 87 in Siálkot, 82 in Kasúr, 81 in Batála, 78 in Gujránwála, 68 in Amritsar, 64 in Bhiwáni, 47 in Delhi, 43 in Hoshiárpur, 33 in Kartárpur, 28 in Jagádhri, 27 in Ludhiána, 26 in Jagraon 23 in Ráekot, 17 in Tánda Urmar, 13 in Pánipat, 12 in Kaithal, 6 in Wazirabad, 5 each in Hissar and Ferozepore, 4 each in Rewári, Shahabad, Gujrát, Jalálpur and Ráwalpindi, 3 in Khusháb, 2 in Sonepat, and 1 each in Hánsi, Sirsa, Karnál, Bhera, Jhelum, Pind Dádan Khan and Multán. Of the 37 deaths from small-pox, 9 were registered in Bhiwáni, 5 in Siálkot, 4 in Tánda Urmar, 3 in Sirsa, 2 each in Hissar, Jullundur, Kasúr and Amritsar, and 1 each in Hánsi, Karnál, Lahore, Batála, Gujránwála, Wazirabad, Bhera and Chiniot.

Deaths reported from plague during the week ending 13th April 1907 in the districts, including all municipal towns:—Hissar 108, Rohtak 3,238, Gurgaon 362, Delhi 433, Karnál 470, Ambála 2,275, Hoshiárpur 951, Jullundur 2,833, Ludhiána 1,764, Ferozepore 1,996, Montgomery 459, Lahore 2,962, Amritsar 1,336, Gurdáspur 2,400, Siálkot 4,033, Gujránwála 5,369, Gujrát 1,595, Shahpur 1,680, Jhelum 729, Ráwalpindi 583, Attock 96, Lyallpur 63, and Multán 1; Patiála State 1,650, Kapurthala State 961, Máler Kotla State 5, Jínd State 269, Kalsia State 113, and Farídkot State 97. Total for the province 38,831. Total for the previous week 34,547. Total for the corresponding week of the previous year 5,558.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, APRIL 25, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 23RD APRIL 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·50 at Sadr ... 0·29 at Bhiwáni. 0·82 at Fatahabad. 0·54 at Hánsi. 0·13 at Sirsa.	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Bájra, 18 seers. Gram, 19¾ seers.	Crops being threshed. Extra spring crops being sown.	Cotton sowings commenced.
2	Rohtak ...	1·12 at Sadr ... 1·84 at Gohána. 2·20 at Sámpla. 1·43 at Jhajjar. 0·60 at Salhawas.	1. Sufficient ... 3. Good.	Wheat, 15 seers ... Gram, 20 seers. Jowár, 24 seers. Maize, 21 seers.	Wheat and stacked fodder damaged by rain.	Sowings of cotton and sugarcane in progress.
3	Gurgaon ...	0·85 in all parts except Hodal and Hattin.	1. Sufficient ...	Below normal ...	Slight damage to extra spring crops by hail in three tahsíls. Early spring crops have nearly been harvested. Outturn average.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
4	Delhi ...	1·47 at Sadr ... 1·38 at Ballabgarh 1·31 at Sonepat ...	1. Sufficient ... 2. No complaint.	Low ...	Harvesting of spring crops nearing completion: yield good. Extra spring crops slightly damaged by recent rains.	Sowings of sugar-cane continue.
5	Ambála ...	2·51 at Sadr ... 0·80 at Jagádhri. 0·50 at Naráingarh. 1·16 at Kharar. 1·10 at Rúpar. 3·30 at Kasauli.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 15½ to 16½ seers. Gram, 20 to 21 seers. Barley, 20 seers. Maize, 21 seers. Jowár, 27 seers. Bájra, 20 seers.	Condition of crops fair. Harvested gram damaged by rain.	...
6	Jullundur ...	2·00 throughout the district.	1. Sufficient ... 3. Good.	Falling ...	Wheat and gram being harvested.	Sugarcane and cotton sowings continue.
7	Ferozepore ...	3·25 throughout the district.	1. Green fooder not abundant. 3. Good.	Unchanged ...	Spring crops being harvested: yield expected good. Harvested gram and wheat damaged by rain. Sowings of extra spring crops nearly finished.	...
8	Lahore ...	0·51 at Sadr ... 0·92 at Chunián. 1·90 at Kasúr. 1·08 at Sharakpur.	1. Sufficient ... 3. Good.	Unchanged ...	Sowings of extra spring crops continue. Harvesting of spring crops going on. Prospects good. Recent rain has caused some damage to reaped wheat and gram. Poppy crop average.	Cotton and sugar-cane sowings in progress.
9	Amritsar ...	1·22 at Sadr ... Less in Tarn Táran and more in Ajnála.	1. Sufficient ... 3. Good.	Prices of maize and gram high.	Extra spring crops being sown. Harvesting of spring crops continues. Condition of standing crops fair, except of gram and sarshaf (rape-seed); short yield of these crops expected.	Cotton and sugar-cane sowings in progress.
10	Siálkot ...	3·24 at Sadr ... 2·61 at Daska. 2·83 at Raya. 2·87 at Pasrúr. 3·35 at Zafarwál.	1. Sufficient ...	Wheat, 18 seers ... Barley, 26 seers. Gram, 18 seers. Rice, 9 seers.	Sowings of extra spring crops and harvesting of spring crops stopped owing to heavy rains. Crops already harvested damaged by rain.	...
11	Shahpur ...	1·90 throughout the province.	1. Sufficient ... 3. Good.	Maize, Jowár, Bájra, } above normal. Gram, below normal. Others, normal.	Extra spring crops being sown. Standing crops in good condition. Damage to crops by hail in five villages of tahsíl Shahpur. Gram and barley harvested: outturn good.	Sowings of cotton, &c., in progress. Ploughings for other autumn crops in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
12	Rawalpindi ...	0·96 at Sadr ... 1·22 at Gujar Khan. 1·46 at Kahúta. 3·37 at Murree.	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Bájra, 26½ seers. Maize, 28 seers. Gram, 18½ seers. Barley, 31 seers.	Prospects good ...	...
13	Miánwáli ..	0·05 at Sadr ... 0·47 at Bhakkar. 0·62 at Leiah.	1. Scarce in thal tract. 3. Fair.	Falling ...	Recent rain beneficial to extra spring sowings. Condition of irrigated crops good and unirrigated average, except gram, which has generally got spoilt. Harvesting of spring crops in progress. Yield of irrigated crops good and of unirrigated average. Locusts laid eggs in Miánwáli and Isa Khel tahsíls, but no damage. Hoppers appear in large numbers in Miánwáli.	...
14	Lyallpur ...	0·32 at Sadr ... 1·58 at Samundri. 0·75 at Toba Tek Singh.	1. Sufficient ... 3. Good.	Unchanged ...	Gram crop damaged by rain. Harvesting of spring crops commenced. Eggs of locust and hoppers being destroyed.	Sowings of cotton in progress.
15	Multán ...	0·04 at Sadr ... 0·03 at Shujabad. 0·38 at Kabírwála.	1. Sufficient ... 3. Good.	Wheat, 16¾ seers Gram, 20¾ seers. Maize, 24¾ seers	Harvesting commenced. Harvested gram, rapeseed, &c., slightly damaged by recent rain. Yield average. Condition of extra spring crops average.	...

GENERAL REMARKS.

Rainfall.—Light to heavy rain has fallen all over the province.

Prices.—There are slight fluctuations in the prices of food-grains. Wheat is rising in Ambála and Siálkot; falling in Jullundur and Miánwáli.

Agricultural operations.—Harvesting of spring crops in progress. In Siálkot harvesting operations retarded owing to the recent heavy rains. Sowings of extra spring crops as well as of cotton and sugarcane continue.

Crops and outturn.—Condition and prospects of standing crops good to average. Outturn expected to be good except of gram and rapeseed (Sinapis dichotoma) in Amritsar. Recent rain beneficial to the extra spring sowings in Miánwáli.

Damage done to crops.—Standing crops slightly damaged by hail in parts of Gurgaon and Shahpur. Locusts laid eggs in tahsíls Miánwáli and Isa Khel and hoppers appear in large numbers in the former. Eggs of locusts and hoppers being destroyed at Lyallpur. Harvested spring crops have more or less been damaged by the recent rains in several districts.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient except in parts of Miánwáli.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING FEBRUARY 1907.

Station.	Pressure.		Wind.		Temperature in shade.

* Mean of 27 days.
† Ditto 26 days.

The weather during the month was determined chiefly by the depressions which crossed into India from Persia: the first of these formed over Persia about the beginning of the month, and as it advanced eastward it established low pressure conditions over northern India until the 7th. Precipitation began on the 4th in the hill districts and extended over the whole of the Punjab, excepting the south-western districts, by the following day; it continued widespread for the next two days, the only station not reporting any rain being Multán, but owing to a rapid rise of pressure on the 7th skies soon cleared and weather became settled. On this day, however, another depression made its appearance in Persia and precipitation had recommenced in the north-west Punjab, the Frontier Province and Kashmír on the 10th, but again the south-western districts of the Punjab did not participate in the general rainfall which occurred on the 11th and 12th. Weather was generally dry from the 13th to the 16th for, although another depression entered India, it was farther south than usual and did not give any appreciable precipitation in the Punjab; but the disturbances followed one another in quick succession from Persia, and by the morning of the 16th the fourth depression of the month had crossed the Western Frontier and gave a few light falls of snow in Kashmír and the hills with rain in the Frontier Province on this day, while skies were heavily clouded over the whole region. The disturbance however proved to be very ill-defined and unimportant, and it was not until a secondary depression formed in the Punjab on the 18th that precipitation became widespread. This depression caused very high winds at hill stations and gave some heavy falls of snow in the west Himalayas and Kashmír and heavy rain at some of the plains stations, Ambála reporting 3·00″, Simla 2·03″, Cherat 2·00″ and Sonemarg 3·70″ on the 19th; the disturbance had disappeared by the morning of the 20th after giving some more precipitation in the east Punjab. During the remainder of the month weather was dry, but on the last day a fresh depression had commenced to affect the Frontier Province and skies were beginning to cloud over.

Pressure and winds.—Pressure, unlike last month, was normal or in slight excess on the plains and in defect at the hill stations, the vertical pressure gradients thus being steeper than usual. The only noteworthy departure from the normal wind direction was at Sirsa, where it was south-east instead of west-southwest. The velocity of the wind was less than usual at the hill stations Cherat and Murree, but elsewhere about the normal movement of the air occurred.

Temperature.—Owing to February being a very wet month and to the prevalence of cloud, maximum temperature was in defect throughout nearly the whole period, the greatest deficiency occurring on the 17th, when it averaged 13° in the Punjab and 14° in the Frontier Province. Minimum temperature on the other hand was generally in excess and only on one or two occasions did it drop below the normal. The lowest temperature recorded during the month was 34·5° at Dera Ismail Khan on the 7th.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmír and the North-West Frontier Province on each day of the month, and the lowest minimum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Lowest minimum temperature recorded during the previous 24 hours.	Station at which registered.

Cloud and humidity.—February being a very unsettled month, the cloud proportion at 8 hours was everywhere greater than usual and in Kashmír skies were more or less overcast throughout the period. The relative humidity was also very high and the amount of moisture in the air averaged nearly 80 per cent. of that required for saturation.

Rainfall.—Owing to the large number of active depressions which passed through north-west India from Persia the precipitation for the month was in excess at almost every station in the Province, the only exceptions being Montgomery and Multán ; at the former the rainfall was normal and at the latter in considerable defect. Ludhiána received the most abundant rain of any of the plains stations, the actual amount being 6·65 inches, instead of the normal fall of 1·30 inches, while Murree recorded the greatest precipitation of the hill stations in the Punjab and the Frontier Province.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for February 1907 :—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

*The Civil Surgeon states that some deaths caused by plague are reported under the head of "Fever."

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 23rd April 1907.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 13th April 1907, there were 868 births registered in the 43 large municipal towns (472 males and 396 females), giving a birth-rate of 31 *per mille* of population, and 3,479 deaths were registered (1,794 males and 1,685 females), giving a death-rate of 125 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 180 against 58 in the corresponding week of the previous year; Lahore 160, against 49; Amritsar 61 against 83; and Multán 23 against 33. There were 466 deaths reported from plague in Lahore, 259 in Rohtak, 228 in Jullundur, 167 in Ambála, 127 in Kasúr, 112 in Siálkot, 108 in Gujránwála, 93 in Batála, 66 in Amritsar 50 in Bhiwáni, 42 each in Delhi and Hoshiárpur, 40 in Jagádhri, 39 in Kartárpur, 37 each in Pánipat and Ráekot, 27 in Kaithal, 25 in Ludhiána, 20 in Jagraon, 16 each in Tánda-Urmar and Wazirabad, 12 in Ferozepore, 9 in Hissar, 8 in Bhera, 7 in Gujrat, 6 each in Sirsa and Shahabad, 5 each in Rewári, Jalálpur, Ráwalpindi and Lyallpur, 3 each in Palwál, Pind Dádan Khan and Jhang Maghiána, 2 in Háns and 1 each in Jhajjar, Sonepat, Karnál, Khusháb, Jhelum, Chiniot and Multán. Of the 22 deaths from small-pox, 5 were registered in Amritsar, 3 each in Bhiwáni and Pánipat, 2 each in Tánda-Urmar and Multán and 1 each in Hissar, Palwal, Ferozepore Gujránwála, Wazirabad, Pind Dádan Khan and Jhang Maghiána.

Deaths reported from plague during the week ending 20th April 1907 *in the districts, including all municipal towns:*—Hissar 123, Rohtak 3,212, Gurgaon 390, Delhi 724, Karnál 804, Ambála 1,448, Hoshiárpur 1,115, Jullundur 3,308, Ludhiána 1,502, Ferozepore 3,244, Montgomery 423, Lahore 3,429, Amritsar 1,678, Gurdáspur 2,508, Siálkot 4,733, Gujránwála 6,336, Gujrát 3,084, Shahpur 2,458, Jhelum 864, Ráwalpindi 724, Attock 355, Miánwáli 1 and Lyallpur 420; Patiála State 1,781, Kapurthala State 1,114, Jind State 251, Kalsia State 82, Farídkot State 47, and Nábha State 663. Total for the province 46,821. Total for the previous week 39,056. Total for the corresponding week of the previous year 7,473.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 30th APRIL 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·33 at Hánsi ... 0·07 at Sirsa. 0·81 at Bhiwáni.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 14 seers ... Bájra, 18½ seers. Gram, 21 seers.	Spring crops harvested...	Cotton being sown on canal lands.
2	Rohtak ...	0·10 at Salháwas...	1. Sufficient ... 3. Good.	Wheat, 15 seers ... Gram, 20 seers. Jowár, 24 seers. Maize, 21 seers.	...	Sowings of cotton and sugarcane continue and of greatmillet commenced.
3	Gurgaon ...	0·04 at Sadr. More in certain other parts.	1. Sufficient ... 3. Good.	Below normal ...	Spring crops have nearly been harvested. Outturn average.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint.	Low ...	Harvesting of spring crops completed: yield good.	Sowings of sugar-cane and cotton continue.
5	Ambála ...	...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 15 to 16 seers. Gram, 19 to 20 seers. Maize, 21 seers. Barley, 20 seers. Jowár, 25 seers. Bájra, 20 seers.	Condition of crops fair. Extra spring crops still being sown.	Sowings of cotton continue.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Wheat and gram being harvested. Yield of wheat below average.	Sugarcane being weeded.
7	Ferozepore ...	...	1. Green fodder not abundant. 3. Good.	Unchanged ...	Spring crops being harvested. Yield expected good. Crops slightly damaged by rain in three tahsíls. Sowings of extra spring crops nearly finished.	...
8	Lahore ...	0·14 at Sharakpur	1. Sufficient ...	Unchanged ...	Sowings of extra spring crops continue. Wheat being harvested: outturn good. Some damage to reaped crops of gram and wheat by rain. Opium crop average.	Cotton and sugar-cane sowings in progress.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat and maize high and of gram varying.	Harvesting of spring crop continues. Good yield expected except of reaped and gram. Condition of standing crops average to poor. Wheat has suffered from rain.	Sugarcane and great millet being sown.
10	Siálkot ...	0·18 at Sadr ... 0·14 at Daska. 0·10 at Pasrúr.	1. Sufficient ... 3. Good.	Wheat, 17½ seers. Barley, 26 seers. Gram, 16 seers. Rice, 9 seers.	Extra spring crops are being sown. Harvesting of spring crops continue. Condition of crops average.	Sowings in progress.
11	Shahpur ...	0·70 at Sadr ... 0·22 at Naushahra. 1·40 at Khusháb. 0·89 at Bhera. 0·14 at Sargodha.	1. Sufficient ... 3. Good.	Unchanged ...	Water melons being sown. Yield of spring crops average. Some villages have suffered from hailstorm in tahsíls Khusháb and Shahpur.	Sowings in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Rāwalpindi ...	0·43 at Sadr ... 0·22 at Gujar Khan. 0·45 at Kahúta. 1·60 at Murree.	1. Sufficient ... 3. Good.	Wheat, 18 seers ... Bájra, 24 seers. Maize, 26 seers. Gram, 19 seers. Barley, 29 seers.	Prospects good ...	...
13	Miánwáli ...	0·45 at Sadr ... 0·11 at Bhakkar.	1. Procurable, but scarce in Thal. 3. Fair.	Unchanged ...	Rain beneficial to extra spring crops. Cutting of spring crops nearly completed. Outturn of irrigated crops good and of unirrigated average. Hoppers damaged extra spring crops, considerably in tahsíls Miánwáli and Isa Khel. Locusts laid eggs in northern portion of Bhakkar tahsíl.	...
14	Lyallpur ...	0·13 at Sadr ... 0·05 at Samundri.	1. Sufficient ... 3. Good.	Ditto ...	Harvesting in progress. Locusts damaged extra spring crops in tahsíls Lyallpur and Toba Tek Singh. Eggs and hoppers being destroyed. Standing crops average.	...
15	Multán ...	0·02 at Sadr ... 0·16 at Lodhrán. 0·14 at Shujabad.	1. Sufficient ... 3. Good.	Wheat, 16½ seers Gram, 20¾ seers. Maize, 24½ seers.	Harvesting continues. Yield average. Extra spring crops average.	...

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen except in Delhi, Ambála, Jullundur, Ferozepore and Amritsar.

Prices.—Prices of food-grains slightly rising in Ambála, Amritsar, Siálkot, Rāwalpindi and Multán.

Agricultural operations.—Harvesting of spring and sowings of extra spring crops continue. Cotton and sugarcane being sown. Weeding of sugarcane commenced in Jullundur.

Crops and outturn.—Condition and prospects of standing crops good to average except in parts of Amritsar, where crops are poor.

Damage done to crops.—Extra spring crops have considerably been damaged by hoppers in parts of Miánwáli and locusts laid eggs in northern portion of Bhakkar tahsíl. Locusts have also damaged extra spring crops in parts of Lyallpur. Eggs and hoppers being destroyed. Damage to crops by hail reported from Shahpur. Spring crops in Ferozepore and Lahore slightly injured by rains.

Agricultural stock.—Cattle generally in good condition.

Pasturage.—Fodder sufficient except in parts of Miánwáli.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 1st May 1907.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 20th April 1907, there were 843 births registered in the 43 large municipal towns (472 males and 371 females), giving a birth-rate of 30 *per mille* of population, and 3,761 deaths were registered (1,928 males and 1,833 females), giving a death-rate of 135 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 151 against 61 in the corresponding week of the previous year; Lahore 203 against 54; Amritsar 78 against 105; and Multán 29 against 22. There were 568 deaths reported from plague in Lahore, 276 in Jullundur, 195 in Rohtak, 175 in Ambála, 164 in Siálkot, 139 in Gujránwála, 109 in Kasúr, 98 in Amritsar, 96 in Batála, 70 in Jagádhri, 46 each in Bhiwáni and Ráekot, 41 in Delhi, 37 in Pánipat, 36 in Kaithal, 29 in Ludhiána, 24 each in Kartárpur and Jalálpur, 21 in Hoshiárpur, 19 in Wazirabad, 11 each in Hissar, Tánda-Urmar and Chiniot, 9 each in Palwál, Shahabad and Bhera, 8 each in Gujrat and Lyallpur, 7 each in Jhajjar, Jagraon and Pind Dádan Khan, 6 each in Hánsi, Rewári and Khusháb, 4 in Ráwalpindi, 3 each in Sirsa and Karnál, 2 in Jhelum, and 1 in Ferozepore. Of the 40 deaths from small-pox, 8 were registered in Rewári, 4 in Amritsar, 3 each in Hissar, Bhiwáni, Kaithal, Tánda-Urmar and Lahore, 2 each in Palwal, Batála, Bhera and Pind Dádan Khan, and 1 each in Hánsi, Ferozepore, Kasúr, Wazirabad and Multán. There were 2 deaths recorded from cholera in Lahore.

Deaths reported from plague during the week ending 27th April 1907 in the districts, including all municipal towns:—Hissar 230, Rohtak 4,582, Gurgaon 516, Delhi 973, Karnál 1,329, Ambála 2,089, Hoshiárpur 800, Jullundur 3,764, Ludhiána 1,001, Ferozepore 2,679, Montgomery 575, Lahore 4,092, Amritsar 2,092, Gurdáspur 2,611, Siálkot 5,617, Gujránwála 6,839, Gujrát 3,736, Shahpur 2,673, Jhelum 1,140, Ráwalpindi 920, Attock 302, Lyallpur 179, and Multán 1; Patiála State 1,722, Kapurthala State 1,405, Máler Kotla State 2, Jínd State 232, Kalsia State 61, Farídkot State 76 and Nábha State 1,931. Total for the province 54,169. Total for the previous week 46,821. Total for the corresponding week of the previous year 8,156.

3	Gurgaon ...	...	1. Sufficient ... 3. Fair.	Wheat, Maize, } below normal Barley, Gram, Bájra, } normal.	Prospects of outturn of extra spring crops average.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint.	Low ...	...	Sowings of cotton and sugarcane continue. Ploughings for other autumn crops commenced.
5	Ambála ...	...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 15 to 16 seers. Gram, 17 to 22½ seers. Maize, 20 seers. Barley, 20 seers. Jowár, 28 seers. Bájra, 18 seers.	Condition of extra spring crops fair.	...
6	Jullundur ...	0·50 at Nawashahr	1. Sufficient ... 3. Good.	Rising ...	Harvesting of spring crops continues. Standing crops good.	...
7	Ferozepore ...	...	1. Green fodder scanty 3. Good.	Unchanged ...	Harvesting of spring crops continues. Sowings of extra spring crops finished.	...
8	Lahore ...	...	1. Sufficient ...	Ditto ...	Extra spring crops are being sown. Wheat being cut: outturn good. Poppy crop average.	Cotton and sugarcane sowings continue.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, high ... Maize, } warning. Gram, }	Harvesting of spring crops continues. Condition of standing crops good. Melons in tahsíl Amritsar damaged to some extent by grass-hopper (toka). Yield of gram and rapeseed poor; of wheat average.	Cotton, sugarcane and great millet being sown.
10	Siálkot ...	...	1. Sufficient ... 3. Good.	Wheat, 17½ seers Barley, 25 seers. Gram, 16 seers. Rice, 8 seers.	Sowings of extra spring crops finished. Harvesting of spring crops continues. Condition of standing crops average.	...
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Bájra, } above Maize, } normal. Gram, below normal. Others, normal.	Harvesting of spring crops continues: outturn average.	Sowings of cotton progressing slowly.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·26 at Sadr ... 0·32 at Gujar Khan. 0·95 at Kahúta. 1·99 at Murree.	1. Sufficient ... 3. Good.	Wheat, 17½ seers. Bájra, 25½ seers. Maize, 25½ seers. Gram, 17½ seers. Barley, 25½ seers.	Prospects good ...	...
13	Miánwáli ...	0·56 at Bhakkar ... 0·40 at Isa Khel.	1. Scarce in kacha tract of tahsíls Bhakkar and Leiah. 3. Good.	Rising ...	Condition and expected yield of extra spring crops of tahsíls Bhakkar and Leiah good; those of Miánwáli and Isa Khel tahsíls destroyed by hoppers. Cutting of spring crops nearly completed.	...
14	Lyallpur ...	Report not received.				
15	Multán ...	...	1. Sufficient ...	Wheat, 16½ seers. Gram, 20½ seers. Maize, 23½ seers.	Harvesting of spring crops in progress: yield below average. Extra spring crops average.	...

GENERAL REMARKS.

Rainfall.—Light rain has fallen in Ráwalpindi and parts of Jullundur and Miánwáli.

Prices.—There are slight fluctuations in the prices of food-grains. Price of wheat is rising in Jullundur, Ráwalpindi, Miánwáli and Multán, high in Amritsar, and falling in Hissar.

Agricultural operations.—Harvesting of spring and sowings of cotton, sugarcane and extra spring crops continue. In Rohtak indigo also being sown and sugarcane weeded.

Crops and outturn.—Condition and prospects of standing crops good to average. Yield of gram and rapeseed (sinapis dichotoma) poor in Amritsar. In Multán outturn of spring crops below average.

Damage done to crops.—Grass-hoppers have damaged melon crop to some extent in tahsíl Amritsar and extra spring crops in tahsíls Miánwáli and Isa Khel.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient except in parts of Miánwáli. Green fodder scarce in Ferozepore.

Water-supply.—No complaint.

P. A. GABRIEL, Supdt.,
for *Director of Agriculture, Punjab.*

KASHI RAM, SUPERINTENDENT,

for Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

SIXTY-NINE THOUSAND FOUR HUNDRED AND FORTY-EIGHT births were registered in the province during the month of March 1907, giving a birth-rate of 41 *per mille* of population. Of the total number of births, 36,491 were boys and 32,957 were girls.

The total number of deaths registered from all causes in the province during the month of March 1907 was 154,586 against 87,423 in the previous month and 47,698 in the corresponding month of the past year, giving an annual death-rate of 91, 57 and 28 *per mille* of population per annum, respectively.

There were 3 deaths registered under the head of cholera.

The total mortality from plague amounted to 100,285 against 36,973 in the previous month and 9,552 in the corresponding month of the past year. The largest number of deaths from plague during the month were registered in the following districts:—Gujránwála 12,504, Siálkot 11,446, Gurdáspur 9,674, Lahore 9,333, Jullundur 8,825, Ambála 7,689, Ludhiána 7,160 and Gujrát 6,258.

From small-pox 983 deaths were registered against 919 in the previous month and 1,129 in the corresponding month of the past year; fevers 34,479 against 32,647 and 22,314; dysentery and diarrhœa 949 against 987 and 781; respiratory diseases 6,137 against 5,634 and 4,192. During the month there were 24 deaths registered from suicide against 16 in the past month; wounding 30 against 29; accidents 248 against 255; snake-bite and killed by wild beasts 33 against 10; and from all other causes 11,415 against 9,947 in the previous month and 9,380 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 4th May 1907.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th May 1907.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 27th April 1907, there were 874 births registered in the 42 large municipal towns (451 males and 423 females), giving a birth-rate of 32 *per mille* of population, and 3,624 deaths were registered (1,879 males and 1,745 females), giving a death-rate of 131 *per mille* of population. The death-rates registered in the four largest towns were as follows :—Delhi 167 against 64 in the corresponding week of the previous year; Lahore 175 against 58; Amritsar 79 against 99; and Multán 25 against 25. There were 509 deaths reported from plague in Lahore, 310 in Jullundur, 162 in Rohtak, 137 in Amritsar, 116 in Ambála, 114 in Siálkot, 100 in Batála, 90 in Gujránwála, 88 in Bhiwáni, 70 in Jagádhri, 62 in Pánipat, 56 in Kasúr, 52 in Kaithal, 48 in Delhi, 45 in Jalálpur, 32 in Chiniot, 30 each in Hoshiárpur and Ráekot, 19 in Wazirabad, 18 in Ludhiána, 17 in Khusháb, 16 in Pind Dádan Khan, 15 in Gujrat, 14 each in Hissar, Hánsi, Jhajjar and Rewári, 12 each in Sirsa and Kartárpur, 10 each in Shahabad, Jagraon and Ráwalpindi, 7 each in Tánda-Urmar and Bhera, 6 each in Palwal and Karnál, 3 each in Ferozepore and Jhelum, and 2 each in Sonepat and Jhang-Maghiána. Of the 29 deaths from small-pox, 6 were registered in Bhera, 3 each in Pánipat, Jullundur and Amritsar, 2 each in Hissar, Bhiwáni, Rewári and Hoshiárpur, and 1 each in Sirsa, Kaithal, Lahore, Batála, Pind Dádan Khan, and Jhang-Maghiána. There was 1 death recorded from cholera in Lahore.

Deaths reported from plague during the week ending 4th May 1907 in the districts, including all municipal towns :—Hissar 494, Rohtak 4,106, Gurgaon 786, Karnál 1,534, Ambála 1,868, Hoshiárpur 1,085, Jullundur 3,601, Ludhiána 749, Ferozepore 2,508, Montgomery 480, Lahore 3,995, Amritsar 2,192, Gurdáspur 2,050, Siálkot 6,087, Gujránwála 6,155, Gujrát 2,656, Shahpur 3,181, Jhelum 1,425, Ráwalpindi 1,436, Attock 538, Miánwáli 4, Lyallpur 207, and Multán 7; Patiála State 1,449, Kapurthala State 1,493, Jínd State 296, Kalsia State 19, Farídkot State 48 and Nábha State 623. Total for the province 51,072. Total for the previous week 54,402. Total for the corresponding week of the previous year 7,956.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, MAY 16, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 14th MAY 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
1	Hissar ...	...	1. Sufficient 2. Do. 3. Good. ...	Wheat, 15 seers ... Bájra, 18 seers. Gram, 20 seers.	...	Cotton being sown on canal lands.
2	Rohtak ...	...	1. Sufficient	Wheat, 15½ seers Gram, 20 seers. Bájra, 21 seers. Maize, 20 seers. Jowár, 23 seers.	Crops harvested ...	Sowing of cotton on irrigated land in progress.
3	Gurgaon ...	...	1. Sufficient ... 3. Fair.	Wheat, Barley, Maize, } below normal. Gram, Bájra, } normal.	Outturn of spring crops average.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint. 3. Good.	Low ...	...	Sowings of cotton and sugarcane continue. Ploughings for other autumn crops in progress.
5	Ambála ...	...	1. Sufficient ... 2. Do. 3. Generally good.	Wheat, 15 and 16 seers. Gram, 17 to 22½ seers. Maize, 20 seers. Barley, 20 seers. Jowár, 18 seers. Bájra, 18 seers.	Condition of standing crops fair. Locusts appeared in certain places of Rúpar tahsíl, causing damage to standing crop of sugarcane.	...
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Rising ...	Wheat and gram being winnowed Standing crops good.	Cotton sowings and sugarcane weeding commenced.
7	Ferozepore ...	...	1. Green fodder scanty 3. Good.	Unchanged ...	Harvesting of spring crops in progress. Standing extra spring crops in good condition.	...
8	Lahore ...	...	1. Sufficient ...	Ditto ...	Extra spring crops are being sown. Spring crops are being harvested: outturn good. Poppy crop average.	Cotton and sugarcane are being sown.
9	Amritsar ...	0·11 at Sadr; more in Tarn Táran.	1. Sufficient ... 3. Good.	Wheat, Barley, Jowár, } high. Gram, Maize, } warning.	Harvesting of spring crops continues: yield poor.	Great millet (fodder), cotton, chillies and rice being sown.
10	Siálkot ...	...	1. Sufficient ... 3. Good.	Wheat, 16⅔ seers Barley, 21 seers. Gram, 16½ seers. Rice, 8 seers.	Harvesting of spring crops continued. Threshing commenced in villages dependent on rain. Condition of standing crops average.	...
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Bájra, Maize, } above normal. Others, below normal.	Standing crops in good condition. Spring crops being harvested in Shahpur and Khusháb tahsíls, but labour is scarce. Outturn average except that of wheat and gram, which is below average in the Khusháb tahsíl.	Sowings of cotton, melons and other inferior autumn crops continue in the Khusháb tahsíl, but retarded on account of plague in other parts of the district.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·07 at Kahúta ... 0·04 at Murree.	1. Sufficient ... 3. Good.	Wheat, 18½ seers Bájra, 14 seers. Maize, 24 seers. Gram, 17 seers. Barley, 25 seers.	Spring crops being cut.	...
13	Miánwáli ...	...	1. Becoming scarce... 3. Average.	Unchanged ...	Condition of extra spring crops of Bhakkar and Leiah tahsíls good. Crops of Miánwáli and Isa Khel tahsíls totally destroyed by hoppers. Cutting of spring crops nearly finished Hoppers moving about in enormous masses in Miánwáli and Isa Khel tahsíls, causing great inconvenience and damage.	...
14	Lyallpur ...	...	1. Sufficient ... 3. Good.	Ditto ...	Harvesting of spring crops continued. Locusts nearly destroyed. Prospects of standing crops average Outturn of wheat crop below normal on Bhangu Branch.	...
15	Multán ...	...	1. Sufficient ...	Wheat, 16¼ seers Gram, 20¼ seers. Maize, 22 seers.	Wheat being cut and threshed. Gram and barley being gathered. Expected yield rather below average. Extra spring crops average.	...

GENERAL REMARKS.

Rainfall.—Light rain has fallen in parts of Amritsar and Ráwalpindi districts.

Prices.—There are slight fluctuations in the prices of food-grains. Wheat falling in Hissar, Rohtak and Ráwalpindi; rising in Jullundur and Siálkot.

Agricultural operations.—Harvesting of spring crops and sowings of cotton, sugarcane and extra spring crops continue, except in parts of Shahpur, where the sowing has been retarded on account of plague. Sugarcane is being weeded in Jullundur.

Crops and outturn.—Outturn of spring crops is good to average except in some districts, where it is below average or poor. Condition of standing crops generally good.

Damage done to crops.—Locusts damaged the standing sugarcane crop in Ambála, and hoppers (locust) destroyed the standing crops in two tahsíls of Miánwáli, where they are moving about in enormous masses. Locusts have nearly been destroyed in Lyallpur.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient except in Miánwáli. Green fodder scanty in Ferozepore.

Water-supply.—No complaint.

TULSI DAS, SUPDT.,

for *Director of Agriculture, Punjab.*

light rain.
nal raingauge station.

TULSI DAS, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of April 1907.

1.—HISSAR DISTRICT.

Rabi crops reaped and being threshed. Outturn of irrigated crops good; that of unirrigated fair. Cotton being sown on wet land. Fodder sufficient. Cattle in good condition.

2.—ROHTAK DISTRICT.

Sowing of cane, cotton and chari in irrigated tracts and that of cotton and bájra in báráni tracts where rainfall is sufficient, is in progress Rabi crops have been reaped. The standing extra rabi crops are generally good. Yield of extra rabi crops expected to be good. Cattle generally are in good condition. Fodder sufficient. The canal supply sufficient.

3.—GURGAON DISTRICT.

There was unusual rainfall during the month under report which did more harm than good to the standing crops. The záid rabi crops being watered. Cotton and chari being sown on irrigated area in the Firozpur tahsíl. Standing crops in good condition. Prospects of outturn of záid rabi good. Cattle in fair condition. Fodder sufficient. Canal water used during the month.

4.—DELHI DISTRICT.

The sowings of sugarcane and cotton in progress. The harvesting of spring crops completed. Extra rabi crops slightly damaged by rain. Outturn good. Cattle in good condition. No complaint about canal irrigation. Fodder sufficient. Rates of food-grain low.

5.—KARNAL DISTRICT.

Sowings of sugarcane, til, chína, cotton, chari and other extra rabi crops such as melons, water-melons and vegetables in progress. Rain, high winds and hail in places have done some damage to crops, especially to bhúsa. In the Pánípat tahsíl gram, chillies and wheat have been affected. In Kaithal the yield of sarshaf on account of excessive cold will be below average Yield of gram and wheat is slightly below what was expected and the yield of rest is average. Fodder and water sufficient. The Western Jumna and Sirhind Canals remained flowing. No. inundations. Prices stationary.

6.—AMBALA DISTRICT.

Rabi crops cut. Extra rabi crops standing. Crops fair on the whole. Gram damaged to some extent. Expected yield average. The condition of cattle generally good.

7.—SIMLA DISTRICT.

Rainfall during the month in both tahsíls sufficient. In the Simla tahsíl $\frac{1}{25}$th of the expected area was sown with rice and cotton and in the Kot Khái tahsíl $\frac{1}{8}$th of the area with rice, koda and báthu. The condition of crops in the Simla tahsíl is average and in the Kot Khái tahsíl good. An estimate cannot be made at present as the crops are very young. The condition of cattle in both tahsíls good and fodder and grazing are sufficient. Public health good. Water in hill streams sufficient. No area was watered in the Kot Khái tahsíl, and in the Simla tahsíl $\frac{1}{8}$th of the normal area was watered.

8.—KANGRA DISTRICT.

Some area sown with rice, sugarcane and cotton. The condition of crop is bad owing to excessive rains. The yield is expected to be below the average. The condition of cattle good. Water in Kuhls sufficient for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

Cane, cotton, melon, tobacco, indigo, moth and chari sown during the month. Sowings later than usual. Continuous rain interfered with timely sowings. Wheat, barley and particularly gram badly damaged by rain in March and April. Prospects not as good as last month. Mango crop seriously injured, few trees blossoming and even these nipped in the bud by tela. Expected yield on the whole about the average. Cattle generally in good condition. Fodder sufficient. Canal water not used owing to the rainfall being sufficient. The zamíndárs occupied in harvesting operations. Prices of food-grains have risen slightly.

10.—JULLUNDUR DISTRICT.

Sowings of extra rabi continued. Sugarcane and cotton sowing in progress. Standing crops, namely sugarcane, cotton and extra rabi, promise well. Harvesting of rabi crops commenced. Outturn below average. The condition of cattle good. Fodder sufficient. Rates of staple grains rising owing to poor produce.

11.—LUDHIANA DISTRICT.

Sowing of sugarcane, cotton and extra rabi crops, *viz*, tobacco, melons, chillies and vegetables, completed. Condition of standing crops good. Yield of oilseed crops expected to be poor, but that of other crops good. Condition of cattle good. The irrigation from canals fairly satisfactory. Owing to the rains, the Sutlej and the Budha Nála rose slightly during the month. Prices rose on account of the harvesting season.

12.—FEROZEPORE DISTRICT.

Sowing of extra rabi crops nearly finished and satisfactory. Sarshaf and tára míra harvested, but the produce is poor. Rabi crop being harvested. Yield is expected to be good. Gram and harvested wheat damaged by rain. Sirhind Canal had been flowing and small area was irrigated. Agriculturists generally well of. Stock of food-grains and fodder sufficient. Green fodder not abundant. Prices of food-grains stationary.

13.—MONTGOMERY DISTRICT.

Záid rabi sowings carried on during the month. Owing to untimely rains the crops have suffered greatly, especially the coriander seed and gram. The rain in the middle of the month did a certain amount of harm, but the rainfall during the last week did immense damage and instead of a bumper crop I am of opinion that it will be only about an 8-anna one. In several places hail fell and totally destroyed the standing crops; the rain swamped the wheat and gram still standing in depressions on Government land and entirely ruined a large amount of gram and badly damaged the wheat lying on threshing floors. In proprietary lands the loss has been great also and there will be a scarcity of bhúsa. Condition of cattle good. Fodder sufficient. The canals have not worked during the month.

14.—LAHORE DISTRICT.

Sugarcane, cotton, chari and extra rabi crops being sown. Condition of standing extra rabi crops good. There was some decrease in expected yield of wheat and gram on account of unusual rains and winds. Condition of cattle good. The perennial canals worked well. There was water also in the Annhi Nála and the Deg. Prices of food-grains falling and expected to still fall as the new grain is not yet in the market.

15.—AMRITSAR DISTRICT.

Tobacco, melons, vegetables, jowár, cotton and sugarcane being sown. Rabi crops damaged owing to untimely heavy rains. Less yield than usual is expected owing to heavy rains. Condition of cattle good. No complaint of insufficiency of canal water. Floods in the river Rávi and Nála Saki.

16.—GURDASPUR DISTRICT.

Sowings of cane, cotton and kachálu in progress. Melon sowings completed. Rabi crops harvested. Threshing not commenced as yet. Standing crops in fair condition. Gram totally failed. Yield of other crops below the average. Condition of cattle good. Fodder sufficient. Canals were closed for two weeks. These and hill torrents are now flowing. Irrigation not commenced as yet. Water normal in rivers.

17.—SIALKOT DISTRICT.

Sowings of extra rabi crops, cotton and sugarcane continued. Condition of standing crops average. Wheat, barley and massar crops damaged by rains. Threshing of gram, barley and massar not commenced owing to rains. Condition of cattle good. Water sufficient in bajwát canals. River Chenab flooded once.

18.—GUJRANWALA DISTRICT.

Sowings of sugarcane, cotton and chari in progress. Gram totally damaged by unseasoned rains and heavy dew, also from hail; wheat and barley suffered also. Condition of extra rabi crops good. A poor yield is expected. Plague is raging with virulence, and also considerably affected the cutting of rabi crops; difficult to procure labour. Canal has been closed for annual clearance. Prices of food-grains falling.

19.—GUJRAT DISTRICT.

Sowings of cotton, sugarcane and extra rabi crops in progress. Condition and germination of above crops generally good. Locusts are reported to have caused some damage to these crops in certain tracts. Standing rabi crops, particularly those on low-lying lands, suffered from excessive rain during the month. Harvesting of rabi crops commenced. Except in the case of oilseed and gram crops, the expected yield is about average. The estimated yield of oilseed crops is far below average, while the gram crop is a complete failure. Cattle in good condition. Fodder sufficient. Prices rising slightly.

20.—SHAHPUR DISTRICT.

Watermelons, cotton, jowár, moth and mándwa sown during the month. Very little cotton put down owing to plague. Standing crops injured by hailstones in a few villages in the Khusáb and Shahpur tahsíls and also to the appearance of kungi in the whole district. Massar, barley and gram harvested. Yield average. Cutting of wheat crop has begun but is proceeding slowly owing to shortage of labour due to plague. Cattle in good condition. Lower Jhelum Canal running. Prices fluctuating.

21.—JHELUM DISTRICT.

Cotton and extra rabi crops sown. Gram badly damaged by late rain and táramíra by locusts. Wheat and barley in good condition. Yield excellent if sufficient labour available, but plague is very severe throughout the district, especially in Pind Dádan Khan. Condition of cattle good. Fodder sufficient. River rising as snow melts. No heavy flood. Prices stationary except gram, which is rising. Young locusts are very numerous in Chakwál, and extra rabi crops will suffer.

22.—RAWALPINDI DISTRICT.

Rains received during the month were ample and well distributed. Condition of crops good. Condition of cattle good. Fodder sufficient. Locusts passed through some villages of tahsíls Ráwalpindi and Gujar Khan, but did no injury.

23.—ATTOCK DISTRICT.

Good rains were received during the month under report and rabi crops benefited thereby. Gram crop has been damaged by unfavourable winds. Tahsíls Talagang, Fatehjang and Pindigheb were all visited by locusts; arrangements for their destruction are being made.

24.—MIANWALI DISTRICT.

Extra rabi sowings in progress. The sowing of melons in the Miánwáli and Isa Khel tahsíls greatly retarded owing to the existence of hoppers. Irrigated extra rabi crops mostly eaten up by hoppers. Cutting of rabi crops approaching completion. Outturn of chahi areas good, unirrigated average, except gram, which generally got spoiled. Cattle in fair condition. Fodder procurable but scarce in Thal tract of Leiah and Bhakkar. Gram being eaten up by hoppers. Public health generally good. No Government canal in this district. The Indus rising. Hoppers damaged extra rabi crops considerably in Thal tracts of the Miánwáli and Isa Khel tahsíls. Locusts laid eggs in northern portion of the Bhakkar tahsíl.

25.—LYALLPUR DISTRICT.

Rain everywhere, accompanied by strong wind and in some places by hail and did more harm than good. Cotton, sugarcane and za'id rabi staples being sown. Harvesting operations of rabi crops begun; outturn prospects somewhat spoilt by the recent hail, rain and high winds. Gram specially damaged. No disease among cattle. Fodder plentiful. The canal closed for 15 days. There are complaints of want of water on the Bhangu branch. Young locusts appeared in several places, but measures are being taken to destroy them.

26.—JHANG DISTRICT.

Sowing of kharíf crops in progress. Damage to a certain extent has been done by rain to the crops of gram, mattar, wheat and barley. These crops are now being reaped. Condition average. Gram has suffered considerably. Yield of barley, usun and toria is above average. Fodder sufficient. Government canals flowing, but insufficiency of water is complained of. Water sufficient in rivers. Locusts appeared in some villages of the Chiniot tahsíl and settled. Most of the young ones have been destroyed, and further steps are being taken in this direction. "Tilliars" (starlings) helped in the destruction of locusts. No damages reported to have been done in the Jhang and Shorkot tahsíls.

27.—MULTAN DISTRICT.

Extra rabi and churri sowings in progress. Condition of standing crops rather below average. Expected yield of wheat, gram, usun, sarson, mattar, rather below average. Condition of cattle good. Health of people good. Inundation canals not commenced flowing yet. Sidhnái canal flowing.

28.—MUZAFFARGARH DISTRICT.

Jowár and vegetables sown in the Muzaffargarh tahsíl. Crops slightly damaged by the recent rains. The rabi harvest being reaped. Yield average. The state of the public health good. Puran canal in the Alipur tahsíl running, but irrigation of lands not begun yet. Food and fodder sufficient.

29.—DERA GHAZI KHAN DISTRICT.

Sowings hardly begun. Condition of crops average. Yield rather below average. Condition of cattle good.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1[illegible]

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 14th May 19 7.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 4th May 1907, there were 849 births registered in the 43 large municipal towns (433 males and 416 females), giving a birth-rate of 30 *per mille* of population, and 4,161 deaths were registered (2,091 males and 2,070 females), giving a death-rate of 149 *per mille* of population. The death-rates registered in the four largest towns were as follows:—Delhi 182 against 73 in the corresponding week of the previous year; Lahore 162 against 71; Amritsar 96 against 103; and Multán 22 against 23. There were 476 deaths reported from plague in Lahore, 393 in Jullundur, 205 in Siálkot, 136 in Amritsar, 129 in Rohtak, 115 each in Bhiwáni and Ambála, 102 in Gujránwála, 99 in Kaithal, 87 in Jalálpur, 84 in Chiniot, 83 in Batála, 73 in Jagádhri, 69 in Kasúr, 61 in Jhajjar, 57 in Pánipat, 44 in Delhi, 34 each in Ráekot and Bhera, 27 in Rewári, 23 each in Wazirabad and Gujrát, 22 in Khusháb, 21 in Hoshiárpur, 17 in Shahabad, 16 in Ráwalpindi, 15 each in Palwal and Kartárpur, 14 in Ludhiána, 13 each in Jagraon and Pind Dádan Khan, 11 in Tánda-Urmar, 10 in Hánsi, 9 in Sirsa, 6 each in Ferozepore and Lyallpur, 4 in Karnál, 2 each in Hissar and Jhang-Maghiána, and 1 each in Sonepat and Jhelum. Of the 25 deaths from small-pox, 3 each were registered in Rewári and Amritsar, 2 each in Hissar, Karnál, Hoshiárpur, Tanda-Urmar, Kasúr and Multán, and 1 each in Hánsi, Jhajjar, Kaithal, Pánipat, Batála, Bhera, and Pind Dádan Khan.

Deaths reported from plague during the week ending 11*th May* 1907 *in the districts, including all municipal towns:*—Hissar 419, Rohtak 3,365, Gurgaon 712, Delhi 253, Karnál 1,751, Ambála 1,668, Kángra 9, Hoshiárpur 948, Jullundur 4,607, Ludhiána 300, Ferozepore 3,279, Montgomery 636, Lahore 4,183, Amritsar 2,630, Gurdáspur 1,845, Siálkot 6,230, Gujránwála 5,523, Gujrát 5,435, Shahpur 4,613, Jhelum 4,893, Ráwalpindi 1,449, Attock 601, Miánwáli 6, Jhang 236, Lyallpur 276, and Multán 1; Patiála State 921, Kapurthala State 1,157, Jínd State 201, Kalsia State 25, Farídkot State 12, and Nábha State 673. Total for the province 58,857. Total for the previous week 52,698. Total for the corresponding week of the previous year 7,873.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, MAY 23, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 21st MAY 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 14¾ seers. Gram, 20 seers. Bájra, 18 seers.	...	Cotton being sown on canal lands.
2	Rohtak ...	0·15 at Sadr ... 0·27 at Jhajjar. 0·20 at Salháwas...	1. Sufficient ... 3. Good.	Wheat, 15½ seers Gram, 20 seers. Jowár, 23 seers. Maize, 20 seers.	Condition of standing extra spring crops good.	Sowings of cotton continue.
3	Gurgaon ...	0·10 at Sadr ... More in certain parts of the district.	1. Sufficient ... 3. Fair.	Wheat, Barley, Maize, } below normal. Gram, Bájra, } normal.	Prospects of outturn of extra spring crops average.	Cotton, great millet, &c., being sown on canal lands.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint. 3. Good.	Unchanged ...	...	Sowings of cotton and sugarcane continue. Ploughings for other autumn crops in progress.
5	Ambála ...	0·30 at Jagádhri ... 0·42 at Naráingarh. 0·25 at Kasauli. Rainfall also in parts of Ambála and Kharar.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 15 to 16 seers. Gram, 17 to 21½ seers. Maize, 20 seers. Barley, 20 seers. Jowár, 28 seers. Bájra, 18 seers.	Yield of spring crops fair and condition of extra spring crops generally good.	Rainfall doing good to standing sugarcane crop.
6	Jullundur ...	0·30 at Nakodar ...	1. Sufficient ... 3. Good.	Rising ...	Winnowing of wheat and gram in progress. Standing extra spring crops good.	Sugarcane weeding and cotton sowings continue.
7	Ferozepore ...	...	1. Green fodder not available. 3. Good.	Ditto ...	Threshing of spring crops going on; yield average. Standing extra spring crops in good condition except melons, which have been damaged by insects in tahsíl Fazilka.	...
8	Lahore ...	...	1. Sufficient ... 2. Good.	Unchanged ...	Extra spring crops being sown. Threshing of wheat and gram in progress: outturn good.	Cotton and sugarcane sowings continue.

11	Shahpur ...	0·44 at Sadr ...	1. Sufficient ... 3. Good.	Bájra, Maize, } above normal. Barley, Jowár, } normal. Others, below normal.	Harvesting in progress. Outturn below average. Labour scarce.	Cotton, &c., being sown.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·21 at Sadr ... 0·90 at Murree.	1. Sufficient ... 3. Good.	Wheat, 17¼ seers. Bájra, 25½ seers. Maize, 25½ seers. Gram, 19 seers. Barley, 25¾ seers.	Harvesting in progress. Locusts appeared and damaged extra spring crops.	...
13	Miánwáli ...	0·43 at Sadr ...	1. Becoming scarce ... 3. Average.	Unchanged ...	Condition of extra spring crops in Bhakkar and Leiah tahsíls good. Expected outturn fair. Crops in Miánwáli and Isa Khel destroyed by locusts. Hoppers in abundance causing damage to fruit trees also.	...
14	Lyallpur ...	0·36 at Sadr ... 0·06 at Samundri.	1. Plentiful ... 3. Good.	Rising ...	Threshing of spring crops and sowings of extra spring crops in progress. Outturn of wheat below normal owing to rust. Locusts destroyed.	...
15	Multán ...	...	1. Sufficient ...	Wheat, 16 seers ... Gram, 20¼ seers. Maize, 22½ seers.	Wheat being threshed and gathered; yield below average. Condition of extra spring crops average.	Indigo, cotton and great millet being sown.

GENERAL REMARKS.

Rainfall.—Light rain has fallen in Ambála and parts of Rohtak, Gurgaon, Jullundur, Amritsar, Shahpur, Ráwalpindi, Miánwáli and Lyallpur.

Prices.—Prices of food-grains show a general tendency to rise.

Agricultural operations.—Harvesting of spring crops and sowings of cotton, sugarcane, &c., continue. Sugarcane being weeded in Jullundur.

Crops and outturn.—Outturn of spring crops generally good to average; in Shahpur, Lyallpur and Multán outturn below average. Condition of extra spring crops good.

Damage done to crops.—Locusts have damaged extra spring crops in Ráwalpindi and parts of Miánwáli; in the latter abundant locust hoppers are also causing damage to fruit trees. Melon crop damaged by insects in Ferozepore. Locusts have been destroyed in Lyallpur.

Agricultural stock.—Cattle in good condition.

Pasturage.—Fodder sufficient except in Miánwáli. Green fodder not available in Ferozepore.

Water-supply.—No complaint.

TULSI DAS, SUPDT.,
for *Director of Agriculture, Punjab.*

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING MARCH 1907.

Station.	Pressure.		Wind.		Temperature in shade.									
	Barometer at 8 h. reduced to 32°, to constant gravity at 45° Lat. and to sea-level.	Departure from normal.	Mean direction and velocity in miles per hour, March 1907. * Mean of 30 days.
† Ditto 18 days.

The weather was unusually wet in the Punjab, Kashmír and the Frontier Province during the month of March in consequence of the action of a series of five depressions which entered north-west India from the Persian region. These occasioned precipitation over the whole of the area, but chiefly in the west Himalayas and the submontane districts. The first depression entered the north-west on the 28th February, and from the 1st to the 3rd March light falls of snow and rain were reported from the hills, and of rain from a few stations in the adjacent plains. The next disturbance entered India on the 5th as a fairly deep depression, but the precipitation it caused was confined to Kashmír, the Frontier Province and the North Punjab, where heavy falls were recorded at some stations. The third and fifth depressions were important; they entered India on the 10th and 20th respectively, and were associated with secondary depressions in the Punjab. Light to moderately heavy and widespread precipitation resulted in Kashmír, the Frontier Province and nearly the whole of the Punjab. The fourth disturbance was unimportant, and gave only a few light falls of rain on the 14th, 15th and 16th. A period of slightly unsettled weather set in over north-west India on the 24th, and light precipitation was reported from the hills and submontane districts from that date until the 29th. As a result of the unusually heavy rainfall, temperature was largely in defect during the greater part of the month.

Pressure and winds.—Pressure was in excess in the plains and in defect in the hills, and the vertical pressure gradient was thus considerably steeper than usual. The velocity of the wind was either equal to or in excess of the normal everywhere, except at the three stations of Peshâwar, Cherát and Murree. At Cherát the mean wind velocity was only 9 miles per hour as compared with the normal velocity of 14 miles. At most stations in the Punjab winds were more easterly than usual.

Temperature.—During the first ten days of the month the mean temperature of the Punjab and the Frontier Province was nearly normal, but a rapid fall occurred on the 11th, and from that date until the end of the month temperature was in moderate to large defect. On the 22nd the mean temperature for the whole area was 15° below normal. Maximum and minimum temperatures were in defect on the mean of the month at all stations, the deficiency being much more marked in the former than in the latter, except at Simla, where the reverse was the case. At Ludhiána and Murree the defect in the maximum averaged 11°. The highest temperature recorded during the month was 89·3° at Sirsa on the 1st.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmír and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Cloud and humidity.—The air was damper, and the proportion of cloud at 8 h. greater than usual at most stations.

Rainfall.—Delhi, Khusháb, Multán, Dera Ismail Khan, Pesháwar, Skardu and Drás were the only stations where the precipitation of the month did not exceed the normal. At Simla the rainfall recorded was 6·71″ as compared with the normal of 2·07″, and at Ambála, Ludhiána and Siálkot also the amount of rain received was more than three times the normal fall.

The following table gives the rainfall data for the Punjab, Kashmír and the North West Frontier Province stations for March 1907:—

Extra spring crops in Miánwáli and Isa Khel tahsils destroyed by hoppers which are now decreasing. Condition of extra spring crops in Bhakkar and Leiah tahsils average.	...
14	Lyallpur ...	0·10 at Sadr ... 0·03 at Samundari.	1. Plentiful ... 3. Good.	Rising ...	Threshing of spring crops continues. Outturn of wheat below normal.	Cotton &c., being sown.
15	Multán ...	...	1. Sufficient ...	Wheat, 15¼ seers Gram, 20¼ seers. Maize, 22½ seers.	Wheat being threshed and gathered. Yield below normal.	Indigo, cotton and great millet being sown.

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in all districts except Delhi, Ferozepore, Amritsar and Multán.

Prices.—Prices of food-grains generally unsettled. Wheat is rising in Rohtak, Ambála, Lahore, Ráwalpindi, Miánwáli, Lyallpur and Multán; falling in Hissar and Jullundur.

Agricultural operations.—Harvesting of spring crops and sowings of cotton, sugarcane, and other autumn crops continue. Indigo being sown in Delhi and Multán. Sugarcane weedings going on in Jullundur and Siálkot. Labour scarce in Shahpur.

Crops and outturn.—Condition of prospects of extra spring crops good. Outturn of spring crops average to poor; fair in Ambála.

Damage done to crops.—Extra spring crops slightly damaged by locusts in Lahore and Ráwalpindi; by hoppers in two tahsils of Miánwáli.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient except in Miánwáli. Green fodder not available in Ferozepore.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 29th May 1907.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 18th May 1907 there were 754 births registered in the 42 large municipal towns (409 males and 345 females), giving a birth rate of 27 *per mille* of population, and 2,771 deaths were registered (1,358 males and 1,413 females), giving a death rate of 100 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 95 against 88 in the corresponding week of the previous year; Lahore 109 against 70; Amritsar 85 against 92; and Multán 28 against 30. There were 238 deaths reported from plague in Lahore, 219 in Jullundur, 90 in Siálkot, 86 in Chiniot, 80 in Jalálpur, 79 each in Kaithal and Amritsar, 53 in Bhiwáni, 41 in Ambála, 39 in Jhajjar, 37 in Hánsi, 35 in Pánipat, 34 in Batála, 32 in Bhera, 27 each in Shahabad and Pind Dádan Khan, 25 in Gujránwála, 22 each in Rohtak and Jagádhri, 21 in Palwal, 20 in Wazirabad, 19 in Kasúr, 18 each in Gujrát, Khusháb and Ráwalpindi, 14 in Rewári, 13 in Sirsa, 12 in Ludhiána, 11 each in Karnál, Tánda-Urmar and Kartarpur, 8 in Delhi, 7 in Ráekot, 5 in Hoshiárpur, 4 in Jagraon, 2 each in Hissar, Sonipat and Ferozepore, and 1 in Jhang-Maghiána. Of the 32 deaths from small-pox, 7 were registered in Amritsar, 4 in Bhiwáni, 2 each in Hissar, Rewári, Palwal, Karnál, Kaithal, Hoshiárpur, Batála, Pind Dádan Khan, and Jhan-Maghiána, and 1 each in Hansi, Tánda-Urmar and Wazirabad.

Deaths reported from plague during the week ending 25th May 1907 in the districts, including all municipal towns:—Hissar 268, Rohtak 1,709, Gurgaon 502, Delhi 639, Karnál 1,562, Ambála 769, Kángra 6, Hoshiárpur 414, Jullundur 2,373, Ludhiána 350, Ferozepore 2,352, Montgomery 483, Lahore 4,012, Amritsar 1,823, Gurdáspur 1,869, Siálkot 4,998, Gujránwála 5,507, Gujrát 3,971, Shahpur 2,607, Jhelum 2,006, Ráwalpindi 2,085, Attock 752, Miánwáli 9, Jhang 291, Lyallpur 475, and Multán 2; Patiála State 400, Kapurthala State 540, Jind State 150, Nábha State 3 and Dujána State 4. Total for the province 42,931. Total for the previous week 53,654. Total for the corresponding week of the previous year 6,867.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

BOMBAY, BARODA AND CENTRAL INDIA RAILWAY.

(INCLUDES THE RAJPUTANA STATE RAILWAY, THE HOLKAR STATE RAILWAY, THE SINDIA-NEEMUCH STATE RAILWAY, THE REWARI-BHATINDA-FAZILKA STATE RAILWAY, THE CAWNPORE-ACHNERA STATE RAILWAY, AND THE GODHRA-RUTLAM-NAGDA STATE RAILWAY.)

Abstract of the principal commodities carried on the Rájpútána-Málwa Railway during the month of January 1907, as compared with the same month of the previous year.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	0·21 at Balabgarh	1. Sufficient ... 2. No complaint. 3. Good.	Unchanged ...	...	Sowings of cotton, sugarcane and indigo in progress. Ploughings for other autumn crops going on.
5	Ambála ...	0·04 at Sadr ... 0·33 at Jagadhri. 0·38 at Kharar. 0·85 at Kasauli.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 14½ to 15 seers. Gram, 18½ to 19½ seers. Barley, 19½ seers. Maize, 19 seers. Jowár, 24 seers. Bájra, 18 seers.	Condition of extra spring crops average. Yield of spring crops about average.	...
6	Jullundur ...	0·07 at Phillaur	1. Sufficient ... 3. Good.	Rising ...	Wheat and gram threshing continue. Standing extra spring crops fair.	Weeding of cotton and sugarcane in progress.
7	Ferozepore ...	...	1. Green fodder not available. 3. Good.	Rising ...	Spring crops being threshed. Yield average. Standing extra spring crops in good condition. Locusts appeared in Tahsíls Zíra and Ferozepur, but caused no damage.	...
8	Lahore ...	...	1. Sufficient ... 3. Good.	Rising ...	Spring crops being threshed. Outturn average Prospects of extra spring crops good. Slight loss by rick-burning.	Cotton, great millet, &c., being sown.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Barley, Jowár, Bájra, } high. Gram, Maize, } warning.	Threshing of spring crops continues. Yield poor Condition of standing extra spring crops good	Cotton, rice, &c., being sown.
10	Siálkot ...	0·05 at Pasrúr ...	1. Sufficient ... 3. Good.	Wheat, 15 seers ... Barley, 20 seers. Gram, 16 seers. Rice, 7½ seers.	Threshing of spring crops going on. Outturn below average. Extra spring crops being weeded. Condition average.	Weeding of sugarcane and cotton going on.
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Maize, } above normal. Bájra, normal. Others below normal.	Standing extra spring crops damaged by locusts. Wheat being harvested. Yield below average.	Cotton and great millet being sown.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·40 at Sadr ... 1·24 at Gujar Khán 0·06 at Káhuta. 1·48 at Murree.	1. Sufficient ... 3. Good.	Wheat, 16½ seers Gram, 18 seers. Barley, 22½ seers. Bájra, 22½ seers. Maize, 22 seers.	Threshing of spring crops in progress. Crops still being damaged by locusts.	...
13	Miánwáli ...	0·29 at Sadr ...	1. Scarce in Bhakkar and Leiah tahsíls. 3. Fair.	Rising ...	Cutting of spring crops finished. Condition of extra spring crops of Bhakkar and Leiah good. Crops in Miánwáli and Isa Khel destroyed by hoppers. Locusts disappeared.	...
14	Lyallpur ...	0·02 at Sadr ...	1. Sufficient ... 3. Good.	Rising ...	Threshing and collection of wheat crop continue. Outturn below normal. Condition of extra spring crops average. Locusts appeared in parts but did no damage.	...
15	Multán ...	0·66 at Sadr ... 0·23 at Mailsi. 0·56 at Shujabad. 0·31 at Kabírwála.	1. Sufficient ...	Wheat, 15½ seers Gram, 20 seers. Maize, 22 seers.	Wheat being threshed and gathered. A little damage done to wheat by rain. Yield below average.	Locusts appeared in tahsíls Shujabád, Lodhran and Kabírwála and did damage to great millet and indigo. Cotton, indigo, and great millet being sown.

GENERAL REMARKS.

Rainfall.—Rain has fallen in all districts except Ferozepore, Lahore, Amritsar and Shahpur.

Prices.—Prices of food-grains rising in Hissár, Ambála, Jullundur, Ferozepore, Lahore, Ráwalpindi, Miánwáli, and Lyallpur; unchanged elsewhere.

Agricultural operations.—Harvesting of spring crops and sowings of cotton, sugarcane, indigo and other autumn crops continue. Cuttings of extra spring crops commenced in Gurgáon. Weeding of standing crops going on in Jullundur and Siálkot.

Crops and outturn.—Outturn of spring crops average to poor; condition and prospects of extra spring crops good.

Damage done to crops.—Locusts appeared but did no damage in Rohtak, Ferozepore and Lyallpur, but are still damaging the standing crops in Shahpur, Ráwalpindi and Multán. Locusts disappeared in Miánwáli. Some damage to wheat by rain reported from Multán. Slight loss by rick burning in Lahore.

Agricultural stock.—Condition of cattle good.

Pasturage.—Fodder sufficient except in parts of Miánwáli. Green fodder not available in Ferozepore.

Water-supply.—No complaint.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 11th JUNE 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·17 at Bhiwáni ... 0·08 at Budhláda.	1. Sufficient ... 3. Good.	Wheat, 12¾ seers Bájra, 17½ seers. Gram, 18¾ seers.	Extra spring crops in good condition.	Cotton in good condition.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 13 seers ... Gram, 18 seers. Jowár (great millet), 22 seers. Maize, 20 seers.	Standing extra spring crops in good condition.	Cotton being sown on canal lands.
3	Gurgaon ...	...	1. Sufficient ... 3. Good.	Wheat, Barley, Maize, } below normal. Gram, Bájra, } normal.	Extra spring crops being cut. Standing extra spring crops in good condition. Prospects of outturn appear to be average.	Cotton being sown on canal lands. Ploughings for other autumn crops being made.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint. 3. Good.	High ...	Extra spring crops being reaped.	Sowings of cotton, sugarcane and indigo finished, and ploughings for other autumn crops in progress.
5	Ambála ...	0·35 at Kasauli ...	1. Sufficient ... 2. Water insufficient in some places of Kharar tahsíl.	Wheat, 14½ to 15 seers. Gram, 19 to 20 seers. Maize, 20 seers. Barley, 20 seers. Jowár, 24 seers. Bájra, 18 seers.	Condition of extra spring crops on the whole fair. Melons damaged in some places. Yield of spring crops average. Locusts appeared in certain villages of Ambála and Naráingarh tahsíls, but did no damage.	...
6	Jullundur ...	0·25 at Nakodar ..	1. Sufficient ... 3. Good.	Rising ...	Wheat and gram threshing continues. Standing crops fair. Locusts appeared, but did no damage.	Weeding of sugarcane and cotton in progress.
7	Ferozepore ...	0·63 throughout the district.	1. Green fodder not available. 3. Good.	Unchanged ...	Corn being threshed and slightly damaged by rain. Yield average. Standing extra spring crops good.	Cotton and sugarcane crops good.
8	Lahore ...	0·57 at Sadr ... 0·15 at Chunián. 0·60 at Kasúr. 0·55 at Sharakpur.	1. Sufficient ... 3. Good.	Rising ...	Spring crops are being threshed. Prospects of extra spring crops good. Outturn of spring crops average. Locusts appeared in village Bhila of tahsíl Kasúr and in the Sharakpur tahsíl.	Cotton and other autumn crops being sown.
9	Amritsar ...	0·28 at Sadr, more in Ajnála, and less in Tarn Táran.	1. Sufficient ... 3. Good.	Wheat, Barley, Jowár, Bájra, } high. Gram, Maize, } warning.	Threshing of wheat continues. Condition of standing crops generally good. Outturn of spring crops poor. Locusts appeared in parts of district, but did no damage.	Cotton, sugarcane rice, &c., being sown.
10	Siálkot ...	1·47 at Sadr ... 0·11 at Zafarwál. 0·08 at Raya. 0·35 at Pasrúr. 0·79 at Daska.	1. Sufficient ... 3. Good.	Wheat, 14½ seers Barley, 20 seers. Gram, 16 seers. Rice, 7 seers.	Threshing of rabi crops continues. Outturn much below average. Extra spring crops being weeded. Condition of crops average.	Weeding of cotton and sugarcane in progress.
11	Shahpur ...	0·35 at Sadr ... Similar all over the district.	1. Sufficient ... 3. Good.	Maize, above normal. Jowár and bájra normal. Gram, warning. Others, below normal.	Wheat-harvesting continues. Outturn below average. Flood in the Jhelum damaged wheat ricks in Shahpur and standing extra spring crops in Khusháb and Shahpur tahsíls. Locusts damaged extra spring crops.	Sowings of cotton and other autumn crops in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1						
12	Ráwalpindi ...	...	1. Sufficient ... 3. Good.	Wheat, 17½ seers. Bájra, 23 seers. Maize, 22 seers. Gram, 18 seers. Barley, 22½ seers.	Threshing of spring crops in progress. Locusts appeared in the Ráwalpindi, Gujar Khan and Murree tahsíls.	...
13	Miánwáli ...	0·81 at Sadr ... 0·25 at Bhakkar. 0·13 at Leiah.	1. Scarce in Bhakkar and Leiah tahsíls. 3. Average.	Unchanged ...	Condition and expected yield of extra spring crops of Bhakkar and Leiah tahsíls good, but those of Miánwáli and Isa Khel tahsíls destroyed by hoppers.	...
14	Lyallpur ...	2·60 at Sadr ... 2·26 at Samundri. 0·72 at Toba Tek Singh.	1. Sufficient ... 3. Good.	Unchanged ...	Wheat crop damaged by rain. Threshing and collection of wheat continues. Condition of extra spring crops average. Outturn of wheat below normal. Two villages of tahsíl Lyallpur had hailstorm which damaged extra spring crops.	Cotton and sugarcane damaged by locusts.
15	Multán ...	1·09 at Sadr ... 1·33 at Mailsi. 2·34 at Lodhrán. 2·15 at Shujabad. 0·96 at Kabírwála.	1. Sufficient ... 3. Good.	Wheat, 15¼ seers. Gram, 20 seers. Maize, 20 seers.	Damage done to wheat and bhúsa (straw) (some not gathered) by rain. Yield below average. Extra spring crops average.	Little damage done by locusts to great-millet and indigo in Shujabad and Lodhrán.

GENERAL REMARKS.

Rainfall.—Rain has fallen in all districts except Rohtak, Gurgaon, Delhi and Ráwalpindi.

Prices.—Prices of food-grains are generally rising in Hissar, Rohtak, Jullundur, Lahore, Siálkot and Multán. Price of wheat is falling in Ráwalpindi.

Agricultural operations.—Harvesting and threshing of spring crops and sowings of cotton, sugarcane and other autumn crops continue. Cutting of extra spring crops in progress in Gurgaon and Delhi. Cotton, sugarcane and extra spring crops being weeded in Jullundur and Siálkot.

Crops and outturn.—Outturn of spring crops average to poor. Condition and prospects of extra spring crops good to average.

Damage done to crops.—Locusts damaged the extra spring crops in Shahpur; cotton and sugarcane in Lyallpur; and indigo and great-millet crops in Multán. They also appeared in Ambála, Jullundur, Lahore, Amritsar and Ráwalpindi, but did no damage. Some damage done to wheat by rain in Ferozepore, Lyallpur and Multán; to wheat ricks and extra spring crops by flood in the [illegible] river in Shahpur. Extra spring crops destroyed by hoppers in parts of Miánwáli, and by hailstorm in two villages of Lyallpur.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient except in parts of Miánwáli. Green fodder not available in Ferozepore.

Water-supply.—Water insufficient in parts of Ambála.

TULSI DAS, SUPDT.,

for *Director of Agriculture, Punjab.*

* Mean of 5 days.

During the first week of April the general meteorological conditions appeared to indicate an early hot weather, but an abrupt change took place about the 9th, and from that date on to near the end of the month the weather experienced in the Punjab and the Frontier Province resembled rather that characteristic of the winter. From the 11th to the 18th the weather of north-west India was determined mainly by two depressions of the winter type entering India from the west, and another similar disturbance gave precipitation very near the end of the month in parts of Kashmír, the Frontier Province and the adjacant districts of the Punjab. The weather of the month was thus unusually rainy, damp and cold, raintall being 311 per cent. in excess of the normal in the plains of the Punjab, and 127 per cent. in excess in the Frontier Province. In Kashmír weather was on the whole more nearly normal than in the Punjab and the Frontier Province and precipitation was somewhat in defect.

Pressure and winds.—Pressure was normal or in slight defect along the Himálayás and in slight excess elsewhere. Winds were fairly normal in strength, but, probably owing to the disturbed weather experienced during the month, their directions differed considerably from those usua'ly recorded in April.

Temperature.—With the exception of the 1st and 2nd mean temperature was normal or in excess up to the 9th, when a sudden change took place, and from the 10th to the 28th unusually cool weather prevailed; mean temperature was between 12° and 17° below normal on each of the 14th, 17th, 18th and 19th On the average of the whole month minimum or night temperature was approximately normal, but the maximum or day temperature was in marked defect everywhere, except in Kashmír, where it was more nearly normal; at Ludhiána the defect averaged 13° and at Ambála 10½°. The highest temperature recorded during the month was 106·9° at Multán on the 30th.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmír and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.

Cloud and humidity.—There was more cloud than usual, and humidity was considerably above normal at all stations, except those in Kashmír.

Rainfall.—The precipitation at Skardu and Drás was below normal, but unusually wet weather prevailed at all the other stations. The rainfall at Siálkot amounted to 4·68″ as compared with the average fall of 0·80″, the excess at that station thus being 585 per cent. of the normal. The absolute excess was, however, largest at Cherát and Murree where it amounted to 4½ inches.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for April 1907 :—

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 7th June 1907.

KASHI RAM, SUPERINTENDENT,
for Sanitary Commissioner, Punjab.

Remarks by the Sanitary Commissioner, Punjab.

FIFTY-SEVEN THOUSAND FIVE HUNDRED AND SIXTY-NINE births were registered in the province during the month of April 1907, giving a birth-rate of 35 *per mille* of population. Of the total number of births, 30,382 were boys and 27,187 were girls.

The total number of deaths registered from all causes in the province during the month of April 1907 was 239,482 against 154,586 in the previous month and 69,262 in the corresponding month of the past year, giving an annual death-rate of 145, 91 and 42 *per mille* of population per annum, respectively.

There was not a single death registered under the head of cholera.

The total mortality from plague amounted to 193,952 against 100,285 in the previous month and 28,565 in the corresponding month of the past year. The largest number of deaths from plague during the month were registered in the following districts:—Gujránwála 25,275, Siálkot 22,563, Lahore 18,283, Jullundur 14,840, Gujrát 13,978, Rohtak 12,725, Shahpur 11,726, Ferozepore 11,547, Gurdáspur 10,151, Am bála 9,058, Amritsar 8,098, and Jhelum 6,271.

From small-pox 946 deaths were registered against 983 in the previous month and 1,180 in the corresponding month of the past year; fevers 28,134 against 34,479 and 23,859; dysentery and diarrhœa 918 against 949 and 1,280; respiratory diseases 4,838 against 6,137 and 4,073. During the month there were 36 deaths registered from suicide against 24 in the past month; wounding 31 against 30; accidents 328 against 248; snake-bite and killed by wild beasts 31 against 33; and from all other causes 10,268 against 11,415 in the previous month and 9,881 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 7th June 1907.

KASHI RAM, SUPERINTENDENT,
for *Sanitary Commissioner, Punjab.*

13	Miánwáli ...	1·86 at Isa Khel ... 0·06 at Bhakkar.	1. Procurable ... 3. Fair.	Unchanged ...	Condition of extra spring crops good in Bhakkar and Leiah. Crops in Miánwáli and Isa Khel tahsíls destroyed by hoppers.	...
14	Lyallpur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Threshing and collection of wheat continues. Condition of standing crops good. Outturn of wheat below normal. Standing crops in Toba Tek Singh damaged a little by locusts.	...
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 15¼ seers Gram, 20 seers. Maize, 20 seers.	Extra spring crops average. Yield below average.	Cotton and other autumn crops being sown. Slight damage done by locusts to great-millet and indigo in tahsíls Shujabad and Lodhrán.

GENERAL REMARKS.

Rainfall.—Rain has fallen in Siálkot and Ráwalpindi and parts of Gurgaon, Jullundur and Miánwáli.

Prices.—Prices of food-grains are generally rising in Jullundur, Lahore and Ráwalpindi, and falling in Hissar and Rohtak.

Agricultural operations.—Harvesting and threshing of spring crops and sowings of cotton, sugarcane and other autumn crops continue. Extra spring crops being cut in Gurgaon. Ploughings for autumn crops in progress in Gurgaon and Delhi. Cotton, sugarcane and extra spring crops being weeded in Jullundur and Siálkot.

Crops and outturn.—Outturn of spring crops average to poor. Condition and prospects of standing extra spring crops generally good; poor in Shahpur. Cotton and sugarcane crops in good condition.

Damage done to crops.—Locusts appeared in Rohtak, Jullundur, Lahore, Amritsar, Siálkot, Lyallpur and Multán and slightly damaged the crops in the latter three districts. Crops in parts of Miánwáli destroyed by hoppers.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient. Green fodder not available in Ferozepore.

Water-supply.—Water insufficient in parts of Ambála.

TULSI DAS, Supdt.

Office of Director of Agriculture, Punjab.

Note on the condition and prospects of crops, etc., in each district of the Punjab during the month of May 1907.

1.—HISSAR DISTRICT.

Cotton crop on canal lands benefited by recent rains. Fodder sufficient. Cattle in good condition.

2.—ROHTAK DISTRICT.

Sowing of cotton in irrigated tracts and that of bájra in báráni tracts where sufficient rain has fallen is in progress. Rabi crops are all in and the standing crops are in good condition. Yield of extra rabi crops, though sown on a small scale, is expected to be good. Cattle in excellent condition. The canal supply sufficient.

3.—GURGAON DISTRICT.

As certain parts of the Rewári tahsíl received a fair amount of rain hence bájra was being sown in those localities and chari, guár and cotton in the Fírozpur tahsíl on the canal-irrigated area. Záid rabi crops were being cut. Ploughings have begun throughout the district. Standing crops were in good condition. Prospects of záid rabi appear to be good. Cattle were in fair condition. Fodder sufficient. Canal water was used during the month. Locusts appeared in the Rewári tahsíl, but did no damage.

4.—DELHI DISTRICT.

Sowings of sugarcane, cotton and indigo in progress. The condition of extra rabi crops fair. The outturn is below average. Cattle in good condition. No complaint about canal irrigation. Fodder sufficient. Rates of food-grain rather high.

5.—KARNAL DISTRICT.

Sowings of cotton throughout the district and of chari only in the Kaithal tahsíl are proceeding on a small scale. Except in Kaithal, the condition of extra rabi crops that received irrigation is good. The reaping of the rabi crops is finished. Both in Karnál and Kaithal the yield falls a little short of what was expected In Pánipat the yield is expected to be 12 annas. In Guhla the yield of gram does not come up to the average. The condition of cattle is generally good. Fodder and water sufficient. No inundations. There was no break in the supply of water from the Sirhind and Western Jumna Canals. The extra rabi crops and sugarcane received irrigation in time. On account of the export of wheat and gram, &c., their prices are rising. In certain places damage was caused by fire.

6.—AMBALA DISTRICT.

No sowings. Extra rabi crops average. Melons damaged in some places. Yield of spring crops on the whole average. Condition of cattle generally good.

7.—SIMLA DISTRICT.

The rainfall was insufficient in both tahsíls. In the Simla tahsíl maize, koda and ginger have been sown to the extent of one-tenth and in the Kot Khái tahsíl rice, china báthu and koda to the extent of one-eighth of expected sowings. Harvesting was in progress during the month. The condition of cattle is good. Fodder grazing is sufficient. Health of people good. The water in hill streams is sufficient, but no crops were watered therefrom during the month.

8.—KANGRA DISTRICT.

Some area was sown with rice, maize, kangni, &c. The rabi crop was very bad. The outturn of the rabi harvest has been equal to 25 per cent. The public health is generally good. Water in the kúhls (streams) was sufficient for irrigation purposes. The hail-storm damaged the crops in some villages of tahsíls Núrpur, Pálampur and Dehra.

9.—HOSHIARPUR DISTRICT.

Munji (rice) and sugarcane were sown during the month. Prospects of the tobacco crop good, but that of the mango crop very disappointing. Sugarcane and cotton slightly injured by an insect calld the "*Toka*." The expected yield of rabi crops on the whole not more than one-half. The rain on the 16th, 17th and 18th of April discoloured grain. Cattle generally in good condition and fodder sufficient The latter however is inferior in quality to that of past years due to the rain mentioned above which affected it. Irrigation from Shah Nahr and other zamíndári canals had to be resorted to. Prices have risen in spite of the new harvest having gone into market.

10.—JULLUNDUR DISTRICT.

Sowings of extra rabi, sugarcane and cotton finished. Reaping of rabi crops finished; threshing continues. Condition of crops fair. Yield slightly below average. Condition of cattle good. Fodder sufficient.

11.—LUDHIANA DISTRICT.

Chari and china were sown on irrigated area in some villages of the Ludhiána tahsíl. The condition of extra rabi crops good. The yield of wheat, barley and gram below average owing to rains and dust-storms at the time when the crops were about to be reaped. As a result, their corns were thinner; bhusá (straw) became blackish. The condition of cattle good. The canal was practically closed for the month. The irrigation from wells was satisfactory. Prices rose on account of the harvesting season.

12.—FEROZEPORE DISTRICT.

Sowing of extra rabi crop finished. Harvesting of rabi crop finished. Threshing in progress. Extra rabi crops in good condition except melons which have been damaged by insects in tahsíl Fázilka. Locusts appeared in tahsíls Zíra and Ferozepore in the latter part of the month, but caused no damage. Yield average. Cattle in good condition. Sirhind canal and the district inundation canals had been flowing and a small area was irrigated. Stocks of food-grains and fodder sufficient. Green fodder not available. Prices of food-grains rising.

13.—MONTGOMERY DISTRICT.

Cotton, chari and rawan were sown to a certain extent. Rabi crops have been cut. Zaid Rabi average. Yield less than average. Condition of cattle good. Fodder sufficient. There has been water in the Sutlej river, and the canals served by that river have been working during the month. Canals have also been working in the Gugera tahsíl.

14.—LAHORE DISTRICT.

Cotton, chillies, moth and hari chari were being sown during the month. The extra Rabi crops good. The condition of sugarcane crop average. Locusts passed through the district, but did no damage. Yield of gram and wheat decreased much on account of unusual rains and winds. Grams generally spoiled and wheat dried up unripened. The perennial canals worked well. There were no floods in the river and the Deg and Anubi Nala dried up during the month. Prices of food-grains rising as the yield of all crops was much below that which was expected. The rise is also due to the export of the grain to other countries.

15.—AMRITSAR DISTRICT.

Cotton, hemp, rice, chillies and char being sown. Threshing of wheat and *berora* continues. Condition of cotton, sugarcane, chillies and char crops good. Yield of wheat and berora crops poor. Condition of cattle good. No complaint of insufficiency of canal water.

16.—GURDASPUR DISTRICT.

Cane and cotton sowings completed in tahsíl Gurdáspur. In other parts they are being resown as the first sowings were damaged by caterpillar. Rabi crops harvested and threshing in progress. Standing crops good in Shakargarh, elsewhere injured by Toka (a caterpillar). General yield average. Fodder sufficient. Canal and hill torrents flowing. Water nominal in rivers.

17.—SIALKOT DISTRICT.

Sowings of extra Rabi crops, cotton and sugarcane continued. Watering and weeding commenced. Condition of standing crops middling. Vegetables damaged by hail to some extent. Threshing of gram, barley and massar finished. Outturn much below average. Cutting of wheat crops finished and threshing commenced. Condition of cattle good. Water sufficient in Bajwát canal. No inundation during the month.

18.—GUJRANWALA DISTRICT.

Sowings of sugarcane and cotton completed. Those of chari and moth under progress. Plague has largely affected the sowings. Condition of extra Rabi crops and cotton fair. Sugarcane slightly damaged by locusts in some villages of new colony tahsíl Khángáh Dográn. Cutting of harvest delayed in some villages on account of plague. Yield poor i.e. below half of the average. Condition of cattle good. The stoppage of canal is reported to have affected the kharíf sowings in Khángah Dográn tahsíl. Price of food-grains slightly rising. Swarms of locusts passed through the district causing slight damage. Hail fell in some places, but did no appreciable damage.

19.—GUJRAT DISTRICT.

Sowings of cotton, sugarcane and extra Rabi crops finished. Condition of standing crops generally fair. Locusts are said to have damaged extra Rabi crops. Endeavours are being made for their destruction. Threshing of wheat in progress. Yield below average. Gram of inferior quality in the greater part of the district. Cattle in good condition. Fodder sufficient. Prices rising slightly.

20.—SHAHPUR DISTRICT.

Cotton, jowár, chari, moth and melons were sown during the month, but very small comparatively with the previous years, due to plague. The wheat crop has suffered much except in the Khusháb tahsíl, owing to bad weather and lack of labour due to plague. Gram crop suffered much in Bhera and Shahpur owing to untimely rains. Barley cut and threshed. Wheat still standing uncut to some extent. Threshing commenced only lately. Outturn much below the average. Cattle in good condition. Fodder sufficient. Bhúsa damaged and below the average. Canals running. Inundation once began to run during the last week of May. Flight after flight of locusts passed through hill circle and then throughout the district. Damage comparatively very little. Some damage was done to grass in hill circles and to záid Rabi crops in the whole district.

21.—JHELUM DISTRICT.

No sowings. Extra Rabi crops much damaged by locusts. The rabi crops have been reaped and harvesting is in progress, but plague is retarding operations. Excessive rain has adversely affected the yield which is less than was anticipated. Cattle in good condition. Fodder especially bhúsa sufficient. No floods. Prices rising in Jhelum tahsíl and falling in Chakwal tahsíl.

22.—RAWALPINDI DISTRICT.

Cotton and moth were sown. Rabi crops reaped and are being cleaned. Outturn of the Rabi crops average. Condition of cattle good. Locusts appeared and committed much injury to the sown corps.

23.—ATTOCK DISTRICT.

Rainfall below average and no sowings made. Tobacco and other záid rabi crops have been injured by locusts. Rabi crops have been reaped and are being cleaned. Outturn average.

24.—MIANWALI DISTRICT.

No sowings made during the month. Condition of záid Rabi corps of Bhakkar and Leiah good. Miánwáli and Isa Khel crops destroyed by locusts. Expected yield of záid Rabi crops good, but poor in Miánwáli and Isa Khel, where the locusts damaged the crops seriously. Cattle in fair condition. Fodder procurable in Miánwáli and Isa Khel, but scarce in Leiah and Bhakkar Thal. The Indus is rising. Locusts disappeared. Prices rising.

25.—LYALLPUR DISTRICT.

Early cotton and sugarcane sown have been damaged in places by locusts. Wheat cutting finished. Threshing is still in progress. The outturn especially in Lyallpur tahsíl is poor on account of late rain in April and consequent loss followed by hot drying winds. Gram and dhania have been greatly damaged by unseasonable rains. Cattle in good condition. Fodder plentiful. Some complaints of poor water-supply in the canal from the Bhangu Branch and the Mungi Rájbaha. Locust destruction is being carried out, but fresh v tations are entering Toba Tek Singh.

26.—JHANG DISTRICT.

Sowing of kharíf crop in progress. Rabi crop bad. The yield has fallen below average on account of the crops being damaged by unseasonable rains. Fodder sufficient. The canals are working The Chenab and Jhelum are in flood. There is a complaint of insufficiency of water in the villages on the tail of the Chenab Canal. Prices are rising on account of the damage to Rabi crops. Cotton sowing has been retarded by the visit of locusts to this district.

27.—MULTAN DISTRICT.

Wheat, barley and gram harvested and being removed from the threshing ground. Indigo, cotton and jowár being sown. Condition of záid rabi crops average. Expected yield average. Public health good. Sidhnái Canal, Chenab and Lower Sutlej Canals flowing. Locusts appeared in Lodhrán and Shujabad and did damage to indigo and jowár.

28.—MUZAFFARGARH DISTRICT.

Jowár and indigo sown in some parts of the district. Condition of crops average. The yield of rabi was not so good as was expected. Public health good. Canals have begun to run, but have not got full supply of water. No inundations. Food and fodder sufficient. Locusts were seen in Muzaffargarh tahsíl, but did no damage.

29.—DERA GHAZI KHAN DISTRICT.

Jowár and cotton being sown. Condition of crops average. Yield average. Condition of cattle fair. Canals running. No hill torrents.

TULSI DAS, OFFG. SUPDT.,

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 18th June 1907.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 8th June 1907 there were 774 births registered in the 43 large municipal towns (418 males and 356 females), giving a birth rate of 28 *per mille* of population, and 1,429 deaths were registered (708 males and 721 females), giving a death rate of 51 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 47 against 55 in the corresponding week of the previous year; Lahore 40 against 41; Amritsar 58 against 47; and Múltan 25 against 30. There were 41 deaths reported from plague in Lahore, 32 in Chiniot, 26 in Jalálpur, 25 in Jhajjar, 23 in Gujrát, 21 in Hánsi, 15 each in Kaithal, Jullundur, Pind Dádan Khan and Ráwalpindi, 13 in Shahabad, 10 in Pánipat, 9 each in Palwal and Bhera, 8 each in Batála and Siálkot, 7 in Wazírabad, 6 each in Rohtak, Rewári and Khusháb, 5 in Amritsar, 4 in Bhiwáni, 3 in Karnál, 2 each in Delhi, Gujránwála, Jhelum and Jhang-Maghiána, and 1 each in Hissar, Jagádhri, Tánda-Urmar, Kasúr and Lyallpur. Of the 48 deaths from small-pox, 8 were registered in Amritsar, 5 in Batála, 4 each in Kaithal, Hoshiárpur and Tánda Urmar, 3 each in Rewári, Delhi, Wazírabad and Pind Dádan Khan, 2 each in Hissar, Karnál and Jhang-Maghiána, and 1 each in Bhiwáni, Palwal, Shahabad, Jullundur and Bhera. There were 17 deaths recorded from cholera in Jhelum.

Deaths reported from plague during the week ending 15th June 1907 in the districts, including all municipal towns:—Hissar 52, Rohtak 307, Gurgaon 168, Delhi 95, Karnál 421, Ambála 138, Hoshiárpur 98, Jullundur 390, Ludhiána 36, Ferozepore 764, Montgomery 169, Lahore 1,443, Amritsar 591, Gurdáspur 365, Siálkot 1,209, Gujránwála 1,102, Gujrát 4,528, Shahpur 192, Jhelum 1,121, Ráwalpindi 1,690, Attock 607, Miánwáli 6, Jhang 101, and Lyallpur 415; Patiála State 1,205, Kapurthala State 7, Jínd State 31, and Nábha State 26. Total for the province 17,277. Total for the previous week 20,009. Total for the corresponding week of the previous year 1,409.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

2	Rohtak ...	0·30 at Sadr ...	1. Sufficient ... 3. Good.	Wheat, 13½ seers Gram, 18 seers. Jowár, 22 seers. Maize, 20 seers.	Condition of standing crops good.	Sowings of cotton and indigo continue on irrigated lands.
3	Gurgaon ...	0·50 at Sadr ... Less in other parts of the district.	1. Sufficient ... 3. Good.	Below normal ...	Extra spring crops being cut. Standing crops in good condition. Outturn average.	Ploughings for next autumn in progress. Cotton being sown on canal lands.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint. 3. Good.	High ...	...	Ploughings for autumn crops in progress.
5	Ambála ...	0·13 at Sadr ... 0·40 at Jagádhri. 0·54 t Naráingarh. 0·11 at Kharar. 0·33 at Rúpar. 0·97 at Kasauli.	1. Sufficient ... 2. Water insufficient in some places of Kharar tahsíl. 3. Good.	Wheat, 14¼ to 14¾ seers. Gram, 18¾ to 19 seers. Maize, 20 seers. Barley, 20 seers. Jowár, 20 seers. Bájra, 18 seers.	Condition of extra spring crops on the whole fair. Melons damaged in some places.	...
6	Jullundur ...	0·47 at Sadr ... Less in other tahsíls	1. Sufficient ... 3. Good.	Rising ...	Wheat thrashing in progress. Standing crops fair, except melons. Locusts appeared, but did no damage.	Weeding of sugar-cane and cotton continues.
7	Ferozepore ...	0·02 throughout the district.	1. Green fodder not available. 3. Good.	Unchanged ...	Corn being thrashed. Yield average. Standing extra spring crops good.	Cotton and sugar-cane crops in good condition.
8	Lahore ...	0·77 at Sadr ... 0·71 at Kasúr. 1·12 at Sharakpur.	1. Sufficient ... 3. Good.	Rising ...	Wheat being thrashed. Prospects of extra spring crops good. Outturn of spring crops average. Locusts appeared in some villages of the Chunián tahsíl, and did no damage.	Rice and other autumn crops being sown.
9	Amritsar ...	0·38 at Sadr; more in Ajnála; less in Tarn Táran.	1. Sufficient ... 3. Good.	Wheat, Barley, Jowár, Bájra, } high. Gram, Maize, } warning.	Gathering of wheat nearly completed. Reaping of tobacco commenced. Condition of standing crops excepting melons good.	Cotton and other autumn crops being sown.
10	Siálkot ...	0·05 at Sadr ... 0·29 at Zafarwál. 0·11 at Pasrúr. 0·23 at Raya. 0·08 at Daska.	1. Sufficient ... 3. Good.	Wheat, 14½ seers Gram, 16 seers. Rice, 7 seers. Barley, 20 seers.	Thrashing of spring crops continues. Outturn much below average. Condition of crops fair.	Weeding of sugar-cane and cotton in progress. Rice seed disseminated in Raya.
11	Shahpur ...	0·40 at Sadr ... 0·80 at Midh. 0·92 at Sargodha.	1. Sufficient ... 3. Good.	Wheat, Barley, Gram, Jowár, } warning Bájra, normal.	Standing extra spring crops much damaged by locusts in parts of Bhera and Shahpur tahsíls. Wheat being harvested. Outturn below average.	Sowings of cotton and other autumn crops continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
12	Ráwalpindi ...	0·08 at Gujar Khan 0·03 at Kahúta.	1. Sufficient ... 3. Good.	Wheat, 16 seers ... Bájra, 23 seers. Maize, 22 seers. Gram, 17 seers. Barley, 23 seers.	Thrashing of spring crops not yet completed on account of plague. Outturn average.	...
13	Miánwáli ...	...	1. Procurable ... 3. Fair.	Unchanged ...	Condition of extra spring crops good in Bhakkar and Leiah. Crops in Miánwáli and Isa Khel destroyed by hoppers.	...
14	Lyallpur ...	1·21 at Sadr ... 0·07 at Samundri.	1. Sufficient ... 3. Good.	Unchanged ...	Wheat crops damaged by rain. Condition of standing crops good. Outturn of wheat below normal.	Fodder being sown
15	Multán ...	...	1. Sufficient ... 2. Canals flowing, except Baháwalwah and Lodhrán. 3. Good.	Wheat, 15¼ seers Gram, 20 seers. Maize, 20 seers.	Extra spring crops average. Expected yield below average.	Cotton and other autumn crops being sown. Slight damage done by locusts to standing autumn crops in Shujabad and Kabirwála.

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen in all the districts except Delhi, Miánwáli and Multán. A slight fall is also reported from Ráwalpindi.

Prices.—Prices of food-grains generally rising in Hissar, Rohtak, Ambála, Jullundur, Lahore and Ráwalpindi.

Agricultural operations.—Harvesting and thrashing of spring crops and sowings of cotton, sugarcane and other autumn crops continue. Extra spring crops being cut in Gurgaon. Cotton and sugarcane crops being weeded in Jullundur and Siálkot. Reaping of tobacco commenced in Amritsar.

Crops and outturn.—Outturn of spring crops generally average. It is below average in Siálkot, Shahpur, Lyallpur and Multán. Condition of extra spring crops, excepting melons in Ambála, Jullundur and Amritsar, good to average.

Damage done to crops.—Locusts appeared in Jullundur, Lahore, Shahpur and Multán, and damaged the crops in the latter two districts. Crops in two tahsíls of Miánwáli destroyed by hoppers. Wheat crops in Lyallpur damaged by rain.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient. Green fodder not available in Ferozepore.

Water-supply.—Water insufficient in parts of Ambála.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 25th June 1907.

KASHI RAM, Supdt.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 15th June 1907 there were 855 births registered in the 43 large municipal towns (458 males and 397 females), giving a birth rate of 31 *per mille* of population, and 1,221 deaths were registered (605 males and 616 females), giving a death rate of 44 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 37 against 50 in the corresponding week of the previous year; Lahore 37 against 35; Amritsar 50 against 47; and Múltan 28 against 22. There were 34 deaths reported from plague in Lahore, 20 in Amritsar, 15 each in Gujrát and Ráwalpindi, 11 each in Hánsi and Chiniot, 10 in Jalálpur, 8 in Jullundur, 7 in Kaithal, 6 each in Pánipat, Wazírabad and Bhera, 5 each in Jhajjar, Shahabad and Pind Dádan Khan, 4 in Lyallpur, 3 each in Bhiwáni, Sirsa, Sonepat, Batála and Siálkot, 2 in Khusháb, and 1 each in Rohtak, Delhi, Ambála, Ferozepore, Jhelum and Jhang-Maghiána. Of the 38 deaths from small-pox, 9 were registered in Amritsar, 5 in Batála, 3 each in Bhiwáni and Jhang-Maghiána, 2 each in Palwal, Karnál and Pind Dádan Khan, and 1 each in Hánsi, Rewári, Kaithal, Pánipat, Hoshiárpur, Tánda-Urmar, Kartárpur, Ludhiána, Wazírabad, Bhera, Jhelum and Ráwalpindi. There were 20 deaths recorded from cholera in Jhelum and 1 in Kasúr.

Deaths reported from plague during the week ending 22nd June 1907 in the districts, including all municipal towns:—Hissar 17, Rohtak 94, Gurgaon 89, Delhi 21, Ambála 86, Hoshiárpur 60, Jullundur 156, Ludhiána 7, Ferozepore 372, Montgomery 81, Lahore 570, Amritsar 415, Gurdáspur 233, Siálkot 1,316, Gujránwála 830, Gujrát 1,598, Shahpur 150, Jhelum 936, Ráwalpindi 1,285, Attock 293, Miánwáli 9, Jhang 35, and Lyallpur 250; Patiála State 436, Jínd State 33, and Nábha State 52. Total for the province 9,424. Total for the previous week 17,277. Total for the corresponding week of the previous year 549.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

14	Lyallpur ...	...	1. Sufficient ... 3. Good.	Rising ...	Threshing and collection of wheat nearly finished. Condition of standing crops good. Outturn of wheat below normal.	Great millet and fodder being sown
15	Multán ...	0·01 at Sadr ...	1. Sufficient ... 2. Canals flowing, except Baháwalwah and Lodhrán. 3. Good.	Wheat, 15¼ seers. Gram, 20 seers. Maize, 21¼ seers.	Extra spring crops average. Expected yield below average.	Cotton and other autumn crops being sown. Slight damage done to autumn crops in tahsíls Shujabad, Mailsi and Kabírwála by locusts.

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in Hissar, Gurgaon, Ambála, Lahore, Amritsar, Siálkot, Ráwalpindi, Miánwáli and Multán.

Prices.—Prices of food-grains generally rising in Hissar, Rohtak, Jullundur, Amritsar and Lyallpur and falling in Ráwalpindi.

Agricultural operations.—Threshing of spring crops finished in Jullundur and Ferozepore. Ploughings for and sowings of cotton, sugarcane and other autumn crops continue. Cotton and sugarcane crops being weeded in Jullundur and Siálkot. Reaping of tobacco is going on in Amritsar and Siálkot.

Crops and outturn.—Outturn of spring crops average in all districts except Shahpur and Lyallpur. Condition of extra spring crops good to average. Rain wanted in Delhi.

Damage done to crops.—Locusts appeared in Multán, and damaged autumn crops slightly. Crops in Miánwáli destroyed by hoppers. Melon spoilt by insect in Amritsar. Damage to melons also reported from Ambála.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient. Green fodder not available in Ferozepore.

Water-supply.—Water insufficient in parts of Ambála.

WILLIAM H. MILLS, Offg. Superintendent,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

FIFTY-SEVEN THOUSAND SEVEN HUNDRED AND THIRTY TWO births were registered in the province during the month of May 1907, giving a birth-rate of 34 *per mille* of population. Of the total number of births, 30,870 were boys and 26,862 were girls.

The total number of deaths registered from all causes in the province during the month of May 1907 was 245,446 against 239,482 in the previous month and 87,576 in the corresponding month of the past year, giving an annual death-rate of 144, 145 and 51 *per mille* of population per annum, respectively.

There were 11 deaths registered under the head of cholera.

The total mortality from plague amounted to 195,083 against 193,952 in the previous month and 28,559 in the corresponding month of the past year. The largest number of deaths reported from plague during the month were 23,171 in the district of Gujrát, 21,158 in Gujránwála, 18,478 in Sialkot, 16,108 in Shahpur, 13,529 in Lahore, 13,102 in Rohtak, 10,909 in Jhelum and 10,842 in Jullundur. The mortality was also very high in the following districts:—Ferozepore 9,425, Amritsar 8,756, Ráwalpindi 7,771, Gurdáspur 6,332. In the districts of Gurgaon, Hoshiárpur, Attock, Delhi, Lyallpur, Karnál and Ambála the number of deaths ranged from 2,649 to 5,891.

From small-pox 1,176 deaths were registered against 946 in the previous month and 2,015 in the corresponding month of the past year; fevers 29,779 against 28,134 and 34,936; dysentery and diarrhœa 1,433 against 918 and 2,243; respiratory diseases 5,590 against 4,838 and 5,092. During the month there were 35 deaths registered from suicide against 36 in the past month; wounding 37 against 31; accidents 447 against 328; snake-bite and killed by wild beasts 60 against 31; and from all other causes 11,795 against 10,268 in the previous month and 14,139 in the corresponding month of the past year.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 1st July 1907.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 22nd June 1907, there were 811 births registered in the 43 large municipal towns (431 males and 380 females), giving a birth rate of 29 *per mille* of population, and 1,091 deaths were registered (529 males and 562 females), giving a death rate of 39 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 41 against 51 in the corresponding week of the previous year; Lahore 33 against 37; Amritsar 43 against 43; and Múltan 22 against 24. There were 16 deaths reported from plague in Lahore, 14 in Gujrát, 12 in Jalálpur, 11 in Ráwalpindi, 9 in Amritsar, 7 in Chiniot, 6 in Bhera, 4 each in Shahabad and Kasúr, 3 each in Hánsi, Pánipat and Pind Dádan Khan, 2 each in Bhiwáni and Jullundur, and 1 each in Hissár, Kaithal, Siálkot and Wazírabad. Of the 33 deaths from small-pox, 9 were registered in Amritsar, 3 in Karnál, 2 each in Hissar, Bhiwáni, Kaithal, Lahore, Batála, and Jhang-Maghiána and 1 each in Hánsi, Rewári, Delhi, Hoshiárpur, Tánda-Urmar, Ferozepore, Wazírabad, Jhelum and Pind Dádan Khan. There was 1 death recorded from cholera in Kasúr.

Deaths reported from plague during the week ending 29th June 1907 in the districts, including all municipal towns:—Hissar 6, Rohtak 42, Gurgaon 41, Delhi 3, Karnál 114, Ambála 59, Kángra 4, Hoshiárpur 28, Jullundur 113, Ludhiána 11, Ferozepore 143, Montgomery 47, Lahore 452, Amritsar 213, Gurdáspur 108, Siálkot 399, Gujránwála 330, Gujrát 1,635, Shahpur 91, Jhelum 1,099, Ráwalpindi 1,138, Attock 1,048, Miánwáli 5, Jhang 49, and Lyallpur 3; Patiála State 128 and Nábha State 87. Total for the province 7,396. Total for the previous week 9,624. Total for the corresponding week of the previous year 287.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

3	Gurgaon ...	0·12 at Firozpur...	1. Sufficient ... 3. Fair.	Normal ...	Standing crops in good condition. Outturn reported to be average.	Ploughings in progress for autumn crops. Cotton and great millet being sown on irrigated areas.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint. 3. Good.	High ...	...	Rain wanted. Ploughings for autumn crops on irrigated lands in progress.
5	Ambála ...	0·44 at Naráingarh 1·50 at Kasauli.	1. Sufficient ... 2. Water insufficient in some places of Kharar. 3. Good.	Wheat, 14¼ to 14¾ seers. Gram, 18¾ to 19½ seers. Maize, 19 seers. Barley, 20 seers. Jowár, 20 seers. Bájra, 18 seers.	...	Rain wanted for sowing operations. Sowing of cotton begun in some places of Kharar and Rúpar tahsíls.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Rising ...	Standing crops fair ..	Sowings of maize and great millet on irrigated areas continue. Sugarcane and cotton being weeded. Rain badly wanted.
7	Ferozepore ...	...	1. Green fodder not available. 3. Good.	Rising ...	Standing extra spring crops average for want of rain.	Sowings of jowár (great millet), &c. commenced in time. Cotton and sugarcane crops average for want of rain.
8	Lahore ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Wheat being threshed. The prospects of extra spring crops good. Outturn of spring crops average.	Great millet, maize and rice being sown.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Bájra, } high. Barley, normal. Gram, Jowár, } warning.	Spring crops harvested. Melons spoilt by insects.	Rice and other autumn crops being sown. Condition of standing crops good except in Tarn Táran tahsíl where tidái is spoiling cotton and fodder crops.
10	Siálkot ...	0·37 at Sadr ... 0·08 at Zafarwál. 0·62 at Raya. 0·23 at Daska.	1. Sufficient ... 3. Good.	Wheat, 14½ seers Gram, 17 seers. Rice, 7 seers. Barley, 21 seers.	Threshing of spring crops finished in Siálkot, Pasrúr and Raya tahsíls. Cutting of tobacco commenced in Raya tahsíl. Extra spring crops being weeded. Condition of crops fair.	Ploughing for autumn crops commenced in the Ra[illegible] tahsíl. Weeding of sugarcane and cotton continues.
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Maize, normal ... Jowár and gram, warning. Others, below normal.	Standing crops in fair condition. Wheat being harvested. Outturn poor.	Ploughings for and sowings of great millet and other autumn crops in progress.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·01 at Sadr ... 0·31 at Gujar Khan 0·65 at Kahúta. 0·22 at Murree.	1. Sufficient ... 3. Good.	Wheat, 16 seers ... Gram, 17¼ seers. Barley, 23 seers.	Threshing of spring crops almost completed. Outturn average.	Autumn crops being sown.
13	Miánwáli ...	0·23 at Sadr ... 0·25 at Isa Khel. 0·29 at Bhakkar.	1. Procurable ... 3. Fair.	Unchanged ...	Condition of extra spring crops good in Bhakkar and Leiah tahsíls Crops in Miánwáli and Isa Khel tahsíls were eaten up by hoppers. Outturn of extra spring crops of Bhakkar and Leiah tahsíls good.	...
14	Lyallpur ...	...	1. Sufficient except bhúsa (wheat straw). 3. Good.	Rising ...	Threshing and collecting of wheat finished. Standing crops in good condition. Locusts appeared in some villages of tahsíl Toba Tek Singh, but did no damage.	Great millet and maize being sown.
15	Multán ...	...	1. Sufficient ... 2. Canals flowing, except Baháwalwah Lodhrán. 3. Good.	Wheat, 15¼ seers Gram, 20 seers. Maize, 21½ seers.	Extra spring crops average. Expected yield below average.	Cotton and other autumn crops being sown. Slight damage to autumn crops in some parts of Mailsi by locusts.

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in Gurgaon, Ambála, Siálkot, Ráwalpindi and Miánwáli.

Prices.—Prices of food-grains generally rising in Hissar, Jullundur, Ferozepore, Ráwalpindi and Lyallpur.

Agricultural operations.—Threshing of spring crops nearly finished. Ploughings for and sowings of cotton, sugarcane and other autumn crops continue. Cotton, sugarcane and extra spring crops being weeded in Jullundur and Siálkot. Cutting of tobacco in progress in parts of Siálkot.

Crops and outturn.—Outturn of spring crops average to poor. Condition of extra spring crops good to average. Cotton and sugarcane crops average for want of rain in Ferozepore. Rain wanted in Hissar, Delhi, Ambála, Jullundur and Ferozepore.

Damage done to crops.—Locusts appeared in Lyallpur and Multán and damaged autumn crops slightly in latter district. Melons spoilt by insects and cotton and fodder crops by locusts in parts of Amritsar. Crops in parts of Miánwáli were eaten up by hoppers.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient. Green fodder not available in Ferozepore.

Water-supply.—Water insufficient in parts of Ambála.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th July 1907.

WILLIAM H. MILLS, Offg. Supdt.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 29th June 1907, there were 820 births registered in the 43 large municipal towns (432 males and 388 females), giving a birth rate of 29 *per mille* of population, and 1,015 deaths were registered (514 males and 501 females), giving a death rate of 36 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 42 against 31 in the corresponding week of the previous year; Lahore 34 against 38; Amritsar 38 against 36; and Multán 27 against 22. There were 16 deaths reported from plague in Ráwalpindi, 12 in Kasúr, 11 in Gujrát, 9 in Amritsar, 5 each in Lahore and Siálkot, 3 in Wazírabad, 2 each in Shahabad and Chiniot, and 1 each in Hissar, Hánsi, Delhi, Ambala, Tánda-Urmar, Jullundur, Jalálpur and Pind Dádan Khan. Of the 38 deaths from small-pox, 9 were registered in Amritsar, 7 in Batála, 4 in Hoshiárpur, 3 each in Bhiwáni, Kaithal and Jhang-Maghiána, 2 in Ráwalpindi, and 1 each in Hissar, Rewári, Jagráon, Ferozepore, Kasúr, Wazírabad and Multán. There was 1 death recorded from cholera in Kasúr

Deaths reported from plague during the week ending 6th July 1907 *in the districts, including all municipal towns:*—Hissar 1, Rohtak 12, Gurgaon 29, Delhi 2, Karnál 40, Ambála 23, Hoshiárpur 19, Ludhiána 2, Ferozepore 81, Montgomery 60, Lahore 187, Amritsar 107, Gurdáspur 65, Siálkot 202, Gujránwála 244, Gujrát 573, Shahpur 61, Jhelum 810, Ráwalpindi 650, Attock 77, Jhang 35, and Lyallpur 37; Patiála State 632, and Nábha State 30. Total for the province 3,999. Total for the previous week 7,396. Total for the corresponding week of the previous year 146.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JULY 18, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 16th JULY 1907.

[Fifteen out of 29 districts are dealt with.]

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	2·60 at Sadr ... 1·08 at Hánsi. 0·12 at Bhiwáni. 1·05 at Fatahabad. 0·37 at Sirsa. 1·00 at Budhláda. 0·13 at Tohána.	1. Sufficient ... 3. Good.	Wheat, 13½ seers. Bájra, 16 seers. Gram, 18 seers.	...	More rain wanted; crops on irrigated land good.
2	Rohtak ...	0·68 at Sadr ... 0·44 at Gohána. 0·15 at Sámpla. 0·65 at Jhajjar. 0·28 at Salhawas.	1. Sufficient ... 2. Water-supply in tanks getting low.	Wheat, 13½ seers. Gram, 18 seers. Jowár, 20 seers. Maize, 20 seers.	Condition of standing crops good.	Sowings of bájra on irrigated land continues. Rain badly wanted.
3	Gurgaon ...	0·02 at Sadr; much more in the district though quite insufficient.	1. Sufficient ... 3. Fair.	Below normal, but in Rewári wheat and barley are at warning rates.	Standing extra spring crops in good condition, but unirrigated crops have begun to wither.	Ploughings in progress for next autumn, cotton and great millet being sown in some parts of the district. Cotton, &c., being irrigated.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	0·83 at Sadr ... 0·45 at Ballabgarh. 0·50 at Mahrauli. 0·62 at Sonepat.	1. Sufficient ... 2. No complaint. 3. Good.	High ...	...	Ploughings for kharif crops on irrigated land in progress. Sowing of cotton on Nahri land in some places commenced. More rain wanted.
5	Ambála ...	1·00 at Kharar. 0·59 at Kasauli.	1. Sufficient ... 2. Insufficient in some places of Naráingarh.	Wheat, 13 to 13½ seers. Gram, 18½ to 19 seers. Maize, 17½ seers. Barley, 20 seers. Jowár, 16 seers. Bájra, 18 seers.	...	Rain wanted for sowing operations, except in Kharar. Sowing of cotton started in some places of Kharar and Rúpar.
6	Jullundur ...	0·47 at Sadr ...	1. Sufficient ... 3. Good.	Rising ...	Standing crops fair ...	Sowings of maize and great millet on irrigated areas continue. Sugarcane and cotton being weeded. Chahi lands being manured.
7	Ferozepore ...	Rainfall not general.	1. Green fodder not available. 3. Good.	Rising ...	Extra spring crops average.	Sowing of jowár (great millet), &c., continues, and that of maize, rice and jowár commenced. Cotton and sugarcane crops average.
8	Lahore ...	0·07 at Sadr ... 0·08 at Chunián. 0·85 at Kasúr. 0·19 at Sharakpur.	1. Sufficient ... 3. Good.	Rising ...	Tobacco is being cut. Prospect and outturn good.	Land being prepared for autumn crops. Great millet and maize being sown.
9	Amritsar ...	0·11 at Ajnála ...	1. Sufficient ... 3. Good.	Wheat, Bájra, Maize, } high. Gram, Jowár, } warning. Barley, normal.	Condition of standing crops good.	Autumn crops being sown.
10	Siálkot ...	0·21 at Sadr ... 0·07 at Zafarwál. 0·03 at Daska.	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Gram, 17 seers. Barley, 20 seers. Rice, 8 seers.	Condition of crops average.	Weeding of sugarcane and cotton crops continues. Ploughings for autumn crops in progress. Rice seedling continued in tahsíl Pasrúr and commenced in tahsíl [illegible]. Rain badly wanted.
11	Shahpur ...	0·71 at Sadr. Slight rain all over district.	1. Sufficient ... 3. Good.	Wheat, warning ... Bájra, Maize, } normal. Jowár, Barley, } below normal. Gram, approaching scarcity.	Standing crops in fair condition. Wheat harvesting nearly completed. Outturn poor.	Ploughings for and sowings of autumn crops continue.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	...	1. Sufficient ... 3. Good.	Wheat, 16½ seers. Bájra, 23½ seers. Maize, 22½ seers. Gram, 16 seers. Barley, 24 seers.	...	Condition of autumn crops average.
13	Miánwáli ...	0·27 at Sadr ... 0·18 at Isa Khel. 0·82 at Bhakkar. 1·44 at Leiah.	1. Sufficient ... 3. Fair.	Unchanged ...	General condition of extra spring crops, their outturn in Bhakkar and Leiah tahsils, good.	...
14	Lyallpur ...	0·60 at Sadr ... 0·06 at Samundri. 0·35 at Toba Tek Singh.	1. Sufficient except bhúsa (wheat straw). 3. Good.	Rising ...	Standing crops average...	Sowing of autumn crops continue. Sugarcane in good condition.
15	Multán ...	0·57 at Mailsi ... 0·76 at Lodhrán. 1·20 at Kabírwála.	1. Sufficient ... 2. Canals flowing, except Baháwalwah-Lodhrán. 3. Good.	Wheat, 14¾ seers. Gram, and Maize, } 21½ seers	Extra spring crops average. Expected yield below average.	Cotton and other autumn crops being sown.

GENERAL REMARKS.

Rainfall.—Light to moderate rain has generally fallen in all districts except Ferozepore and Ráwalpindi.

Prices.—Prices of food-grains generally rising in Gurgaon, Ambála, Jullundur, Ferozepore, Lahore, Siálkot, Shahpur, Lyallpur and Multán; wheat falling in Hissar, Rohtak and Ráwalpindi.

Agricultural operations.—Ploughings for and sowings of cotton, and other autumn crops continue. Sugarcane and cotton crops being weeded in Jullundur and Siálkot. Tobacco being cut in Lahore.

Crops and outturn.—Outturn of spring crops good to poor. Condition of extra spring crops good to average. Cotton, sugarcane and other autumn crops average in Ferozepore and Ráwalpindi. Extra spring crops on unirrigated land have begun to wither in Gurgaon. More rain wanted in Hissar, Rohtak, Delhi, Ambála and Siálkot.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient. Green fodder not available in Ferozepore.

Water-supply.—Water insufficient in parts of Ambála and the supply is getting low in tanks in Rohtak.

TULSI DAS, OFFG. SUPDT.,
for Director of Agriculture, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING MAY 1907.

* Mean of 11 days.

The distribution of pressure in north-west India was abnormal during the first fortnight of the month and was favourable for the prevalence of dry northerly winds in the Punjab and the Frontier Province where weather was in consequence much cooler than usual. Conditions were more nearly normal during the latter half of the month, the defect in temperature being much less marked, and occasional rain occurred associated with duststorms and thunderstorms. The rainfall of the whole month was however below the average at almost every station.

Pressure and winds.—Pressure was in slight defect at Leh, practicably normal at the remaining hill stations and in slight to moderate excess in the plains. Winds were more northerly than usual and were about their normal strength.

Temperature.—During the first 13 days of the month unusually cool weather prevailed, and on the 3rd and 4th the mean temperature of the whole of the Punjab and of the Frontier Province was 10° below normal, but during the remainder of the month temperature conditions were more normal, the 25th and 28th being the only days on which they differed largely from the normal. The mean maximum temperature of the whole month was in defect at every station, especially in the hills and submontane districts, but the minimum, though also in general defect, was more nearly normal, Ambála, Montgomery and Cherát being the only stations where the defect for the whole month was more than 4°. The highest temperature recorded during the month was 115° at Montgomery on the 25th and again on the 26th.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmír and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.

Cloud and humidity.—Skies are generally almost free from cloud during the month of May, and this year there was even less cloud than usual. Relative humidity was in slight excess at several stations, probably due to the unusually low temperature, but the absolute amount of vapour in the air was on the whole less than usual.

Rainfall.—Montgomery, Khusháb, Multán and Skardu were the only places that secured their normal amount of rainfall : at all other stations precipitation was more or less in defect. The actual deficiency was largest at Simla, where the rainfall of the month amounted to only 1·15″ as compared with the normal fall of 3·06″.

The following table gives the rainfall data for the Punjab, Kashmír and the No[rth]-West Frontier Province stations for May 1907 :—

Slight rain.

TULSI DAS, Offg. Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of June 1907.

1.—HISSAR DISTRICT.

Land being prepared for kharíf sowings. Prospects of cotton crop on irrigated land good. Fodder sufficient. Cattle in good condition. Water-supply in canal sufficient. General health of the people good.

2.—ROHTAK DISTRICT.

Sowings of cotton and indigo in irrigated tracts in progress. Standing crops in good condition. Cattle in excellent condition. The canal supply is good.

3.—GURGAON DISTRICT.

There was very little rain in the district during the month. Bájra sowings have commenced in certain villages where the rainfall was somewhat more than in other parts. Cotton and chari being sown on irrigated area. Ploughings were in progress. Rain badly needed. Standing crops in good condition. Prospects of outturn of standing crops promising. Cattle in fair condition and fodder sufficient. Canal water was used during the month, but the supply as reported by the Tahsíldár, Palwal, was not sufficient. No hill-torrents came down. Locusts appeared throughout the district, but did no damage.

4.—DELHI DISTRICT.

Cattle in good condition. No complaint about canal irrigation. Fodder sufficient. Prices of food-grains rather high.

5.—KARNAL DISTRICT.

Sowings of cotton, zíri, chillies and chari are proceeding. Condition of extra rabi crop good, but rain wanted. Yield expected to be average. Condition of cattle good. Fodder and water are sufficient. The Jumna river is flooded. The Western-Jumna and Sirhind Canals have been running. The standing crops received irrigation in time. Prices of food-grains are rising.

6.—AMBALA DISTRICT.

Extra rabi crop fair. Melons damaged in some places. Yield on the whole average. Condition of cattle generally good.

7.—SIMLA DISTRICT.

The rainfall in both tahsíls was insufficient. In the Simla tahsíl, maize and koda were sown to the extent of $\frac{1}{8}$th of the expected sowings and in the Kot Khái tahsíl, chína, báthu, koda and rice to the extent of $\frac{1}{4}$th. The condition of crops in both tahsíls poor, owing to insufficient rain. In the Kot Khái tahsíl the outturn of wheat on irrigated and unirrigated areas was 320 and 180 seers per acre respectively. Cattle in good condition, and grazing and fodder are sufficient in both tahsíls. Water in hill-streams was sufficient in both tahsíls. In the Kot Khái tahsíl $\frac{3}{4}$ths of the normal area was watered.

8.—KANGRA DISTRICT.

Sowings of rice and maize, &c., completed. The rabi crop was very poor. Cattle are reported to be in good condition. The public health is generally good. Water in the kúhls was sufficient for irrigation purposes.

9.—HOSHIARPUR DISTRICT.

Munji (rice) was sown to a large extent and hemp, chína and maize on a smaller scale during the month. The standing crops consist of sugarcane, cotton, melons and vegetables. The sugarcane crop is injured in some places by a caterpillar called "Toka"; melons and cotton below previous years' crops, and vegetables are in good condition. The mango crop is very poor. The expected yield of rabi crops, on the whole, about one-half; of kharíf good excepting cotton and melons, the yield of which is expected to hardly come up to one-half. Cattle in good condition. Fodder and water sufficient. Water in rivers and hill-streams sufficient, and irrigation was to a large extent carried on from canals. Swarms of locusts appeared in some places, but did no damage. Tahsíldárs warned to be on the alert for eggs. Rates of food-grains have risen slightly.

10.—JULLUNDUR DISTRICT.

Sowings of moth and chari on irrigated areas commenced. Standing crops fair Yield below average. Condition of cattle good. Public health good.

11.—LUDHIANA DISTRICT.

The sowing of cotton was in progress in a part of the irrigated area. No sowing was done in the unirrigated area owing to insufficient rain during the month. Condition of sugarcane and extra rabi crops good. The yield of extra rabi crops, *viz.* onion, garlic and tobacco fair, but that of melons below average owing to unfavourable winds. Condition of cattle good. The irrigation from canals was satisfactory. Prices were nearly stationary.

12.—FEROZEPORE DISTRICT.

Jowár, chari, bájra, moth and til were sown in the latter part of the month in few villages where there was sufficient rain. Thrashing of corn finished. Standing extra rabi crops in good condition. Yield average. Cattle in good condition. Sirhind Canal and the district inundation canals had been flowing and a normal area was irrigated. Agriculturists were generally well off. Stocks of food-grains and fodder sufficient. Green fodder not available. Prices of food-grains stationary.

13.—MONTGOMERY DISTRICT.

Kharíf crops were sown during the month. Condition of záid rabi crops good. In tahsíl Dipálpur, however, "toka" damaged the wheat crop, but the damage done was not so great as compared with that done in last year. Záid rabi outturn expected to be ordinary. The rain on the 8th of June did still further damage to the wheat. Condition of cattle good. Fodder ample at present, but there is likely to be a scarcity of bhúsa later on. All the canals have been flowing excepting those in the Montgomery tahsil. There is, however, little water in the river.

14.—LAHORE DISTRICT.

Moth, chari, jowár and seedlings of rice were being sown during the month. Condition of standing extra rabi and kharíf crops good. Locusts passed though the district, but did no real damage. The expected yield of extra rabi crop good. Condition of cattle good throughout the district. The perennial canals worked well. There were no floods in the river. There was also water running in Deg Kalán during the month. Prices of food-grains are stationary. Greater part of the gram is being exported to other countries.

15.—AMRITSAR DISTRICT.

Cotton, chillies, chari, rice and hemp being sown. Condition of standing crops excepting melons good. Yield of rabi crop generally poor. Condition of cattle good. No complaints of insufficiency of canal water.

16.—GURDASPUR DISTRICT.

Rice, fodder and másh sowings in progress except tahsíl Shakargarh Condition of crops good in Batá'a, Gurdáspur and Shakargarh. Average in Pathánkot. Some slight damage has been done to cane and cotton by "toka" in circles other than Bet in Gurdáspur and in Pathánkot. Outturn of melons is coming out which is average in Pathánkot. Elsewhere the melon crop has been injured by a worm Condition of cattle good. Fodder sufficient, but straw is not of good quality. Canals, rivers and hill-torrents flowing. Water not sufficient in private kúh's. Locusts appeared, but did no damage.

17.—SIALKOT DISTRICT.

Watering and weeding of extra rabi, cotton and sugarcane continued. Ploughings for kharif crop commenced. Rice seed disseminated. Condition of standing crops of extra rabi, cotton and sugarcane fair. Locusts appeared in some villages, but made no injury done to crops. Thrashing of wheat crops finished. Outturn much below average. Condition of cattle good. Water sufficient in Bajwat canals. No inundation during the month.

18.—GUJRANWALA DISTRICT.

Chari, jowár and munji (rice) were sown during the month. Condition of the standing crops good. Some damage was done by insects to cotton and sugarcane in the Khángah Dográn tahsíl. The yield of záid rabi crops average. Condition of cattle good. There has been sufficient water in canals. Swarms of locusts appeared in the district, but practically no damage was done and steps were taken to destroy the young insects wherever found.

19.—GUJRAT DISTRICT.

Sowings of certain fodder crops and ploughing for kharíf harvest in progress. Condition of cotton, sugarcane and extra rabi crops generally fair. Thrashing operations approaching completion. The fairly heavy rain on 8th and 9th June did some damage while heavy floods in the Chenab caused considerable damage to the produce lying on the thrashing floors in a few villages of the Gujrát tahsíl for which remissions of the current demand have had to be proposed. Yield below average. Grain and straw of inferior quality. Cattle in good condition. Fodder sufficient. Public health good. Prices stationary.

20.—SHAHPUR DISTRICT.

Chari, cotton, bájra, moth, jowár and maize were sown during the month. Condition of extra rabi crop poor in Khusháb tahsíl and on the river banks in Bhera and Shahpur tahsíls; fair in other places. Standing kharíf in fair condition. Wheat was harvested. Outturn poor. Cattle in good condition. Fodder sufficient. Canals continued to flow during the month. Supply of water in the inundation canals was deficient. Floods in the Jhelum and the Chenab swept away wheat ricks in the islands and near river banks. Hailstorms and locusts damaged extra rabi crops nearly all over the district. Prices rose owing to increase in exportation.

21.—JHELUM DISTRICT.

Good rain facilitated ploughing of rabi crops and allowed sowing of kharíf crops in Jhelum tahsíl. Extra rabi crops in Jhelum tahsíl in good condition, but much damaged by locusts elsewhere. Yield less than was anticipated. Condition of cattle good. Fodder sufficient. There was a very heavy flood in the Jhelum on the 8th and 9th June. Several villages in the river side areas of Jhelum and Pind Dádan Khan, lost heavily as they had no time to remove their grain. Remissions will be necessary. Prices falling in Chakwál and rising in Jhelum tahsíl.

22.—RAWALPINDI DISTRICT.

Good and well-distributed rain has fallen during the month. It proved beneficial to the standing záid rabi and the next kharíf crop. No new sowings were made except in tahsíl Murree. The last rabi harvest was cleared off. Outturn said to be average. Cattle in good condition. Supply of water and fodder sufficient.

23.—ATTOCK DISTRICT.

Záid rabi crops were injured by locusts. Wheat harvest has been cleared off throughout the district except in places where the plague prevails. Outturn below average.

24.—MIANWALI DISTRICT.

Condition of záid rabi crops of Bhakkar and Leiah good. Crops of Miánwáli and Isa Khel were destroyed by hoppers. Expected yield of extra rabi crops good in Bhakkar and Leiah tahsíls, but poor in Miánwáli and Isa Khel tahsíls where the crops were eaten up by hoppers. Condition of cattle fair. Fodder procurable. Public health generally good. The Indus is rising. Prices stationary.

25.—LYALLPUR DISTRICT.

Chari and jowár being sown. Ploughings in progress for makki. Wheat thrashing and winnowing still in progress. In Lyallpur tahsíl and Jarranwála sub-tahsíl plague has greatly delayed these operations and much damage has been done to corn lying on thrashing floors, much of which has been permanently damaged. Cotton and sugarcane sowings short on account of plague and the lateness of wheat harvest operations. Bhúsa and straw spoilt by rain. Green fodder sufficient. Supply in canal ordinary. Some locusts again appear.

26.—JHANG DISTRICT.

Jowár, maize and chari are being sown. Condition of crops average. Damage has been done to rawán crop in tahsíl Shorkot by untimely floods. Yield of rabi crops, especially wheat and gram, much below the average. Fodder sufficient. The canals are working. The Chenab and Jhelum are in flood. There is a complaint of insufficiency of water in villages on the tail of the Chenab Canal in Shorkot tahsíl. The Jhelum river flooded heavily and did damage to grain heaps in tahsíl Jhang; enquiry is being made as to the extent of damage done. Prices are rising. It rained a good deal in Chiniot tahsíl and damage was done to grain and bhúsa. Locusts appeared in tahsíl Shorkot, but did no damage to the crop.

27.—MULTAN DISTRICT.

Jowár, rice and cotton being sown. Condition of standing kharíf and záid rabi crops average except a little damage done by locusts to kharíf crops *i.e.* (jowár at Shujabád; jowár, cotton and indigo at Mailsi; indigo at Lodhrán; and to kharíf crops at Kabírwála). Public health good. Canals flowing.

28.—MUZAFFARGARH DISTRICT.

Indigo, cotton, jowár, moth and rice sown. Crops suffering from insufficiency of canal water. Indigo is being damaged by insects in Alipur tahsíl. The locusts have also done some damage. The yield is not likely to be good. Condition of cattle good. Public health good. Insufficiency of canal water reported from all the three tahsíls. No inundations. Bhúsa, the principal article of food for cattle, has been much damaged by the rains of 7th and 8th June 1907.

29.—DERA GHAZI KHAN DISTRICT.

Condition of crops fair. Condition of cattle good. River low. Canals not well supplied; hill torrents pretty good.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 15th July 1907,

WILLIAM H. MILLS, Offg. Supdt.
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 6th July 1907, there were 888 births registered in the 43 large municipal towns (447 males and 441 females), giving a birth rate of 32 *per mille* of population, and 1,015 deaths were registered (511 males and 504 females), giving a death rate of 36 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 42 against 34 in the corresponding week of the previous year; Lahore 33 against 31; Amritsar 40 against 32; and Multán 24 against 25. There were 6 deaths reported from plague in Gujrát, 4 in Ráwalpindi, 2 in Lahore, and 1 each in Jullundur, and Ludhiána. Of the 50 deaths from small-pox, 14 were registered in Amritsar, 9 in Batála, 2 each in Hánsi, Bhiwáni, Jhajjar, Rewári, Kaithal, Kartárpur, Ferozepore, Kasúr, Bhera, Ráwalpindi, and Jhang-Maghiána, and 1 each in Hoshiárpur, Tánda-Urmar, Jullundur, Ludhiána and Pind Dádan Khan. There were 2 deaths recorded from cholera in Jullundur and 1 in Kasúr.

Deaths reported from plague during the week ending 13th July 1907 in the districts, including all municipal towns:—Rohtak 4, Gurgaon 5, Karnál 4, Ambála 18, Hoshiárpur 10, Jullundur 29, Ludhiána 2, Ferozepore 40, Montgomery 22, Lahore 127, Amritsar 48, Gurdáspur 57, Siálkot 151, Gujránwála 235, Gujrát 612, Shahpur 47, Jhelum 487, Ráwalpindi 482, Attock 198, Miánwáli 13, Jhang 1, and Lyallpur 1; Patiála State 13, and Nábha State 25. Total for the province 3,637, including 1,006 deaths of the Gujránwála district for previous weeks not reported before. Total for the previous week 4,054. Total for the corresponding week of the previous year 100.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

TRAFFIC AUDIT OFFICE,
AJMER:
The 29th June 1907.

A. WARREN JONES,
Acting Chief Auditor and Accountant.

Punjab Government Press, Lahore—18-7-07—910.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, THURSDAY, JULY 25, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 23rd JULY 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn
1	Hissar ...	5·43 at Sadr ... 0·6 at Fatahabad 4·52 at Hánsi. 2·12 at Bhiwáni. 2·48 at Budhláda. 1·80 at Tohána.	1. Sufficient ... 3. Good.	Wheat, 13½ seers Gram, 18 seers. Bájra, 15 seers.	...	Sowings of autumn crops in progress.
2	Rohtak ...	1·33 at Sadr ... 1·20 at Gohána. 1·51 at Sámpla. 2·07 at Jhaijar. 2·40 at Salhawas.	1. Sufficient ... 3. Good.	Wheat, 12 seers ... Gram, 17 seers. Jowár, 20 seers. Maize, 20 seers.	...	Sowings of bulrush-millet (bájra) commenced in baráni lands where good rains have fallen. Recent rains benefitted standing crops greatly.
3	Gurgaon ...	1·44 at Sadr ... More rain was received at certain stations in the district.	1. Sufficient ... 3. Fair.	Low ...	Standing crops in good condition. Prospects appear good.	Sowings of autumn crops commenced.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	0·12 at Sadr ... 1·10 at Ballabgarh. 0·50 at Mahrauli. 0·27 at Sonepat.	1. Sufficient ... 2. No complaint. 3. Good.	High ...	...	Ploughings for autumn crops on unirrigated lands where rain has fallen commenced. Cotton on irrigated area damaged for want of rain. More rain badly wanted.
5	Ambála ...	0·84 at Sadr ... 0·20 at Jagádhri. 0·06 at Naráingarh. 0·25 at Kharar. 0·10 at Rúpar. 0·05 at Kasauli.	1. Sufficient ... 2. Good.	Wheat, 13 to 13½ seers. Gram, 17¼ to 17¾ seers. Maize, 16 seers. Barley, 20 seers. Jowár, 16 seers. Bájra, 18 seers.	...	Rainfall generally insufficient for sowings, but ploughings have been commenced.
6	Jullundur ...	1·20 at Sadr ... 0·82 at Nawashahr. 0·44 at Nakodar. 2·00 at Phillaur.	1. Sufficient ... 3. Good.	Unchanged ...	Standing crops fair	Maize and great-millet being sown. Weeding of cotton and sugarcane continues.
7	Ferozepore ...	1·82 throughout the district.	1. Available but not general. 3. Good.	Unchanged ...	...	Sowings of autumn crops continue. Standing autumn crops average.
8	Lahore ...	0·69 at Sadr ...	1. Sufficient ... 3. Good.	Rising ...	Tobacco is being cut. Prospects and outturn good.	Land is being prepared for autumn crops. Great-millet, maize, rice and bulrush millet (bájra) being sown.
9	Amritsar ...	0·93 at Sadr ... Less at Ajnála. More at Tarn Táran.	1. Sufficient ... 3. Good.	Wheat, } rising. Bájra, } Gram, } Maize, } warning. Jowár, } Barley, normal.	Reaping of tobacco in progress. Condition of standing crops good.	Autumn crops being sown. Ploughings going on.
10	Siálkot ...	...	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Gram, 17 seers. Barley, 21½ seers. Rice, 8 seers.	Condition of crops average.	Weeding of sugarcane and of cotton continues. Ploughings for autumn crops in progress. Rain badly wanted.
11	Shahpur ...	0·67 at Sadr ... Slight rainfall all over district.	1. Sufficient ... 3. Good.	Wheat, warning ... Bájra, } normal. Maize, } Barley, } below Jowár, } normal. Gram, approaching scarcity.	Standing crops in fair condition.	Sowings of and ploughings for autumn crops in progress. Great-millet in Bhera tahsil damaged by *toka*.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·55 at Sadr ...	1. Sufficient ... 3. Good.	Wheat, 14¾ seers. Bájra, 20 seers. Maize, 19½ seers. Gram, 17 seers. Barley, 22 seers.	...	Rain badly wanted. Condition of autumn crops average.
13	Miánwáli ...	...	1. Procurable ... 3. Good.	Unchanged ...	Cutting of extra spring crops approaching completion.	Sowings for autumn crops in progress. General condition of autumn crops average.
14	Lyallpur ...	0·19 at Sadr ... 0·63 at Samundri. 0·57 at Toba Tek Singh.	1. Sufficient ... 3. Good.	Rising ...	Standing crops average.	Sowings of autumn crops continue. Sugarcane in good condition.
15	Multán ...	1·17 at Kabírwála	1. Sufficient ... 2. Canals flowing. Water-supply not sufficient in Baháwalwah-Lodhrán. 3. Good.	Wheat, 14¾ seers. Gram, 19¾ seers. Maize, 21½ seers.	Extra spring crops average. Expected yield below average.	Cotton and other autumn crops being sown.

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen in all districts except Siálkot and Miánwáli.

Prices.—Prices of food-grains generally rising in Lahore, Amritsar, Ráwalpindi and Lyallpur; wheat falling in Multán.

Agricultural operations.—Ploughings for and sowings of autumn crops in progress. Sugarcane and cotton crops being weeded in Jullundur and Siálkot. Cutting of tobacco going on in Lahore and Amritsar. Cotton sowings continue in Multán.

Crops and outturn.—Condition of standing crops good to average. Recent rains benefited the standing crops in Rohtak. More rain badly wanted in Delhi, Ambála, Siálkot and Ráwalpindi.

Damage done to crops.—Cotton on irrigated lands damaged for want of rain in Delhi. *Toka* (an insect) damaged great millet in Shahpur.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient.

Water-supply.—Water not sufficient in parts of Multán.

N.B.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 22nd July 1907.

WILLIAM H. MILLS, Offg. Supdt.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 13th July 1907, there were 834 births registered in the 43 large municipal towns (417 males and 417 females), giving a birth rate of 30 *per mille* of population, and 1,006 deaths were registered (491 males and 515 females), giving a death rate of 36 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 52 against 40 in the corresponding week of the previous year; Lahore 28 against 28; Amritsar 38 against 3[illegible] and Multán 24 against 35. There were 12 deaths reported from plague in Ráwalpindi, 3 in Gujrát, and 1 each in Lahore and Pind Dadan Khan. Of the 30 deaths from small-pox, 8 were registered in Amritsar, 5 in Hoshiárpur, 2 each in Tánda-Urmar, Batála and Jhelum and 1 each in Hissar, Hánsi, Bhiwáni, Rewári, Palwal, Sonepat, Kaithal, Jullundur, Ferozepore, Pind Dádan Khan and Jhang-Maghiána. There was 1 death recorded from cholera in Amritsar.

Deaths reported from plague during the week ending 20th July 1907 in the districts, including all municipal towns:—Karnál 18, Ambála 19, Hoshiárpur 8, Jullundur 7, Ferozepore 67, Montgomery 8, Lahore 48, Amritsar 15, Gurdáspur 36, Siálkot 37, Gnjránwála 54, Gujrát 216, Shahpur 18, Jhelum 307, Ráwalpindi 451, Attock 108, Miánwáli 1, Jhang 3, and Lyallpur 3; Patiála State 1, and Nábha State 4. Total for the province 1,429. Total for the previous week 2,631. Total for the corresponding week of the previous year 38.

WILLIAM H. MILLS, OFFG. SUPDT.,

LAHORE, FRIDAY, AUGUST 2, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 30th JULY 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·68 at Sadr ... 2·32 at Hánsi. 2·40 at Bhiwáni. 2·38 at Fatahabad. 1·70 at Sirsa. 3·21 at Tohána. 0·55 at Budhláda.	1. Sufficient ... 3. Good.	Wheat, 13½ seers Bájra, 16 seers. Gram, 18 seers.	...	Prospects of irrigated crops good. Báráni lands being ploughed and sown.
2	Rohtak ...	1·15 at Sadr ... 0·19 at Sámpla. 1·70 at Gohána. 0·21 at Jhajjar.	1. Sufficient ... 3. Good.	Wheat, 12 seers ... Gram, 17 seers. Jowár, 21 seers. Maize, 20 seers.	...	Sowings of great millet and bulrush millet (bájra) continue. Standing crops much benefited by recent rains. Locusts appeared in certain villages of the Gohána tahsíl, but did no damage.
3	Gurgaon ...	0·43 at Sadr ... More rain was received at certain stations in the district.	1. Sufficient ... 3. Fair.	Low ...	...	Sowings of great millet, &c., in progress. Standing crops in good condition. Prospects appear good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	0·30 at Sonepat ... 0·59 at Ballabgarh.	1. Sufficient ... 2. No complaint. 3. Good.	Falling ...	...	Ploughings for autumn crops in progress on un-irrigated lands where rain has fallen. Cotton on irrigated area damaged for want of rain. Rain badly wanted.
5	Ambála ...	4·19 at Sadr ... 5·04 at Jagádhri. 4·99 at Naráingarh. 5·78 at Kharar. 2·95 at Rúpar. 7·13 at Kasauli.	1. Sufficient ... 3. Good.	Wheat, 13 to 13½ seers. Gram, 17¼ to 17¾ seers. Maize, 16 seers. Barley, 20 seers. Jowár, 16 seers. Bájra, 18 seers.	...	Rainfall generally sufficient. Sowings commenced throughout.
6	Jullundur ...	0·41 at Sadr ... 0·71 at Nakodar. 1·86 at Phillaur. 2·04 at Nawashahr.	1. Sufficient ... 3. Good.	Falling slightly ...	...	Maize, great millet, &c., being sown. Weeding of cotton continues. Standing crops fair.
7	Ferozepore ...	0·31 at Sadr ...	1. Green fodder available but not general. 3. Good.	Unchanged ...	...	Sowing of great millet, maize, &c., in progress. Standing crops good. Locusts appeared in tahsíls Moga and Zira, but caused no damage.
8	Lahore ...	2·01 at Kasúr ... 0·83 at Sharakpur.	1. Sufficient ... 3. Good.	Rising ...	Tobacco being cut.	Land is being prepared for autumn crops. Rice, great millet, &c., being sown. Prospects and probable outturn good. Locusts appeared in some villages of tahsil Kasúr, but did no damage.
9	Amritsar ...	0·85 at Sadr ... Less at Ajnála.	1. Sufficient ... 3. Good.	Wheat, Bájra, } rising ... Gram, Jowár, } warning. Barley, normal.	...	Rice, great millet, &c., being sown. Condition of standing crops good.
10	Siálkot ...	1·47 at Sadr ... 1·29 at Zafarwál. 0·74 at Pasrúr. 1·37 at Raya. 1·50 at Daska.	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Gram, 17 seers. Barley, 21 seers. Rice, 8 seers.	...	Weeding of cotton and sugarcane crops continues. Sowing of other autumn crops commenced. More rain wanted. Condition of standing crops average.
11	Shahpur ...	0·35 throughout the district.	1. Sufficient ... 3. Good.	Wheat, Gram, } warning Barley, { below normal. Others, normal.	...	Sowings of great millet, bulrush millet (bájra) and maize in progress. Standing crops in fair condition.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	2·78 at Sadr ... 1·53 at Gujar Khan 4·14 at Kahúta. 1·94 at Murree.	1. Sufficient ... 3. Good.	Wheat, 15 seers ... Bájra, 21 seers. Maize, 20 seers. Gram, 17 seers. Barley, 21 seers.	...	Autumn crops being sown. Condition of crops fair.
13	Miánwáli ...	0·13 at Sadr ...	1. Procurable ... 3. Fair.	Rising ...	...	Sowings of autumn crops in progress. Condition of standing crops average.
14	Lyallpur ...	0·30 at Sadr ...	1. Sufficient ... 3. Good.	Rising ...	...	Sowings of autumn crops continue. Standing crops average. Sugarcane in good condition. Locusts appeared in some villages of Toba Tek Singh and damaged crops a little.
15	Multán ...	0·04 at Sadr ... 0·01 at Mailsi. 0·60 at Lodhrán.	1. Sufficient ... 2. Canals flowing. Water-supply not sufficient in Baháwalwah-Lodhrán. 3. Good.	Wheat, 14¾ seers Gram, 19¾ seers. Maize, 21½ seers.	Extra spring crops average. Expected yield below average.	Cotton, rice and other autumn crops being sown.

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen in Hissar, Rohtak, Ambála, Jullundur, Lahore, Amritsar, Siálkot and Ráwalpindi; light to moderate in other districts.

Prices.—Prices of food-grains generally rising in Lahore, Amritsar, Miánwáli and Lyallpur, and falling in Delhi, Jullundur and Ráwalpindi.

Agricultural operations.—Ploughings for and sowings of autumn crops in progress. Sugarcane and cotton crops being weeded in Jullundur and Siálkot. Cotton sowings continue in Multán.

Crops and outturn.—Condition of standing crops good to average. Recent rains benefited the standing crops in Rohtak. Sugarcane in good condition in Lyallpur. More rain badly wanted in Delhi and Siálkot.

Damage done to crops.—Cotton on irrigated lands damaged for want of rain in Delhi. Locusts appeared in Rohtak, Ferozepore, Lahore and Lyallpur, and did a little damage in last named district.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient.

Water-supply.—Water insufficient in parts of Multán.

WILLIAM H. MILLS, OFFG. SUPERINTENDENT,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

FIFTY-TWO THOUSAND NINE HUNDRED AND NINE births were registered in the province during the month of June 1907, giving a birth-rate of 32 *per mille* of population. Of the total number of births, 27,808 were boys and 25,101 were girls.

The total number of deaths registered from all causes in the province during the month of June 1907 was 98,977 against 245,446 in the previous month, and 51,094 in the corresponding month of the past year, giving an annual death-rate of 60, 144, and 31 *per mille* of population per annum, respectively.

There were 62 deaths registered under the head of cholera, against 11 in the previous month and 79 in the corresponding month of the past year.

The total mortality from plague amounted to 50,383 against 195,083 in the previous month and 2,440 in the corresponding month of the past year. The largest number of deaths reported from plague during the month were 10,494 in the district of Gujrát, 6,923 in Gujránwála, 5,731 in Ráwalpindi, [illegible] in Jhelum. The mortality was also very high in the following districts :—Sialkot, 3,076, Rohtak, [illegible], Attock 2,515. In the districts of Ferozepore, Karnál, Amritsar, Lahore and Shahpur the deaths ranged from 1,468 to 1,873

From small-pox 1,341 deaths were registered against 1,176 in the previous month and 1,849 in the corresponding month of the past year; fevers 29,775 against 29,779 and 29,020; dysentery and diarrhœa 1,480 against 1,433 and 1,383; respiratory diseases 4,662 against 5,590 and 3,877. During the month there were 32 deaths registered from suicide against 35 in the past month; wounding 31 against [illegible]; accidents 477 against 447; snake-bite and killed by wild beasts 80 against 60; and from all other causes 10,654 against 11,795 in the previous month and 11,853 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 29th July 1907.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 30th July 1907.

WILLIAM H. MILLS, Offg. Supdt.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 20th July 1907, there were 885 births registered in the 43 large municipal towns (437 males and 448 females), giving a birth rate of 32 *per mille* of population, and 1,049 deaths were registered (556 males and 493 females), giving a death rate of 38 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 58 against 59 in the corresponding week of the previous year; Lahore 31 against 38; Amritsar 42 against [illegible]; and Multán 31 against 30. There were 2 deaths reported from plague in Jhelum and 1 each in Jullundur, Lahore and Ráwalpindi. Of the 24 deaths from small-pox, 8 were registered in Amritsar, 4 in Batála, 3 in Ráwalpindi and 1 each in Hissar, Hánsi, Bhiwáni, Rewári, Kartárpur, Gujránwála, Jhelum, Pind Dádan Khan and Jhang-Maghiána.

Deaths reported from plague during the week ending 27th July 1907 *in the districts, including all municipal towns:*—Hissár 1, Rohtak 5, Delhi 1, Karnál 28, Ambála 2, Hoshiárpur 1, Jullundur 12, Ferozepore 34, Montgomery 3, Lahore 34, Amritsar 13, Gurdáspur 29, Siálkot 35, Gujránwála 180, Gujrát 135, Shahpur 5, Jhelum 1,080, Ráwalpindi 222, Attock 41, Jhang 6, and Lyallpur 3. Total for the province 1,870. Total for the previous week 1,429. Total for the corresponding week of the previous year 11.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, AUGUST 9, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 6th AUGUST 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	1·06 at Hánsi ... 2·12 at Bhiwáni. 2·34 at Sirsa. 3·69 at Fatahabad. 1·99 at Budhláda. 0·62 at Tohána.	1. Sufficient ... 3. Good.	Wheat, 13½ seers Bájra, 17 seers. Gram, 19 seers.	...	Sowings progressing. Irrigated crops flourishing.
2	Rohtak ...	0·85 at Sadr ... 2·17 at Gohána. 1·69 at Sámpla. 2·81 at Jhajjar. 2·20 at Salhawas.	1. Sufficient ... 3. Good.	Wheat, 13 seers ... Gram, 17½ seers. Jowár, 19 seers. Maize, 20 seers.	...	Sowings in progress. Standing crops good.
3	Gurgaon ...	3·50 at Sadr ... More rain was received at certain stations in the district.	1. Sufficient ... 3. Fair.	Low ...	...	Sowings of great-millet, &c., in progress. Crops in good condition. Prospects appear good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	2·60 at Sadr ... 1·80 at Ballabgarh. 2·07 at Mahrauli. 4·79 at Sonepat ...	1. Sufficient ... 2. No complaint. 3. Good.	Falling ...	...	Rain generally sufficient. Sowings commenced throughout. Standing crops much benefited by recent rain.
5	Ambála ...	3·78 at Sadr ... 5·34 at Jagádhri. 4·45 at Naráingarh. 2·82 at Kharar. 6·07 at Rúpar. 4·00 at Kasauli.	1. Sufficient ... 3. Fair.	Wheat, 12¾ to 13¼ seers. Gram, 18½ to 19 seers. Maize, 12½ to 15½ seers. Barley, 19½ seers. Jowár, 13½ to 17½ seers. Bájra, 15½ seers.	...	Rainfall sufficient throughout the district. Sowings in progress. Rats doing damage in some places in tahsíl Ambála.
6	Jullundur ...	2·92 at Sadr ... 2·46 at Nakodar. 4·60 at Phillaur. 4·32 at Nawashahr.	1. Sufficient ... 3. Good.	Falling slightly ...	...	Sowings of maize and great millet in progress. Standing crops fair. Weeding of cotton continues.
7	Ferozepore ...	2·23 throughout the district.	1. Available, but not general. 3. Good.	Normal ...	...	Sowings of great millet, &c., continue. Standing autumn crops good. Locusts appeared in tahsíls Zíra and Fázilka, but caused no damage.
8	Lahore ...	1·34 at Sadr ... 0·55 at Chúnián. 0·22 at Sharakpur.	1. Sufficient ... 3. Good.	Unchanged ...	...	Land is being prepared for autumn crops. Great millet, maize, &c., being sown. Prospects and probable outturn average.
9	Amritsar ...	1·80 at Sadr ... More at Tarn Táran and Ajnála.	1. Sufficient ... 3. Good.	Wheat, Bájra, } rising... Barley, normal. Gram, Jowár, Maize, } warning.	...	Great millet, &c., being sown. Condition of standing crops good.
10	Siálkot ...	5·05 at Sadr ... 0·48 at Raya. 0·95 at Zafarwál. 0·50 at Daska. 0·06 at Pasrúr.	1. Sufficient ... 3. Good.	Wheat, 13½ seers. Gram, 17 seers. Barley, 21 seers. Rice, 7½ seers.	...	Ploughings for and sowings of autumn crops in progress. Condition of standing crops average on irrigated and bad on unirrigated lands, but the recent rain have benefited the crops.
11	Shahpur ...	1·46 throughout the district.	1. Sufficient ... 3. Good.	Wheat, Gram, } warning Bájra, { above normal. Jowár, { below normal. Maize, normal.	...	Sowings of rice, maize, &c., continue. Standing crops in good condition.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·16 at Sadr ... 2·48 at Gujar Khan 5·11 at Kahúta.	1. Sufficient ... 3. Good.	Wheat, 15¼ seers Bájra, 22 seers. Maize, 18 seers. Gram, 17 seers. Barley, 21 seers.	...	Autumn crops being sown. Condition of crops fair.
13	Miánwáli ...	0·51 at Sadr ... 0·12 at Isa Khel. 1·18 at Leiah.	1. Scarce in Bhakkar and Leiah Thals. 3. Fair.	Unchanged ...	Cutting of extra spring crops finished.	Sowings of autumn crops in progress. Condition and probable outturn of autumn crops average. Locusts once appeared in tahsíl Leiah, but did no damage.
14	Lyallpur ...	0·71 at Sadr ... 0·25 at Samundri. 0·34 at Toba Tek Singh.	1. Sufficient ... 3. Good.	Rising ...	...	Sowings of autumn crops continue. Cotton average and sugarcane in good condition.
15	Multán ...	0·51 at Kabírwála	1. Sufficient ... 2. Canals flowing. Water-supply not sufficient in Lodhrán. 3. Good.	Wheat, 14¼ seers Gram, 19¼ seers. Maize, 20½ seers.	Extra spring crops average.	Cotton, rice and other autumn crops being sown.

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen in all districts except Miánwáli, Lyallpur and Multán, where it has been light to moderate.

Prices.—Prices of food-grains generally rising in Ambála, Amritsar, Siálkot and Lyallpur, and falling in Hissar, Rohtak, Delhi, Jullundur and Ráwalpindi.

Agricultural operations.—Ploughings for and sowings of autumn crops continue. Weeding of cotton in progress in Jullundur. Cotton sowings still going on in Multán.

Crops and outturn.—Condition of standing crops good to average. Recent rains have benefited the standing crops in Delhi and Siálkot. Cotton average and sugarcane in good condition in Lyallpur. Extra spring crops average in Multán.

Damage done to crops.—Locusts appeared in Ferozepore and Miánwáli, but did no damage. Rats damaging crops in parts of Ambála.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient except in parts of Miánwáli.

Water-supply.—Water insufficient in parts of Multán.

L. FRENCH,

Offg. Director of Agriculture, Punjab.

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING JUNE 1907.

During the first six days of the month weather was generally dry on the plains, and more or less precipitation occurred in the hills, owing to local disturbances. On the 7th, however, the storm, which passed over Kurrachee travelling northward, gave rain in the south-west Punjab, and next day in conjunction with a local disturbance caused nearly general and moderately heavy rain in the central and west Punjab, the Frontier Province and Kashmír. With the disappearance of this storm on the 9th weather was generally dry until the 28th, when the position of the trough of low pressure permitted winds from the bay to penetrate into the east Punjab, and as a depression appeared in the extreme north at this time, light rain occurred along the west Himáláyás and in Kashmír, followed by a rapid fall in temperature.

Pressure and winds.—Pressure was in excess at all stations in the Punjab and at Srinagar, but it was in slight defect at Leh; the greatest excess occurred at Khusháb, where it amounted to 0·051″. Winds have as a rule a strong southerly component in June, but this year this component was absent except at Ambála and Montgomery, and instead northerly winds prevailed, due most probably to the high pressure in the extreme north and snow on the higher ranges.

Temperature.—Weather was cooler than usual during the greater part of the month, and mean temperature was above normal only from the 17th to the 21st and from the 26th to the end of the month. The coolest period was on the 8th and 9th, just after the storm which crossed the country from Kurrachee to the west Himáláyás had disappeared, and mean temperature was over 13° in defect; the maximum averaged 18° in defect on the 8th and 9th, and at Multán it was 32° below normal; while many stations reported maximum temperatures from 20° to 30° in defect: this most probably indicates that snow fell on the higher ranges of the Himáláyás. The hottest day was the 28th, when temperature was nearly 7° higher than usual, and the highest temperature recorded during the month was 117° at Montgomery on the 29th.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmír and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hrs.	Highest maximum temperature recorded during the previous 24 hrs.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hrs.	Highest maximum temperature recorded during the previous 24 hrs.	Station at which registered.

Cloud and humidity.—Skies were generally clear in the Punjab except in the northern districts, where weather was considerably disturbed and cloud was in consequence heavier than usual. In June the average amount of moisture in the air is about 45 per cent. of that required for saturation, and this year it was slightly less.

Rainfall.—The rainfall in June on the plains was chiefly associated with the storm from the Arabian Sea, and in consequence rainfall in the south and west Punjab was in excess, while it was normal in the Frontier Province. In the eastern districts rainfall was in very large defect, the greatest deficiency occurring at Simla, where it amounted to 71 per cent.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for June 1907 :—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 6th August 1907.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 27th July 1907, there were 851 births registered in the 43 large municipal towns (462 males and 389 females), giving a birth rate of 30 *per mille* of population, and 829 deaths were registered (404 males and 425 females), giving a death rate of 30 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 36 against 68 in the corresponding week of the previous year; Lahore 30 against 32; Amritsar 31 against 36; and Multán 29 against 41. There were 3 deaths reported from plague in Ráwalpindi, 2 in Lahore, and 1 each in Jullundur and Jhelum. Of the 42 deaths from small-pox, 15 were registered in Amritsar, 6 in Hánsi, 5 each in Kartárpur and Batála, 2 each in Hoshiárpur and Ferozepore, and 1 each in Hissar, Bhiwáni, Kaithal, Tánda-Urmar, Jullundur, Lahore and Gujrát.

Deaths reported from plague during the week ending 3rd August 1907 *in the districts, including all municipal towns:*— Rohtak 6, Karnál 2, Ambála 1, Hoshiárpur 4, Jullundur 3, Ferozepore 5, Montgomery 3, Lahore 13, Amritsar 10, Gurdáspur 8, Siálkot 16, Gujránwála 20, Gujrát 67, Shahpur 15, Jhelum 90, Ráwalpindi 82 and Attock 27. Total for the province 372. Total for the previous week 948. Total for the corresponding week of the previous year 29.

Errata.—Weekly plague deaths report, published on page 628 of the *Supplement to Punjab Government Gazette*, dated 2nd August 1907:—

(*a*) *For* "Jhelum 1,080" *read* "Jhelum 1,080, including 922 deaths occurred in the previous months not reported before."

(*b*) Total for the province *for* "1,870" *read* "1,870, including 922 deaths occurred in the previous months not reported before."

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	4·50 at Sadr ... 0·70 at Hánsi 0·22 at Bhiwáni. 0·63 at Fatahabad. 2·74 at Sirsa. 0·55 at Budhláda. 1·32 at Tohána.	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Gram, 19½ seers. Bájra, 17½ seers.	...	Canal-irrigated crops flourishing. Sowings on báráni lands progressing. Locusts appeared, but did no damage.
2	Rohtak ...	0·43 at Sadr ... 4·05 at Sámpla. 2·02 at Gohána. 1·50 at Salhawas.	1. Sufficient ... 3. Good.	Wheat, 13 seers ... Gram, 17½ seers. Jowár, 19 seers. Maize, 20 seers.	...	Sowings of great millet, &c., going on. Standing crops flourishing.
3	Gurgaon ...	2·72 at Sadr ... 3·54 at Hodal. 3·01 at Fírozpur. 2·36 at Punahána. 2·27 at Hattín. 1·45 at Jatusána. 1·35 at Nuh 1·28 at Sohna. 1·25 at Palwal. 1·04 at Tauru. 0·59 at Rewári. 0·42 at Khol. 0·28 at Farukhnagar.	1. Sufficient ... 3. Fair.	Below normal ...	...	Sowings of great millet, &c., in progress. Standing crops in good condition. Prospects of yield expected to be good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	1·39 at Sadr ... 1·16 at Ballabgarh. 0·62 at Mahrauli. 1·86 at Sonepat ...	1. Sufficient ... 2. No complaint. 3. Good.	Unchanged ...	...	Rainfall generally sufficient. Sowings in progress. Standing crops in good condition. Weeding of sugarcane commenced in some places.
5	Ambála ...	0·45 at Sadr ... 1·75 at Jagádhri. 0·29 at Naráingarh. 0·60 at Kharar. 4·44 at Rúpar. 2·34 at Kasauli.	1. Sufficient ... 3. Generally good.	Wheat, 12¼ to 12¾ seers. Gram, 17¼ to 17¾ seers. Barley, 19½ seers. Maize, 12½ to 15½ seers. Jowár, 13½ to 17½ seers. Bájra, 15½ seers.	...	Sowings in progress. Rain doing slight damage to crops in Naráingarh and Ambála tahsils. Area of maize and jowár crops damaged by rats and resown in some places in the Ambála tahsíl. Condition of standing crops generally good.
6	Jullundur ...	2·97 at Sadr ... 1·36 at Nakodar. 1·57 at Phillaur. 1·84 at Nawashahr.	1. Sufficient ... 3. Good.	Unchanged ...	...	Sowings finished. Weeding of crops continues. Standing crops fair.
7	Ferozepore ...	3·38 throughout the district.	1. Available ... 3. Good.	Unchanged ...	...	Sowings of great millet and other autumn crops continue. Standing autumn crops good. Locusts appeared in tahsils Fázilka and Muktsar, but caused no damage.
8	Lahore ...	2·13 at Sadr ... 4·05 at Chúnián. 2·77 at Kasúr. 1·07 at Sharakpur.	1. Sufficient ... 3. Good.	Unchanged ...	Lands are being prepared for the next spring crops.	Rice, maize, &c., being sown. Prospects and probable outturn average. The rats are damaging the standing crops in the Chúnián tahsíl.
9	Amritsar ...	4·68 at Sadr ... More at Tarn Táran, less at Ajnála.	1. Sufficient ... 3. Good.	Wheat, rising ... Barley and bájra, normal. Gram and jowár, warning. Maize, scarcity.	...	Rice, great millet, sesamum, &c., being sown. Condition of standing crops good.
10	Siálkot ...	1·61 at Sadr ... 7·44 at Zafarwál. 6·12 at Pasrúr. 3·84 at Raya. 2·05 at Daska.	1. Sufficient ... 3. Good.	Wheat, 13½ seers. Gram, 18 seers. Barley, 21½ seers. Rice, 8 seers.	...	Sowings of rice, great millet, maize, &c., continue. The rains improved the condition of standing crops.
11	Shahpur ...	0·05 at Sadr ... A little more all over the district.	1. Sufficient ... 3. Good.	Wheat and gram, approaching scarcity. Bájra and maize, above normal. Jowár, normal. Barley, below normal.	...	Sowings of rice and other autumn crops continue. Standing crops in good condition. 'Toka' (grasshopper) damaged great millet and bájra (bulrush millet) in the Khusháb tahsíl.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
12	Ráwalpindi ...	2·78 at Sadr ... 3·91 at Gujar Khan 2·63 at Kahúta. 1·87 at Murree.	1. Sufficient ... 3. Good.	Wheat, 15¼ seers Bájra, 22 seers. Maize, 21¼ seers. Gram, 17½ seers. Barley, 22 seers.	...	Condition of autumn crops fair.
13	Miánwáli ...	1·31 at Sadr ... 0·76 at Bhakkar. 3·12 at Leiah.	1. Procurable ... 3. Fair.	Unchanged ...	...	Sowings of autumn crops in progress. Condition and probable outturn of autumn crops average.
14	Lyallpur ...	0·98 at Sadr ... 0·11 at Toba Tek Singh.	1. Sufficient ... 3. Good.	Rising ...	...	Sowings of autumn crops continue. Cotton average and sugarcane in good condition.
15	Multán ...	1·82 at Sadr ... 0·36 at Mailsi. 0·42 at Lodhrán. 0·45 at Shujabad. 0·94 at Kabírwála.	1. Sufficient ... 2. Canals flowing. 3. Good.	Wheat, 14¼ seers Gram, 19¼ seers. Maize, 20½ seers.	Extra spring crops average.	Great millet, &c., being sown. Locusts appeared and did slight damage in Kabírwála.

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen in all districts except Shahpur and Lyallpur, where it has been light to moderate.

Prices.—Prices of food-grains are generally rising in Ambála, Amritsar and Lyallpur, and falling in Hissar, Siálkot and Ráwalpindi. Wheat and gram approaching scarcity in Shahpur and maize in Amritsar.

Agricultural operations.—Sowings of autumn crops continue. Weeding in progress in Delhi and Jullundur. Lands are being prepared for the next spring crops in Lahore.

Crops and outturn.—Condition of standing crops good to average. Recent rains have improved the condition of standing crops. Cotton average and sugarcane in good condition in Lyallpur. Extra spring crops average in Multán.

Damage done to crops.—Locusts appeared in Hissar, Ferozepore and Multán causing a slight damage in the last named district. Rats doing slight damage to crops in parts of Ambála and Lahore. 'Toka' (grass-hopper) damaged great-millet and bájra (bulrush millet) in parts of Shahpur.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

TULSI DAS, SUPDT.,
for *Director of Agriculture, Punjab.*

[illegible] to Varyam from 18th June 1907.
[illegible] raingauge station.

Notes on the condition and prospects of crops, etc, in each district of the Punjab during the month of July 1907.

1.—HISSAR DISTRICT.

Rainfall during the month was sufficient, and sowings are in progress in all parts of the district. Canal crops are flourishing. Locusts appeared in the Hánsi tahsíl, but slight damage was done. Cattle in good condition. Fodder sufficient. Water-supply in canal sufficient.

2.—ROHTAK DISTRICT.

Sowing of jowár, bájra, cotton and pulses in irrigated as well as in baráni tracts where sufficient rain has fallen in progress. Standing crops in good condition, and germination is good. Locusts passed through some of the villages of Gohána and Jhajjar tahsíls, but did no damage except to young leaves of cotton. Cattle in excellent condition. Canal supply is good.

3.—GURGAON DISTRICT.

Up to the 19th of the month there was little or no rainfall to enable sowings being made. Good rainfall was received on the 20th throughout the district which practically continued daily after that date up to the 31st of the month. Sowings were in progress to a great extent. Standing crop in good condition. Prospects appear to be good. Cattle in fair condition. Health of the people good. Canal water was used before the rain was received. Hill torrents came down in the Fírozpur tahsíl, and flooded lands in certain villages of that tahsíl. Rates were below the normal. Locusts appeared in certain parts of the district, but did no damage.

4.—DELHI DISTRICT.

There has been no general rainfall throughout the district. Sowings for kharíf crops on irrigated lands and where rain has fallen have commenced. Standing crops in good condition. Baráni cotton will be short. Other kharíf crops should be normal. Condition of cattle good. Public health good. Fodder sufficient. Prices were high owing to holding off of monsoon, but as rains have commenced, they are now fallling.

5.—KARNAL DISTRICT.

Irrigated crops like cotton and *dhán* were sown in the beginning of the month, but good subsequent rains in the second fortnight of the month greatly encouraged the sowings of cotton, dhán, ziri, jowár, maize, bájra, etc. In spite of the lateness of the rains a considerable area has been sown with rice and cotton. Cotton, cane and chari are doing well. Rains have fallen in every part of the district. A large flight of locust passed over Pánipat and Kaithal, and did some harm to cotton and chari in Rájaund, Asand and certain villages in Pánipat and Kaithal tahsíls; but there is every likelihood of the loss being made good by the excellent rains. The condition of cattle is good. There is now plenty of water and green grass. Western Jumna canal and Sirhind canal have been running as usual, and irrigation was timely. Sarasuti canal also began flowing during the month. River Jumna and small streams are in flood, and a considerable area has been watered by them. Prices have slightly fallen.

6.—AMBALA DISTRICT.

Kharíf sowings commenced rather late, *i.e.*, after the 20th July 1907. Condition of crop fair. Expected yield good. Condition of cattle generally good. Public health good.

7.—SIMLA DISTRICT.

The rainfall during the month was insufficient in both tahsíls. In the Simla tahsil sowing of maize, kulth, másh and rice, and in the Kot Khái tahsil of china, koda, báthu, másh, dhanfari and ogla were made on the area which remained unsown in the past month. The condition of crops in both tahsíls is average. The condition of cattle is good in both tahsíls. Fodder and grazing are sufficient. The water-supply in hill streams is sufficient in both tahsíls, and one-fifth and half respectively of the normal area was watered.

8.—KANGRA DISTRICT.

Kharíf sowings have now been completed. The condition of the standing crops is generally good. Cattle are reported to be in good condition Water in the kuhls was not sufficient for irrigation purposes up to the middle of the month.

9.—HOSHIARPUR DISTRICT.

Kharíf sowings were in progress. They were later than usual owing to the late arrival of the rains. Sugarcane and cotton crops in good condition. The yield is expected to be good. Condition of cattle fairly good. Fodder is sufficient, and there is plenty of grazing to be had. The state of public health good. Irrigation was carried on from the canals, wells and hill torrents. Water in canals and hill streams sufficient.

10.—JULLUNDUR DISTRICT.

Sowings of kharíf crops except makki finished. Standing crops fair. Rain in sufficient; more needed badly. Condition of crops good, if rainfall during August is sufficient. Condition of cattle good. Health of people good.

11.—LUDHIANA DISTRICT.

The sowings of kharíf crops were commenced during the middle of the month owing to the rainfall being late. Condition of standing crops good. Condition of cattle satisfactory. The state of public health good. The irrigation from canals was fairly satisfactory. Prices slightly rose owing to the rains being late.

12.—FEROZEPORE DISTRICT.

Jowár, bájra, moth, til, gowára, chari, maize and dhán were sown during the month. Standing kharíf crops in good condition. Yield is expected to be good. Cattle in good condition. Public health generally good. Sirhind canal and the district inundation canals had been flowing, and a normal area was irrigated. There were no floods in river Sutlej. Agriculturists were generally well off. Stocks of food-grains and fodder sufficient. Green fodder not generally available. Prices of food-grains stationary.

13.—MONTGOMERY DISTRICT.

Kharíf sowings were in progress during the month. Condition of crops average. No complaints of any kind of insects having damaged the cultivation. Expected yield average. Condition of cattle good. Fodder sufficient. Public health good. Canals are flowing, but there is not sufficient water in the river, a fact which accounts for smallness of irrigation.

14.—LAHORE DISTRICT.

Maize, babbal (moth nahri), rice, chari and til being sown on irrigated lands during the month. The rains were not sufficient during the month except in some places of tahsil Kasúr where some kharíf crop was also sown on baráni lands; otherwise the whole tract of baráni land in this district was left unsown in the month. The condition of existing kharíf crops good. Locusts passed through the district on the 27th July, but did no real damage. Expected yield of the kharíf crop fair. Condition of cattle generally good. State of public health good. The perennial canals worked well. There were no floods in the rivers. The Annhi and Chatrang nalas have also water running in the end of the month. The prices of food-grain were rising on account of the rains holding off and the export of food stuffs to other countries.

15.—AMRITSAR DISTRICT.

Til, chari, cotton, rice, hemp and moth being sown. Condition of standing crops good. Prospects of the standing crops good. Condition of cattle good. Health of people generally good. No complaint of insufficiency of canal water.

16.—GURDASPUR DISTRICT.

Rice sowings in irrigated lands completed. Other kharíf crop sowings in progress in parts of tahsíls Batála, Gurdáspur and Pathánkot. Elsewhere rain is badly wanted. Condition of crop good on irrigated lands; in want of rain elsewhere. Yield depends on the sufficiency of rain. Condition of cattle generally good. Public health good on the whole. Canals and hill torrents flowing. Water normal in rivers. Prices are rising. Locusts appeared, but did no damage.

17.—SIALKOT DISTRICT.

Watering to sugarcane and cotton crops continued in chahi lands. Chari, maize and moth sown to a small extent. Condition of standing crops average in irrigated lands, and bad in unirrigated lands. Sugarcane and cotton crops withering for want of rain in baráni lands. Kharíf crops slightly damaged by toka insect in tahsíls Daska and Pasrúr. Outturn of tobacco fair. Condition of cattle good. Public health generally good. Water sufficient in Bajwát canals. Inundations in Aik and Degh nalas.

18.—GUJRANWALA DISTRICT.

Jowár, rice and maize were sown during the month. The condition of crops is so far good, but toka is doing some damage in the Háfizabad, Khángah Dográn and Wazirabad tahsíls. Condition of cattle good. There is enough of dry fodder, but green fodder is comparatively scarce. The state of public health good. No complaint about the insufficiency of water in canals The prices of grain fell slightly during the month owing to some of the exporting firms having stopped their purchases. The wheat of this year not being considered good enough for export.

19.—GUJRAT DISTRICT.

Sowings of kharíf crops were in progress in certain tracts where sufficient moisture was created by the rain in the third week of July. More rain is badiy needed to extend sowings. Condition of cotton and sugarcane crops generally fair. The young crops are reported to have been damaged to some extent in certain parts of the district by "toka" hoppers. Estimated yield ot tobacco and other extra rabi crops fair. Cattle in good condition. Fodder sufficient. Public health good. Prices inclined to rise.

20.—SHAHPUR DISTRICT.

Bájra, maize, jowár, moth, mung, másh and rice were sown during the month. The condition of standing crops fair. More rain wanted. Cotton and jowár damaged by toka in the Khusháb tahsíl. Expected yield average. Cattle in good condition. Fodder sufficient. Canals continued to flow. Water in the hill torrents was deficient. Prices rising on account of increase in exportation of stock and restricted sowings of kharíf.

21.—JHELUM DISTRICT.

Good rain everywhere except in parts of Pind Dádan Khan tahsíl. Kharíf sowings completed in well lands, and in progress in unirrigated lands. Condition of crops fair. Condition of cattle good. Dry fodder sufficient. No floods in the river. Pind Dádan Khan canal flowing. Prices rising.

22.—RAWALPINDI DISTRICT.

The rains fell in the latter part of the month. Ploughings are being done for the next rabi. More rains are wanted. The condition of crops generally average. In tahsíl Gujar Khan an insect called "toka" is destroying the crops of mung and moth, etc. Condition of cattle good. The fodder was sufficient everywhere.

23.—ATTOCK DISTRICT.

During the month rains were received all over the district, but were not very satisfactory. No benefit has been done to the kharif crops. The ploughings have, however, been done for the next rabi. The condition of kharif crops is only fair except in Talagang tahsil where it is bad. Fodder was sufficient.

24.—MIANWALI DISTRICT.

... Sowings of jowár, bájra and til in progress. Cutting of extra rabi crops finished. Condition and probable outturn of kharif crops average. Condition of cattle fair. Fodder procurable, but scarce in Bhakkar and Leiah Thal Public health generally good. The Indus is rising. Some of the villages are being irrigated by Jhandis. No floods from hill torrents during the month. Prices stationary. Locusts once appeared in Leiah tahsil, but flew away to the south without doing any damage.

25.—LYALLPUR DISTRICT.

Makki, jowár and til have been sown owing to recent rains. Condition of sugarcane good; that of cotton fair. Cotton damaged in some places by locusts. Kharif produce promises well. Condition of cattle good. Fodder sufficient. Scarcity of water on Bhangu and Burála branches. Elsewhere water-supply ordinary. Prices of grain rising owing to there being much purchasing.

26.—JHANG DISTRICT.

Jowár, maize, chari, bájra and másh are being sown. Condition of crop average in Shorkot and Jhang tahsíls, while less than average in the Chiniot tahsíl. Fodder average, but in chak Uttar of the Shorkot tahsíl it is scarce. Canals are flowing. There are complaints of insufficiency of water in villages of the Shorkot tahsíl on the tail of the Chenab canal. The Chenab and Jhelum rivers are full to overflowing. The Chenab is irrigating some lands in the Chiniot tahsíl. Prices rising. Locusts are seen in the Jhang and Chiniot tahsíls, but no report of any damage done by them has been received.

27.—MULTAN DISTRICT.

Jowár, bájra, til, indigo and cotton being sown. Condition of standing kharif and extra rabi crops average. Locusts have done slight damage to indigo crop in some villages in Lodhrán tahsíl. Condition of cattle generally good. Public health good. Inundation canals working by turns. Sidhnai canal flowing. There were complaints for insufficient supply of water in tahsíls Mailsi and Lodhrán in beginning of the month.

28.—MUZAFFARGARH DISTRICT.

Rice, bájra, til and jowár sown. Cotton sown in Sinánwan tahsíl for the second time, as that sown previously failed. Crops are withering on account of scarcity of canal water Expected yield below average. The condition of cattle good. Public health good. No. inundations. Water in canals quite insufficient. Complaints about the scarcity of canal water are widespread, and the kharíf harvest is most likely to be a poor one. Food and fodder sufficient.

29.—DERA GHAZI KHAN DISTRICT.

Sowing about three-fourths done. Irrigation late. Condition of crops fair such as have come up. Condition of cattle good. Public health good. Canals working badly owing to lowness of river. Hill torrents good.

TULSI DAS, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 12th August 1907.

WILLIAM H. MILLS, Offg. Supdt.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 3rd August 1907, there were 1,024 births registered in the 43 large municipal towns (525 males and 499 females), giving a birth rate of 37 *per mille* of population, an 755 deaths were registered (369 males and 386 females), giving a death rate of 27 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 36 against 58 in the corresponding week of the previous year; Lahore 24 against 25; Amritsar 32 against 35; and Multán 34 against 37. There were 7 deaths reported from plague (3 each in Lahore and Ráwalpindi and 1 in Amritsar). Of the 34 deaths from small-pox, 9 were registered in Amritsar, 3 each in Hoshiárpur, Kartárpur and Ráwalpindi, 2 each in Ferozepore, Siálkot and Pind Dádan Khan, and 1 each in Hissar, Hánsi, Bhiwáni, Rewári, Kaithal, Jullundur, Kasúr, Batála, Jhelum and Multán.

Deaths reported from plague during the week ending 10th August 1907 *in the districts, including all municipal towns:*—Rohtak 1, Karnál 3, Hoshiárpur 3, Jullundur 12, Ferozepore 7, Lahore 34, Amritsar 6, Gurdáspur 6, Siálkot 12, Gujránwála 74 including 50 deaths of previous months not reported before, Gujrát 7, Shahpur 2, Jhelum 42, Ráwalpindi 59, and Attock 9. Total for the province 277. Total for the previous week 372. Total for the corresponding week of the previous year 12.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 20th AUGUST 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	1·09 at Sadr ... 0·22 at Hánsi 1·36 at Bhiwáni. 2·10 at Fatahabad. 0·91 at Sirsa. 2·22 at Budhláda. 2·03 at Tohána.	1. Sufficient ... 2. Sufficient. 3. Good.	Wheat, 13½ seers Gram, 19½ seers. Bájra, 18½ seers.	...	Crops in good condition. Swarm of locusts passed without causing damage.
2	Rohtak ...	2·80 at Sadr ... 1·12 at Gohána. 2·35 at Sámpla. 1·04 at Jhaijar. 0·64 at Salhawas.	1. Sufficient ... 3. Good.	Wheat, 13 seers ... Gram, 17½ seers. Jowár, 19 seers. Maize, 20 seers.	...	Sowings continue. Standing crops good. Good outturn expected.
[illegible]	Gurgaon ...	0·94 at Sadr ... 4·20 at Farrukhnagar. 2·42 at Jatusána. 6·43 at Rewári. 5·94 at Khol. 2·46 at Tauru. 2·54 at Nuh 5·32 at Fírozpur. 3·47 at Hodal. 1·79 at Hattín. 2·10 at Palwal. 2·04 at Sohna. 1·73 at Punahána.	1. Plentiful ... 3. Good.	Below normal ...	...	Sowings of great millet, &c., in progress in Gurgaon, Rewári and Nuh tahsíls. Standing crops in good condition. Prospects of yield good.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	2·56 at Sadr ... 2·24 at Ballabgarh. 1·56 at Mahrauli. 5·09 at Sonepat ...	1. Sufficient ... 2. No complaint. 3. Good.	Unchanged ...	Lands are being prepared for spring crops.	Rainfall generally sufficient. Sowings of great millet, &c., continue. Standing crops flourishing.
5	Ambála ...	4·12 at Sadr ... 1·01 at Jagádhri. 5·03 at Naráingarh. 2·30 at Kharar. 2·72 at Rúpar. 3·24 at Kasauli.	1. Sufficient ... 3. Good.	Wheat, 12¼ to 12¾ seers. Gram, 17¼ to 17¾ seers. Barley, 19½ seers. Maize, 12½ to 15½ seers. Jowár, 13½ to 17½ seers. Bájra, 15½ seers.	...	Sowings generally finished. Rats still doing damage to crops in Naráingarh and Ambála tahsils. Area damaged by rats resown in some places in Ambála tahsil. Standing crops good. Sowing of crops except rice below average in Naráingarh tahsil owing to continual rain and want of soil fit for sowing.
6	Jullundur ...	2·12 at Sadr ... 5·01 at Nakodar. 8·74 at Phillaur. 7·17 at Nawashahr.	1. Sufficient ... 3. Good.	Rising ...	...	Very little weeding has been done on account of rain. Standing crops fair.
7	Ferozepore ...	2·75 throughout the district	1. Available ... 3. Good.	Unchanged ...	...	Sowings of great millet and other autumn crops continue. Standing crops good.
8	Lahore ...	0·85 at Sadr ... 1·58 at Chúnián. 0·67 at Kasúr. 0·75 at Sharakpur.	1. Sufficient ... 3. Generally good.	Unchanged ...	Lands being prepared for next spring crops.	Rice, maize, &c., being sown. Prospects and probable outturn average. The rats are damaging the standing crops in the Kasúr and Chúnián tahsíls.
9	Amritsar ...	0·41 at Sadr ... More at Tarn Táran, less at Ajnála.	1. Sufficient ... 3. Good.	Wheat, Jowár and Bájra, } high. Barley, normal. Gram, and Maize, } warning.	...	Maize, great millet, &c., being sown. Condition of standing crops good. Locusts appeared in Tarn Táran, but did no damage. In two villages of tahsil Ajnála rats damaged maize and rice.
10	Siálkot ...	1·93 at Sadr ... 3·20 at Daska. 1·20 at Pasrúr. 3·08 at Zafarwál. 0·69 at Raya.	1. Sufficient ... 3. Good.	Wheat, 13 seers ... Gram, 18 seers. Barley, 22 seers. Rice, 8½ seers.	...	Sowings of rice, maize, &c., in progress. Condition of standing crops good.
11	Shahpur ...	0·22 at Sadr ... Similar in Bhera and Sargodha tahsíls. Light in Khusháb.	1. Sufficient ... 3. Good.	[illegible] 14 to 17 seers. Bájra 20 to 23 seers. Gram 19 to 20 seers. Barley 22 to 25 seers. Jowár 20 to 21 seers. Maize 18 to 23 seers.	Ploughings for next spring crops in progress.	Sowings of great [illegible], &c., in progress. Standing crops good. More rain wanted in Khusháb tahsil.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	1·35 at Sadr ... 2·09 at Gujar Khan 1·89 at Murree	1. Sufficient ... 3. Good.	Wheat, 15½ seers Bájra, 22 seers. Maize, 22 seers. Gram, 17½ seers. Barley, 23 seers.	...	...
13	Miánwáli ...	0·80 at Sadr ... 1·10 at Isa Khel. 4·77 at Bhakkar. 0·87 at Leiah.	1. Procurable but scarce in Indus Valley tract. 3. Fair.	Unchanged ...	...	Rain was beneficial to standing crops. Condition of crops average in Miánwáli and Isa Khel tahsíls and Thal tract. Crops damaged by river inundation in Indus Valley tract of Bhakkar and Leiah. Probable outturn average.
14	Lyallpur ...	3·07 at Samundri 2·02 at Toba Tek Singh.	1. Sufficient ... 3. Good.	Rising ...	...	Sowings of autumn crops still continue. Cotton and sugarcane in good condition.
15	Multán ...	1·37 at Sadr ... 0·20 at Mailsi. 2·09 at Lodhrán. 0·08 at Shujabad. 0·18 at Kabírwála.	1. Sufficient ... 3. Good.	Wheat, 14¾ seers Gram, 19¾ seers. Maize, 20 seers.	Ploughings for spring crops commenced.	Sesamam and bájra (bulrush millet) being sown. Locusts appeared in tahsíl Shujabad, and did slight damage to indigo crop.

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen all over the Province.

Prices.—Prices of food-grains generally rising in Hissar, Jullundur, Siálkot, Lyallpur, and Multán and falling in Ráwalpindi.

Agricultural operations.—Sowings of autumn crops continue. Ploughings for spring crops in progress in Delhi, Lahore, Shahpur and Multán. Owing to rain, very little weeding has been done in Jullundur.

Crops and outturn.—Condition of standing crops good to average. More rain wanted in parts of Shahpur.

Damage done to crops.—Locusts appeared in Hissar. Amritsar and Multán, causing a slight damage to indigo crop in the last named district. Rats are damaging crops in parts of Ambála, Lahore and Amritsar. Crops damaged by river inundation in parts of Miánwáli.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient except in parts of Miánwáli.

Water-supply.—No complaint.

TULSI DAS, SUPDT.,

for *Director of Agriculture, Punjab.*

Note.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

...TARY COMMISSIONER'S OFFICE,
LAHORE:
The 20th August 1907.

WILLIAM H. MILLS, Offg. Supdt.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 10th August 1907, there were 1,065 births registered in the 43 large municipal towns (583 males and 482 females), giving a birth rate of 38 *per mille* of population, and 732 deaths were registered (379 males and 353 females), giving a death rate of 26 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 32 against 63 in the corresponding week of the previous year; Lahore 25 against 27; Amritsar 31 against 40; and Multán 22 against 27. There were 2 deaths reported from plague in Lahore and 1 in Amritsar. Of the 25 deaths from small-pox, 10 were registered in Amritsar, 3 in Batála, 2 in Ráwalpindi and 1 each in Hissar, Hánsi, Kaithal, Kartárpur, Siálkot, Wazírabad, Bhera, Pind Dádan Khan, Jhang-Maghiána and Multán. There was 1 death recorded from cholera in Ráwalpindi.

Deaths reported from plague during the week ending 17th August 1907 in the districts, including all municipal towns:—Hissár 3, Delhi 12, Karnál 1, Hoshiárpur 1, Montgomery 5, Lahore 4, Amritsar 2, Gurdáspur 10, Siálkot 2, Gujránwála 10, Jhelum 47, Ráwalpindi 33, and Attock 8. Total for the province 138. Total for the previous week 227. Total for the corresponding week of the previous year 2.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, AUGUST 30, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 27th AUGUST 1907.

[Fifteen out of 29 districts are dealt with.]

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	0·47 at Sadr ... 3·40 at Sirsa. 0·22 at Fatahabad. 0·25 at Hánsi 2·67 at Budhláda. 2·35 at Tohána.	1. Sufficient ... 2. Do. 3. Good.	Wheat, 13½ seers Gram, 19¼ seers. Bájra, 19 seers.	...	Condition of crops good.
2	Rohtak ...	0·53 at Sadr ... 0·54 at Gohána. 0·36 at Sámpla.	1. Sufficient ... 3. Good.	Wheat, 13 seers ... Gram, 18 seers. Jowár, 19 seers. Maize, 20 seers.	Lands being prepared for spring crops.	Sowings of great millet continue to some extent. Standing crops good. Young locusts issued from eggs and destroyed in three villages of the Sámpla tahsíl.
3	Gurgaon ...	0·51 at Sadr ... 1·30 at Sohna. 1·40 at Punahána.	1. Plentiful ... 3. Good.	Below normal ...	...	Sowings of great millet, &c., in progress in the Gurgaon, Rewári and Fírozpur tahsíls. Carrots being sown. Standing crops in good condition. Prospects of yield good, but fine weather is needed as crops are turning yellow in many places.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	0·50 at Sadr ... 0·66 at Ballabgarh. 2·12 at Sonepat ...	1. Sufficient ... 2. No complaint. 3. Generally good.	Unchanged ...	Lands being prepared for next spring crops.	Sowings generally finished. Standing crops good, but they have commenced withering in some places owing to high westerly winds. Good outturn expected.
5	Ambála ...	1·36 at Sadr ... 2·82 at Jagádhri. 2·70 at Naráingarh. 1·69 at Kharar. 1·46 at Rúpar. 1·99 at Kasauli.	1. Sufficient ... 3. Generally good.	Wheat, 12¼ to 12¾ seers. Gram, 17¼ to 17¾ seers. Barley, 19½ seers. Maize, 12½ to 15½ seers. Jowár, 13½ to 17½ seers. Bájra, 15½ seers.	...	Sowings finished. Rats still doing damage to crops in the Naráingarh and Ambála tahsíls. Condition of standing crops generally good.
6	Jullundur ...	0·25 at Phillaur ...	1. Sufficient ... 3. Good.	Unchanged ...	Ploughing commenced.	Weeding in progress. Standing crops fair.
7	Ferozepore ...	0·19 at Sadr ...	1. Available ... 3. Good.	Unchanged ...	...	Sowings of great millet, &c., continue. Standing crops good.
8	Lahore ...	0·46 at Sadr ... 0·24 at Kasúr. 1·44 at Sharakpur.	1. Sufficient ... 3. Good.	Unchanged ...	Lands are being prepared for spring crops.	Rice, maize, &c., being sown. Wild rats are damaging the crops in Máhja Khora of the Lahore tahsíl as well as in the Chunián and Kasúr tahsíls. Prospects and probable outturn average.
9	Amritsar ...	0·F0 at Sadr .. Less at Tarn Táran and Ajnála.	1. Sufficient ... 3. Good.	Wheat, Jowár, Bájra, Gram, } high. Barley, normal. Maize, warning.	...	Maize, &c., being sown. Condition of standing crops good.
10	Siálkot ...	0·57 at Raya ... 0·09 at Zafarwál. 0·25 at Daska.	1. Sufficient ... 3. Good.	Wheat, 14 seers ... Gram, 18½ seers. Barley, 22 seers. Rice, 7 seers.	...	Sowings of rice, maize, &c., continue. Weeding of standing crops in progress. Condition of standing crops good. Sugarcane and maize crops in the Pasrúr and Raya tahsíls slightly damaged by rats.
11	Shahpur ...	0·33 at Sadr ... Similar in Shahpur, Bhera and Khusháb tahsíls. Lighter in Sargodha tahsíl.	1. Sufficient ... 3. Good.	Wheat, 15 to 17 seers. Barley, 22 to 25 seers. Gram, 19 to 20 seers. Jowár, 18 to 24 seers. Bájra, 19 to 23 seers. Maize, 18 to 23 seers.	Ploughings for spring crops in progress.	Rice and other autumn crops being sown. Standing crops in good condition.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
11	Ráwalpindi ...	0·95 at Sadr ... 1·04 at Gujar Khan 2·01 at Kahuta. 1·99 at Murree.	1. Sufficient ... 3. Good.	Wheat, 15¼ seers Bájra, 22 seers. Maize, 21½ seers. Gram, 17¾ seers. Barley, 23½ seers.	Ploughings for spring crops commenced.	Condition of autumn crops fair.
13	Miánwáli ...	0·30 at Sadr ... 1·36 at Isa Khel. 0·36 at Bhakkar. 1·81 at Leiah.	1. Procurable ... 3. Fair.	Unchanged ...	Land being prepared for spring crops.	Rain was beneficial to standing crops. Lands irrigated from hill torrent water in Isa Khel. Condition of standing crops average.
14	Lyallpur ...	0·30 at Sadr ...	1. Sufficient ... 3. Good.	Rising ...	Land is being prepared for toria (brassica compestris.)	Sowings continue. Cotton and sugarcane in good condition.
15	Multán ...	0·08 at Sadr ... 0·04 at Shujabad.	1. Sufficient ... 3. Good.	Wheat, 14¼ seers Gram, 19¾ seers. Maize, 17¾ seers.	Ploughings ...	Great millet, &c., being sown. Locusts did slight damage to indigo in tahsíl Shujabad.

GENERAL REMARKS.

Rainfall.—Good to moderate rain has fallen in all districts except Multán, where it has been light.

Prices.—Prices of food-grains generally rising in Ráwalpindi, Lyallpur and Multán and falling in Siálkot and Shahpur.

Agricultural operations.—Sowings of autumn crops and ploughings for the next spring continue. Weeding in progress in Jullundur and Siálkot.

Crops and outturn.—Condition of standing crops good to average. Crops are turning yellow for want of fine weather in Gurgaon and withering in Delhi owing to high westerly winds.

Damage done to crops.—Locusts appeared and did slight damage to indigo crop in parts of Multán. Young locusts destroyed in parts of Rohtak. Rats are damaging the standing crops in Ambála, Lahore and Siálkot.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

TULSI DAS, SUPDT.,
for *Director of Agriculture, Punjab.*

WILLIAM H. MILLS, OFFG. SUPERINTENDENT,

for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

FIFTY-FOUR THOUSAND FOUR HUNDRED AND SIXTEEN births were registered in the province during the month of July 1907, giving a birth-rate of 32 *per mille* of population. Of the total number of births, 28,678 were boys and 25,738 were girls.

The total number of deaths registered from all causes in the province during the month of July 1907 was 52,103 against 98,977 in the previous month, and 42,415 in the corresponding month of the past year, giving an annual death-rate of 31, 60 and 25 *per mille* of population per annum, respectively.

There were 35 deaths registered under the head of cholera, against 62 in the previous month and 821 in the corresponding month of the past year.

The total mortality from plague amounted to 7,535 against 50,383 in the previous month and 167 in the corresponding month of the past year. The largest number of deaths from plague during the month were registered in the following districts:—Jhelum, 1,884; Ráwalpindi, 1,611; Gujrát, 1,421; Gujránwála, 647, and Attock 507.

From small-pox 1,175 deaths were registered against 1,341 in the previous month and 1,390 in the corresponding month of the past year; fevers 27,490 against 29,775 and 23,708; dysentery and diarrhœa 1,104 against 1,480 and 1,066; respiratory diseases 4,337 against 4,662 and 3,603. During the month there were 34 deaths registered from suicide against 32 in the past month; wounding 45 against 31; accidents 527 against 477; snake-bite and killed by wild beasts 149 against 80; and from all other causes 9,672 against 10,654 in the previous month and 10,660 in the corresponding month of the past year.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 27th August 1907.

WILLIAM H. MILLS, Offg. Supdt.,
for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

During the week ending 17th August 1907 there were 1,111 births registered in the 43 large municipal towns (562 males and 549 females), giving a birth rate of 40 *per mille* of population, and 763 deaths were registered (384 males and 379 females), giving a death rate of 27 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 38 against [illegible] in the corresponding week of the previous year; Lahore 28 against 30; Amritsar 32 against [illegible] and Multán 28 against 39. There were 4 deaths reported from plague in Lahore and 1 in Jhelum. Of the 25 deaths from small-pox, 8 were registered in Amritsar, 3 in Hoshiárpur, 2 each in Jullundur, Jagráon and Ferozepore, and 1 each in Hánsi, Bhiwáni, Palwal, Tánda-Urmar, Kartárpur, Gujránwála, Wazírabad and Jhang-Maghiána.

Deaths reported from plague during the week ending 24th August 1907 in the districts, including all municipal towns:—Hissar 1, Delhi 2, Jullundur 2, Montgomery 1, Amritsar 2, Gurdáspur 1, Siálkot 3, Gujránwála 5, Shahpur 11, Jhelum 34, Ráwalpindi 38, and Attock 13. Total for the province 113. Total for the previous week 138. Total for the corresponding week of the previous year 54.

WILLIAM H. MILLS, Offg. Supdt.,
for *Sanitary Commissioner, Punjab.*

GENERAL REMARKS.

Rainfall.— Light to moderate rain has fallen in all districts except Rohtak, Delhi, Siálkot, Lyallpur and Multán. Good rainfall is reported from parts of Ambála.

Prices.—Prices of food-grains generally rising in some districts.

Agricultural operations.—Sowings of autumn crops and ploughings for the next spring continue. Weeding in progress in Gurgaon, Jullundur and Siálkot. Carrots are being sown in Gurgaon and toria (Brassica campestris) in Amritsar.

Crops and outturn.— Condition of standing crops generally good to average. The crops are withering on account of high westerly winds and cessation of rains in Gurgaon and Delhi. Strong westerly wind is also blowing in Rohtak. More rain is badly wanted in some districts.

Damage done to crops.—Rats are damaging the standing crops in Ambála, Lahore and Siálkot. Locusts appeared in parts of Rohtak, but did no damage to crops. Standing crops are being damaged by insect (toka) in parts of Shahpur.

Agricultural stock.— Condition of cattle generally good.

Pasturage.—Fodder sufficient.

Water-supply.— No complaint.

TULSI DAS, SUPDT.,

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE, LAHORE:
The 2nd September 1907.

WILLIAM H. MILLS, OFFG. SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 24th August 1907, there were 1,196 births registered in the 43 large municipal towns (657 males and 539 females), giving a birth rate of 43 *per mille* of population, and 794 deaths were registered (403 males and 391 females), giving a death rate of 28 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 35 against 59 in the corresponding week of the previous year; Lahore 27 against 26; Amritsar 32 against 38; and Multán 31 against 22. There were 3 deaths reported from plague in Lahore and 1 in Jhelum. Of the 23 deaths from small-pox, 9 were registered in Amritsar, 3 each in Hoshiárpur and Batála, 2 in Multán and 1 each in Jhajjar, Jullundur, Ludhiána, Lahore, Kasúr and Gujránwála. There was 1 death recorded from cholera in Lahore.

Deaths reported from plague during the week ending 31st *August* 1907 *in the districts, including all municipal towns:*—Hoshiárpur 1, Jullundur 1, Amritsar 3, Attock 4, Jhelum 19, Shahpur 29, Ráwalpindi 50, and Siálkot 7. Total for the province 114. Total for the previous week 113. Total for the corresponding week of the previous year 49.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, SEPTEMBER 13, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 10th SEPTEMBER 1907.

[Fifteen out of 20 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	0·88 at Budhláda...	1. Sufficient ... 3. Good.	Wheat, 13 seers ... Bájra, 16¼ seers. Gram, 18¼ seers.	...	Rain urgently needed for unirrigated crops. Prospects of irrigated crops good.
2	Rohtak ...	...	1. Sufficient ... 3. Generally good.	Wheat, 12¼ seers Gram, 16⅓ seers. Jowár, 19 seers. Maize, 20 seers.	Ploughings in progress.	Standing crops (nahri) fair, but báráni withering owing to the high westerly winds. Rain badly wanted.
3	Gurgaon ...	...	1. Plentiful ... 3. Good.	Below normal ...	Carrots being sown	Weeding in progress. Standing crops in fair condition; but owing to cessation of rainfall and strong westerly winds the crops dependent on rain have begun to wither. Prospects of yield becoming gloomy.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient ... 2. No complaint.	Rising ...	Ploughings for spring crops in progress.	Standing crops have suffered to some extent in some places owing to high westerly winds and cessation of rain. If no rain falls, autumn crops will fail. Good outturn depends on rain.
5	Ambála ...	0·32 at Rúpar ... 1·70 at Kasauli. 0·04 at Kharar. 0·39 at Naráingarh.	1. Sufficient ... 3. Generally good.	Wheat, 12 to 12½ seers. Gram, 17 to 17½ seers. Barley, 17½ seers. Maize, 15½ seers. Jowár, 10½ seers. Bájra, 15½ seers.	...	Rain badly wanted. Condition of standing crops average.
6	Jullundur ...	0·06 at Sadr ... 0·32 at Nakodar ...	1. Sufficient ... 3. Good.	Unchanged ...	Ploughings in progress.	Weedings continue. Standing crops fair. Rain needed.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Rising ...	...	Standing crops average.
8	Lahore ...	...	1. Sufficient ... 3. Good.	Rising ...	Lands are being prepared for next spring crops.	Maize being sown. Prospects and probable outturn average. Wild rats are damaging the crops in all tahsíls of the district.
9	Amritsar ...	0·15 at Ajnála ...	1. Sufficient ... 3. Good.	Wheat, Gram, } warning. Maize, high. Jowár, Bájra and Barley, } normal.	Toria (*Brassica campestris*) being sown.	Rain badly wanted. Condition of standing crops good.
10	Siálkot ...	0·19 at Zafarwál... 0·17 at Raya.	1. Sufficient, but green fodder becoming scarce for want of rain. 3. Generally good.	Wheat, 14 seers ... Gram, 18½ seers. Barley, 22 seers. Rice, 7 seers.	Sowings of toria (*Brassica campestris*) in tahsíls Raya and Zafarwál commenced. Ploughings for other spring crops continue.	Standing crops on dry lands are withering for want of rain. Rain badly wanted.
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat, 13 to 15 seers. Barley, 23 to 25 seers. Gram, 18 to 20 seers. Jowár, 17 to 24 seers. Bájra, 19 to 23 seers. Maize, 18 to 23 seers.	Toria (*Brassica campestris*) being sown. Ploughings for spring crops in progress.	Sowings continue. Standing crops in good condition.

No.	Reporting station.	Rain	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring	Autumn.
12	Râwalpindi ...	0·10 at Sadr ... 1·31 at Kahúta. 0·40 at Murree	1. Sufficient ... 3. Good.	Wheat, 13¼ seers. Bájra, 22 seers. Maize, 19½ seers. Gram, 18 seers. Barley, 22 seers.	Ploughings in progress.	Condition of standing crops below average.
13	Miánwáli ...	0·20 at Sadr ...	1. Sufficient ... 3. Fair.	Unchanged ...	...	Condition of standing crops average, except in riverain tracts, where it is below average. Expected yield good.
14	Lyallpur ...	...	1. Sufficient ... 3. Good.	Rising ...	Toria (*Brassica campestris*) being sown. Land being prepared for other spring crops.	Maize being sown. Standing crops in good condition.
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 13½ seers. Gram, 10 seers. Maize, 17½ seers.	Ploughings in progress.	Sowings continue.

GENERAL REMARKS.

Rainfall.—Light to moderate rain has fallen in Hissar, Jullundur, Amritsar, Siálkot, Miánwáli, Ambála and Ráwalpindi.

Prices.—Prices of food-grains rising in most districts and falling in Rohtak.

Agricultural operations.—Sowings of autumn crops and ploughings for the next spring crops continue. Weeding in progress in Gurgaon and Jullundur. Carrots being sown in Gurgaon and toria (*Brassica campestris*) in Amritsar, Siálkot, Shahpur and Lyallpur.

Crops and outturn.—Condition of standing crops good to average except in the Ráwalpindi district and the riverain tracts of Miánwáli. The crops are withering on account of westerly winds and cessation of rain in Rohtak, Gurgaon, Delhi and Siálkot. More rain is badly needed in some districts.

Damage done to crops.—Rats are damaging the standing crops in Lahore.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient. Green fodder is becoming scarce in Siálkot for want of rain.

Water-supply.—No complaint.

*Mean of 24 days.

The position of the trough of low pressure and an excess of pressure in North-west India did not permit monsoon winds to extend into the Punjab, but on the contrary dry north-westerly winds prevailed during the first three weeks. This was naturally accompanied by very low humidity and much higher temperature than usual; the only exception was on the 9th and 10th, when the usual heat depression in the north-west intensified and moving into the Simla hills gave numerous duststorms accompanied with rain and cooled the air for a few days. One abnormal feature of the weather during this period was the low temperature conditions which prevailed in Kashmir, probably due to late and excessive snow fall On the 20th the pressure changes brought the trough of low pressure well away from the Himáláyas and the Bay monsoon then extended rapidly north westward into the Punjab and at intervals during the rest of the month the monsoon gave rain over the greater part of the province.

Pressure and winds.—Pressure on the mean of the month was approximately normal at most stations throughout the Punjab, the Frontier Province and Kashmir. Owing to the abnormal conditions prevailing during the first three weeks winds had a more northerly or westerly component than usual and were slightly above the average in strength.

Temperature.—The unsettled weather at the close of last month was followed by normal temperatures for the first three days of July, but from the 4th to the 8th temperature rose rapidly and the maximum averaged nearly 12° in excess on the latter date. The duststorms and rain however produced a temporary cooling from the 9th to the 13th, but from this date until the 20th weather gradually became hotter, and on the 19th the mean of the maximum and minimum temperatures averaged 11° above normal. With the establishing of the monsoon on the 22nd temperature conditions became nearly normal and continued so until the end of the month.

The following table shows the departures from the normal of the mean temperature of the Punjab, and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it:—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and cloud.—Humidity is generally high during July as the monsoon in normal years is well established in the province throughout the month. This year however weather was very dry until monsoon conditions set in on the 20th, when the air rapidly became damper and humidity was then normal for the remaining days of the period. On the mean of the month there was from 15 to 20 per cent. less moisture in the air than usual. Cloud was also very light and much below the normal amount.

Rainfall.—Rainfall was in large defect at every station in the Punjab, the Frontier Province and Kashmir, owing to the delay of the monsoon until the last 10 days of the month, and even in this period the rainfall was light.

The following table gives the rainfall data for the Punjab, Kashmir and the North-West Frontier Province stations for July 1907:—

Stations.	Actual rainfall in July 1907.	Normal average rainfall in July.	Difference from the average in July 1907.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 9th September 1907.

3

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 31st August 1907, there were 1,249 births registered in the 43 large municipal towns (664 males and 585 females), giving a birth rate of 45 *per mille* of population, and 912 deaths were registered (480 males and 432 females), giving a death rate of 33 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 44 against 68 in the corresponding week of the previous year; Lahore 29 against 31; Amritsar 37 against 41; and Multán 31 against 31. There were 3 deaths reported from plague in Lahore and 1 in Ráwalpindi. Of the 15 deaths from small-pox, 3 were registered in Amritsar, 2 each in Hissar, Hoshiárpur, Ferozepore and Ráwalpindi, and 1 each in Jhajjar, Karnál, Batála and Siálkot. There were 13 deaths recorded from cholera in Gujránwála and 2 in Wazírabád.

Deaths reported from plague during the week ending 7th September 1907 in the districts, including all municipal towns:—Hissar 8, Gurgaon 1, Delhi 3, Hoshiárpur 5, Lahore 2, Gurdáspur 1, Siálkot 29, Shahpur 4, Jhelum 16, Ráwalpindi 51, and Attock 6. Total for the province 126. Total for the previous week 123. Total for the corresponding week of the previous year 100.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, SEPTEMBER 20, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 17th SEPTEMBER 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 12 seers ... Gram, 16½ seers. Bájra, 15½ seers.	...	Irrigated crops in good condition. Unirrigated crops withering in some tracts for want of rain, which is urgently needed.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 10½ seers Gram, 15 seers. Jowár, 18 seers. Maize, 18 seers.	...	Standing crops withering owing to westerly winds and lack of rain. Rain urgently needed. Locusts visited certain villages of tahsíl Jhajjar, but the damage done is inconsiderable.
3	Gurgaon ...	...	1. Plentiful ... 3. Good.	Warning ...	Ploughings for next spring in progress. Carrots and vegetables being sown on irrigated areas.	Weedings' in progress. Owing to cessation of rain and strong westerly winds standing crops have suffered much. Condition of crops generally poor. Very little hope of the crops dependent on rain ripening. Prospects of yield becoming very gloomy.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient, but will get scarce in case autumn crops fail. 2. No complaint.	Rising ...	...	Crops dependent on rain have suffered to a great extent owing to cessation of rain and strong westerly wind. Irrigated crops not in good condition. Yield expected below average.
5	Ambála ...	0·15 at Kasauli ...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 11½ to 12 seers. Gram, 15½ to 15¾ seers. Barley, 15½ seers. Maize, 15½ seers. Jowár, 19½ seers. Bájra, 15½ seers.	...	Rain badly wanted. Standing crops generally withering.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Rising ...	Ploughings continue.	Standing crops fair. Rain badly wanted.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Rising ...	...	Standing crops average.
8	Lahore ...	...	1. Sufficient ... 3. Good.	Rising ...	Land being prepared for next spring crops.	Outturn of standing crops expected average. Wild rats damaging the crops throughout the district.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Gram, Jowár, Maize, } warning. Barley and Bájra, } normal.	Toria (*Brassica campestris*) being sown.	Reaping of paddy and picking of cotton and chillies commenced. Crops on irrigated land good and those on unirrigated suffering for want of rain.
10	Siálkot ...	...	1. Sufficient ... 3. Good.	Wheat, 12 seers ... Gram, 17 seers. Barley, 22 seers. Rice, 7 seers.	Sowings of toria (*Brassica campestris*) continue. Ploughings in progress.	Standing crops withering for want of rain.
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat, 13 to 14½ seers. Barley, 21 to 24 seers. Gram, 17 to 19 seers. Jowár, 17 to 24 seers. Bájra, 19 to 23 seers. Maize, 20 to 23 seers.	Toria (*Brassica campestris*) and turnips being sown. Ploughings in progress.	Sowings continue. Standing crops in good condition on irrigated tracts; fair on unirrigated. Rain wanted. Rats and tela (green-fly) damaging crops in Bhera and Shahpur.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·60 at Murree ...	1. Sufficient ... 3. Good.	Wheat, 13½ seers Bájra, 20 seers. Maize, 20 seers. Gram, 16 seers. Barley, 22 seers.	Ploughings continue.	Condition of standing crops bad. Rain wanted.
13	Miánwáli ...	...	1. Sufficient ... 3. Fair.	Unchanged ...	Ploughings commenced.	Standing crops average in Thal and below average in riverain tracts. Expected yield average.
14	Lyallpur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Toria (*Brassica campestris*) and turnips being sown.	Standing crops in good condition.
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 13½ seers Gram, 19 seers. Maize, 18½ seers.	Ploughings in progress. Turnips being sown.	Sowings continue. Condition of standing crops average.

GENERAL REMARKS.

Rainfall.—Light rain has fallen in parts of Ambála and Ráwalpindi.

Prices.—Prices of food-grains are generally rising. Warning rates prevail in Gurgaon and Amritsar.

Agricultural operations.—Ploughings for the next spring crops continue. Sowings of autumn crops still in progress in few districts. Weedings going on in Gurgaon. Carrots and turnips being sown in some districts and toria (*Brassica campestris*) in Amritsar, Siálkot, Shahpur and Lyallpur. Reaping of paddy and picking of cotton commenced in Amritsar.

Crops and outturn.—Condition of standing irrigated crops good to average. In several districts crops dependent on rain are withering owing to strong westerly winds and cessation of rains. Rain badly wanted throughout the Province. Condition of crops poor in Gurgaon and bad in Ráwalpindi.

Damage done to crops.—Locusts appeared in Rohtak, but damage done was inconsiderable. Rats damaging the standing crops in Lahore and Shahpur; also tela (green-fly) in the latter.

Agricultural stock.—Condition of cattle is generally good.

Pasturage.—Fodder sufficient.

Water-supply.—No complaint.

P. A. GABRIEL, Supdt.,

Notes on the condition and prospects of crops, etc , in each district of the Punjab during the month of August 1907.

1.—HISSAR DISTRICT.

Rainfall good and a large area sown. Condition of irrigated and unirrigated crops good. Fodder sufficient. Cattle in good condition. Water-supply in canal sufficient.

2.—ROHTAK DISTRICT.

Sowings completed. Standing *nahri* crops in good condition, but the *baráni* ones are withering from high west wind and want of rain. Yield of *nahri* crops is expected to be good, and that of *baráni* depends upon rain. Cattle generally in good condition. Locusts passed through some of the villages, but did no damage.

3.—GURGAON DISTRICT.

There was good rainfall throughout the district. Sowings of kharíf crops were completed. Weeding of spring crops and sowing of carrots in progress. More rain badly needed. Standing crops in good condition, but towards the end of the month the *baráni* crops began to suffer from strong westerly winds and cessation of rainfall. Prospects of yield appear to be fair. Cattle in good condition and fodder plentiful. Health of people good. Canal water was not used during the month. Hill torrents came down and flooded a certain area of the Fírozpur and Rewári tahsíls. Locusts appeared, but did no damage. They laid eggs which were destroyed under the supervision of the Revenue Assistant and Tahsíldárs. Rates were below normal.

4.—DELHI DISTRICT.

There has been sufficient rainfall during the month, and sowings for kharíf crops have been nearly finished. Standing crops are in good condition, but they have commenced withering in some places owing to high westerly winds. Good outturn is expected, but rain is urgently wanted. Fodder sufficient. Prices are slightly rising on account of holding off of rains. No complaints of canal working.

5.—KARNAL DISTRICT.

Sowings of kharíf crops finished. Ploughings for the rabi crops commenced. On account of want of rain and high winds since August 20th standing crops have begun to wither. Fodder and water sufficient. Canals have been running for some days less than indent. Standing crops received irrigation in time. No inundations. The *Para bund* in the Kaithal tahsíl breached, and it is feared that much land usually irrigated from this *bund* will remain unsown. Prices are rising, and rain is wanted. If rains do not fall within a few days, the outlook is very serious.

6.—AMBALA DISTRICT.

Sowing finished. Condition of crops generally good. Yield expected average. Condition of cattle generally good. Rats doing damage to crops in Naráingarh tahsíl. Rain badly wanted.

7.—SIMLA DISTRICT.

The rainfall during the month was less than the average in Bharauli, Simla and Kot Khai. The condition of crops in both tahsíls is average. Locusts appeared in the Simla tahsíl, but no damage was done to the crops. The condition of cattle in both tahsíls good. Fodder and grazing sufficient. The water in hill streams is sufficient in both tahsíls. In the Simla tahsíl one-third and in Kot Khai the entire normal area was watered.

8.—KANGRA DISTRICT.

The crops have been damaged, and the yield is expected to be below the average for want of rainfall. Water was sufficient in the *kuhls* for irrigation purpo ses.

9.—HOSHIARPUR DISTRICT.

Condition of crops average on the whole. Yield depends on the sufficiency of timely rain. Public health good. Irrigation was not needed. Locusts are prevalent in some parts, but no report of damage done by them has been received.

10.—JULLUNDUR DISTRICT.

Kharíf sowings finished. Weeding and ploughing in progress. Condition of crops good. Expected yield good. Condition of cattle good. Public health good.

11.—LUDHIANA DISTRICT.

The sowings of kharíf crops were completed in the early part of the month. Condition of standing crops good. The condition of cattle good. The state of public health good. The Sutlej and the Budha *nála* rose during the month, in consequence of which the crops on the low lands near them suffered to some extent. The irrigation from the canals was fairly satisfactory. Prices were nearly stationary.

12.—FEROZEPORE DISTRICT.

Jowár, moth, mung, másh, bájra, gowára and maize were sown during the month. Standing kharíf crops in average condition. Yield is expected to be good. Cattle generally in good condition. Public health generally good. Sirhind canal and the district inundation canals had been flowing during the month, and a normal area was irrigated from the former, but sufficient supply of water could not be obtained from the latter. There were no floods in the river Sutlej. Agriculturists were generally well off. Stocks of food-grains and fodder sufficient Green fodder was available. Prices of food-grains were stationary.

13.—MONTGOMERY DISTRICT.

Kharíf sowings carried on to a certain extent during the month. Condition of crops good as regards Montgomery, Gugera and Pákpattan tahsíls. In tahsíl Dipálpur, however, rats are damaging the rice, chari, maize and sugarcane crops, especially in lands affected by sailáb. The crops in this tahsíl are generally suffering from insufficiency of canal water, and their condition therefore is not good. Average yield expected, provided rain falls. Condition of cattle good. All the canals have been working during the month, but there has not been sufficient water either in them or in the rivers.

14.—LAHORE DISTRICT.

Rice, maize, chari, bájra, másh and moth were sown during the month. Land is being prepared for the next rabi crop. Condition of standing kharíf crops average. Wild rats are damaging sugarcane, maize and chari all over the district. Locusts passed through Kasúr and Lahore tahsíls, but did no damage. Expected yield of kharíf crops average. Condition of cattle generally good. The perennial canals worked well. There were no floods. Annai and Deg *nálás* were also running during the month. Prices of food-grains are rising on account of exports.

15.—AMRITSAR DISTRICT.

Chari, moth, mung, rice, maize and sesamum being sown. The condition of standing crop good. Expected yield good. Condition of cattle good. Health of people generally good. No complaint of canal irrigation. Slight floods from the Rávi and Beas.

16.—GURDASPUR DISTRICT.

Late sowings of rice, maize, chari, másh, mung and sesamum were made on a large scale. Condition of crops good in Bet and irrigated areas; elsewhere, especially in Bharri and Pahári tracts, the crops are drying for want of rain. Yield depends on rainfall. Condition of cattle good. Green fodder scarce. Public health generally good. Canals and hill torrents flowing. Water normal in rivers. Sailáb insufficient.

17.—SIALKOT DISTRICT.

Sowing of chari, maize and moth continued, and that of gram, rice, sesamum and bájra commenced. Ploughing for rabi crops commenced. The standing crops of sugarcane, cotton, maize and rice damaged by rats in tahsíls Raya and Pasrúr. Condition of cattle good. Water sufficient in Bajwát canals. Inundation in Deg *nála* four times.

18.—GUJRANWALA DISTRICT.

Sowings of makki, munji, jowár, moth, mung and bájra completed. Condition of crops average. In the Háfizabad and Khangah Dográn tahsíls "hoppers" and rats have been destructive. Condition of cattle good. There is ample fodder. Canals are open, and there is no complaint as to water-supply. Prices have risen slightly owing to export of grain.

19.—GUJRAT DISTRICT.

Sowings completed. The fairly good rainfall during the first fortnight of August improved the condition of standing crops and facilitated fresh sowings, where the young crops had been destroyed by *toka*. Hoppers are disappearing, but rats are reported to have done damage to crops (rice and sugarcane) in certain tracts. The prolonged break in the rains is retarding the growth of crops. More rain is much needed. Yield depends much on future climatic conditions. Cattle in good condition. Fodder sufficient. Public health good. Prices practically stationary.

20.—SHAHPUR DISTRICT.

Chari, jowár, bájra, mung, moth, másh, rice, maize, toria and water-melons were sown during the month. The condition of standing crops in Bhera, Shahpur and hill circle of Khusháb tahsíl was good; while in other parts of the district it was fair. Expected yield average. Cattle in good condition. Fodder sufficient. Inundation canals ceased to flow by the middle of the month. Prices stationary.

21.—JHELUM DISTRICT.

Good rain in Jhelum tahsíl, but less in Pind Dádan Khan and Chakwál. Kharíf sowings completed. Kharíf crops generally in good condition, but rain is badly wanted. Condition of cattle generally good. Fodder sufficient. Prices rising.

22.—RAWALPINDI DISTRICT.

Good rain fell during the month. All sowings have been completed. Condition of kharíf crops average. In tahsíl Gujar Khan an insect called "*toka*" has damaged the crops, but to no appreciable extent. Condition of cattle good. Fodder supply sufficient. Water ample.

23.—ATTOCK DISTRICT.

Rains received during the month were only fair. Ploughings are being done for the next rabi. Condition of kharíf crops average in Talagang, good in Pindigheb and Attock, and poor in Fatahjang. Condition of cattle good all over the district. Supply of fodder sufficient. State of public health good.

24.—MIANWALI DISTRICT.

The sowings of kharíf crops have been in progress. The rainfall during the month under report has been much above the average, and was beneficial to the standing crops. Condition of kharíf crops average in Thal; below average in the low-lying lands. Probable outturn is expected to be average. Fodder procurable. Cattle in fair condition. Public health good. There has been some irrigation from the hill torrents in the Miánwáli and Isa Khel tahsíls. The river has subsided. Prices stationary.

25.—LYALLPUR DISTRICT.

Makki, jowár and bájra sowings were in progress during this month. Sugarcane and cotton in good condition, but in the Jaranwála sub-tahsíl they have slightly been damaged by rats. Outturn of sugarcane is expected to be good. Fodder (both dry and green) sufficient. Public health good. Supply of water fair in all the tahsíls except at Toba Tek Singh where scarcity of water is complained of. Prices high.

26.—JHANG DISTRICT.

Másh, jowár, tíl, mung, makki and toria being sown. Condition of crops moderate. Cotton and sugarcane in good condition. Fodder sufficient. The canals are working. There are complaints of insufficiency of water in villages of the Shorkot tahsíl on the tail of the Chenab canal. Private canals are also working to some extent. Sufficient water in the river. Sufficient rainfall during the month. Prices rising.

27.—MULTAN DISTRICT.

Jowár, bájra, tíl and chína are being sown. Ploughings for rabi crops in progress. Condition of standing kharíf crops average, except indigo which is partly damaged by *kundi* in Shujabad. Standing crops are drying up for scarcity of water in the Mailsi canal. Condition of cattle good. Public health good. Inundation canals working by turns. Sidhnai canal flowing.

28.—MUZAFFARGARH DISTRICT.

Condition of crops has improved on account of rains in the month. Expected yield average. Condition of cattle good. Public health good. In the Muzaffargarh tahsíl all canals excepting two have ceased to run. In the other two tahsíls the canals are running The Chenab and the Indus overflowed. The canals were working better in August than in July last. Food and fodder sufficient.

29.—DERA GHAZI KHAN DISTRICT.

Sowings were normal. Condition of crops fair. Condition of cattle good. Public health good. Canals moderate. Hill torrents good.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 17th September 1907.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 7th September 1907, there were 1,423 births registered in the 43 large municipal towns (751 males and 672 females), giving a birth rate of 51 *per mille* of population, and 1,024 deaths were registered (550 males and 474 females), giving a death rate of 37 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 52 against 67 in the corresponding week of the previous year; Lahore 31 against 28; Amritsar 37 against 38; and Multán 29 against 36. There were 2 deaths reported from plague, one each in Lahore and Ráwalpindi. Of the 21 deaths from small-pox, 4 were registered in Amritsar, 3 in Batála, 2 each in Kaithal, Kartárpur, Ferozepore and Kasúr, and 1 each in Hissar, Hánsi, Shahabad, Wazírabad, Pind Dádan Khan and Multán. There were 25 deaths recorded from cholera in Gujránwála, 2 in Wazírabad and 1 in Lahore.

Deaths reported from plague during the week ending 14th September 1907, in the districts, including all municipal towns:—Hissar 15, Rohtak 1, Gurgaon 5, Hoshiárpur 4, Ferozepore 5, Lahore 1, Siálkot 3, Jhelum 172, including a large number of deaths from plague occurred in previous weeks not reported before, Ráwalpindi 73, Attock 1, and Patiála State 13. Total for the province 299. Total for the previous week 138. Total for the corresponding week of the previous year 81.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, SEPTEMBER 27, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 24th SEPTEMBER 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Poor. 3. Good.	Wheat, 11½ seers. Gram, 16 seers. Bájra, 15 seers.	...	Irrigated crops in fair condition. Later sown unirrigated crops withering for want of rain and strong westerly winds. Earlier sown crops in good condition.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers. Gram, 15 seers. Jowár, 16 seers. Maize, 18 seers.	...	Standing crops on unirrigated lands bad and on irrigated lands withering to a great extent owing to strong westerly winds. Rain very badly needed.
3	Gurgaon ...	...	1. Sufficient, but grass is drying up rapidly. 3. Good.	Wanting ...	Ploughings in progress. Carrots being sown in tahsil Rewári.	Standing crops withering fast owing to cessation of rain and strong westerly winds. Prospects of crops on land dependent on rain very poor.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Sufficient except in certain villages. 2. No complaint.	Rising ...	...	Standing crops have suffered much owing to westerly winds and drought. Withered crops being used as fodder. Prospects of yield gloomy. Sugarcane and cotton crops in fair condition.
5	Ambála ...	...	1. Sufficient ... 3. Generally good.	Wheat, 11½ to 12 seers. Gram, 15½ to 15¾ seers. Barley, 15½ seers. Maize, 15½ seers. Jowár, 19½ seers. Bájra, 15½ seers.	...	Standing crops generally withering. Rain badly wanted throughout the district.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Ploughings continue.	Standing crops fair, but rain badly wanted. Bollworm has appeared in cotton crops, and sugarcane crops are being attacked by *gudus* (moth-borer) in Phillaur and Nakodar tahsíls.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Rising ...	...	Standing crops withering for want of rain.
8	Lahore ...	...	1. Sufficient ... 3. Good.	Rising ...	Ploughings in progress. Toria (*Brassica campestris*) sowings in progress.	Standing maize crops being irrigated. Prospects of yield average. Wild rats damaging the crops throughout the district. Cotton picking commenced.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Gram, Jowár, Maize, } warning. Barley and Bájra, } normal.	Toria (*Brassica campestris*) being sown.	Chillies and cotton being picked. Paddy harvesting in progress. Crops on irrigated area good: on unirrigated drying for want of rain.
10	Siálkot ...	...	1. Dry fodder sufficient except in tahsíl Pasrúr. 3. Good.	Wheat, 11½ seers. Gram, 16 seers. Barley, 22 seers. Rice, 7 seers.	Ploughings continue.	Standing crops withering for want of rain.
11	Shahpur ...	...	1. Sufficient ... 3. Good.	Wheat, 12 to 13½ seers. Barley, 20 to 24 seers. Gram, 17 to 19 seers. Jowár, 20 to 24 seers. Bájra, 16½ to 22 seers. Maize, 20 to 23 seers.	Sowings of turnips, gram and toria (*Brassica campestris*) in progress. Ploughings continue.	Sowings in progress. Condition of standing crops good in Shahpur tahsíl and irrigated area of Bhera tahsíl, fair in Sargodha and poor in other parts of the district. Rice being harvested in Shahpur tahsíl. Outturn average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Ráwalpindi ...	0·48 at Murree ...	1. Sufficient ... 3. Good.	Wheat, 13 seers ... Bájra, 20 seers. Maize, 20 seers. Gram, 16 seers. Barley, 22 seers.	Ploughings in progress.	Condition of standing crops bad. Crops drying. Rain wanted.
13	Miánwáli ...	...	1. Fodder procurable... 3. Fair.	Unchanged ...	Ploughings in progress.	General condition and expected yield of standing crops below average owing to want of rain.
14	Lyallpur ...	...	1. Sufficient ...	Wheat, 12 seers ...	Toria (*Brassica campestris*) and turnips being sown.	Condition of standing crops average.
15	Multán ...	...	1. Sufficient ... 3. Generally good.	Wheat, 13½ seers Gram, 10 seers. Maize, 18½ seers.	Turnips and toria (*Brassica campestris*) being sown.	Jowár (great millet), indigo and rice being harvested. Cotton pickings commenced. Condition of standing crops average. Maize, bájra (bulrush millet) being sown.

GENERAL REMARKS.

Rainfall.—Light rain has fallen in Murree in the Ráwalpindi district.

Prices.—Prices of food-grains generally rising. Warning rates prevail in Gurgaon and Amritsar.

Agricultural operations.—Autumn crops being harvested. Sowings of autumn crops still going on in Multán and Shahpur. Ploughings for and sowings of spring crops in progress.

Crops and outturn.—Condition of standing irrigated crops good to average. In several districts crops on land dependent on rain are withering owing to strong westerly winds and cessation of rain. Rain badly wanted throughout the Province. Prospects generally gloomy. Withered crops being used as fodder in Delhi.

Damage done to crops.—In tahsíls Phillaur and Nakodar of the Jullundur district cotton attacked by bollworm and sugarcane by moth-borer (*guduán*). Wild rats are damaging crops in Lahore.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Fodder sufficient throughout the Province except in parts of Delhi and Siálkot districts.

Water-supply.—No complaint.

P. A. GABRIEL, Supdt.,

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 24th September 1907.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 14th September 1907, there were 1,305 births registered in the 43 large municipal towns (698 males and 607 females), giving a birth rate of 47 *per mille* of population, and 1,124 deaths were registered (558 males and 566 females), giving a death rate of 40 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 50 against 70 in the corresponding week of the previous year; Lahore 30 against 25; Amritsar 42 against 30; and Multán 36 against 36. There were 3 deaths reported from plague, 2 in Lahore and 1 in Ráwalpindi. Of the 10 deaths from small-pox, 2 each were registered in Sonepat and Amritsar, and 1 each in Kaithal, Kartárpur, Lahore, Kasúr, Batála and Siálkot. There were 32 deaths recorded from cholera in Gujránwála, 2 each in Lahore and Amritsar, and 1 each in Wazírabad and Multán.

Deaths reported from plague during the week ending 21st September 1907, *in the districts, including all municipal towns:*—Rohtak 1, Gurgaon 8, Delhi 2, Karnal 6, Hoshiárpur 5, Montgomery 1, Amritsar 2, Siálkot 1, Shahpur 9, Jhelum 44, Ráwalpindi 58, Attock 3, Lyallpur 3, and Patiála State 23. Total for the province 166. Total for the previous week 168. Total for the corresponding week of the previous year 95.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

SIXTY-FIVE THOUSAND ONE HUNDRED AND FORTY-FOUR births were registered in the province during the month of August 1907, giving a birth-rate of 38 *per mille* of population. Of the total number of births, 34,314 were boys and 30,830 were girls.

The total number of deaths registered from all causes in the province during the month of August 1907 was 38,816 against 52,103 in the previous month, and 43,191 in the corresponding month of the past year, giving an annual death-rate of 23, 31 and 25 *per mille* of population per annum, respectively.

There were 31 deaths registered under the head of cholera against 74 in the previous month and 1,537 in the corresponding month of the past year.

The total mortality from plague amounted to 879 against 7,535 in the previous month and 88 in the corresponding month of the past year.

From small-pox 685 deaths were registered against 1,175 in the previous month and 787 in the corresponding month of the past year; fevers 22,105 against 27,490 and 23,351; dysentery and diarrhœa 1,013 against 1,104 and 1,321; respiratory diseases 3,765 against 4,337 and 3,820. During the month there were 33 deaths registered from suicide against 34 in the past month; wounding 42 against 45; accidents 719 against 527; snake-bite and killed by wild beasts 262 against 149; and from all other causes 9,282 against 9,673 in the previous month and 11,272 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 1st October 1907.

KASHI RAM, SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 21st September 1907, there were 1,418 births registered in the 43 large municipal towns (716 males and 702 females), giving a birth rate of 51 *per mille* of population, and 1,105 deaths were registered (541 males and 564 females), giving a death rate of 40 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 46 against 74 in the corresponding week of the previous year; Lahore 32 against 35; Amritsar 41 against 42; and Multán 38 against 36. Of the 8 deaths from small-pox, 3 were registered in Hánsi, 2 in Amritsar, and 1 each in Hoshiárpur, Jagráon and Lyallpur. There were 38 deaths recorded from cholera in Gujránwála, and 1 each in Ludhiána and Amritsar.

Deaths reported from plague during the week ending 28th September 1907, *in the districts, including all municipal towns*:—Hissár 25, Rohtak 3, Gurgaon 12, Delhi 5, Karnal 13, Hoshiárpur 3, Ludhiána 1, Ferozepore 1, Montgomery 2, Lahore 2, Amritsar 3, Gurdáspur 1, Siálkot 2, Shahpur 3, Jhelum 21, Ráwalpindi 51; and Patiála State 38. Total for the province 186. Total for the previous week 176. Total for the corresponding week of the previous year 145.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

LAHORE, FRIDAY, OCTOBER 11, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 8TH OCTOBER 1907.

[Fifteen out of 20 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn
1	Hissar ...	...	1. Sufficient ... 2. Scanty. 3. Good.	Wheat, 9 seers ... Gram, 12¼ seers. Bájra, 11½ seers.	...	Crops on irrigated lands fair. Early sowings on unirrigated crops matured. Later sowings withering. Rain urgently needed.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 10½ seers Gram, 12 seers. Jowár, 12 seers. Maize, 14 seers.	...	Unirrigated crops a total failure owing to cessation of rain and strong westerly winds. Irrigated crops fair. Sugarcane below average.
3	Gurgaon ...	...	1. Sufficient ... 3. Fair.	Wheat, 8¾ to 11 seers. Gram, 11½ to 12 seers. Bájra, 10 to 13 seers. Barley, 11¾ to 12½ seers.	Ploughings continue.	Standing crops withering fast owing to cessation of rain and strong westerly winds. Unirrigated crops almost totally failed.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of: Spring.	Prospects of: Autumn.
4	Delhi ...	...	1. Getting scarce ... 2. Not sufficient.	Wheat, 8 seers ... Gram, 11 seers. Barley, 12½ seers. Jowár, 13 seers. Bájra, 11¼ seers.	...	Unirrigated crops have dried up. Irrigated crops not in good condition owing to strong westerly winds.
5	Ambála ...	...	1. Sufficient ... 2. Do. 3. Generally good.	Wheat, 10 to 10½ seers. Gram, 12½ to 13 seers. Barley, 13½ seers. Maize, 11½ seers. Jowár, 12½ seers. Bájra, 11½ seers.	...	Rain badly wanted. Standing crops withered.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Rising ...	...	Standing crops on well lands fair; unirrigated crops bad. Rain badly wanted. Boll-worm, moth-borer, &c., attacking cotton and injuring sugarcane.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Rising ...	Sowings of gram commenced.	Unirrigated standing crops almost destroyed for want of rain. Irrigated crops below average. Rats slightly damaging crops.
8	Lahore ...	...	1. Getting scarce in parts of the district. 3. Good.	Rising abnormally	Turnips and toria (*Brasica campestris*) being sown.	Cotton and chillies being picked. Outturn below average. Rats damaging the standing crops.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Gram, Jowár, } rising Bájra, warning.	Radish, turnips, potatoes, &c., being sown.	Cotton and chillies being picked; paddy being reaped. Condition of crops on irrigated area normal; on unirrigated poor. Crops suffering for want of rain.
10	Siálkot	...	1. Insufficient ... 3. Good.	Wheat, 9½ seers... Gram, 13 seers. Barley, 17 seers. Rice, 7 seers.	Ploughings continue.	Condition of standing crops average on well lands and bad on unirrigated lands. Rats and aphis injuring cotton and sugarcane crops.
11	Shahpur ...	...	1. Scarce in parts of the district. 3. Good.	Wheat, 10 to 12 seers. Barley, 18 to 20 seers. Gram, 14 to 16 seers. Jowár, 18 to 20 seers. Bájra, 15½ to 20 seers. Maize, 18 to 20 seers.	Ploughings and sowings continue.	Condition of standing crops good over sailáb area in Shahpur tahsíl; fair in Sargodha; and poor in other parts of the district. Rain badly wanted. Rats damaging the standing crops. Rice and cotton being husked. Outturn average.

No.	Reporting station.	Rain	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
12	Ráwalpindi ...	—	1. Sufficient ... 3. Good.	Wheat, 10¼ seers. Bájra, 14¼ seers. Maize, 16½ seers. Gram, 13½ seers. Barley, 17 seers.	Ploughings continue, but no sowings possible until it rains.	Condition of standing crops bad for want of rain. Harvesting commenced.
13	Miánwáli ...	...	1. Procurable ... 3. Fair.	Rising ...	Sowings continue	Condition and expected yield of crops below average.
14	Lyallpur ...	...	1. Green fodder insufficient. 2. Complaint of insufficiency of water in Burala branch. 3. Good.	Wheat, 10 seers ... Maize, 20 seers. Gram, 14 seers. Jowár, 20 seers.	Land being prepared for toria (*Brasica campestris*), and green fodder being sown.	Cotton, maize and sugarcane in average condition.
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 11 seers ... Gram, 15¼ seers. Maize, 18½ seers.	Sowings in progress	Standing crops below average.

GENERAL REMARKS.

Rainfall.—No rainfall.

Prices.—Prices of food-grains generally rising. A slight fall is reported in Gurgaon only.

Agricultural operations.—Cotton pickings and rice harvesting in progress in some districts. Ploughings for land sowings of spring crops continue.

Crops and outturn.—In several districts standing irrigated crops are withering, and unirrigated crops are a total failure owing to strong westerly winds and early cessation of rains. Rain badly wanted throughout the province.

Damage done to crops.—Boll-worm, moth-borer, &c., still injuring cotton and sugarcane crops in parts of Jullundur. Rats and green-fly (*tela*) damaging crops in Ferozepore, Lahore, Siálkot and Shahpur.

Agricultural stock.—Condition of cattle generally good.

Pasturage.—Scarce in Delhi, Lahore, Siálkot and parts of Shahpur.

Water-supply.—Scanty in Hissar, insufficient in Delhi and parts of Lyallpur.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

*Mean of 12 days.

The monsoon conditions which were established at the close of last month continued until the 24th and rainfall in some part of the Punjab was of daily occurrence. The position of the usual area of low pressure in north-west India and local disturbances in Kashmír assisted at times in drawing the monsoon winds with greater force into the Punjab and then rainfall was fairly general : on only one occasion, however, did a depression from the Bay travel as far as north-west India and it occasioned moderate to heavy rain in the east and north Punjab on the 18th and 19th. By the 25th the trough of low pressure had moved close to the Himalayas and westerly or north-westerly winds displaced the monsoon winds with consequent cessation of rainfall, diminished humidity and clear skies.

Pressure and winds.—On the mean of the month pressure was in defect at every station except Khusháb, the deficiency being greater at the plains stations than at the hill stations. Winds in the Punjab plains were slightly more southerly than usual and were of approximately normal strength.

Temperature.—Temperature conditions were chiefly determined by the rainfall and were in moderate defect on the 4th and from the 14th to the 16th, but during the rest of the period they were normal. The highest temperature during the month was 112° recorded at Dera Ismail Khan on the 3rd.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmír and the North-West Frontier Province on each day of the month, and the highest maximum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 hours.	Highest maximum temperature recorded during the previous 24 hours.	Station at which registered.

Humidity and cloud.—As monsoon conditions were slightly above the average during the greater part of the month, humidity and cloud amount were normal or a little in excess of the normal.

Rainfall.—Rainfall was in large excess in the south-west Punjab and was above the average except in the Delhi, Ráwalpindi, Peshâwar and hill districts where it was somewhat less than usual. The greatest percentage excess occurred at Montgomery, where the rainfall was 210 per cent. greater than usual, and the deficiency was greatest at Ráwalpindi, where it amounted to 3.31 inches.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for August 1907:—

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1[illegible]

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 8th October 1907.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 28th September 1907, there were 1,407 births registered in the 43 large municipal towns (731 males and 676 females), giving a birth rate of 50 *per mille* of population, and 1,067 deaths were registered (548 males and 519 females), giving a death rate of 38 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 43 against 81 in the corresponding week of the previous year; Lahore 30 against 34; Amritsar 42 against 38; and Multán 38 against 44. There was 1 death reported from plague in Ráwalpindi. Of the 15 deaths from sma[l]-[p]ox, 5 were registered in Amritsar, 3 in Wazírabad, 2 in Ráwalpindi and 1 each in Bhiwáni, Kaithal, Jagraon, Ferozepore and Multán. There were 12 deaths recorded from cholera in Gujránwála 5 in Wazírabad, 4 in Lahore, and 1 in Ambála.

Deaths reported from plague during the week ending 5th October 1907, in the districts, including all municipal towns:—Hissár 37, Rohtak 3, Gurgaon 61, Delhi 10, Karnál 12, Hoshiárpur 4, Montgomery 2, Lahore 1, Amritsar 6, Siálkot 1, Gujránwála 2, Shahpur 50, Jhelum 18, Ráwalpindi 64, Attock 1; and Patiála State 16. Total for the province 288. Total for the previous week 188. Total for the corresponding week of the previous year 287.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Getting scarce ... 2. Canal water-supply insufficient.	Unchanged ...	...	Unirrigated crops have dried up. Irrigated crops not in good condition owing to strong westerly wind.
5	Ambála ...	...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 9 to 9¾ seers. Gram, 11½ to 12 seers. Barley, 12½ seers. Maize, 11½ seers. Jowár, 12½ seers. Bájra, 11½ seers.	...	Rain badly wanted. Standing crops withered.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	...	Standing crops on wells fair; unirrigated bad. Rain badly wanted. Boll-worm, moth-borer, &c., continue attacking cotton and sugarcane crops.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Rising high ...	Sowings of gram continue.	Unirrigated standing crops nearly destroyed. Irrigated crops below average. Rats still slightly damaging crops.
8	Lahore ...	...	1. Deficient in Kasúr and Sharakpur tahsíls. 3. Good.	Rising abnormally	Turnip and toria (*Brasica campestris*) being sown.	Chillies and cotton being picked. Outturn below average. Field rats damaging the standing crops.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Gram, Jowár, } scarcity. Barley, Bájra, } warning.	Radish, turnips, &c., being sown.	Cotton and chillies being picked. Rice being reaped. Condition of crops on irrigated area normal, and on unirrigated area poor. Crops suffering for want of rain.
10	Siálkot ...	0·03 at Sadr ...	1. Insufficient ... 3. Getting weak by overwork.	Wheat, 9½ seers... Barley, 17 seers. Gram, 13 seers. Rice, 7 seers.	Ploughings continue.	Condition of crops average on well lands and bad on unirrigated lands. Rats and green fly have injured cotton and sugarcane crops.
11	Shahpur ...	...	1. Scarce in unirrigated tracts. 3. Good.	Wheat, 10 to 10½ seers. Barley, 16 to 20 seers. Gram, 13 to 14 seers. Jowár, 16 to 20 seers. Bájra, 13 to 16 seers. Maize, 17 to 20 seers.	Ploughings and sowings continue.	Rice and cotton harvested. Outturn average. Condition of standing crops average on irrigated lands, poor in Shahpur, and withering in Khusháb tahsíl.

No.	Reporting station.	Rain	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring	Prospects of Autumn
12	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 11 seers ... Barley, 16 seers. Bájra, 16 seers. Gram, 13 seers. Maize, 14 seers.	Sowings impossible until it rains.	Crops damaged.
13	Miánwáli ...	...	1. Procurable ... 3. Fair.	Wheat, 10 seers ... Bájra, 12 seers. Gram, 14 seers.	Sowings continue	Condition and expected yield of crops below average.
14	Lyallpur ...	0·12 at Sadr ...	1. Green fodder insufficient. 2. Complaints of insufficient water from Burala Branch Canal continue. 3. Good.	Wheat, 10 seers ... Gram, 14 seers. Maize, 20 seers. Jowár, 20 seers.	Toria (*Brasica campestris*) and fodder sowings continue.	Standing crops in average condition.
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Gram, 14½ seers. Maize, 18 seers.	Sowings in progress	Standing crops below average.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Siálkot and Lyallpur.

Prices.—Wheat is selling at scarcity rates in Gurgaon, Amritsar, Miánwáli and Lyallpur; above scarcity rates in Hissar, Rohtak, Ambála, Siálkot and Shahpur; and at warning rates in Ráwalpindi and Multán. Prices of other food-grains are also generally at or above scarcity rates in all districts, except maize selling at normal rates in Shahpur. Prices unchanged in Delhi and Jullundur, and are rising high in Ferozepore and Lahore.

Agricultural operations.—Cotton pickings and rice harvesting in progress in some districts. Ploughings for and sowings of spring crops continue in certain districts, but no sowings possible in Ráwalpindi and on unirrigated lands until it rains.

Crops and outturn.—Unirrigated autumn crops have totally failed in many districts, and in some districts irrigated crops have also suffered on account of strong westerly winds and early cessation of rains. Rain badly needed throughout the province. Outturn of autumn crops generally expected to be below average.

Damage done to crops.—Boll-worm and moth-borer continue damaging cotton and sugarcane crops in Jullundur. Rats and green-fly damaging crops in Ferozepore, Lahore and Siálkot.

Agricultural stock.—Condition of cattle good except in Siálkot, where they are getting weak with overwork.

Pasturage.—Fodder scarce in Delhi and Siálkot; in Lyallpur green fodder insufficient.

Water-supply.—Canal water supply insufficient in Delhi and in the Burala Branch of the Chenab Canal in Lyallpur.

to Varyam from 18th June 1907.
rain gauge station.

P. A. GABRIEL, Supdt.

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of September 1907.

1.—HISSAR DISTRICT.

Rain urgently needed. Early sowings on unirrigated lands matured. Outturn good. Later sowings withering. Canal supply very poor and affecting irrigated crops which are likely to wither unless a better water-supply can be given. Cotton not as good as anticipated, but in outturn and area is a normal crop. Fodder plentiful. Cattle in good condition.

2.—ROHTAK DISTRICT.

No sowings this month. Standing ch« hi and nahri crops in fair condition, but sugarcane crop has suffered badly from the canal being stopped from middle of August to middle of September. Báráni crops have totally failed owing to want of rain and hot west winds. Cattle generally in good condition. Canal supply now good except on the tails, but the mischief cannot be entirely cured.

3.—GURGAON DISTRICT.

Ploughings for rabi were in progress. Carrots were sown on lands irrigated by wells and canal. Rain badly needed. A little early bájra crop on báráni has matured, but all other báráni crops have almost entirely failed owing to cessation of rainfall and strong westerly winds Twelve-anna crop expected on irrigated lands ; prospects of yield on unirrigated land practically *nil*. Cattle in fair condition. Fodder sufficient for immediate needs only. Health of the people good. Canal water was used during the month. No hill torrents came down. Scarcity rates are prevailing.

4.—DELHI DISTRICT.

No sowings during the month. Unirrigated kharíf crops have dried up owing to cessation of rain and strong westerly winds. Condition of irrigated kharíf crops is average. Sugarcane has been slightly damaged by insects. The yield is expected to be below the average. Fodder sufficient except in few villages of Delhi tahsíl. Prices rising on account of rains holding off.

5—KARNAL DISTRICT.

No sowings were done in this month owing to drought. The condition of báráni crops is bad and that of irrigated crops is below average. The expected yield of irrigated crops is below average and the outlook of the báráni crop is bad. Water and fodder are sufficient for cattle. The canals have been running ; irrigated crops received irrigation in time; no inundations. Prices are rising. Rain is badly wanted.

6.—AMBALA DISTRICT.

Standing crops mostly withered. Prospects unfavourable for the current kharíf and the next rabi. The condition of cattle is generally good. Stocks of grain believed to be low. Green grass becoming scarce.

7.—SIMLA DISTRICT.

The rainfall was insufficient in both tahsíls. No sowings were made in the Simla tahsíl. In Kot Khái wheat was sown to the extent of 1/8th of the expected sowings. The state of the standing crops in the Simla tahsíl is bad and in Kot Khái poor. The probable outturn in the Simla tahsíl is one-fourth and in Kot Khái three-fourths of an average crop. The condition of cattle in both tahsíls is good. Fodder and grazing are sufficient. The state of public health good. Water in hill streams in the Simla tahsíl insufficient, but 1/8th of the normal area was watered in the Kot Khái tahsíl. Water-supply is sufficient and the entire normal area was watered.

8.—KANGRA DISTRICT.

Small area was sown with gram, rape and oil-seed in Kángra proper and wheat in Kulu sub-division. The condition of crops is much below the average except irrigated part of tahsíl Kángra where the crops are average. Want of rainfall has been the cause of the failure of crops. The yield is expected to be much below the average for want of rainfall. The condition of cattle is generally good. Water was not sufficient in kuhls (streams) for irrigation purposes owing to want of rains. Prices have risen throughout the district owing to want of rains.

9.—HOSHIARPUR DISTRICT.

Gram sowings were done on a small scale in places in Bet and hill tracts during the month. Sugarcane and cotton in average condition. The latter, however, is being damaged by the green-fly pest, and other crops are withering on account of failure of the rains. The yield is expected to be far below the average. Condition of cattle fairly satisfactory. Fodder is scanty. Public health generally good. Canal water was utilised for irrigation purposes. The water in the Shah Nahr and hill torrents was ordinary. Prices are rising steadily.

10.—JULLUNDUR DISTRICT.

Sowing of potatoes and senji (fodder crop) commenced. Rabi ploughings in progress. Chahi slightly below average. Báráni bad. Cotton and sugarcane being attacked by bollworm and sugarcane borer (godman and ghora) in Phillaur and Nakodar tahsíls. Expected yield below average. The condition of cattle good. The state of public health is good. The month has been practically rainless, and the báráni crop is a failure. Agricultural prospects by no means bright. Prices rising slightly, largely due to exports to Southern Punjab.

11.—LUDHIANA DISTRICT.

No sowings were in progress. The condition of crops on irrigated area was good, but those on unirrigated area have suffered from drought. The yield will be below average on unirrigated lands. The condition of cattle was generally good. The irrigation from canal was fairly satisfactory. The prices rose during the month.

12.—FEROZEPORE DISTRICT.

There were no sowings during the month. Standing crops have been withering for want of rain. If no rain falls in October no yield is expected from crops on unirrigated lands. Irrigated crops generally promise average yield, though some of them have suffered much for insufficient supply of water from canals. Cattle were in good condition. Public health has been good. Sirhind canal has been flowing during the month, but sufficient supply of water could not be obtained from it. There were no floods in the river Sutlej. Agriculturists were generally well off. Stocks of food grains and fodder were ample. Green fodder available. Prices rising.

13.—MONTGOMERY DISTRICT.

Rabi sowings carried on only to a small extent in Sutlej tahsíls, but none in Rávi tahsíls. The condition of the crops has changed for the worse owing to there having been no rains and to the water-supply of the canals having run short. Very little outturn is expected and that only on wells. The condition of cattle good so far. Fodder is becoming scarce. Rats are also damaging crops in the Dipálpur tahsíl. Canals have dried, and there is little water in the rivers. There has consequently been no irrigation whatever from either. Gram is becoming dearer day by day. Agricultural prospects bad. Stock insufficient, except with dealers of Pákpattan who are still exporting.

14.—LAHORE DISTRICT.

Toria and turnips were sown on irrigated lands during the month. The condition of standing kharíf crops is somewhat below average. Wild rats damaged maize and cotton, tela (*aphis*) damaged chari. Báráni crops have almost totally failed for want of rain. The expected yield of kharíf crops is below average. Rain badly wanted. The condition of cattle is generally good. The perennial canals worked well. Inundation canals ran very little, and were dried up soon. Prices of food grains rising abnormally on account of export and holding off of rains.

15.—AMRITSAR DISTRICT.

Rainfall scanty. Toria sowings completed generally. Moisture insufficient for rabi sowings. Unirrigated crops poor. Irrigated crops average on the whole. Chari, jowár and moth withering. Rice crop on báráni lands suffering badly. Cotton-picking in progress; damaged slightly by tela (*aphis*); rice reaping commenced; the expected yield of all báráni crops poor; of irrigated crops about the average. Cattle in good condition. Dry fodder sufficient. Canal water more in demand for want of rains. The closure of canal for one week in Tarn Táran tahsíl damaged standing rice and maize crops. Prices rising rapidly.

16.—GURDASPUR DISTRICT.

Rabi sowings could not commence for want of rain. Potatoes were sown in Batála and toria in some places in irrigated lands in Batála, Gurdáspur and Shakargarh tahsíls, but did not sprout well. Báráni crops have dried up for want of rain. Irrigated crops better than average. Cotton and másh have been affected by tela in tahsíls Batála and Gurdáspur. Cane in fair condition. The báráni crops are expected to yield no outturn. The outturn of irrigated crops will be equal to average. Condition of cattle good on the whole. Fodder sufficient, but scarce in tahsíl Shakargarh The state of public health is generally good. Water insufficient in hill torrents and low in rivers. Prices are rising high.

17.—SIALKOT DISTRICT.

Sowings of toria and gram done to some extent in tahsíls Raya, Daska and Pasrúr. Ploughings for rabi crops continued. The condition of standing crops average in cháhi lands and bad in báráni lands. Rats and tela (aphis) have injured cotton and sugarcane crops. Condition of cattle good. Water sufficient in Bajwat Canal. Inundation in Deg nala took place once.

18.—GUJRANWALA DISTRICT.

No progress made in sowings on unirrigated area owing to want of rain. On irrigated area sarshaf and toria have been sown to some extent. Crops on unirrigated land have withered owing to want of rain. Those on irrigated lands have also considerably suffered from the same cause. Tela has attacked maize, sugarcane, cotton and jowár. On irrigated lands the yield will be much below the average. On unirrigated lands it would be practically *nil*. The condition of cattle is so far good, but fodder is becoming scarce. There is sufficient water in the canal. Prices are rapidly rising and stocks of grain are not generally sufficient. The kharíf crop has already suffiered considerably, and if the present drought continues the prospects of rabi will be generally impaired and the situation will become serious.

19.—GUJRAT DISTRICT.

Sowings of turnips and sarshaf on irrigated lands commenced. Báráni crops which have suffered considerably owing to the prolonged break in the rains are being used as fodder. Sailáb crops on low-lying lands of superior quality are fair. Wells are being worked very hard, and the irrigated crops excepting cotton are in fairly good condition, but have been damaged to some extent by rats in certain tracts. Cotton crops have been attacked by tela in certain tracts. Expected yield in the case of báráni crops bad: irrigated crops fairly good; cotton below average. Cattle in good condition. Fodder decreasing. Kharába crops are being used as fodder. Public health generally good Prices rising.

20.—SHAHPUR DISTRICT.

Turnips, gram, maize, toria and vegetables were sown throughout the district and wheat and barley to some extent in Khusháb. The condition of standing crops good in Shahpur tahsíl. Sailáb area average in Sargodha and poor in other parts of the district Rats are damaging the crops, to great extent the sugarcane, cotton and maize, mostly in Sargodha and partly in Bhera. Rain badly wanted. The produce of rice in Shahpur is average. Fodder is sufficient and cattle are in fair condition. Public health fair. No flood in the river or hill-torrents. Prices rising steadily on account of insufficiency of stocks and large exports.

21.—JHELUM DISTRICT.

No rain during the month, and rabi sowings at a standstill. Average in irrigated lands. Elsewhere parched and withered for want of rain. The expected yield is poor. Condition of cattle generally good. Fodder decreasing. The state of public health is generally good. Prices rising daily. A very large area is ready for sowing, but the outlook for rabi is very gloomy.

22.—RAWALPINDI DISTRICT.

No sowing for want of rain. The condition of crops is bad. The condition of cattle good. Rain badly wanted. Kharif crops damaged.

23.—ATTOCK DISTRICT.

No moisture practically, and hence no sowings. Kharif crop suffering for want of rain. Little hope of rabi sowings if there is no more rain. The condition of bárání crops is getting worse and worse, and there is not much hope of yield. Condition of cattle good at present. The state of public health good. The rates of grain are rising day by day.

24.—MIANWALI DISTRICT.

Sowings of rabi crops were in progress during the month. Kharif crops average in Thal, below average in the low-lying lands. Probable outturn expected to be average. Fodder procurable. Cattle in fair condition. Public health generally good. The river has subsided. Prices rising.

25.—LYALLPUR DISTRICT.

No rain fell during the month. It is greatly needed. Toria, shelgum and senji sowings in progress and rabi ploughings in hand. Tela has attacked chari and jowár especially on Rakh Branch. Rats are attacking cotton and makki in Jaranwála. Outturn of cotton, sugarcane and makki expected to be fair. There are complaints of short water supply on the Bhangu Branch, Mungi rajbaha and tail of the "Ishíkha" distributary. Cattle are healthy. Fodder fairly plentiful except in Lyallpur, where green fodder is rather short. Prices are rising and grain still coming to market.

26.—JHANG DISTRICT.

Gram, turnips and toria are being sown. The condition of crops fair. Condition of cattle good. Fodder insufficient. Canals flowing. No inundation.

27.—MULTAN DISTRICT.

Maize and turnips being sown. Condition of standing crops below average. Yield of indigo and rice below average. Condition of cattle good Fodder sufficient. The Chenab Inundation canals dry; Sutlej canals have very little supply of water; in Sidhnai canals water is low.

28.—MUZAFFARGARH DISTRICT.

Ploughing for rabi is going on. Peas, gram and turnips are being sown. The condition of kharíf crops is poor. Rice crop is being harvested: yield poor. All the canals are dry excepting one in Muzaffargarh tahsíl. No inundation. Prices of food-grains are rising. Fodder for cattle insufficient in Alípur tahsíl.

29.—DERA GHAZI KHAN DISTRICT.

Sarshaf finished and assum (táramíra) begun. Condition of crops fair in Pachádh: poor on canal lands. The expected yield fair in Pachádh; poor on canal lands. Condition of cattle fair. The state of public health good. No canals running.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 15th October 1907.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 5th October 1907, there were 1,472 births registered in the 43 large municipal towns (716 males and 756 females), giving a birth rate of 53 *per mille* of population, and 1,049 deaths were registered (527 males and 522 females), giving a death rate of 38 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 35 against 88 in the corresponding week of the previous year; Lahore 31 against 32; Amritsar 43 against 44; and Multán 41 against 30. There was 3 deaths reported from plague in Palwal. Of the 12 deaths from small-pox, 4 were registered in Amritsar, 3 in Bhiwáni and 1 each in Shahabad, Ferozepore, Lahore, Batála and Dera Gházi Khan. There were 4 deaths recorded from cholera in Gujránwála, 3 in Wazírabad, 2 in Amritsar, and 1 each in Lahore and Ráwalpindi.

Deaths reported from plague during the week ending 12*th October* 1907 *in the districts, including all municipal towns:*—Hissár 30, Rohtak 36, Gurgaon 80, Karnál 38, Ferozepore 2, Montgomery 2, Gurdáspur 4, Shahpur 8, Jhelum 14, Ráwalpindi 55, and Attock 1; Patiála State 77, and Jínd State 2. Total for the province 349. Total for the previous week 288. Total for the corresponding week of the previous year 300.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, OCTOBER 25, 1907.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 22nd OCTOBER 1907.

[Fifteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Water supply in canal scanty. 3. Good.	Wheat, 9 seers ... Gram, 12½ seers. Bájra, 11 seers.	...	Irrigated crops fair. Early sown unirrigated bájra (bulrush millet) crop being cut: outturn good. Later sown crops withering. Rain urgently needed.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Gram, 12 seers. Maize, 14 seers. Jowár, 12 seers.	...	Unirrigated crops a total failure and irrigated crops not in good condition owing to cessation of rain.
3	Gurgaon ...	...	1. Sufficient for present needs. 3. Fair.	Wheat, 9 to 11½ seers. Barley, 12 to 13 seers. Gram, 11 to 12½ seers. Bájra, 10 to 12 seers. Maize, 11 to 12 seers.	Carrots and radish being sown on well lands.	Crops being reaped. Unirrigated crops have almost totally failed and irrigated crops have suffered owing to cessation of rainfall and strong west winds. Prospects of yield appear to be very gloomy.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
4	Delhi ...	...	1. Getting scarce ... 2. Canal supply very poor and affecting irrigated crops.	Wheat, 8½ to 9 seers. Barley, 12 to 13 seers. Gram, 11½ to 12 seers.	...	Unirrigated crops dried up; irrigated crops below average.
5	Ambála ...	...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 9 to 9¾ seers. Gram, 11½ to 12 seers. Barley, 12½ seers. Maize, 11½ seers. Jowár, 12½ seers. Bájra, 11½ seers.	...	Rain badly wanted. Harvesting commenced. Standing crops withered.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	...	Standing well crops fair; unirrigated bad. Rain badly wanted. Boll-worm and moth-borer continue attacking cotton and sugarcane crops.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Rising high ...	Sowings of gram continue and of wheat, barley and rapeseed commenced.	Unirrigated standing crops nearly destroyed; irrigated crops below average. Rats still damaging crops.
8	Lahore ...	0·06 at Sadr ... 0·04 at Sharakpur.	1. Scarce in tahsíl Sharakpur and hithár circle of tahsíl Kasúr. 3. Good.	High but stationary.	Sowings continue	Rice being cut and cotton being picked. Prospects and expected yield below average. Wild rats damaging the standing crops.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Gram, Jowár, } scarcity. Barley, Bájra, } warning. Maize, not procurable.	Sowings continue	Paddy, maize, &c., being reaped. Condition of crops on irrigated area average; on unirrigated bad.
10	Siálkot ...	...	1. Insufficient ... 3. Getting weak by overwork and want of green fodder.	Wheat, 9½ seers... Barley, 17 seers. Gram, 13 seers. Rice, 7 seers.	Ploughings continue. Sowings commenced.	Condition of standing crops average on well lands and bad on unirrigated lands.
11	Shahpur ...	...	1. Poor in tahsíl Shahpur. 3. Good.	Wheat, 10 to 11 seers. Barley, 16 to 18 seers. Gram, 13 to 14½ seers. Jowár, 12 to 20 seers. Bájra, 13 to 14 seers. Maize, 16 to 20 seers.	Ploughings and sowings continue.	Cotton being picked: outturn good in tahsíl Shahpur and average in other parts. Condition of standing irrigated crops fair; of unirrigated poor. Rain badly wanted.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
12	Ráwalpindi ...	0·21 at Murree ...	1. Sufficient ... 3. Fair.	Wheat, 11 seers ... Barley, 15 seers. Bájra, 15 seers. Gram, 12¼ seers. Maize, 16 seers.	Sowings impossible until it rains.	Crops gathered but had withered for want of rain.
13	Miánwáli ...	...	1. Procurable ... 3. Fair.	Unchanged ...	Sowings continue	Condition of standing crops below average. Cutting of bájra (bulrush millet) and picking of cotton commenced; outturn average.
14	Lyallpur ...	...	1. Green fodder insufficient.	Wheat, 10 seers ... Gram, 14 seers. Maize, 17 seers. Jowár, 17 seers.	Sowings continue	Condition of standing crops average in tahsils Lyallpur and Toba Tek Singh; poor on Burala branch and tail villages of Tandliánwála on account of deficiency of canal water supply.
15	Multán ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Gram, 14½ seers. Maize, 16¾ seers.	Sowings continue	Crops below average.

GENRRAL REMARKS.

Rainfall.— Slight rain has fallen in parts of Lahore and Ráwalpindi.

Prices.— Wheat is selling above scarcity rates in Hissar, Rohtak, Delhi, Ambála, Siálkot and Shahpur; at scarcity rates in Gurgaon, Amritsar and Lyallpur; and at warning rates in Ráwalpindi and Multán. Prices of other food-grains are generally above the scarcity rates in the Delhi division, except of maize, which is touching scarcity rate in Rohtak, and of bulrush millet, which is at warning rate in Ambála. In other divisions the food-grains are generally selling at or about scarcity rates. Prices are unchanged in Jullundur and Miánwáli; high in Lahore and Ferozepore.

Agricultural operations.— Cotton picking and rice harvesting in progress in some districts. Other inferior autumn crops sown early are also being harvested in certain districts. Ploughings for and sowings of spring crops continue in several districts.

Crops and outturn.—Unirrigated autumn crops have totally failed in many districts, and irrigated crops have also suffered in some districts on account of early cessation of rains. Condition of standing crops average in two tahsils of Lyallpur, but poor on Burala branch and tail villages of Tandliánwála in the same district owing to insufficiency of canal water-supply.

Damage done to crops.—Boll-worm and moth-borer continue damaging cotton and sugarcane crops in Jullundur. Field rats also damaging crops in Ferozepore and Lahore.

Agricultural stock.— Condition of cattle good except in Siálkot, where they are getting weak by overwork and want of green fodder.

Pasturage.—Fodder scarce in Delhi, Siálkot and parts of Lahore and Shahpur; in Lyallpur green fodder insufficient.

Water-supply.— Canal water-supply scarce in Hissar and Delhi and parts of Lyallpur.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 23rd October 1907.

KASHI RAM, SUPDT.
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 12th October 1907, there were 1,356 births registered in the 39 large municipal towns (676 males and 680 females), giving a birth rate of 52 *per mille* of population, and 935 deaths were registered (454 males and 481 females), giving a death rate of 36 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 38 against 105 in the corresponding week of the previous year; Lahore 34 against 35; Amritsar 41 against 49; and Multán 39 against 46. There were 5 deaths reported from plague in Palwal. Of the 13 deaths from small-pox, 5 were registered in Multán, 4 in Amritsar and 1 each in Kaithal, Ferozepore, Batála and Wazírabad. There were 2 deaths recorded from cholera in Amritsar, and 1 each in Lahore and Gujránwála.

Deaths reported from plague during the week ending 19th October 1907 in the districts, including all municipal towns:—Hissar 33, Rohtak 5, Gurgaon 79, Delhi 10, Karnál 19, Ferozepore 31, Amritsar 1, Gurdáspur 1, Shahpur 3, Jhelum 17, Ráwalpindi 58 and Attock 3; Patiála State 51 and Jínd State 5. Total for the province 316. Total for the previous week 349. Total for the corresponding week of the previous year 501.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

LAHORE, FRIDAY, NOVEMBER 1, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 29th OCTOBER 1907.

[Sixteen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Canal water supply scanty. 3. Good.	Wheat, 9 seers ... Bájra, 11 seers. Gram, 12¼ seers.	...	Crops being reaped. Outturn of irrigated crops good and late sown unirrigated crops withered for want of rain.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Gram, 12 seers. Jowár, 12 seers. Maize, 13 seers	...	Condition of irrigated crops average; unirrigated crops a total failure, and being cut for fodder.
3	Gurgaon ...	...	1. Sufficient ... 3. Fair.	Wheat, 8½ to 10 seers. Barley, 12 to 12½ seers. Gram, 11 to 12½ seers. Bájra, 11 to 12 seers. Maize, 11 to 13 seers.	Carrots and rape seed being sown on all well lands.	Crops being reaped. Unirrigated crops have totally failed and irrigated have suffered owing to cessation of rains and strong westerly winds. Prospects of yield appear very gloomy.
4	Delhi ...	...	1. Getting scarce ... 2. Canal supply insufficient.	High but unchanged.	Lands being prepared for spring sowings.	No amelioration of situation. Unirrigated crops a total failure; outturn of irrigated crops below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Decreasing daily ... 2. Ditto. 3. Good.	Wheat, 9 to 9¾ seers. Gram, 12 to 12¼ seers. Barley, 12½ seers. Maize, 11½ seers. Jowár, 12½ seers. Bájra, 11½ seers.	...	Rain badly wanted. Standing unirrigated crops withered. Harvesting of irrigated crops in progress.
6	Jullundur ...	...	1. Sufficient ... 3. Good.	Unchanged ...	Irrigation from wells and sowings commenced.	Picking of cotton and reaping of maize, &c., commenced. Standing well crops fair; unirrigated bad. Rain badly wanted.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	High ...	Sowings of wheat, barley and gram continue.	Unirrigated standing crops nearly destroyed; irrigated crops below average. Rats still damaging crops.
8	Lahore ...	...	1. Scarce in tahsíl Sharakpur and parts of Kasúr. 3. Good.	Wheat, 10 seers ... Gram, 14 seers ...	Sowings continue	Rice cutting and cotton-picking in progress. Outturn below average. Wild rats are damaging the standing crops.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Gram, Jowár, Bájra, } scarcity. Barley, warning.	Sowings continue	Cotton and chillies being picked; paddy and other crops being reaped. Outlook of irrigated crops about average; of unirrigated crops gloomy.
10	Siálkot ...	...	1. Insufficient. Sugar-cane used as fodder in parts. 3. Cattle getting lean by overwork and want of fodder.	Wheat, 10 seers ... Barley, 16 seers. Gram, 13 seers. Rice, 5 seers.	Ploughings for and sowings of spring crops continue.	Cotton-picking and maize-harvesting going on. Yield average on well lands and poor on unirrigated lands. Condition of standing crops average on well lands and bad on unirrigated lands.
11	Gujránwála ...	...	1. Scarce. Sugar-cane used as fodder. Bhúsa poor. 3. Weak	Wheat, 8 to 11 seers. Gram, 13 seers. Maize, 14 to 16 seers. Bajra, 13 to 14 seers.	Wheat sowings in progress on well irrigated area.	Prospects below average.
12	Shahpur ...	...	1. Scarce in tahsíl Khusháb. 3. Good.	Wheat, 10 to 11 seers. Barley, 16 to 17½ seers. Gram, 13 to 15 seers. Jowár, 16 to 20 seers. Bájra, 13 to 15 seers. Maize, 16 to 20 seers.	Ploughings and sowings continue.	Standing c[illegible]s fair in Sargodha and on area irrigated by Lower Jhelum Canal in Bhera and Shahpur tahsíls; poor in other parts. Rats damaging crops. Cotton is being picked. Outturn good.

No.	Reporting station.	Rain	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 10½ seers. Barley, 14¾ seers. Bájra, 15 seers. Gram, 12¾ seers. Maize, 15½ seers.	Sowings in progress in Murree, but no sowings in other tahsíls possible until it rains.	Crops being harvested.
14	Miánwáli ..	...	1. Procurable ... 3. Fair.	Wheat, 10½ seers. Bájra, 15 seers. Gram, 15 seers.	Sowings continue	Condition of standing crops below average.
15	Lyallpur ...	...	1. Sufficient ... 2. Some complaints of short water-supply.	Wheat, 10 seers ... Gram, 14 seers. Maize, 16 seers. Jowár, 17 seers.	Sowings continue. Export of wheat from Lyallpur ceased.	Standing crops in average condition. Some complaints of damage by rats.
16	Multán ...	...	1. Sufficient ... 3. Good.	Wheat 10 seers ... Gram, 14¾ seers. Maize, 15¾ seers.	Sowings in progress. Locusts did slight damage to turnips in tahsíl Lodhrán.	Great-millet being harvested. Cotton-picking going on. Crops below average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.— Wheat is selling above scarcity rates in Hissar, Gurgaon, Ambála, Gujránwála and Shahpur; at scarcity rates in Rohtak, Lahore, Amritsar, Siálkot, and Lyallpur; and at warning rates in other districts. Prices of other food-grains are also at or above scarcity rates except of bulrush-millet and maize, which are at warning rates in Ambála, Amritsar, Shahpur, Ráwalpindi, Miánwáli and Multán.

Causes of rise in prices.—Generally speaking high prices are due to large exports and the failure of the autumn crop due to early cessation of monsoon rains and the consequent gloomy outlook of the next spring crop. In Hissar rise of prices is due principally to heavy exports to United Provinces; in Gurgaon due to failure of the autumn crop following on a number of bad harvests during the last 5 years; and in Multán and Lyallpur rise is also partly due to the damage to the last spring harvest by late rains.

How far famine conditions prevail.—In Gurgaon resources of people much reduced and an actual shortage of grain locally apprehended. In Gujránwála should the winter rains fail the conditions in the unirrigated tracts will be serious. In Jhang the failure of rains will not only affect cultivation dependant on rainfall but also the riverain and irrigated tracts. Stocks of grain in this district sufficient for the present although scarcity rates prevail. In Hissar grain is stored in certain quantities and fodder is sufficient for at least 5 months or more; people will not feel the pinch of hard circumstances at present. In Delhi it is not anticipated that there will be any influx of famine-stricken foreigners to embarrass the people and there is as well a plentiful supply of work for cooly labour at good rates, but should no rain fall the situation is bound to be serious. In Siálkot upward tendency of prices stopped and it is not anticipated that famine conditions will be actually reached. In Lyallpur stocks of grain rather smaller this year though enough for food and seed grain. In Karnál, Ambála, Simla, Montgomery, Jullundur, Gurdáspur, Attock, Jhelum, Muzaffargarh and Dera Gházi Khan there is no cause of anxiety at present while in Multán famine conditions not expected owing to good cotton crop and the riverain crops not having suffered from floods.

Agricultural operations.—Picking of cotton and harvesting of other autumn crops in progress. Ploughings for and sowings of spring crops continue on irrigated lands. In Rohtak no sowings, and in Siálkot time for sowing gram and rape has gone and wheat can only be sown if rain falls up to November 15th, otherwise barley will be the only crop to be sown. In Gujránwála the early failure of monsoon rains have delayed sowings of the coming spring crops.

Crops and outturn.—Unirrigated crops are a general failure and irrigated have also suffered for want of rain and in parts owing to insufficiency of canal water. The outturn of irrigated crops below average.

Damage done to crops.—Field rats continue damaging crops in Ferozepore, Shahpur and Lyallpur. Slight damage by locusts in parts of Multán.

Agricultural stock.— Condition of cattle good except in Siálkot and Gujránwála, where they are getting weak owing to over-work and insufficiency of fodder.

Pasturage and water-supply.— Fodder scarce in Delhi, Siálkot and Gujránwála and parts of Lahore and Shahpur. Sugar-cane being used as fodder in Siálkot and Gujránwála. In Gurgaon a fodder famine seems assured and there will also be scarcity of water in parts of that district. In Delhi if no rain falls the situation for cattle will especially become serious in which case there is little which can be done to help them beyond making the road and canalside trees available as fodder. Water and fodder daily decreasing in Ambála. Canal water supply insufficient in Hissar and Delhi and some complaints of shortage in Lyallpur.

Remarks by the Sanitary Commissioner, Punjab.

SEVENTY-FIVE THOUSAND NINE HUNDRED AND EIGHTY-FOUR births were registered in the province during the month of September 1907, giving a birth-rate of 46 *per mille* of population. Of the total number of births, 39,821 were boys and 36,163 were girls.

The total number of deaths registered from all causes in the province during the month of September 1907 was 49,953 against 38,816 in the previous month, and 51,502 in the corresponding month of the past year; giving an annual death-rate of 30, 23 and 31 *per mille* of population per annum, respectively.

There were 156 deaths registered under the head of cholera against 31 in the previous month and 1,225 in the corresponding month of the past year.

The total mortality from plague amounted to 731 against 879 in the previous month and 420 in the corresponding month of the past year.

From small-pox 378 deaths were registered against 685 in the previous month and 445 in the corresponding month of the past year; fevers 30,383 against 22,105 and 29,521; dysentery and diarrhœa 1,446 against 1,013 and 1,669; respiratory diseases 4,349 against 3,765 and 4,438. During the month there were 28 deaths registered from suicide against 33 in the past month; wounding 49 against 42; accidents 461 against 719; snake-bite and killed by wild beasts 256 against 262; and from all other causes 11,716 against 9,282 in the previous month and 12,508 in the corresponding month of the past year.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 29th October 1907.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

[No]te.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 30th October 1907.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 19th October 1907, there were 1,429 births registered in the 43 large municipal towns (752 males and 677 females), giving a birth rate of 51 *per mille* of population, and 1,064 deaths were registered (533 males and 531 females), giving a death rate of 38 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 40 against 90 in the corresponding week of the previous year; Lahore 27 against 42; Amritsar 43 against 44; and Multán 36 against 41. There were 3 deaths reported from plague in Palwal, and 1 in Ferozepore. Of the 16 deaths from small-pox, 6 were registered in Wazirabád, 5 in Amritsar and 1 each in Jagádhri, Jagraon, Ráekot, Lahore and Ráwalpindi. There were 2 deaths recorded from cholera in Amritsar.

Deaths reported from plague during the week ending 26th October 1907 *in the districts, including all municipal towns:*—Hissar 14, Rohtak 13, Gurgaon 48, Delhi 10, Karnál 38, Ambála 1, Hoshiárpur 7, Montgomery 6, Shahpur 2, Jhelum 11, Ráwalpindi 34 and Patiála State 9. Total for the province 193. Total for the previous week 318. Total for the corresponding week of the previous year 574.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 5th NOVEMBER 1907.

[Seventeen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers. Gram, 13 seers. Bájra, 11 seers.	Sowings commenced on irrigated areas. Rain urgently wanted.	Crops being reaped. Outturn of irrigated crops and of early sown unirrigated great millet crop good. Later sown crops failed.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers. Gram, 12½ seers. Jowár, 12 seers. Maize, 13 seers.	Sowings of carrots and radish commenced on irrigated lands.	Picking of cotton and harvesting of other crops commenced. Outturn below average.
3	Gurgaon ...	...	1. Sufficient for present needs. 3. Fair.	Wheat, 9 to 10 seers. Barley, 12 to 13 seers. Gram, 11 to 13 seers. Bájra, 10½ to 12½ seers. Maize, 11 to 12 seers.	Sowing of wheat, barely and rapeseed commenced on irrigated lands.	Unirrigated crops reaped yield practically nil. Yield of irrigated crops fair.
4	Delhi ...	...	1. Getting scarce ... 2. Canal supply insufficient.	High but stationary.	Lands being prepared for spring sowings.	No amelioration of situation. Unirrigated crops have totally failed owing to cessation of rains. Outturn of irrigated crops below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
5	Ambála ...	...	1. Decreasing daily ... 2. Ditto. 3. Good.	Wheat, 9 to 9¾ seers. Gram, 12 to 12¾ seers. Barley, 12¾ seers. Maize, 11¾ seers. Jowár, 11¾ seers. Bájra, 11¾ seers.	...	Rain very badly wanted. Standing crops withered. Harvesting in progress.
6	Jullundur ...	...	1. Sufficient ... 3. Good, but suffering from overwork.	Wheat, 9½ seers Gram, 12 seers Barley, 14 seers. Maize, 13 seers. Másh, 9 seers. Múng, 10 seers.	...	Picking of cotton and harvesting of other crops continue. Standing well crops fair: unirrigated bad. Rain badly wanted.
7	Ferozepore ...	...	1. Available ... 3. Good.	Wheat, 9½ seers... Barley, 16 seers. Gram, 13 seers.	Sowings continue	Unirrigated crops failed; irrigated crops below average. Rats still damaging crops.
8	Lahore ...	...	1. Scarce in Sharakpur and Hithár circle of tahsíl Kasúr. 3. Good.	Wheat, 10 seers ... Gram, 14 seers ...	Sowings continue	Cotton picking and rice harvesting going on. Outturn below average. Rats still damaging the standing crops.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Gram, Jowár, Bájra, } scarcity Barley, warning.	Sowings continue	Cotton and chillies being picked and other autumn crops being harvested. Condition of crops on irrigated area average and on unirrigated bad.
10	Siálkot ...	...	1. Insufficient. Sugar-cane used as fodder in parts. 3. Getting weak by overwork and want of fodder.	Wheat, 10 seers ... Barley, 15½ seers. Gram, 13 seers. Rice, 7 seers.	Sowings on well lands continue. Some injury to vegetables by grass-hopper in tahsíl Pasrúr.	Harvesting of maize in progress. Condition and yield average on well and poor on unirrigated lands.
11	Gujránwála ...	...	...	...	...	
12	Shahpur ...	...	1. Poor except in Sargodha. 3. Good to fair.	Wheat, 10 to 10½ seers. Barley, 16 to 17¼ seers. Gram, 13 to 15 seers. Jowár, 14 to 19 seers. Bájra, 13 to 14½ seers. Maize, 15 to 18 seers.	Sowings continue.	Condition of standing crops fai[illegible]n irrigated lands, but [illegible]r elsewhere. Harvesting of autumn crops in progress. Outturn average. Rats still damaging crops in Sargodha tahsíl.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 10½ seers. Barley, 15 seers. Bájra, 14½ seers. Gram, 13 seers. Maize, 15½ seers.	Sowings continue on irrigated land.	Crops harvested. Outturn below average.
14	Miánwáli ...	...	1. Procurable ... 3. Fair.	Wheat, 10 seers. Gram, 14½ seers. Bájra, 14 seers. Barley 18 seers.	Sowings in progress.	Condition of crops poor in many places. Outturn expected much below average.
15	Lyallpur ...	...	1. Sufficient ... 2. Complaints of short water-supply from tail of Khái and Sarangwála.	Wheat, 10 seers ... Gram, 14 seers. Jowár, 16 seers. Maize, 16 seers.	Sowings continue.	Standing crops in good condition, except great millet on Rakh branch. Rats doing damage to maize. Cotton outturn fair.
16	Jhang ...	...	1. Getting insufficient 2. Insufficient. 3. Fair.	Wheat, below scarcity rate.	Absence of rain and insufficient canal water supply causing contraction in spring sowings.	Condition of irrigated crops average; unirrigated poor.
17	Multán ...	...	1. Sufficient ...	Wheat, 10½ seers. Gram, 14½ seers. Maize, 15 seers.	Sowings in progress.	Picking of cotton and harvesting of other crops continue. Outturn below average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—In comparison with the prices of last week wheat is rising in Rohtak and Miánwáli, falling in Hissar, Gurgaon, Ferozepore, Shahpur and Multán, but it is still above scarcity rates in Hissar, Rohtak, Ambála, Jullundur, at scarcity rates in Gurgaon, Lahore, Siálkot, Miánwáli and Lyallpur, and between warning and scarcity rates elsewhere. The prices of other staples are similarly high.

Agricultural operations.—Picking of cotton and harvesting of other autumn crops continue. Sowings of spring crops in progress on irrigated lands. Absence of rain and insufficiency of the canal water supply causing contraction in spring sowings in Jhang.

Crops and outturn.—Unirrigated autumn crops are generally a total failure. The outturn of irrigated crops is also below average.

Damage done to crops.—Rats are still damaging crops in Ferozepore, Shahpur and Lyallpur. Vegetables have been slightly injured by grass-hoppers in parts of Siálkot.

Agricultural stock.—Condition of cattle good to fair except Jullundur and Siálkot, where they are suffering from over-work.

Pasturage.—Fodder scarce in Delhi, Siálkot, Jhang and parts of Shahpur. Sugarcane being used as fodder in Siálkot. The available supply is also decreasing in Ambála.

Water supply.—Canal water supply insufficient in Delhi and Jhang and decreasing in Ambála. Some complaints of shortage of water supply at the tail of certain branches of Chenab Canal in Lyallpur.

L. FRENCH,

Offg. Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE, LAHORE:
The 6th November 1907.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 26th October 1907, there were 1,451 births registered in the 41 large municipal towns (724 males and 727 females), giving a birth rate of 53 *per mille* of population, and 982 deaths were registered (499 males and 483 females), giving a death rate of 36 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 29 against 96 in the corresponding week of the previous year; Lahore 29 against 39; Amritsar 44 against 39; and Multán 42 against 49. There were 10 deaths reported from plague in Palwal, and 1 in Sonepat. Of the 19 deaths from small-pox, 8 were registered in Amritsar, 3 in Lahore, 2 in Batála and 1 each in Hissar, Kartárpur, Jagráon, Kasúr, Gujránwála and Wazírabád.

Deaths reported from plague during the week ending 2nd November 1907 *in the districts, including all municipal towns:*—Hissar 25, Rohtak 15, Gurgaon 40, Delhi 10, Karnál 58, Ambála 5, Hoshiárpur 9, Ludhiána 1, Montgomery 1, Shahpur 4, Jhelum 6, and Ráwalpindi 41; Patiála State 118 and Jínd State 15. Total for the province 348. Total for the previous week 198. Total for the corresponding week of the previous year 623.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 12th NOVEMBER 1907.

[Siventeen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of — Spring.	Prospects of — Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9¼ seers. Bájra, 11 seers. Gram, 13½ seers. Bejhar, 14 seers.	Sowings on wet land continue. Sowings on dry land cannot be made for want of rain except in Sirsa.	Unirrigated early sown bulrush millet being harvested. Outturn good. Later sown crops failed. Outturn of irrigated crops good.
2	Rohtak ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Gram, 12½ seers. Jowár, 12 seers. Maize, 13 seers.	Sowings of wheat commenced on irrigated lands.	Cotton pickings continue. Outturn below average. Sugarcane crop below average.
3	Gurgaon ...	...	1. Sufficient for present needs. 3. Fair.	Wheat, 9 to 10 seers. Barley, 11½ to 13 seers. Gram, 11 to 13 seers. Bájra, 10½ to 12½ seers. Maize, 10 seers.	Sowings continue on irrigated land and also on unirrigated in tahsil Firozpur.	Standing crops in good condition.
4	Delhi ...	...	1. Getting scarce ... 2. No complaint about canal irrigation. 3. Good.	High but stationary.	Sowings of barely and carrots commenced	No amelioration of situation Unirrigated crops totally failed. Condition of irrigated crops below average.

(101)

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Daily decreasing ... 2. Ditto. 3. Good.	Wheat, 9 to 9¾ seers. Gram, 12 to 12¼ seers. Barley, 12¾ seers. Maize, 11¾ seers. Jowár, 11¾ seers. Bájra, 11¾ seers.	Rain badly wanted	Harvesting going on.
6	Jullundur ...	...	1. Sufficient ... 3. Good, but suffering from overwork.	Wheat, 9½ seers Gram, 12¼ seers. Maize, 14 seers. Múng, 10 seers. Másh, 9 seers. Barley, 14 seers. Jowár, 14 seers.	Sowings commenced. Rain badly wanted.	Reaping of maize and great millet and picking of cotton continued. Standing well crops fair; unirrigated bad.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Wheat, 9 seers ... Barley, 16 seers. Gram, 13 seers. Jowár, 12 seers. Bájra, 12 seers. Maize, 13 seers.	Sowings of wheat, barley and gram continue.	Standing irrigated crops below average.
8	Lahore ...	...	1. Some scarcity is felt in tahsil Sharakpur and Hithár circle of tahsíl Kasúr. 3. Good.	Wheat, 9½ seers... Gram, 14 seers.	Wheat, gram and barley are being sown.	Cotton picking and rice harvesting going on. Outturn below average. Rats are damaging the standing crops.
9	Amritsar ...	...	1. Sufficient ... 3. Good.	Wheat, Gram, Maize, Bájra, } scarcity. Barley, Jowár, } warning.	Sowings continue	Cotton and chillies being picked. Maize, rice, &c., being harvested. Condition of crops on irrigated areas nearly average; unirrigated bad.
10	Siálkot ...	...	1. Insufficient. Sugarcane used as fodder in tahsil Zafarwál. 3. Getting weak by overwork and want of fodder.	Wheat, 8½ seers Barley, 15 seers. Gram, 13 seers. Rice, 6½ seers.	Sowings of wheat continue on well lands. Grasshopper (Toka) has injured the germination in tahsíls Pasrúr and Siálkot.	Harvesting of maize continue and of rice commenced. Yield average on well and poor on unirrigated lands.
11	Gujránwála ...	...	1. Scarce. Sugarcane used as fodder.	Wheat, 8½ to 11 seers. Maize, 13 to 14 seers. Bájra, 13 seers. Gram, 13 seers. Barley, 14 seers.	Wheat sowings on irrigated lands continue.	Rice and maize damaged by rats; cotton attacked by tela (green fly). Yield poor.
12	Shahpur ...	...	1. Poor except in Sargodha. 3. Good to fair.	Wheat, 9½ to 11 seers. Barley, 15 to 20 seers. Gram, 13 to 14 seers. Jowár, 14 to 18 seers. Bájra, 13 to 15 seers. Maize, 15 to 18 seers.	Sowings of wheat in progress.	Condition of standing crops fair over irrigated areas and poor elsewhere. Maize, great millet, &c., harvested. Outturn below average. Rats damaging standing crops in Sargodha.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
13	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 10½ seers. Barley, 15 seers. Bájra, 14 seers. Gram, 13 seers. Maize, 15 seers.	One-tenth of average area sown. Rain badly wanted.	Harvesting completed. Outturn poor.
14	Miánwáli	...	1. Procurable ... 3. Fair.	Wheat, 11 seers ... Gram, 15 seers. Bájra, 14 seers.	Sowings in progress.	Condition of standing crops poor. Outturn has been below average.
15	Lyallpur ...	...	1. Sufficient ... 2. Complaints of short water supply from tail of 3 branches of Chenab Canal. 3. Good	Wheat, 10 seers ... Gram, 14 seers. Jowár, 16 seers. Maize, 16 seers.	Gram and wheat sowings in progress.	Standing crops in good condition. Cotton outturn fair.
16	Jhang ...	...	1. Sufficient ... 3. Fair.	High ..	Sowings continue, but unsatisfactory and late owing to want of rain.	Great millet being harvested. Outturn average. Cotton crop good.
17	Multán ..	...	1. Insufficient ... 3. Good.	Wheat 10¼ seers. Gram, 14½ seers. Maize, 15 seers.	Sowings in progress.	Cotton picking and harvesting of other crops continue. Outturn below average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—Wheat selling above scarcity rates in Hissar, Ambála, Jullundur, Ferozepore, Lahore, Siálkot, Gujránwála and Shahpur; at scarcity rates in Rohtak, Gurgaon, Amritsar and Lyallpur, below scarcity rates elsewhere. As compared with last week the price of wheat still rising in Hissar, Ferozepore, Lahore, Siálkot and Shahpur; falling in Rohtak and Miánwáli. Price of other food grains also high elsewhere.

Agricultural operations.—Picking of cotton and harvesting of other autumn crops continue. Sowings of spring crops in progress generally on irrigated area. Considerable contraction of sown area anticipated especially in Ráwalpindi owing to absence of rain.

Crops and outturn.—Condition and yield of cotton crop good to fair in Lyallpur and Jhang and of other autumn crops generally below average throughout the Province.

Damage done to crops.—Rats are still damaging crops in Lahore, Gujránwála and Shahpur. Cotton attacked by green-fly (tela) in Gujránwála. Grass-hopper (toka) has injured young crops in Siálkot.

Agricultural stock.—Condition of cattle good to fair except in Jullundur and Siálkot, where cattle are suffering from over-work.

Pasturage.—Fodder scarce in Delhi, Lahore, Siálkot, Gujránwála and Multán; sugarcane being used as fodder in Siálkot and Gujránwála and decreasing in Ambála.

Water supply.—Some complaints still of shortage of water supply at the tail of certain branches of Chenab Canal in Lyallpur. Supply of water also decreasing in Ambála.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

SUMMARY OF METEOROLOGICAL CONDITIONS PREVAILING OVER THE PUNJAB, KASHMIR AND THE NORTH-WEST FRONTIER PROVINCE DURING SEPTEMBER 1907.

* Mean of 2 days.

With the cessation of rainfall on the 24th August the monsoon withdrew from the Punjab and throughout September no rain fell in the Punjab and the North-West Frontier Province except light falls at Ludhiána on the 5th and 6th. A number of local disturbances affected Kashmír and the hill districts, and occasional light falls of rain were received in these areas. The skies were generally clear over the plains, and owing to the westerly and north-westerly winds the air was drier than usual except in the south-western districts.

Pressure and winds.—Pressure was in slight excess in the south-east Punjab and normal or in slight defect in the remainder of the Punjab, the North-West Frontier Province and Kashmír; the deficiency was greatest at Pesháwar where it amounted to 0·041 inch. Owing to the absence of monsoon conditions wind directions had more westerly and northerly components than usual and the strength of the winds was slightly above the average.

Temperature.—As practically no rain fell and skies were generally clear, temperature was above the normal throughout the month; the excess occurred chiefly in the maximum in the north and east Punjab, and was greatest from the 24th to the 26th, when it averaged about 6°.

The following table shows the departures from the normal of the mean temperature of the Punjab, Kashmír and the North-West Frontier Province on each day of the month and the highest maximum temperature registered, with the name of the station recording it :—

Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.	Date.	Departure from normal of mean temperature of the Punjab and the N.-W. Frontier Province during the previous 24 h.	Highest maximum temperature recorded during the previous 24 h.	Station at which registered.

" 17th ...	+ 2·5	103·9	Do.				

Humidity and cloud.—The air contained about 25 per cent. less than the average amount of moisture at Ambála, Siálkot and Ráwalpindi, and also in the rest of the Punjab the air was drier than usual. The skies were unusually free from cloud and were clear throughout the month in the North-West Frontier Province, and in the greater part of the Punjab.

Rainfall.—Owing to the withdrawal of the monsoon at the end of August rainfall was in very large defect everywhere; the only stations that reported rainfall of any importance were Simla, Ludhiána and Murree.

The following table gives the rainfall data for the Punjab, Kashmír and the North-West Frontier Province stations for September 1907 :—

Station.	Actual rainfall.	Normal average rainfall.	Difference from the average.

SIMLA:
The 23rd September 1907.

J. PATTERSON,
for *Director-General of Observatories.*

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of October 1907.

1.—HISSAR DISTRICT.

Unirrigated crops being reaped. Outturn of early sown bajra good. Later sown area has failed for want of rain. Outturn of irrigated crops good. Rain for irrigated rabi sowings urgently needed. Rabi sowings on canal-irrigated land commenced. Fodder sufficient. Cattle in good condition. Water-supply in canal very scanty.

2.—ROHTAK DISTRICT.

Sowing in nahri and well lands in progress and in a few báráni villages gram and sarshaf are sown to a very small extent. Jowár and bájra reaping completed; cotton picking in progress; sugarcane pressing not yet begun. The yield of jowár and bájra is *nil* while that of cotton and sugarcane is expected to be below average. Cattle generally in good condition. Canal supply stopped on the Delhi branches owing to breach of the main canal.

3.—GURGAON DISTRICT.

Carrots were sown on well lands. Sowings of barley and sarshaf commenced in cháhi lands. Barley, gram and sarshaf were sown on báráni lands in the Núh tahsíl wherever moisture existed. Cotton picking in progress. Kharíf crops have generally been reaped. Báráni crops practically a failure. Crops on irrigated area in fair condition. Cattle in fair condition. Fodder sufficient for immediate needs. Supply in canals sufficient.

4.—DELHI DISTRICT.

Statement not yet received.

5.—KARNAL DISTRICT.

No rainfall. Irrigated land is being prepared for wheat sowings. On unirrigated land nothing but fodder has been reaped and very little of that. Crops on irrigated land are infereior. Outturn is generally below average. Condition of cattle good. Supply of fodder sufficient at present. Supply in Western Jamna Canal fair.

6.—AMBALA DISTRICT.

Standing crops withered. Prospects unfavourable for the present kharíf and the next rabi. Condition of cattle generally good. Harvesting of kharíf crops in progress. Water and fodder daily decreasing.

7.—SIMLA DISTRICT.

The rainfall in both tahsíls was very light and insufficient. In the Simla tahsíl wheat has been sown to the extent of $\frac{1}{48}$th, and in Kot Khái wheat, barley and poppy to the extent of $\frac{3}{4}$ths of the expected sowings. The crops have just sprouted. Condition of cattle good. Fodder and grazing sufficient in both tahsíls. Public health good. Water-supply from hill streams in the Simla tahsíl low; in Kot Khái sufficient. In the Simla tahsíl $\frac{1}{16}$th of the normal area was watered; no watering was done in the Kot Khái tahsíl.

8.—KANGRA DISTRICT.

One-sixth of the báráni area and $\frac{1}{3}$rd of the irrigated area where it rained followed by hailstorm was sown with wheat and gram, etc. The condition of the crops is very bad owing to want of rain; the hailstorm has damaged the rice crop to a great extent; yield is expected to be very poor. The condition of cattle is generally good. Water in kúhls (streams) not sufficient for irrigation purposes. The prices of food-grains are rising throughout the district and fodder becoming scarce.

9.—HOSHIARPUR DISTRICT.

Wheat, gram and mustard were sown during the month. The sowings were greatly restricted owing to drought. Sugarcane in average condition and cotton below the average. The latter was injured by the green-fly pest. Reaping of moth and jowar in progress. Other kharíf crops have been harvested. The outturn of the sugarcane crop is estimated to be average on irrigated lands, but below the average on lands dependent entirely on rain and that of cotton below the average. Condition of cattle fairly satisfactory. Fodder is sufficient for the current winter season, but will become scanty should the approaching rabi fail. Public health good. Canals, hill torrents, and wells are being used for irrigation purposes. There is no scarcity of water-supply. The prices of food-grains are rising.

10.—JULLUNDUR DISTRICT.

Sowings of wheat, gram and fodder in progress on the cháhi lands and sailába and tiba of báráni lands. Cháhi slightly below average. Báráni bad. Sugarcane being attacked by gaduan and ghora (moth-borer) in the Phillaur, Nakodar and Jullundur tahsíls. Prospects of a 2nd picking of cotton brighter owing to partial disappearance of Tela. Yield below average. Condition of cattle good, but suffering from effects of overwork. Public health good.

11.—LUDHIANA DISTRICT.

Sowings of rabi crops commenced during the month, but, owing to want of rain, they were limited to a portion of unirrigated area only where moisture was present. Condition of standing kharíf crops (sugarcane and cotton) on irrigated lands good, but of those on unirrigated lands average in the Jagráon tahsíl and below average in the Ludhiána and Samrála tahsíls. The yield of kharíf crops on cháhi lands is expected to be good, but on the remaining areas average in Jagráon but below average elsewhere. The condition of cattle was generally good. Fodder was sufficient, but more or less general secarcity will soon make itself felt. State of public health was satisfactory. Irrigation from canals fairly satisfactory. Prices rose during the month.

12.—FEROZEPORE DISTRICT.

Wheat, barley, gram and sarshaf sown during the month. Unirrigated standing crops have withered for want of rain and irrigated crops are below average. Yield is expected to be below average. Cattle in good condition. Sirhind Canal had been flowing during the month and a normal area was irrigated from it. Agriculturists are generally well off, but are in great need of rain, Stocks of food-grains and fodder ample. Green fodder available.

13.—MONTGOMERY DISTRICT.

Statement not yet received.

14.—LAHORE DISTRICT.

Wheat, gram, barley, turnips and toria were sown on irrigated lands during the month. Condition of standing crops below average. The yield of rice and cotton is below average; and that of maize much below average. The condition of cattle is generally fair, but they are weakening on account of much work and want of sufficient fodder. The perennial canals ran short: there were no floods in the rivers. The prices are rising.

15.—AMRITSAR DISTRICT.

Sowings of toria, wheat, barley, gram and sarshaf commenced on irrigated areas generally and on baráni lands where there is enough of moisture. The failure of rains is retarding progress in sowing. The standing crops on irrigated areas are average, those on unirrigated lands are comparatively poor. The outturn of irrigated crops is expected to be average and of báráni crops unsatisfactory. Sugarcane crop is in fair condition and cotton has not been damaged by bollworm. Maize and rice were slightly damaged by rats also. Cattle in good condition. Green fodder insufficient. Water-supply of canal ran short of the requirements of certain villages for maturing the kharíf crops and for sowing rabi crops. No floods in the river. Prices rising generally.

16.—GURDASPUR DISTRICT.

Rabi crops have been sown on irrigated lands. No sowings could be made on báráni lands except in Gurdáspur and its immediate vicinity where rain fell on the 16th and 17th October. Sugercane and cotton good in tahsíl Patháukot; elsewhere average. Outturn of irrigated crops average, but that of the báráni lands poor. Condition of cattle good on the whole. Fodder becoming scarce Public health generally good. Irrigation from Government canals practically ceases in this district on 15th October, but even up to that date owing to shortage of supply full waterings could not be given. Hill torrents dry. Rivers low. Prices are rising.

17.—SIALKOT DISTRICT.

Sowings of wheat, barley, masar, toria turnip and gram commenced to some extent in cháhi lands. Ploughings for rabi crops continued. The condition of standing crops average in cháhi and bad in báráni lands. Rats and tela have injured cotton and sugarcane crops. Picking of cotton commenced. Yield average in chahi and poor in báráni lands. The cattle getting feeble by overwork and scarcity of green fodder. Water sufficient according to the season in Bajwat canals. No inundation during the month.

18.—GUJRANWALA DISTRICT.

Vegetables, turnips and toria sowings in progress and wheat in the last week of the month. Sowings considerably less than last year owing to drought. Rice being cut. Tela has attacked cotton and the pods are poor. Rice and maize are being destroyed by toka and rats. The expected yield of the standing crops will be below average. Cattle owing to insufficient rain are weak and overworked. Public health good. Shortage of water-supply owing to drought. Food supplies are getting less and cultivation is below normal. Prices are at scarcity rates.

19.—GUJRAT DISTRICT.

Spring crops are being sown on irrigated and sailáb lands and on well ploughed báráni lands of superior quality. There is not sufficient moisture to admit of extensive sowings on unirrigated lands. Sugarcane crops on irrigated lands are in good condition, those on unirrigated lands have withered. Condition of cotton crops fair to bad. Picking of cotton and harvesting of other kharíf crops in progress. Yield in the case of moth and másh good, but in the case of all other crops below average. Cattle in good condition. Fodder decreasing. Sugarcane crop being used as fodder in certain parts of the district. Public health good. Prices rising. Scarcity rates prevailing.

20.—SHAHPUR DISTRICT.

The sowings of gram, toria, masar, wheat, barley and turnips continued. Kharif creps much damaged by rats in Sargodha tahsíl and in a few villages of Bhera. Condition of crops in Bhera and Shahpur average, in Khusháb bad. The outturn of kharíf crops much below the average. The condition of cattle good. Fodder sufficient excepting in Khusháb. Lower Jhelum continued to run, but the water was nearly sufficient. The stock of grain in Khusháb is not sufficient.

21.—JHELUM DISTRICT.

No rainfall registered, but there were showers in 15 villages in the north of Chakwál and in 4 villages in Pind Dádan Khan. Sufficient moisture for rabi sowing in riverain villages. Rabi sowing in progress in irrigated and moist báráni lands. Very small percentage matured except in well land. Expected yield poor. Condition of cattle generally good. Fodder decreasing and very scarce in Pind Dádan Khan Thal whence a good many cattle have been sent across the river. Prices rising.

22.—RAWALPINDI DISTRICT.

There has been no rain but 1·02 in Murree. Rain is very badly wanted and this is causing scarcity. Owing to very little moisture there have been very small sowings

of rabi crops which are $\frac{1}{16}$th of the normal. Kharíf crops have been cut, gathered and threshed except a few fields of chari in the villages bordering on the Ráwalpindi city, and cantonment which are kept for grazing. The crops generally have been bad in Kharora and Jatli circles and below average in other parts except on Dapára lands. These were sown in May and June, but are below average. The outturn has been poor generally. Cattle in good condition and there has been sufficient stock of green fodder as well as bhúsa. Green fodder would hardly be sufficient for the month of November in Kharora and Jatli circles and for December in other parts of Ráwalpindi and Gujar Khan tahsíls and in Pothwár circle of Kahúta, but there is a good stock of white bhúsa. The prices are getting higher.

23.—ATTOCK DISTRICT.

Practically no rain during the month. Rabi sowing generally has not begun. Kharíf crops have altogether dried up, with the exception of irrigated crops which are good. Kharíf crop is being harvested. Yield from báráni land is expected to be very poor. There is no canal in the district. Some land is irrigated by springs in the Attock and Pindigheb tahsíls and is in good condition as before. Rain is badly wanted. The prices of food-grains have risen as compared with those of the previous month. Grain stock is insufficient. In Pindigheb and Fatahjang tahsíls water for drinking is scarce.

24.—MIANWALI DISTRICT.

The sowings of rabi crops were in progress during the month under report. The condition of kharíf crops is poor in most places owing to want of rain. The outturn expected is much below the average. Fodder procurable. Cattle are generally in fair condition. Public health generally good. No Government canal in this district.

25.—LYALLPUR DISTRICT.

Toria and gram sowings in progress and wheat sowings have begun. Cotton and sugarcane are in fair condition and fair outturn expected. Jowár and chari are being damaged by rats and "tela" in Samundri tahsíl. Maize where water supply did not fail is fair, but has been damaged by rats in Jaranwála. Cattle in fair condition. Some scantiness of green fodder in Jaranwála and Lyallpur. Health of people fair.

There are great complaints of deficiency of water from Rájbahás Tandliánwála, Khewra, Khíkha, Nahra and Bhanja.

26.—JHANG DISTRICT.

Absence of rain and unfavourable southerly winds dried the land, delaying rabi sowings. The condition of irrigated crops average; unirrigated poor. Maize and bájra harvested. No disease among cattle. Fodder is insufficient. Canals are working. Water-supply in tahsíls Chiniot and Shorkot deficient. Insufficient water in the river and private canals. Prices and wages are rising. Wheat selling at scarcity rate.

27.—MULTAN DISTRICT.

Wheat, turnip, gram, sathri and uson being sown. Condition of crops below average Yield of rice, jowár, bájra and chína below average. Condition of cattle good. Inundation canals and Sidhnái dry.

28.—MUZAFFARGARH DISTRICT.

Wheat, barley, peas, turnips, gram and *methra* sown during the month. Condition of crops poor: they are withering on account of scarcity of canal water. Expected yield below average. No disease among cattle. With the exception of one in Sanánwán tahsíl all the canals are dry. No inundation. Insufficiency of food and fodder reported from the Alipur tahsíl.

29.—DERA GHAZI KHAN DISTRICT.

Sowing of wheat, &c., begun. Condition of crops generally fair in Pachádh and poor in canal lands. Jowár and bájra cut. Cotton being picked up. Expected yield fair in Pachádh and poor in canal lands. Condition of cattle fair. Public health good Locusts appeared in Pachádh of Sanghar tahsíl and did little damage to crops, but were destroyed. Prices are rising abnormally high.

P. A. GABRIEL, SUPDT.,

Office of Director of Agriculture, Punjab.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 13th November 1907.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 2nd November 1907, there were 1,424 births registered in the 41 large municipal towns (712 males and 712 females), giving a birth rate of 52 *per mille* of population, and 1,151 deaths were registered (581 males and 570 females), giving a death rate of 42 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 50 against 114 in the corresponding week of the previous year; Lahore 35 against 39; Amritsar 52 against 43; and Multán, 42 against 57. There were 2 deaths reported from plague in Palwal and 1 in Ráwalpindi. Of the 11 deaths from small-pox, 5 were registered in Amritsar, 3 in Ferozepore, 1 each in Tánda-Urmar, Kartárpur and Wazírabád. There was 1 death recorded from cholera in Kasúr.

Deaths reported from plague during the week ending 9th November 1907 in the districts, including all municipal towns:—Hissar 35, Rohtak 15, Gurgaon 46, Delhi 4, Karnál 32, Ambála 8, Hoshiárpur 11, Ludhiána 1, Montgomery 2, Lahore 1, Amritsar 5, Gurdáspur 1, Shahpur 5, Jhelum 8, Ráwalpindi 43 and Attock 19; Patiála State 32 and Jínd State 3. Total for the province 271. Total for the previous week 353. Total for the corresponding week of the previous year 933.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Punjab Government Press, Lahore—15-11-07—916.

No. 47 of 1907.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, NOVEMBER 22, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 19th NOVEMBER 1907.

[Seventeen out of 29 districts are dealt with.]

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9½ seers. Gram, 13¼ seers. Bájra, 11 seers. Bejhar, 14 seers.	Sowings on irrigated land continue.	Cotton crop on irrigated land being picked. Outturn good.
2	Rohtak ...	...	1. Sufficient, but getting dearer. 3. Good.	Wheat, 9 seers ... Gram, 12 seers. Jowár, 12 seers. Maize, 12 seers.	Sowings continue on irrigated lands.	All unirrigated crops have been cut. Cotton pickings continue. Outturn of irrigated crops below average.
3	Gurgaon ...	...	1. Sufficient for present needs. 3. Fair.	Wheat, 8½ to 10 seers. Barley, 11½ to 12¾ seers. Gram, 11 to 13 seers. Bájra, 10 to 13 seers. Maize, 10 to 11 seers.	Sowings continue on irrigated lands.	Standing crops in good condition.
4	Delhi ...	...	1. Getting scarce ... 2. Canal supply insufficient. 3. Good.	High, but stationary.	Sowings in progress on irrigated lands.	No amelioration of situation. Condition of irrigated crops below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Daily decreasing ... 2. Ditto. 3. Generally good.	Wheat, 9 to 9¾ seers. Gram, 12 to 12¾ seers. Barley, 12¾ seers. Maize, 11¾ seers. Jowár, 11¾ seers. Bájra, 11¾ seers.	Rain very badly wanted. Sowings commenced.	Harvesting finished.
6	Jullundur ...	...	1. Sufficient ... 3. Good, but suffering from overwork.	Wheat, 9 seers ... Gram, 12½ seers. Maize, 14 seers. Múng, 10 seers. Másh, 9 seers. Barley, 14 seers. Jowár, 14 seers. Gur, 6 seers.	Sowings in progress. Rain badly wanted.	Reaping of maize and great millet and picking of cotton and chillies continue. Threshing of maize and pressing of sugarcane commenced. Standing well crops fair; unirrigated bad.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Wheat, 9 seers ... Barley, 16 seers. Gram, 12 seers. Jowár, 12 seers. Bájra, 12 seers. Maize, 13 seers.	Sowings continue.	Irrigated crops below average.
8	Lahore ..	...	1. Scarce in tahsíl Sharakpur and Hithár circle of tahsíl Kasúr. 3. Good.	Wheat, 9½ seers... Gram, 13 seers.	Sownings in prograss.	Cotton and chillies being picked. Outturn below average. Rats damaging the standing crops.
9	Amritsar ..	...	1. Dry fodder sufficient; green fodder wanting. 3. Generally good.	Wheat, Gram, Maize, Bájra, Jowár } scarcity Barley, warning.	Sowings continue	Cotton and chillies being picked. Maize, rice, &c., being reaped. Condition of crops on irrigated area average; unirrigated bad.
10	Siálkot ...	...	1. Green fodder not procurable and dry fodder insufficient. 3. Getting meagre by overwork and want of fodder.	Wheat, 8½ seers Barley, 15 seers. Gram, 13 seers. Rice, 6½ seers.	Sowings of wheat continue on well lands. Grass-hopper (Toka) has injured the germination of crops in tahsíls Pasrúr and Siálkot.	Cutting of sugarcane crop commenced in tahsíls Zafarwál and Raya. Picking of cotton continues. Yield average on well lands and poor on unirrigated lands
11	Gujránwála ...	...	1. Fodder scarce. Sugarcane used as fodder.	Scarcity rates prevailing.	Wheat and barley being sown on irrigated lands.	Maize and rice being cut.
12	Shahpur ...	...	1. Scarce in Khusháb 2. Poor in Khusháb and fair elsewhere.	Wheat, 10 to 11 seers. Barley, 15 to 20 seers. Gram, 14 seers. Bájra, 14 to 15 seers. Jowár, 16 to 18 seers. Maize, 15 to 18 seers.	Sowings of wheat, barley and poppy and ploughings for other crops in progress.	Condition of crops fair in all tahsíls except Khusháb. Certain crops are being harvested. Outturn good in tahsíl Shahpur and average elsewhere.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Ráwalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 10½ seers Barley, 14½ seers. Bájra, 13½ seers. Gram, 13¼ seers. Maize, 14¼ seers.	Crops being sown on expectation of rain, which is badly wanted.	...
14	Miánwáli ...	...	1. Procurable ... 3. Fair.	Wheat, 11 seers ... Gram, 15 seers. Barley, 19 seers. Bájra, 14 seers.	Sowings in progress.	...
15	Lyallpur ...	...	1. Sufficient ... 2. Complaints of short water-supply from parts of 2 branches of Chenab Canal.	Wheat, 10 seers ... Gram, 14 seers. Jowár, 14 seers. Maize, 15 seers.	Wheat, gram and barley sowings in progress.	Standing crops in average condition. Cotton outturn fair. Crops have withered where canal supply short.
16	Jhang ...	...	1. Sufficient ...	High ...	Sowings continue, Rain badly wanted.	Harvesting in progress. Outturn below average. Rats damaging crops in Chiniot tahsil.
17	Multán ...	...	1. Insufficient ...	Wheat, 10¼ seers Gram, 15¾ seers. Maize, 15 seers.	Sowings continue	Harvesting going on. Picking of cotton in progress. Crops below average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—Wheat selling at or above scarcity rates in all districts except Ráwalpindi, Miánwáli and Multán, where price of wheat is between warning and scarcity. Prices of other food-grains are also high. As compared with the prices of previous week wheat is falling in Hissar, Shahpur and Multán; rising in Rohtak, Gurgaon and Jullundur. Prices are also high in Delhi and Jhang.

Agricultural operations.—Picking of cotton and harvesting of other autumn crops in progress. Sowings of spring crops continue on irrigated area. Sowings of spring crops commenced in Ráwalpindi on the expectation of rain. Poppy is being sown in Shahpur. Sugarcane pressings commenced in Jullundur and Siálkot.

Condition and prospects of crops.—Cotton outturn good in Hissar and fair in Lyallpur. Other autumn crops also being harvested: their outturn is generally below average on irrigated and poor on unirrigated areas. In Lyallpur crops have withered where the canal supply is short.

Damage done to crops.—Rats are damaging crops in Lahore and Jhang and grass-hoppers have injured young crops in Si[illegible]t.

Agricultural stock.—Cattle are suffering from overwork in Jullundur and Siálkot. Their condition is poor in parts of Shahpur and good elsewhere.

Pasturage.—Fodder scarce in Delhi, Lahore, Siálkot, Shahpur and Multán; sufficient, but is getting dearer in Rohtak. Available fodder supply is decreasing in Ambála.

Water supply.—Canal supply insufficient in Delhi and also in certain branches of the Chenab Canal in Lyallpur. Supply of water also decreasing in Ambála.

P. A. GABRIEL, SUPDT.,

for *Director of Agriculture, Punjab.*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 20th November 1907.

WILLIAM H. MILLS, OFFG. SUPDT.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 9th November 1907, there were 1,304 births registered in the 41 large municipal towns (723 males and 581 females), giving a birth rate of 48 *per mille* of population, and 1,139 deaths were registered (598 males and 541 females), giving a death rate of 42 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 49 against 105 in the corresponding week of the previous year; Lahore 35 against 48; Amritsar 44 against 42; and Multán, 38 against 76. There were 8 deaths reported from plague in Palwal. Of the 28 deaths from small-pox, 8 were registered in Amritsar, 6 each in Batála and Wazírabád, 3 in Ferozepore, 2 in Kartárpur, and 1 each in Ráekot, Kasúr and Multán. There were 2 deaths recorded from cholera, 1 each in Lahore and Kasúr.

Deaths reported from plague during the week ending 16th November 1907 in the districts, including all municipal towns:—Hissar 27, Rohtak 25, Gurgaon 58, Delhi 7, Karnál 56, Ambála 1, Hoshiárpur 10, Ludhiána 4, Lahore 1, Amritsar 1, Gurdáspur 4, Shahpur 3, Jhelum 22, Ráwalpindi 23 Attock 21 and Lyallpur 1; Patiála State 12 and Jínd State 14. Total for the province 290. Total for the previous week 272. Total for the corresponding week of the previous year 1,137.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, NOVEMBER 29, 1907.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 26th NOVEMBER 1907.

[Seventeen out of 20 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
1	Hissar ...	...	1. Sufficient ... 2. Do. 3. Good.	Wheat, 9½ seers Gram, 13 seers. Bájra, 11¼ seers. Bejhar, 14 seers.	Sowings on irrigated land completed No sowings on dry land for want of rain except in Sirsa tahsíl.	Cotton being picked. Outturn good.
2	Rohtak ...	...	1. Sufficient, but getting dearer. 3. Good.	Wheat, 9 seers ... Gram, 12 seers. Jowár, 12 seers. Maize, 12 seers.	Sowings in progress.	Sugarcane being pressed and cotton picked. Outturn of sugarcane not good, and of cotton below average.
3	Gurgaon ...	...	1. Sufficient for present needs except at Firozpur where scarcity has begun. 3. Fair.	Wheat, 8½ to 10 seers. Barley, 11½ to 13 seers. Gram, 11 to 13 seers. Bájra, 10 to 13 seers. Maize, 11 seers.	Sowings in progress on irrigated lands.	Unirrigated crops are in a gloomy state and irrigated seem to be fair.
4	Delhi ...	...	1. Scarce ... 2. Canal closes during the week. Water urgently needed for canal irrigated areas. 3. Good.	Wheat, 8½ seers... Barley, 12 seers. Gram, 12 seers. Bájra, 10 seers. Maize, 11½ seers. Jowár, 12 seers.	Sowings in progress on well irrigated lands.	No amelioration of situation. Cotton picking and sugarcane pressing in progress. Outturn below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
5	Ambála ...	...	1. Decreasing daily ... 2. Ditto. 3. Good.	Wheat, 9 to 9¾ seers. Gram, 12 to 12¼ seers. Barley, 12¾ seers. Maize, 11¾ seers. Jowár, 11¾ seers. Bájra, 11¾ seers.	Sowings on irrigated lands in progress. Dry lands also being sown in hopes of rain.	...
6	Jullundur ...	...	1. Supply decreasing, though sufficient for present needs. 3. Good, but suffering from overwork.	Wheat, 9½ seers Gram, 12¾ seers. Maize, 13½ seers. Jowár, 13 seers. Gur, 6 seers. Moth, 12 seers.	Sowings continue	Cotton and chilly pickings in progresss. Sugarcane being pressed. Harvesting of maize, &c., going on. Standing well crops fair; unirrigated bad.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Wheat, 9 seers ... Barley, 16 seers. Gram, 12 seers. Jowár, 12 seers. Maize, 13 seers.	Sowings of wheat and gram continue.	Irrigated standing crops below average.
8	Lahore ...	...	1. Some scarcity felt in tahsíl Sharakpur and Hithár circle of tahsíl Kasúr. 3. Good for the present.	Wheat, 9½ to 10 seers. Gram, 13 to 14 seers.	Sowings continue on irrigated lands.	Cotton and chillies being picked up Outturn below average in irrigated tracts and at a minimum in unirrigated tracts, where the crops generally failed. Rats damaging the standing crops.
9	Amritsar ...	...	1. Green fodder scarce 3. Good.	Wheat, 9¾ seers Gram, 13½ seers. Barley, 16 seers. Maize, 13¼ seers. Bájra, 12 seers.	Sowings continue	Picking of cotton and harvesting of other crops in progress. Condition of crops on irrigated area average, and on unirrigated bad.
10	Siálkot ...	...	1. Sufficient ... 3. Getting meagre by overwork and want of fodder.	Wheat, 8½ seers Barley, 15 seers. Gram, 13 seers. Rice, 6½ seers.	Sowings on irrigated lands continue. Toka (grass-hopper) injured germination in parts.	Cotton picking and sugarcane pressing in progress. Yield average on irrigated and poor on unirrigated lands. Condition of standing crops bad to average.
11	Gujránwála ...	...	1. Insufficient. Sugarcane being used. 3. Weakened by overwork and want of fodder.	Scarcity rates prevail.	Sowings continue on irrigated areas. Gujra branch canal supply closed.	Rice nearly harvested and cotton being picked. Yield below average.
12	Shahpur ...	...	1. Scarce in tahsíl Khusháb. 3. Good.	Wheat, 9½ to 11 seers. Barley, 15 to 20 seers. Gram, 14 seers. Jowár, 17 to 18 seers. Bájra, 13 to 15 seers. Maize, 15 to 18 seers.	Sowings of wheat, barley and poppy and ploughings for other crops in progress.	Standing crops in fair condition. Rats damaging crops in Sargodha. Cotton picked. Outturn good to average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring	Prospects of Autumn
13	Rawalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 10 seers ... Barley, 14¼ seers. Bájra, 13 seers. Gram, 13 seers. Maize, 14 seers.	Sowings on irrigated area continue. Nearly ¼th of the average area has been sown.	Condition of crops average on irrigated and bad on unirrigated lands.
14	Miánwáli ...	...	1. Procurable ... 3. Fair.	Wheat, 11 seers ... Barley, 19 seers. Gram, 15 seers. Bájra, 14 seers.	Sowings in progress.	Standing crops in poor condition. Outturn below average.
15	Lyallpur ...	...	1. Sufficient ...	Wheat, 10 seers ... Gram, 14 seers. Jowár, 14 seers. Maize, 14 seers.	Sowings continue	Condition of standing crops average. Outturn of cotton and maize average.
16	Jhang ..	...	1. Insufficient ...	High ..	...	Crops being harvested. Outturn below average. Rats did some damage to crops in tahsil Chiniot.
17	Multán ...	...	1. Insufficient ...	Wheat 10¼ seers Gram, 14¾ seers. Maize, 14¾ seers.	Sowings in progress.	Cotton pickings continue. Outturn below average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—There are very little fluctuations in prices as compared with the previous week. Wheat is selling at or about scarcity rates in all districts except Miánwáli and Multán, where prices are between scarcity and warning rates. Prices of other staples are similarly high.

Agricultural operations.—Picking of cotton, pressing of sugarcane and harvesting of other autumn crops continue. Sowings of spring crops in progress on irrigated areas. Unirrigated areas in Ambála also being sown in hopes of rain.

Crops and outturn.—Condition and prospects of standing crops average to bad. Outturn of autumn crops generally below average on irrigated areas and poor on unirrigated areas.

Damage done to crops.—Rats continue damaging crops in Lahore, Shahpur and Jhang. Grass-hopper has injured young crops in Siálkot.

Agricultural stock.—Cattle suffering from overwork and want of sufficient fodder in Jullundur, Siálkot and Gujránwála. Their condition is good in other districts.

Pasturage.—Fodder scarce in Delhi, Amritsar, Siálkot, Gujránwála, Jhang, Multán and parts of Gurgaon, Lahore and Shahpur. Available supply of fodder also decreasing in Rohtak, Ambála and Jullundur.

Water-supply.—Canal closed in Delhi; water urgently needed for canal irrigated areas. Supply of water is also decreasing in Ambála.

N. B.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 26th November 1907.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 16th November 1907, there were 1,440 births registered in the 43 large municipal towns (758 males and 682 females), giving a birth rate of 52 *per mille* of population, and 1,170 deaths were registered (617 males and 553 females), giving a death rate of 42 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 48 against 94 in the corresponding week of the previous year; Lahore 37 against 48; Amritsar 53 against 4[illegible] and Multán 42 against 55. There were 10 deaths reported from plague in Palwal. Of the 22 deaths from small-pox, 11 were registered in Amritsar, 4 in Kartárpur, 2 in Multán and 1 each in Ferozepore, Lahore, Batála, Wazírabád and Gujrát. There was 1 death recorded from cholera in Ludhiána.

Deaths reported from plague during the week ending 23rd November 1907, *in the districts including all municipal towns:*—Hissar 19, Rohtak 15, Gurgaon 46, Delhi 5, Karnál 29, Ambála 15, Hoshiárpur 11, Forozepore 1, Montgomery 1, Lahore 1, Shahpur 8, Jhelum 33, Ráwalpindi 24, Attock 3, Jhang 3 and Lyallpur 3; Patiála State 61, Maler Kotla State 4, and Jínd State 22. Total for the province 304. Total for the previous week 314. Total for the corresponding week of the previous year 1,155.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

Supplementary notes on the condition and prospects of crops, etc., in the Delhi and Montgomery districts in the Punjab during the month of October 1907 received too late for insertion in the Supplement to the "Punjab Gazette," dated 15th November 1907.

DELHI DISTRICT.

No sowings. Unirrigated crops have dried up. Condition of irrigated crops below average. Outturn of unirrigated kharíf crops bad. Health of people generally good.

Canal supply insufficient. Prices high. Fodder getting scarce. No báráni crops will be sown owing to there being no rain.

MONTGOMERY DISTRICT.

Rabi sowings carried on to a small extent during the month. Cháhi and cháhi-nahri crops average, rest bad. Outturn of kharíf crops expected to be very small. Condition of cattle good. Fodder, chari and bhúsa sufficient.

Inundation canals have not flowed. Grain is still dear. Rain is urgently required before the 20th November for rabi sowings.

P. A. GABRIEL, SUPDT.,
Office of Director of Agriculture, Punjab.

TRAFFIC AUDIT OFFICE,
AJMER:
The 29th October 1907.

C. R. HOSKYN,
Chief Auditor and Accountant.

Punjab Government Press, Lahore—29-11-07—916.

No. 49 of 1907.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, DECEMBER 6, 1907.

PART I.
STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 3rd DECEMBER 1907.

[Seventeen out of 29 districts are dealt with.]

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9¾ seers Gram, 13 seers. Bájra, 11 seers. Bejhar, 14 seers.	Sowings in progress on irrigated lands and also on unirrigated in Sirsa and Fatahabad tahsíls.	Cotton pickings continue.
2	Rohtak ...	...	1. Sufficient. ... 3. Good.	Wheat, 9 seers ... Gram, 12 seers. Jowár, 12 seers. Maize, 12 seers.	Sowings in progress on irrigated lands. Condition of crops on irrigated lands good.	Sugarcane pressing and cotton pickings continue.
3	Gurgaon ...	...	1. Sufficient for present needs except at tahsíl Fírozpur where scarcity has begun.	Wheat, 8¾ to 10 seers. Barley, 11¾ to 12½ seers. Gram, 11½ to 12 seers. Bájra, 9½ to 11¾ seers. Maize, 11 seers.	Sowings in progress on irrigated lands. Some gram being sown on canal lands in Núh tahsil.	Irrigated crops appear to be in good condition; unirrigated bad.
4	Delhi ...	...	1. Scarce ... 2. Canal opened, but water-supply insufficient. 3. Good.	Wheat, 8¾ seers... Barley, 11½ seers. Maize, 11½ seers. Bájra, 9 seers. Gram, 11½ seers. Jowár, 10 seers.	Sowings of wheat and barley in progress on well irrigated lands.	Cotton pickings and sugarcane pressings continue. Outturn below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
5	Ambála ...	...	1. Daily decreasing ... 2. Ditto. 3. Generally good.	Wheat, 9 to 9¾ seers. Gram, 12 to 12¼ seers. Barley, 12¾ seers. Maize, 11¾ seers. Jowár, 11¾ seers. Bájra, 11¾ seers.	Sowings on well lands in progress.	...
6	Jullundur ...	...	1. Decreasing ... 3. Good, but suffering from overwork.	Wheat, 9½ seers Gram, 12¾ seers. Maize, 12½ seers. Jowár, 14 seers. Moth, 12 seers. Gur, 6 seers.	Sowings on irrigated area continue.	Cotton picking and sugarcane pressing in progress. Standing well crops fair: unirrigated bad. Cotton and sugarcane damaged by tela (green fly).
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Wheat, 9 seers ... Barley, 16 seers. Gram, 12 seers. Jowár, 12 seers. Maize, 13 seers. Bájra, 10 seers.	Sowings continue on irrigated lands.	Crops nearly cut and those standing are below average.
8	Lahore ..	...	1. Some scarcity felt in tahsíl Sharakpur and Hithár circle of tahsíl Kasúr. 3. Good for the present.	Rising ...	Sowings on irrigated lands continue. Toria *(brassica campestris)* being cut in some places.	Cotton pickings in progress. Outturn below average. Rats have done much damage to the cotton crop.
9	Amritsar ...	0·01 at Ajnála ...	1. Green fodder scarce; dry sufficient. 3. Good.	Wheat, 9½ seers... Gram, 13 seers. Barley, 15 seers. Maize, 12½ seers. Bájra, 11 seers.	Sowings continue	Cotton pickings and sugarcane pressings in progress. Condition of crops on irrigated area average; unirrigated bad.
10	Siálkot ...	0·01 at Sadr ... 0·14 at Zafarwál.	1. Green fodder not procurable; dry fodder insufficient. Sugarcane used as fodder in tahsíls Zafarwál and Siálkot. 3. Getting weak by overwork and want of fodder.	Wheat, 8 seers ... Barley, 15 seers. Gram, 12½ seers. Rice, 6 seers.	Sowings on irrigated lands in progress. Grasshoppers (toka) have injured germination in tahsíls Siálkot and Pasrúr.	Cotton pickings and sugarcane pressings continue. Yield average on well and poor on unirrigated lands. Threshing of rice commenced. Condition of standing crops average on irrigated and bad on unirrigated lands.
11	Gujránwála ...	...	1. Scarce ... 3. Good.	Wheat, 9 to 11 seers. Gram, 13 seers. Maize, 14 seers.	Sowings continue on irrigated lands. Prospects depend on rain.	Cotton and sugarcane on irrigated lands below average. All unirrigated crops have failed. Rice crops were in poor condition owing to damage done by rats.
12	Shahpur ...	...	1. Insufficient ... 3. Good.	Wheat, 9½ to 11 seers. Barley, 15 to 20 seers. Gram, 14 seers. Jowár, 16 to 18 seers. Bájra, 13 to 14 seers. Maize, 14 to 18 seers.	Sowings of wheat, barley and poppy in progress.	Cotton [illegible]ng picked. Outturn average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
13	Ráwalpindi ...	0·11 at Sadr ... 0·03 at Gujar Khan	1. Sufficient ... 3. Fair.	Wheat, 10 seers... Barley, 14½ seers. Bájra, 12¼ seers. Gram, 12¼ seers. Maize, 12½ seers.	Sowings on irrigated areas continue.	Condition of crops average on irrigated and bad on unirrigated areas.
14	Miánwáli ...	...	1. Procurable ... 3. Fair.	Wheat, 11 seers ... Barley, 19 seers. Gram, 15 seers. Bájra, 14 seers.	Sowings in progress.	Cotton average.
15	Lyallpur ...	...	1. Sufficient ... 3. Good.	Wheat, 10 seers ... Gram, 14 seers. Jowár, 13½ seers. Maize, 14 seers.	Sowings continue .	Standing crops in average condition. Cotton and sugarcane outturn average.
16	Jhang ..	...	1. Insufficient ... 3. Fair.	Wheat, 10 seers ... Jowár, 19 seers. Maize, 16 seers. Bájra, 13 seers Gram, 14 seers.	Sowings continue ..	Crops harvested. Yield of cotton good, and of other crops generally average.
17	Multán ...	0·03 at Sadr ... 0·01 at Shujabad. 0·01 at Kabírwála	1. Insufficient ...	Wheat 9¼ seers... Gram, 14½ seers. Maize, 13¼ seers.	Sowings in progress.	Yield of cotton below average.

GENERAL REMARKS.

Rainfall.—Slight rain has fallen in parts of Amritsar, Siálkot, Ráwalpindi and Multán.

Prices.—Prices in some districts still rising slightly as compared with those of last week. Wheat is selling at or about scarcity rates in all districts except Miánwáli and Multán where it is selling between scarcity and warning rates. Prices of other food-grains are similarly high.

Agricultural operations.—Autumn crops being harvested. Cotton picking and sugarcane pressings in progress. Sowings of spring crops continue on irrigated lands. Harvesting of Toria (*Brassica campestris*) commenced in Lahore.

Crops and outturn.—Condition and prospects of irrigated crops average to bad. Outturn of autumn crops generally below average. Yield of cotton reported good from Jhang only.

Damage done to crops.—Damage by green-fly to cotton and sugarcane reported from Jullundur. Rats have damaged cotton in Lahore and rice crop in Gujránwála. Grass-hoppers continue damaging young crops in Siálkot.

Agricultural stock.—Cattle suffering from overwork and want of sufficient fodder in Jullundur and Siálkot.

Pasturage.—Fodder scarce in Delhi, Siálkot, Gujránwála, Shahpur, Jhang, Multán and parts of Gurgaon and Lahore. Supply of fodder also decreasing in Ambála and Jullundur. In Amritsar green fodder scarce, but dry sufficient.

Water-supply.—Canals opened in Delhi; but water-supply insufficient. Water-supply also decreasing in Ambála.

P. A. GABRIEL, SUPDT.,
for *Director of Agriculture, Punjab.*

SANITARY COMMISSIONER'S OFFICE, }
LAHORE :
The 3rd December 1907.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

Remarks by the Sanitary Commissioner, Punjab.

EIGHTY-FOUR THOUSAND AND SIXTY-ONE births were registered in the province during the month of October 1907, giving a birth-rate of 49 *per mille* of population. Of the total number of births, 43,746 were boys and 40,315 were girls.

The total number of deaths registered from all causes in the province during the month of October 1907 was 60,828 against 49,953 in the previous month, and 76,548 in the corresponding month of the past year, giving an annual death-rate of 36, 30 and 45 *per mille* of population per annum, respectively.

There were 58 deaths registered under the head of cholera against 154 in the previous month and 507 in the corresponding month of the past year.

The total mortality from plague amounted to 1,201 against 731 in the previous month and 1,671 in the corresponding month of the past year.

From small-pox 328 deaths were registered against 378 in the previous month and 370 in the corresponding month of the past year; fevers 38,570 against 30,383 and 50,742; dysentery and diarrhœa 1,764 against 1,448 and 2,258; respiratory diseases 5,191 against 4,349 and 5,928. During the month there were 29 deaths registered from suicide against 28 in the past month; wounding 44 against 49; accidents 287 against 461; snake-bite and killed by wild beasts 117 against 256; and from all other causes 13,239 against 11,716 in the previous month and 14,504 in the corresponding month of the past ear.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE, LAHORE:
The 4th December 1907.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 23rd November 1907 there were 1,338 births registered in the 42 large municipal towns (703 males and 635 females), giving a birth rate of 49 *per mille* of population, and 1,206 deaths were registered (625 males and 581 females), giving a death rate of 44 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 56 against 85 in the corresponding week of the previous year; Lahore 42 against 50; Amritsar 48 against 42; and Multán 39 against 58. There were 11 deaths reported from plague in Palwal. Of the 35 deaths from small-pox, 13 were registered in Ferozepore, 12 in Amritsar, 4 in Kartárpur, and 1 each in Jullundur, Jagraon, Lahore, Wazírabad, Jalálpur and Multán. There were 8 deaths recorded from cholera in Lahore.

Deaths reported from plague during the week ending 30th November 1907, in the districts including all municipal towns:—Hissar 35, Rohtak 8, Gurgaon 31, Delhi 4, Karnál 104, Ambála 10, Hoshiárpur 23, Ludhiána 7, Ferozepore 36, Montgomery 1, Lahore 6, Jhelum 40, Ráwalpindi 27, Attock 1, and Lyallpur 8; Patiála State 44, and Maler Kotla State 4. Total for the province 389. Total for the previous week 304. Total for the corresponding week of the previous year 1,550.

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, DECEMBER 13, 1907.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 10th DECEMBER 1907.

[Seventeen out of 20 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers Bajra, 12 seers. Gram, 13 seers. Bejhar, 14 seers.	Prospects of irrigated spring crops good. Unirrigated crops in Sirsa and part of Fatahabad tahsils fairly good. Spring crops not sown in other tracts for want of rain.	
2	Rohtak ...	...	1. Sufficient. ... 3. Good.	Wheat, 9 seers ... Gram, 12 seers. Maize, 12 seers. Jowar, 11¾ seers.	Sowings in progress on irrigated lands.	Sugarcane pressing continues. Condition of standing crops on irrigated lands good.
3	Gurgaon ...	...	1. Fodder sufficient for present needs except in Firozpur tahsil where scarcity has begun to make itself felt. 3. Fair.	Wheat, 8 to 10 seers. Barley, 11 to 12½ seers. Gram, 11 to 12½ seers. Bajra, 9¾ to 11½ seers. Maize, 11 seers.	Sowings in progress on irrigated lands.	Irrigated crops in good condition; unirrigated bad.
4	Delhi ...	...	1. Scarce ... 2. Insufficient. 3. Good.	Wheat, 8½ seers... Gram, 11 seers. Barley, 11 seers. Jowar, 10 seers. Bajra, 8½ seers. Maize, 11 seers.	Sowings in progress on canal and well-irrigated lands. Crops sown to a small extent only. Unirrigated sowings confined to riverain tracts. Condition of standing crops average	Yield of cotton and sugarcane below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Daily decreasing ... 2. Ditto. 3. Generally good.	Wheat, 8¼ to 8¾ seers. Gram, 11¼ to 11¾ seers. Barley, 11¾ seers. Maize, 10¾ seers. Jowar, 10¾ seers. Bajra, 9¾ seers.	Sowings in progress even on dry lands in the hope of early rainfall. Crops sown on unirrigated lands injured by white ants and rats in Naráingarh tahsíl.	...
6	Jullundur ...	...	1. Decreasing ... 3. Good, but suffering from overwork.	Wheat, 9½ seers. Gram, 12¾ seers. Maize, 12½ seers. Jowar, 14 seers. Moth, 12 seers. Gur, 6 seers.	Sowings on irrigated area in progress.	Cotton picking and sugarcane pressing continue. Standing well crops fair; unirrigated bad.
7	Ferozepore ...	...	1. Green fodder available. 3. Good.	Wheat, 9 seers ... Barley, 16 seers. Gram, 12 seers. Jowar, 12 seers. Maize, 13 seers. Bajra, 10 seers.	Sowings nearly finished.	Crops nearly cut and those standing are below average.
8	Lahore ..	...	1. Some scarcity in tahsil Sharakpur and in the *Hithár* circle of tahsil Kasúr. 3. Suffering from overwork.	Rising ...	Sowings on wet lands in progress. Toria (*brassica campestris*) being harvested. Condition of crops on wet lands average.	Cotton being picked. Outturn of cotton below average.
9	Amritsar ...	...	1. Green fodder scarce; dry sufficient. 3. Generally good.	Wheat, 9¼ seers... Gram, 12 seers. Barley, 14½ seers. Jowar, 12½ seers. Maize, 12 seers. Bajra, 11 seers.	Sowings on irrigated lands continue. Toria (*brassica campestris*) being harvested.	Cotton picking and sugarcane pressing in progress. Condition of irrigated crops average; unirrigated bad.
10	Siálkot ...	...	1. Green fodder not procurable; dry insufficient. Sugarcane used as fodder in tahsils Zafarwál and Siálkot. 3. Getting weak from overwork.	Wheat, 8½ seers. Barley, 13 seers. Gram, 15 seers. Rice, 6½ seers.	Sowings on irrigated lands in progress. Grasshopper (*toka*) has injured young crops in tahsil Siálkot	Cotton picking and sugarcane pressing in tahsil Zafarwál and rice threshing in tahsil Siálkot continue. Yield average on irrigated and poor on unirrigated lands. Rats have injured cotton and sugarcane crops in tahsils Zafarwál and Raya.
11	Gujránwála ...	...	1. Fodder scarce ...	Wheat, 8½ to 10 seers. Gram, 13 seers. Maize, 13 seers. Bajra 11½ to 13 seers.	Sowings on irrigated lands continue. Crops on irrigated lands doing well. Rats damaging young crops.	Yield of rice average. Outturn of cotton good.
12	Shahpur ...	...	1. Scarce ... 3. Poor.	Wheat, 9 to 11 seers. Barley, 13 to 18 seers. Gram, 12½ to 16 seers. Maize, 11 to 16 seers.	Sowings in progress.	Cotton being picked. Outturn below average. Standing crops suffering from want of rain. Rats damaging cotton and sugarcane in Sargodha tahsíl.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring	Kharif
13	Rawalpindi ...	...	1. Sufficient ... 3. Fair.	Wheat, 9½ seers. Barley, 14½ seers. Bajra, 11¾ seers. Gram, 12½ seers. Maize, 12½ seers.	Very little wheat sown.	Condition of crops average on irrigated and bad on unirrigated lands.
14	Miánwáli ...	...	1. Procurable ... 3. Fair.	Wheat, 11 seers ... Gram, 15 seers. Barley, 17 seers. Bajra, 14 seers.	Sowings in progress.	Condition of standing irrigated crops average; unirrigated poor.
15	Lyallpur ...	...	1. Sufficient ... 2. Complaints of short water supply from tahsil Samundri. 3. Good.	Wheat, 9½ seers. Gram, 13 seers. Jowar, 12 seers. Maize, 14 seers.	Sowings in progress.	Standing crops in average condition. Outturn of sugarcane and cotton average, and that of jowar (great millet) and maize below average.
16	Jhang ..	...	1. Insufficient ... 3. Fair.	High ..	Sowings in progress.	Outturn generally average.
17	Multán ...	...	1. Insufficient ...	Wheat, 9½ seers... Gram, 14¾ seers. Maize, 13¾ seers.	Sowings in progress.	Cotton below average. Condition of standing crops both on irrigated and unirrigated areas average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—Prices still rising in some districts. Wheat is selling at above "scarcity" rates in all districts except Miánwáli and Multán where prices are between "warning" and "scarcity" rates. Prices of other food-grains are equally high.

Agricultural operations.—Cotton picking and sugarcane pressings in progress. Sowings of spring crops continue on irrigated lands, but are very restricted on unirrigated land. Toria (*brassica campestris*) being harvested in Lahore and Amritsar.

Crops and outturn.—Condition of irrigated crops good to below average: unirrigated crops bad. Outturn of irrigated crops about average and of unirrigated crops poor.

Damage done to crops.—Rats damaging crops in parts of Ambála, Siálkot, Gujránwála and Shahpur. Unirrigated crops injured by white ants in parts of Ambála. Young crops attacked by grass-hoppers in parts of Siálkot.

Agricultural stock.—Cattle suffering from overwork and scarcity of fodder in Jullundur, Lahore and Siálkot.

Pasturage.—Fodder scarce in Delhi, Siálkot, Gujránwála, Shahpur, Jhang, Multán and parts of Gurgaon and Lahore. Supply of fodder also decreasing in Ambála and Jullundur. In Amritsar green fodder scarce, but dry sufficient. Sugarcane being used as fodder in parts of Siálkot.

Water-supply.—Water-supply insufficient in Delhi and Lyallpur. Water-supply also decreasing in Ambála.

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 11th December 1907.

KASHI RAM, Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 30th November 1907 there were 1,419 births registered in the 42 large municipal towns (714 males and 705 females), giving a birth rate of 32 *per mille* of population, and 1,291 deaths were registered (656 males and 635 females), giving a death rate of 47 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 59 against 82 in the corresponding week of the previous year; Lahore 42 against 42; Amritsar 58 against 45; and Multán 53 against 80. There were 10 deaths reported from plague in Palwal. Of the 35 deaths from small-pox, 15 were registered in Amritsar, 4 each in Lahore and Wazírabad, 3 in Batála, 2 in Kasúr and 1 each in Kartárpur, Jagraon, Gujránwála, Jalálpur, Ráwalpindi, Lyallpur and Multán. There were 11 deaths recorded from cholera in the Lunatic Asylum, Lahore.

Deaths reported from plague during the week ending 7th December 1907, *in the districts including all municipal towns:*—Rohtak 22, Gurgaon 41, Delhi 4, Karnál 53, Ambála 9, Hoshiárpur 17, Ludhiána 9, Ferozepore 3, Montgomery 4, Lahore 11, Gurdáspur 1, Siálkot 13, Jhelum 32, Ráwalpindi 20, Jhang 1 and Lyallpur 9; Patiála State 10, and Jind State 20. Total for the province 279. Total for the previous week 401. Total for the corresponding week of the previous year 1,921.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

LAHORE:
The 15th November 1907.

G. B. GOYDER,
for *Examiner of Accounts, North-Western Railway.*

SUPPLEMENT TO THE

Government Gazette

PUNJAB AND ITS DEPENDENCIES.

Published by Authority.

LAHORE, FRIDAY, DECEMBER 20, 1907.

PART I.

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 17th DECEMBER 1907.

[Seventeen out of 20 districts are dealt with.]

No	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 8¼ seers Bajra, 10½ seers. Gram, 12¼ seers. Bejhar, 13 seers.	Prospects of irrigated crops good. Unirrigated crops not sown for want of rain excepting on area subject to floods in Sirsa and Fatahabad tahsils.	...
2	Rohtak ...	...	1. Sufficient. .. 3. Generally good.	Wheat, 8⅓ seers Gram, 11⅓ seers. Jowar, 11¾ seers. Maize, 12 seers.	Sowings continue on irrigated lands. Condition of standing crops good.	Sugarcane pressings continue.
3	Gurgaon ...	...	1. Sufficient for present needs except in Firozpur tahsil where scarcity has begun to be felt. 3. Fair.	Wheat, 8½ to 9½ seers. Barley, 11 to 12 seers. Gram, 11 to 12½ seers. Bajra, 9 to 10 seers. Maize, 10 to 11 seers.	Sowings in progress on irrigated lands. Irrigated crops in good condition: unirrigated bad.	...
4	Delhi ...	...	1. Scarce ... 2. Canal closed during the week. 3. Generally good.	Wheat, 8⅓ seers... Barley, 11 seers. Gram, 11 seers. Bajra, 8⅓ seers. Jowar, 10 seers. Maize, 11 seers.	Sowings in progress on well and canal-irrigated lands. Unirrigated lands sown to a very small extent in riverain tracts. Condition of standing crops average	Outturn of cotton, sugarcane, vegetables and fruits below average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Daily decreasing ... 2. Ditto. 3. So far generally good.	Wheat, 8¼ to 8¾ seers. Gram, 11¼ to 11¾ seers. Barley, 11¾ seers. Maize, 10¾ seers. Jowar, 10¾ seers. Bajra, 9¾ seers.	Sowings in progress. Crops sown on unirrigated lands injured by white-ants and rats in Naráingarh tahsíl.	...
6	Jullundur ...	...	1. Decreasing ... 3. Suffering from over-work.	Wheat, 9 seers ... Gram, 11 seers. Maize, 10 seers. Jowar, 14 seers. Moth, 11 seers.	Sowings in progress on irrigated lands. Standing well crops fair; unirrigated bad.	Cotton pickings and sugar-cane pressing continue.
7	Ferozepore ...	...	1. Sufficient, but green fodder not available. 3. Good.	Wheat, 8 seers ... Barley, 13 seers. Gram, 12 seers. Jowar, 9 seers. Bajra, 9 seers. Maize, 12 seers.	Sowings of wheat continue on well irrigated lands. Young crops being damaged by insects and frost.	...
8	Lahore ..	...	1. Scarcity felt in tahsíls Sharakpur and Lahore, also in Hither circle of tahsíl Kasúr. 3. Cattle suffering from overwork and severe cold.	Wheat 8½ seers .. Gram 12½ seers. Bajra 11½ seers. Maize 12 seers.	Sowings of wheat and barley continue on wet lands. Condition of standing irrigated crops average. Rats done much damage to young crops.	Cotton picking, toria (*brassica campestris*) harvesting and sugar-cane pressings in progress. Outturn of cotton below average.
9	Amritsar ..	...	1. Dry fodder scarce in tahsíl Ajnála: green not available. 3. Good.	Wheat, 8¾ seers... Gram, 12 seers. Barley, 13 seers. Jowar, 11½ seers. Maize, 11½ seers. Bajra, 11 seers.	Sowings continue Toria (*brassica campestris*) being reaped Condition of crops on irrigated area average: on unirrigated bad.	Cotton pickings and sugar-cane pressing going on.
10	Siálkot ..	...	1. Insufficient. Green fodder not procurable. Sugar-cane used as fodder in tahsíl Siálkot. 3. Cattle getting lean by overwork and want of fodder.	Wheat, 8 seers ... Barley, 13 seers. Gram, 11¾ seers. Rice, 6½ seers.	Sowings of wheat on irrigated lands continue and have also commenced on unirrigated land in some villages. Condition of standing crops average on irrigated and bad on unirrigated lands.	Harvesting of rice in progress. Yield average on irrigated and poor on unirrigated lands.
11	Gujránwála ...	...	1. Scarce ...	Wheat, 8 to 10 seers. Gram, Maize, } 12 to 14 seers. Bajra 11½ to 12 seers.	Sowings of wheat and barley on irrigated and riverain lands in progress Condition of irrigated crops about average. Rats damaging the young crops.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Shahpur ...	...	1. Insufficient in unirrigated areas. 3. Fair to poor.	Wheat, 9 to 10 seers. Barley, 13 to 17 seers. Gram, 12½ to 14 seers. Jowar, 13 to 15 seers. Bájra, 11 to 12 seers. Maize, 11 to 14 seers.	Sowings of wheat and poppy in progress. Standing crops in good condition in Sargodha; fair over other irrigated parts; poor elsewhere. Rats damaging crops in tahsils Bhera and Sargodha.	Cotton being picked. Outturn below average.
13	Ráwalpindi ...	...	1. Scarce in tahsils Kahúta and Gujar Khan. 3. Fair to bad..	Wheat, 9¼ seers. Barley, 11¼ seers. Bajra, 11½ seers. Gram, 12½ seers. Maize, 12½ seers.	Condition of standing crops average on irrigated and bad on unirrigated lands.	...
14	Miánwáli ...	...	1. Procurable ... 3. Fair.	Wheat, 10 seers ... Gram, 13 seers. Barley, 14 seers. Bajra, 12 seers.	Sowings in progress. Standing irrigated crops average; unirrigated poor.	...
15	Lyallpur ...	...	1. Sufficient; green fodder scarce. 2. Complaints of shortage of canal water-supply are general.	Wheat, 9½ seers. Gram, 11 seers. Jowar, 12 seers. Maize, 14 seers.	Wheat sowings continue. Standing crops in average condition. Outturn of toria (*brassica campestris*) average. Rats have damaged toria and wheat crops in parts of Lyallpur.	Outturn of cotton and sugarcane average, and that of great millet and maize below average.
16	Jhang ..	...	1. Insufficient ... 3. Fair.	Wheat, 9 seers. Maize, 11 seers. Jowar, 12 seers. Gram, 13 seers. Bajra, 13 seers.	Sowings continue.	...
17	Multán ..	...	1. Insufficient ...	Wheat, 9½ seers... Gram, 13¼ seers. Maize, 13¼ seers.	Wheat and barley being sown. Condition of standing crops average.	Outturn of cotton below average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—Prices of food-grains are generally above scarcity rates except of wheat and gram in Multán. Prices are still rising everywhere.

Agricultural operations.—Cotton picking and sugarcane pressings in progress. Toria (*brassica campestris*) being harvested. Rice still being harvested in Siálkot.

Crops and outturn.—Condition and prospects of standing irrigated spring crops good to average; of unirrigated bad. Outturn of irrigated autumn crops is average to below average, and that of unirrigated poor.

Damage done to crops.—Rats are damaging young spring crops in Ambála, Lahore, Gujránwála and Shahpur. The crops have also been damaged by insects and white-ants in Ambála and Ferozepore. Frost has injured the crops in Ferozepore.

Agricultural stock.—Cattle suffering from overwork, cold and scarcity of fodder in Lahore, Jullundur and Siálkot. Condition of cattle fair to bad in Shahpur and Ráwalpindi.

Pasturage.—Fodder scarce in Delhi, Siálkot, Gujránwála, Jhang, Multán and in parts of Gurgaon, Lahore, Amritsar, Shahpur and Ráwalpindi. Green fodder not available in Ferozepore, Amritsar, Siálkot and Lyallpur. Sugarcane being used as fodder in Siálkot. Supply of fodder decreasing in Ambála and Jullundur.

Water-supply.—Complaints of shortage of canal water reported from Lyallpur. Canal closed in Delhi. Water-supply decreasing in Ambála.

W. C. RENOUF,

Director of Agriculture, Punjab.

...ht rain.

...gauge station.

P. A. GABRIEL, Supdt.,

Office of Director of Agriculture, Punjab.

Notes on the condition and prospects of crops, etc., in each district of the Punjab during the month of November 1907.

1.—HISSAR DISTRICT.

No rain during the month and no rabi sown on unirrigated land except in the Nali tracts of Sirsa and Fatahabad tahsíls. Rabi is being sown on irrigated land. Cotton being picked. Outturn good. Cattle in good condition. Fodder sufficient.

2.—ROHTAK DISTRICT.

Sowing of wheat on Nahri lands in progress. Cotton picking in progress. Sugarcane pressing begun. Yield of both cotton and cane is expected to be below average. Cattle generally in good condition. Canal supply was stopped during greater part of the month. Rabi sowings have been seriously impeded.

3.—GURGAON DISTRICT.

No rain. Wheat, barley and sarshaf were being sown on canal and well lands. In Núh tahsíl some gram was sown on Dahri land, while in Fírozpur, barley, gram and sarshaf were sown on lands where moisture existed. On the whole ¾ths of sowing has been made throughout the district. Irrigated crop was in good condition and unirrigated crop was in a bad state. Outurn of irrigated crops is expected to be average, but that of unirrigated bad. Cattle in fair condition. Fodder was sufficient for present needs, except in Fírozpur where scarcity had begun. Health of the people good. Canal water was being used during the month under report.

4.—DELHI DISTRICT.

Barley, wheat, carrots, etc., were sown during the month. Sowings were generally made on irrigated lands. Unirrigated areas being sown to a very small extent. Condition of irrigated crops average. Outturn expected to be average. Cattle in good condition. Health of people generally good. Canal supply insufficient. Fodder scarce.

5.—KARNAL DISTRICT.

Sowings of wheat, barley and sarson are proceeding on irrigated lands. Practically no unirrigated sowings have been made except in the Bet Markanda. The condition of vegetables and cane is fair. Kharif crops have been reaped. The expected yield of irrigated crops is below average, and that of barani bad. Condition of cattle good and supply of fodder except in Bangar and Nardak, Karnál, sufficient. Water in ponds of Kaithal tahsíl is drying up. Public health is good. No inundation. The supply of water in the canals is not adequate. Canals have been running. Prevailing rates are very high.

6.—AMBALA DISTRICT.

No rainfall. Wheat and oilseeds sown to the extent of about ¼th of the normal. The seed sown has germinated fairly, and the crop is doing well up to this time. The kharif crop has generally been cut and gathered. Sugarcane and cotton are still standing. Sugarcane is suffering from want of rain. Cotton is being picked and the yield is much below the average. Cattle are in a fairly good condition. There is no green grass now, but the fodder crop of kharif 1907 is in hand and is being used. This will last for one or two months, and in some places a little longer. Some irrigation is done from the Western Jumna Canal in tahsil Jagádhri. It is reported that the supply of water is not quite sufficient. Health of the people is good on the whole.

7.—SIMLA DISTRICT.

No rainfall during the month in either of the tahsíls. In the Simla tahsíl wheat and barley and in the Kaithal tahsíl barley and poppy were sown to the extent of $\frac{3}{5}$ths and $\frac{1}{16}$th of the expected sowings. The condition of crops bad in both tahsíls for want of rain. The condition of cattle good in both tahsíls. Fodder and grazing insufficient in the Simla tahsíl; in Kot Khái fodder is sufficient. The state of public health is good. The water-supply from hill streams in the Simla tahsíl is low, in Kot Khái sufficient. In the Simla tahsíl $\frac{1}{4}$th and in the Kot Khai tahsíl $\frac{1}{4}$th of the normal areas were watered.

8.—KANGRA DISTRICT.

A greater part of the irrigated area and a small portion of the unirrigated area has been sown with wheat and barley. No rain has fallen as yet and consequently nothing can be said at present about the condition of the crops. It is too early yet to say anything about the expected yield. There is no disease among cattle. The public health is generally good. Water was sufficient in kuh's streams) The prices of food-grains are rising.

9.—HOSHIARPUR DISTRICT.

Except for insignificant showers in Dasúya and sadr station no rain fell at all during the month throughout the district. Sowings of wheat, gram and barley continued, but still greatly retarded for want of moisture. Kacha wells were dug in some villages for sowings being made with the aid of irrigation. Some considerable contraction in the area sown is anticipated unless rain falls. Reports still arrive of the damage being done to cotton by "tela." Picking of cotton discontinued, the green fly pest having interfered with it. Sugarcane crop in average condition. It is withering in some places owing to abnormal weather conditions. The outurn is expected to be far below the average unless it rains. Cattle in good condition but suffering from effects of overwork. Fodder sufficient, but more or less general scarcity will soon make itself felt. The state of public health good. Irrigation from the Shah Nahr Canal, hill torrents and wells continued. The water-supply is decreasing. There was sufficient water in the Shah Nahr Canal. There were very little fluctuations in prices during the month. The upward tendency has been temporarily checked.

10.—JULLUNDUR DISTRICT.

Rabi ploughings and sowings on irrigated areas continued throughout the month. The condition of chahi crops slightly below average; barani bad. Sugarcane damaged by "tela" recovered slightly. The expected yield below average. Cattle are in a lean condition owing to overwork. The state of the public health is good.

11.—LUDHIANA DISTRICT.

Owing to absence of rain, the sowings of rabi crops were completed in only half the unirrigated area during the month; those on irrigated area are nearly completed. The condition of sugarcane is generally good; that of cotton about average. The rabi crops are germinating satisfactorily. The yield of kharif crops is average to below average. Cattle in good condition. Fodder sufficient. State of public health satisfactory. Irrigation from canals satisfactory, but most of the distributaries in this district are closed in October and do not give water for rabi crops. Prices rose slightly during the month.

12.—FEROZEPORE DISTRICT.

Wheat, barley and gram were sown on irrigated lands during the month under report. Crops have been cut almost everywhere except in few places where they are below average. Yield expected to be below average. Cattle in good condition. Sirhind Canal had been flowing and a normal area was irrigated from it. There were no floods in the river. Agriculturists are generally well off, but are in great need of rain. Stocks of food-grains and fodder are ample. Green fodder available.

13.—MONTGOMERY DISTRICT.

Rabi sowings have continued during the month, during the latter part of the month principally on well lands Kharif crops are bad except in the case of chahi and chahi-nahri. Outturn of kharif has been much below the average. Condition of cattle good. Fodder sufficient at present. Rats are reported to be dying in Syadwála in the Gugera tahsíl. There is very little water in the Sutlej while the Ravi and the canals have dried up. There was slight rain in the Montgomery tahsíl on the night of the 28th and 29th, but not sufficient to do any good and it has not continued. Rain is urgently required.

14.—LAHORE DISTRICT.

Wheat and barley were sown on irrigated land during the month. Standing crops are below verage. Yield of co ton below average. Condition of cattle is generally fair. The state of public he lth is good The perennial canals ran by turn ; there was no flood in the rivers Pric s of goo -grains are rising.

15.—AMRITSAR DISTRICT.

There was practically no rainfall. Sowings of wheat, barley, gram, sarshaf and of other rabi crops were done during the month. Standing crops on irrigated areas average ; on barani lands poor. Yield of standing kharif crops like sugarcane and cotton average on the irrigated land. Kharif crops of barani lands have been gathered with poor yield. No estimate can be formed of rabi crops sown recently. Cattle in good condition, though put to hard work. Fodder becoming scarce Public health generally good. Canal water-supply not so sufficient, though the Canal authorities are making efforts to meet the necessary requirements. No floods in the rivers. Prices rising.

16.—GURDASPUR DISTRICT.

Wheat, barley and massar were sown on chahi, nahri and sailab lands. In tahsíl Shakargarh the cultivators have sown even in lands where there was no moisture, but this has not sprouted as yet. Irrigated and sailab crops are in average and barani in bad condition On irrigated or low lands cane is still alive, but requires rain. On high barani land it has mostly dried. The outturn of cane, cotton, rice and mash is equal to average, but that of other crops below it. The condition of cattle good throughout the district. Green fodder scarce, dry fodder getting short. The state of public health good on the whole. No waterings were given from Government canals which are flowing. In tahsíl Gurdáspur the zamindari kuhl irrigated wheat crop in some places. Rivers low. Scarcity is beginning to be felt, but if there is rain during December there will be no general distress.

17.—SIALKOT DISTRICT.

Sowings of wheat, barley and mustard (sarson) continued on irrigated lands. The condition of standing crops average on irrigated and bad on barani lands. Rats and tela have injured cotton and sugarcane crops. Toka has also injured the germination. Picking of cotton continued and harvesting of maize crop finished. Yield average on irrigated and poor on barani lands. The cattle are getting feeble by overwork and scarcity of fodder. Public health generally good. Water sufficient in Bajwat canals according to the season. No inundation during the month.

18.—GUJRANWALA DISTRICT.

Wheat and barley sown on sailab lands. No sowings on barani land. Rice cut. Pickings of cotton in progress. Rice and cotton damaged by rats. Sugarcane is being used as fodder. Sarshaf doing well on irrigated lands. Yield of kharif crops poor. Cattle suffering from overwork and scarcity of fodder. Canal working as usual. Stocks insufficient and prices are rising.

19.—GUJRAT DISTRICT.

Sowings of wheat and barley on irrigated lands in progress. Sowings on unirrigated lands ceased for want of moisture. Condition of sugarcane and cotton crops and germination of spring crops on irrigated lands generally good Germenation of spring crops on unirrigared lands fair to bad Picking of cotton in progress. Yield in the case of irrigated crops fair. Cattle in good condition. Fodder decreasing. Public health good. Prices rising.

20.—SHAHPUR DISTRICT.

Some sowings of wheat and barley done. The condition of sugarcane, toria and cotton in Sargodha average and in other tahsíls below average Rats are doing great damage in Sargodha and have appeared in some villages of Shahpur tahsíl. The yield of cotton has been average; as to sugarcane the zamindars are using it as fodder and it is to be seen what portion will remain to extract *gur*. The cattle are in fair condition. Most of them have been taken away to other parts specially to the Jhelum Colony. Tahsíl Khusháb is feeling the pinch of scarcity of fodder; in other tahsíls the people are using old bhusa, which is rotten and in some cases produces colic. Public health good. There was no water in private canals, and there were no hill torrents as there was no rain. Nearly ¼th area was not irrigated on account of insufficiency of water in the Jhelum canals. Prices stationary. Stocks of grain sufficient in Bhera and Shahpur, but not in Khusháb.

21.—JHELUM DISTRICT.

Rabi sowings continued on barani lands in expectation of rainfall. Condition of crops little above the average on irrigated and sailab lands; poor elsewhere. The expected yield cannot be estimated yet. Condition of cattle good. Fodder decreasing and stocks of bhusa being consumed. The state of public health is good. Prices are stationary.

22.—RAWALPINDI DISTRICT.

There was very little rain in this month and about ¼th of the expected area was sown. State of the standing rabi crops average on irrigated and bad on barani (unirrigated) lands. Stock of fodder sufficient for the present, but no grazing available. There are no canals or any inundations in this district.

23.—ATTOCK DISTRICT.

No rain. Some sowing has been done in hopes of rain in Attock, Fatahjang and Pindigheb tahsíls. In Talagang ⅔rds of the sowings have been done. Condition of kharif crops on unirrigated lands bad and of the rabi crops on irrigated lands good. Very little yield expected. Condition of cattle good. State of public health generally good. Rain badly wanted. Grain is getting scarce and there is scarcity of drinking water in some portions of the Fatahjang and Pindigheb tahsíls.

24.—MIANWALI DISTRICT.

The sowings of rabi crops were in progress during the month under report. The condition of kharif crops was poor in most places. The expected outturn has been much below the average. Fodder procurable. Cattle in fair condition. Public health generally good. No Government canal in this district.

25.—LYALLPUR DISTRICT.

No rain. Sowings of wheat, gram, barley and methra in progress. Owing to short water-supply in canal sowings are being delayed and are late in several places. Fair outturn of sugarcane expected. Outturn of jowar and maize below average. Cotton in fair condition and its outturn is average Cattle in good condition; green fodder scarce. Other fodder plentiful. Complaints of short water-supply from Rajbahas Khewra, Mungi, Bhangu, Tandliánwála especially and general complaints in other places. Damage to toria from short water-supply reported from various parts of Samundri tahsíl. Price of barley has gone up 2½ annas. Prices of other staples are unchanged. Cotton has opened at Rs. 6-6-0 per maund.

26.—JHANG DISTRICT.

No rain. Rabi crops are being sown. Want of rain is felt. Condition of crops fair. Kharif crops harvested. Yield of cotton good and that of "mash" below average. The outturn of other crops is generally average. Condition of cattle fair. Fodder is insufficient. Canals are working. Complaint of insufficiency of water in villages on the tail of the Chenab Canal in tahsíl Shorkot. The breakage of the canal near Kot Khudáyár bungalow damaged a portion of the neighbouring crops. Water was insufficient in the rivers.

27.—MULTAN DISTRICT.

Wheat, turnip and methra being sown. Condition of crops below average, both on irrigated and unirrigated area. Yield of kharif below average. Inundation canals and the Sidhnai are dry.

28.—MUZAFFARGARH DISTRICT.

Wheat and barley sown during the month. Condition of sugarcane and cotton crops poor in Alípur tahsíl as sufficient canal water could not be had when required. The yield of cotton and sugarcane is much below the average in Alípur tahsíl ; in Sinánwán and Muzaffargarh average. No disease among cattle. Condition of public health good. With the exception of Maggason in Sinánwán tahsíl all the canals are dry. No inundations. Fodder insufficient. Prices of food-grains are high.

29.—DERA GHAZI KHAN DISTRICT.

Sowings of rabi crops were in progress throughout the month. Crops are in fair condition and are promising. Condition of cattle fair. The state of public health good.

P. A. GABRIEL, SUPDT.,

SANITARY COMMISSIONER'S OFFICE,
LAHORE:
The 17th December 1907.

KASHI RAM, SUPDT.,
for *Sanitary Commissioner, Punjab.*

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 7th December 1907 there were 1,404 births registered in the 43 large municipal towns (746 males and 658 females), giving a birth rate of 50 *per mille* of population, and 1,306 deaths were registered (692 males and 614 females), giving a death rate of 47 *per mille* of population. The death rates registered in the four largest towns were as follows:—Delhi 56 against 73 in the corresponding week of the previous year; Lahore 42 against 48; Amritsar 59 against 48; and Multán 46 against 75. There were 15 deaths reported from plague in Palwal. Of the 61 deaths from small-pox, 14 were registered in Amritsar, 13 in Kartárpur, 11 in Batála, 9 in Ferozepore, 5 in Lahore, 4 in Siálkot, 2 each in Kasúr and Jalálpur and 1 in Lyallpur. There were 3 deaths recorded from cholera in Lahore.

Deaths reported from plague during the week ending 14th December 1907, in the districts including all municipal towns:—Hissar 38, Rohtak 13, Gurgaon 40, Delhi 4, Karnál 17, Ambála 11, Hoshiárpur 8, Jullundur 2, Ludhiána 7, Ferozepore 7, Montgomery 4, Lahore 9, Amritsar 5, Siálkot 2, Jhelum 15, Ráwalpindi 5, Jhang 1 and Lyallpur 5; Patiála State 95, Máler Kotla State 3, Jínd State 7 and Baháwalpur State 10. Total for the province 308. Total for the previous week 337. Total for the corresponding week of the previous year 1,952.

KASHI RAM, SUPDT.,

for *Sanitary Commissioner, Punjab.*

STATISTICAL.

WEATHER, HEALTH AND CROP REPORT FOR WEEK ENDING 8 A.M., TUESDAY, THE 24th DECEMBER 1907.

[Seventeen out of 29 districts are dealt with.]

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of	
					Spring.	Autumn.
1	Hissar ...	...	1. Sufficient ... 3. Good.	Wheat, 9 seers ... Bajra, 10 seers. Gram, 12 seers. Bejhar, 13 seers.	Prospects of irrigated crops good. Unirrigated not sown for want of rain excepting Sirsa and Fázilka for which rain is urgently required.	...
2	Rohtak ...	...	1. Sufficient. ... 3. Good.	Wheat, 8½ seers... Gram, 11½ seers. Jowar, 11 seers. Maize, 12 seers.	Sowings in progress on irrigated land. Condition of crops good on irrigated land.	Sugarcane pressing continues.
3	Gurgaon ...		Not	received.		
4	Delhi ...	...	1. Scarce ... 2. Canal closed.	Wheat, 8½ seers... Barley, 11 seers. Gram, 10¾ seers. Bajra, 9 seers. Jowar, 11 seers. Maize, 11½ seers.	Sowings of wheat and barley continue on well and irrigated land. Condition of standing crops average.	Outturn of cotton, sugarcane, fruit and vegetable average.

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
5	Ambála ...	...	1. Getting scarce ... 2. Ditto. 3. Good.	Wheat, 8½ to 9 seers. Gram, 11½ to 12 seers. Barley, 12 seers. Maize, 11 seers. Jowar, 11 seers. Bajra, 10 seers.	Sowings nearly finished. Condition of standing unirrigated crops bad in tahsil Kharar. Crops sown on unirrigated area injured by white ants and rats in tahsíl Naráingarh.	...
6	Jullundur ...	...	1. Decreasing ... 3. Cattle suffering from overwork.	Wheat, 9 seers ... Gram, 11 seers. Maize, 12 seers. Mash, 9 seers.	Sowings on irrigated areas in progress. Standing well crops fair; unirrigated bad.	Cotton picking and sugarcane pressing continue.
7	Ferozepore ...	...	1. Sufficient. Green fodder not available. 3. Good.	Wheat, 8 seers ... Barley, 13 seers. Gram, 12 seers. Jowar, 9 seers. Maize, 12 seers. Bajra, 9 seers.	Sowings nearly finished. Young crops still being damaged by insects and frost.	...
8	Lahore ..	...	Not received.			
9	Amritsar ...	...	1. Sufficient except in tahsíl Ajnála. Green fodder scarce. 3. Good.	Wheat, 8½ seers... Gram, 11 seers. Barley, 12 seers. Jowar, 10½ seers. Maize, 11 seers. Bajra, 10 seers.	Sowings continue. Toria (*brassica campestris*) being reaped. Condition of crops on irrigated area average.	Sugarcane being pressed.
10	Siálkot ...	...	1. Insufficient. Green fodder not procurable. Sugarcane used as fodder in tahsíl Siálkot. 3. Getting meagre by overwork and want of fodder.	Wheat, 8 seers ... Barley, 13 seers. Gram, 11 seers. Rice, 6 seers.	Sowings continue. Condition of standing crops average on irrigated and bad on unirrigated lands.	Sugarcane being pressed. Yield average on irrigated and poor on unirrigated land.
11	Gújránwála ...	...	1. Scarce ... 3. Poor.	Wheat, 8 to 10 seers. Maize, 13 seers. Gram, 13 to 14 seers. Bajra, 11 to 12 seers.	Sowings of wheat and barley on irrigated land almost finished. Condition of crops about average. Rats damaging young wheat crop.	...

No.	Reporting station.	Rain.	1. Supply of fodder. 2. Water-supply. 3. Condition of cattle.	Prices in seers per rupee.	Prospects of Spring.	Prospects of Autumn.
12	Shahpur ...	...	1. Scarce. 3. Fair.	Wheat, 8½ to 9½ seers. Barley, 13 to 15 seers. Bájra, 10 to 10½ seers. Gram, 11 to 12 seers. Jowar, 12 seers. Maize, 11 to 12 seers.	Sowings of wheat and barley continue. Standing crops in good to fair condition on irrigated area and bad on unirrigated area. Toria (*brassica campestris*) damaged by green fly in tahsil Sargodha and by rats in tahsil Bhera.	...
13	Ráwalpindi ...	...	1. Sufficient except in tahsíls Gujar Khan and Kahúta. 3. Fair.	Wheat, 8½ seers. Barley, 12½ seers. Bajra, 10½ seers. Gram, 10½ seers. Maize, 11¾ seers.	Condition average on irrigated and bad on unirrigated lands.	...
14	Miánwáli ...	...	1. Becoming scarce ... 3. Fair.	Wheat, 9 seers ... Gram, 12 seers. Barley, 14 seers. Bajra, 11 seers.	Sowings in progress in irrigated areas. Condition of standing irrigated crops average; unirrigated poor.	...
15	Lyallpur ...	...	1. Sufficient. Green fodder scarce. 2. Complaints of short water-supply are general. 3. Fair.	Wheat, 7 seers ... Gram, 12 seers. Jowar, 11½ seers. Maize, 12 seers.	Sowings continue. Condition of standing crops average. Outturn of toria (*brassica campestris*) average.	Outturn of cotton and sugarcane average, and that of maize and great millet below average.
16	Jhang ..	...	1. Insufficient ... 3. Fair.	Wheat, 9 seers ... Bajra, } 12 seers. Gram, } Jowar, } 13 seers. Maize, }	Sowings continue	...
17	Multán ...	...	1. Insufficient ...	Wheat, 9½ seers... Gram, 13 seers. Maize, 13¼ seers.	Wheat sowings continue. Condition of standing crops below average both on irrigated and unirrigated areas.	Cotton below average.

GENERAL REMARKS.

Rainfall.—*Nil.*

Prices.—Prices of food-grains are generally above scarcity rates. Prices are still rising in many districts.

Agricultural operations.—Cotton picking and sugarcane pressing in progress. Toria (*brassica campestris*) is being harvested. Wheat and barley sowings on irrigated lands have almost finished in Gujránwála, and nearly finished in Ambála and Ferozepore.

Crops and outturn.—Condition and prospects of standing irrigated crops good to average; of unirrigated bad. Outturn of irrigated autumn crops average to below average, and that of unirrigated poor.

Damage done to crops.—Rats are damaging young spring crops in Ambála, Gujránwála and Shahpur. The crops have also been damaged by insect and white-ants in Ambála and Ferozepore. Frost has also injured the crops in Ferozepore. Toria (*brassica campestris*) has been damaged by green fly in Shahpur.

Agricultural stock.—Cattle suffering from overwork and scarcity of fodder in Jullundur and Siálkot.

Pasturage.—Fodder scarce in Delhi, Ambála Siálkot, Gujránwála, Shahpur, Miánwáli, Jhang, and in parts of Amritsar and Ráwalpindi. Green fodder not available in Ferozepore, Amritsar, Siálkot and Lyallpur. Supply of fodder decreasing in Jullundur.

Water-supply.—Complaints of shortage of canal water reported from Lyallpur. Water-supply decreasing in Ambála.

TULSI DAS,

for *Director of Agriculture, Punjab.*

NOTE.—The birth and death rates of the above towns are calculated on the basis of the population enumerated in the Census of 1901.

SANITARY COMMISSIONER'S OFFICE,
LAHORE :
The 24th December 1907.

WILLIAM H. MILLS, Offg. Supdt.,
for Sanitary Commissioner, Punjab.

REMARKS BY THE SANITARY COMMISSIONER, PUNJAB.

DURING the week ending 14th December 1907 there were 1,399 births registered in the 42 large municipal towns (724 males and 675 females), giving a birth rate of 51 *per mille* of population, and 1,434 deaths were registered (720 males and 714 females), giving a death rate of 52 ***per mille*** of population. The death rates registered in the four largest towns were as follows:—Delhi 65 against 58 in the corresponding week of the previous year; Lahore 50 against 51; Amritsar 57 against 42; and Multán 52 against 75. There were 17 deaths reported from plague in Palwal and in 1 Sirsa. Of the 79 deaths from small-pox, 22 were registered in Amritsar, 18 in Batála, 12 in Lahore, 11 in Ferozepore, 4 each in Kasúr and Jalálpur, 3 in Bhera, 2 in Kartárpur, and 1 each in Bhiwáni, Jhajjar and Jagraon.

Deaths reported from plague during the week ending 21st December 1907, in the districts including all municipal towns:— Hissar 20, Rohtak 56, Gurgaon 45, Karnál 40, Ambála 3, Hoshiárpur 8, Ludhiana 5, Ferozepore 8, Montgomery 10, Lahore 8, Amritsar 4, Gurdáspur 4, Jhelum 33, and Lyallpur 12; Patiála State 23, Jínd State 1, and Bahàwalpur State 8. Total for the province 283. Total for the previous week 308. Total for the corresponding week of the previous year 2,336.

WILLIAM H. MILLS, OFFG. SUPDT.,
for *Sanitary Commissioner, Punjab.*
